Copyright

The Competency Standards for Social Media Marketing and Content Moderation serve as a foundational document for the development of curricula, teaching materials, and assessment tools specifically tailored for the ICT sector. This document ensures that training activities align with industry requirements, enabling individuals who successfully meet the established standards through assessment to become qualified professionals in relevant roles within the sector.

Developed under the Skills for Industry Competitiveness and Innovation Program (SICIP), this document addresses the skills requirements critical for Digital. It is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutes may use the information contained in this competency standard for training activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

INTRODUCTION

The Skills for Industry Competitiveness and Innovation Program (SICIP) has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The Competency Standard also suggests integration of YouTube or similar digital platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution and relevant consultants of SICIP.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity
- Guide the assessor in determining whether the candidate is competent.

Identification and validation of units of competency and elements for each occupation were made by experts from various companies in industry consultative workshops.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:**Generic Competencies (20 hrs.)**

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-ICT-SMCM-01-G	Demonstrate Interpersonal and Communication Skills	1 Apply interpersonal skills at the workplace 2 Understand and communicate information and ideas 3 Prepare and present reports and workplace documents	10
SICIP-ICT-SMCM-02-G	Support Innovation and Manage Change	1 Identify needs for innovation in the workplace 2 Apply creative approach and solution 3 Support flexible and innovative ways of working 4 Adapt to emerging technological changes and opportunities	10
Total Hour			20 Hrs.

Sector Specific Competencies (20 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-ICT-SMCM-01-S	Comply with Ethical Standards in IT Workplace	1. Uphold the requirements of clients 2. Deliver quality products and services 3. Maintain professionalism at workplace 4. Maintain workplace code of conduct	20
Total Hour			20 Hrs.

Occupation Specific Competencies (180 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP-ICT-SMCM-01-O	Interpret Social Media Marketing and AI Concepts	1. Interpret social media marketing concepts and terms 2. Identify social media platforms and features 3. Describe audience behavior and user journey 4. Interpret AI applications in social media 5. Analyze trends and platform algorithms	20
SICIP-ICT-SMCM-02-O	Develop AI-Driven Social Media Strategy	1. Define business goals and objectives 2. Conduct AI-assisted audience analysis 3. Analyze competitors and market trends 4. Select platforms and channels 5. Develop data-driven strategy	15
SICIP-ICT-SMCM-03-O	Create and Optimize Social Media Presence	1. Create and configure social media accounts 2. Apply brand identity and guidelines 3. Optimize profiles using AI tools 4. Integrate tools and platform features 5. Audit and improve presence	25
SICIP-ICT-SMCM-04-O	Plan and Create AI-Enhanced Content	1. Generate content ideas using AI 2. Develop content calendar and campaigns 3. Create text, visual, and video content 4. Apply content writing and storytelling techniques 5. Use AI tools for content creation and enhancement	45
SICIP-ICT-SMCM-05-O	Design and Manage Paid	1. Define campaign objectives and KPIs	35

	Social Media Campaigns	2. Configure audience targeting 3. Plan budget and bidding strategy 4. Develop ad creatives 5. Set up and manage campaigns	
SICIP-ICT-SMCM-06-O	Publish, Optimize, and Analyze Performance	1. Schedule and publish content 2. Optimize content and ads using AI insights 3. Apply A/B testing techniques 4. Track and analyze performance metrics 5. Prepare reports and optimize campaigns	20
SICIP-ICT-SMCM-07-O	Manage Community and Content Moderation	1. Monitor community interactions 2. Manage harmful and inappropriate content 3. Apply moderation guidelines 4. Engage with audience professionally 5. Handle complaints and crisis situations	20
Total Hour			0 Hrs.

COMPETENCY STANDARD: SOCIAL MEDIA MARKETING AND CONTENT MODERATION

The Generic Competencies

Unit of Competency: DEMONSTRATE INTERPERSONAL AND COMMUNICATION SKILLS	Nominal Duration: 10 hrs.	Unit Code: SICIP-ICT-SMCM-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitude required to demonstrate interpersonal and communication skills. It specifically includes the tasks of applying interpersonal skills at the workplace, understanding and communicating information and ideas, preparing and presenting reports and workplace documents.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Apply interpersonal skills at the workplace	1.1 <u>Workplace interpersonal skills</u> are interpreted. 1.2 The impacts of interpersonal skills are described. 1.3 Interpersonal skills are performed in accordance with workplace procedures. 1.4 <u>Ways of improving interpersonal skills</u> are identified and followed.
2. Understand and communicate information and ideas	2.1 <u>Communication tools and equipment</u> are operated, and faults are identified and reported. 2.2 Consultative processes is used to collect and convey information. 2.3 Information systems is used to store, retrieve and update information. 2.4 Information data and information are analyzed and interpreted. 2.5 Information is communicated with individuals and groups.
3. Prepare and present reports and workplace documents	3.1 <u>Workplace documents</u> are interpreted. 3.2 Appropriate format for document is used to meet workplace requirements. 3.3 Document is drafted in accordance with workplace procedures. 3.4 Document is edited and presented in a final version appropriate to task.

Range of variables:

Variables	Range (may include but not limited to)
1. Interpersonal skills	1.1 Effective communication 1.2 Cooperation 1.3 Giving and receiving feedback, feed-forward and professional criticism 1.4 Pressure handling 1.5 Time management 1.6 Acceptance of diversity 1.7 Supporting and encouraging others 1.8 Inclusiveness 1.9 Problem solving 1.10 Negotiation 1.11 Conflict management
2. Ways of improving interpersonal skills	2.1 Cultivate a positive outlook 2.2 Ask trusted friends or colleagues for constructive criticism 2.3 Control emotions 2.4 Observe other positive interpersonal interactions 2.5 Practice active listening 2.6 Seek out opportunities to build relationships 2.7 Practice empathy
3. Communication tools and equipment	3.1 Telephone 3.2 Internet 3.3 Mobile Phone 3.4 Fax machines 3.5 Two-way radio
4. Workplace documents	4.1 Business Letters 4.2 Business Reports 4.3 Transactional Documents 4.4 Memos 4.5 Forms 4.5.1 Memorandum 4.5.2 Requisitioning Form 4.5.3 Personnel Form 4.6 Safety Report Form

Curricular Content Guide

1. Underpinning knowledge	1.1 Interpersonal skills 1.2 Impacts of interpersonal skills 1.3 Consultative processes 1.4 Workplace documents
2. Underpinning skill	2.1 Demonstrating interpersonal skills 2.2 Collecting workplace information 2.3 Analyzing information and ideas 2.4 Preparing workplace documents

	2.5 Presenting workplace documents
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety practices 3.2 Promptness in carrying out activities 3.3 Tidiness and timeliness 3.4 Respect to peers, sub-ordinates and seniors in workplace 3.5 Environmental concern 3.6 Sincerity and honesty
4. Resource implications	The following resources must be provided: 4.1 Workplace (actual or simulated). 4.2 Relevant materials and equipment. 4.3 Relevant specifications or work instructions.

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 applied interpersonal skills at the workplace 1.2 communicated information and ideas 1.3 prepared and presented reports and workplace documents
2. Methods of assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: SUPPORT INNOVATION AND MANAGE CHANGE	Nominal Duration: 10 hrs.	Unit Code: SICIP-ICT-SMCM-02-G
Unit Descriptor: This unit covers the knowledge, skills, and attitudes required to support innovation and manage change. It specifically includes the tasks of identifying needs for innovation in the workplace, applying creative approaches and solution, supporting flexible and innovative ways of working and adapting to emerging technological changes and opportunities.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify needs for innovation in the workplace	1.1. The need for <u>innovation</u> in scope of work is recognized 1.2. The value of <u>innovative practices</u> in the workplace is recognized 1.3. Existing way of working in the workplace are interpreted. 1.4. Drawbacks of existing way of working are identified. 1.5. Benefits of change are identified to make it consistent with organizational requirements 1.6. Realistic timelines and targets for implementation of changes are set.
2. Apply creative approach and solution	2.1. Opportunities and creative approaches to implement innovation practices are identified 2.2. Creative approaches of coworkers pertaining to work practices are analyzed and incorporated 2.3. Innovation in accordance with organizational requirements changes are implemented
3. Support flexible and innovative ways of working	3.1. Maximum innovative opportunities are promoted. 3.2. Work assignments to facilitate innovative work skills are organized. 3.3. Team members are provided with guidance and coaching on innovation in the workplace. 3.4. Models of innovative work practice are provided and discussed 3.5. Appropriate environment for learning and innovation is maintained.
4. Adapt to emerging technological changes and opportunities	4.1. Usages of different <u>technologies</u> is determined based on job requirements. 4.2. Appropriate technology is selected as per work specifications. 4.3. Relevant technology is effectively used in carrying out functions.

	4.4. Appropriate implementation tools are used as per task requirement.
--	---

Range of variables:

Variables	Range (may include but not limited to)
1. Innovative practices	1.1. Self-directed support to implement new ideas 1.2. Collaborative arrangement to apply new method of working 1.3. Making scope of work more efficient to use new technology
2. Innovation	2.1. New ideas 2.2. Different ideas 2.3. New methods of doing work 2.4. Use of new Technology
3. Technologies	3.1. Office technology 3.2. Industrial technology 3.3. System technology 3.4. Information technology 3.5. Training technology

Curricular Content Guide

1. Underpinning knowledge	1.1. Definition of innovation 1.2. Current practice in own scope of work 1.3. Workplace procedures 1.4. Support required to generate creative ideas 1.5. Difference between innovation and creativity 1.6. Common effects of change and innovation in the workplace 1.7. Industrial and organizational context of change 1.8. Organization's policies, plans, procedures and structure 1.9. Knowledge of resources required by the organization's operations 1.10. Awareness on technology and its function 1.11. Operating instructions 1.12. Applicable software 1.13. Company policy in relation to relevant technology 1.14. Technology adaptability
2. Underpinning skill	2.1. Identifying resources required for creativity and innovation 2.2. Contributing to brainstorming session 2.3. Identifying issues and concerns of one's scope of work

	2.4. Encouraging co-workers to generate and develop ideas 2.5. Evaluating potential obstacles to and opportunities for creativity and innovation 2.6. Sharing of best practices related to innovation and creativity 2.7. Applying relevant technology 2.8. Using update machine and Software 2.9. Acquiring troubleshooting skills Identifying issues 2.10. Identifying current industry standard diagnostic tools 2.11. Describing common malfunctions and resolutions. 2.12. Determining the root cause of a routine malfunction
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Eagerness to learn 3.5. Tidiness and timeliness 3.6. Environmental concerns 3.7. Respect for rights of peers and seniors at workplace 3.8. Communication with peers and seniors at workplace
4. Resource implications	The following resources must be provided: 4.1. Workplace (actual or simulated). 4.2. Relevant materials and equipment. 4.3. Relevant specifications or work instructions.

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 identified need for innovation in the area of work 1.2 applied creative approach and solution 1.3 supported flexible and innovative ways of working 1.4 adapted to emerging technological changes and opportunities
2. Methods of assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

The Sector Specific Competencies

Unit of Competency: COMPLY WITH ETHICAL STANDARDS IN IT WORKPLACE	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-SMCM-01-S
Unit Descriptor: This unit covers knowledge, skills and attitudes required to comply with ethical standards in IT workplace. It specifically includes the tasks of upholding the requirements of clients, delivering quality products and services, maintaining professionalism at workplace and maintaining workplace code of conduct.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined>** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Uphold the requirements of clients	1.1 Clients' requirements are identified. 1.2 Confidentiality of information is maintained in accordance with workplace policies/organizational policies/national legislation. 1.3 Potential conflicts of interest are identified and involved parties of potential conflicts are notified. 1.4 Proprietary rights of client/customer are asserted.
2. Deliver quality products and services	2.1. Products and services are provided according to the clients' requirements. 2.2. Work is completed as per standards. 2.3. Quality processes are implemented when developing products and services.
3. Maintain professionalism at workplace	3.1 Work processes are delivered as per standards. 3.2 Skills, knowledge and qualifications are presented in a professional manner. 3.3 Services and products developed by self and others are delivered as per workplace standard. 3.4 Unbiased and objective information are provided to the clients. 3.5 Realistic estimates for time, cost and delivery of outputs are presented during negotiation.
4. Maintain workplace code of conduct	4.1 Workplace code of conduct is interpreted. 4.2 Workplace code of conduct is followed.

Curricular Content Guide:

1. Underpinning Knowledge	1.1 Corporate code of confidentiality of information 1.2 Organizational policies, national legislation and workplace policies in relation to IT sector 1.3 Law and regulations pertaining to proprietary rights 1.4 Quality processes for products and services
---------------------------	--

	1.5 Procedure of provided to client information 1.6 Method of estimating for time, cost and delivery products and services 1.7 Workplace code of conduct in IT sector
2. Underpinning Skills	2.1 Upholding confidentiality of information in accordance with organizational policies, national legislation and workplace policies 2.2 Asserting proprietary rights of clients/customers 2.3 Completing work in accordance with industry and international standards 2.4 Implementing quality processes when developing products and services 2.5 Delivering correctly services and products developed by self and others 2.6 Providing unbiased and objective information to the clients 2.7 Presenting realistic estimates for time, cost and delivery of outputs during negotiation 2.8 Maintaining workplace code of conduct
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 National legislation in relation to IT sector 4.4 Workplace policies, code of conduct & proprietary rights of clients in IT sector 4.5 Relevant tools, equipment and facilities needed to perform the activities 4.6 Required learning materials

Assessment Evidence Guide:

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 upheld the requirements of clients/customers 1.2 asserted proprietary rights of clients/customers 1.3 delivered quality products and services 1.4 Implemented quality processes when developing products and services 1.5 maintained professionalism at the workplace 1.6 completed work according to industry and international standards
-----------------------------------	---

	1.7 maintained workplace code of conduct
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral question 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

The Occupation Specific Competencies

Unit of Competency: INTERPRET SOCIAL MEDIA MARKETING AND AI CONCEPTS	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-SMCM-01-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to interpret social media marketing and AI concepts. It specifically includes the tasks of interpreting social media marketing concepts and terms, identifying social media platforms and features, describing audience behavior and user journey, interpreting AI applications in social media and analyzing trends & platform algorithms.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret social media marketing concepts and terms	1.1 <u>Key social media marketing concepts</u> are identified. 1.2 <u>Social media marketing terminology</u> is explained according to industry use. 1.3 Platform-specific features are recognized and interpreted. 1.4 <u>AI-related terms</u> used in social media marketing are interpreted correctly.
2. Identify social media platforms and features	2.1 <u>Major social media platforms</u> are identified according to their purpose and user base. 2.2 Key features of each platform are recognized and described. 2.3 Differences between platforms are distinguished based on functionality. 2.4 <u>Platform tools and features</u> are matched with their marketing use.
3. Describe audience behavior and user journey	3.1 <u>Types of target audiences</u> are identified based on characteristics and preferences. 3.2 Audience behavior patterns across social media platforms are described. 3.3 Factors influencing user engagement and interaction are explained. 3.4 <u>Stages of the user journey</u> are identified and described. 3.5 User actions at each stage of the journey are interpreted.
4. Interpret AI applications in social media	4.1 <u>Common AI applications</u> used in social media are identified. 4.2 Functions of AI tools in content creation and scheduling are described.

	4.3 AI use in audience targeting and personalization is explained. 4.4 <u>Role of AI in analytics</u> and performance optimization is interpreted. 4.5 Ethical considerations of AI use in social media are recognized.
5. Analyze trends and platform algorithms	5.1 <u>Current social media trends</u> are identified and analyzed. 5.2 <u>Platform algorithms</u> are described in terms of content visibility and reach. 5.3 Factors influencing algorithm performance are identified. 5.4 Impact of trends on audience engagement is analyzed. 5.5 Changes in platform algorithms are monitored and interpreted.

Range of Variables

Variable	Range May include but not limited to:
1. Key social media marketing concepts	1.1 Content strategy and planning 1.2 Engagement and community building 1.3 Brand positioning and awareness 1.4 Lead generation and conversion funnel 1.5 Paid vs organic marketing
2. Social media marketing terminology	2.1 KPI, ROI, CTR, CPC, CPM 2.2 Impressions, reach, engagement rate 2.3 Hashtags, mentions, tagging 2.4 Organic traffic and paid traffic 2.5 Conversion rate, bounce rate 2.6 A/B testing
3. AI-related terms	3.1 Artificial Intelligence (AI), 3.2 Machine Learning (ML) 3.3 Natural Language Processing (NLP) 3.4 Chatbots and virtual assistants 3.5 Predictive analytics 3.6 Automation and recommendation systems 3.7 Generative AI
4. Major social media platforms	4.1 Facebook 4.2 Instagram 4.3 YouTube 4.4 TikTok 4.5 LinkedIn 4.6 Twitter (X) 4.7 Emerging or regional platforms

5. Platform tools and features	5.1 Posting tools (feed, stories, reels, shorts) 5.2 Advertising tools (ads manager, boosting) 5.3 Analytics dashboards and insights 5.4 Scheduling and publishing tools 5.5 Messaging and community management tools 5.6 Live streaming and interactive features
6. Types of target audiences	6.1 Demographic groups (age, gender, income, education) 6.2 Geographic segments (local, national, global) 6.3 Psychographic profiles (interests, lifestyle, values) 6.4 Behavioral segments (purchase behavior, engagement level) 6.5 Niche or industry-specific audiences
7. Stages of the user journey	7.1 Awareness stage 7.2 Interest stage 7.3 Consideration stage 7.4 Intent stage 7.5 Decision stage 7.6 Post-purchase stage 7.7 Loyalty stage 7.8 Advocacy stage
8. Common AI applications	8.1 Content generation (text, images, captions) 8.2 Chatbots for customer interaction 8.3 Automated posting and scheduling 8.4 Sentiment analysis 8.5 Personalization and recommendation engines 8.6 Ad targeting and optimization
9. Role of AI in analytics	9.1 Data collection and processing 9.2 Predictive analysis and trend forecasting 9.3 Performance tracking and reporting 9.4 Audience insights and segmentation 9.5 Real-time decision support 9.6 Campaign optimization
10. Current social media trends	10.1 Short-form video content 10.2 Influencer and creator economy 10.3 AI-generated content 10.4 Social commerce and live selling 10.5 Personalization and interactive content 10.6 Privacy and data protection trends
11. Platform algorithms	11.1 Content ranking and visibility rules 11.2 Engagement-based distribution 11.3 Relevance and personalization factors 11.4 Frequency and recency considerations 11.5 Use of hashtags, keywords, and metadata 11.6 Algorithm updates and changes

Curricular Content Guide

1. Underpinning Knowledge	1.1 Fundamental concepts, terminology, and principles of social media marketing. 1.2 Features, functions, and marketing uses of major social media platforms. 1.3 Differences between platforms based on audience, functionality, and content type. 1.4 Audience behavior, engagement patterns, and stages of the user journey. 1.5 Common AI applications in social media content creation, scheduling, and personalization. 1.6 Role of AI in audience targeting, analytics, and performance optimization. 1.7 Current social media trends and platform algorithm fundamentals affecting visibility and reach. 1.8 Ethical considerations, responsible AI use, and impact of algorithm changes on engagement.
2. Underpinning Skills	2.1 Applying social media marketing concepts, terms, and platform-specific features 2.2 Distinguishing platform features and tools based on functionality and user engagement 2.3 Analyzing audience behavior, preferences, and interaction patterns across platforms 2.4 Applying knowledge of AI applications in content creation, scheduling, and personalization 2.5 Understanding the role of AI in audience targeting, analytics, and performance optimization 2.6 Analyzing current social media trends and their impact on audience engagement 2.7 Monitoring and adapting to changes in social media platform algorithms.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Relevant tools 4.4 Facilities needed to perform the activities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 interpreted social media marketing concepts and terms 1.2 identified social media platforms and features 1.3 described audience behavior and user journey 1.4 interpreted AI applications in social media 1.5 analyzed trends and platform algorithms
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: DEVELOP AI-DRIVEN SOCIAL MEDIA STRATEGY	Nominal Duration: 15 hrs.	Unit Code: SICIP-ICT-SMCM-02-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to develop AI-driven social media strategy. It specifically includes the tasks of defining business goals and objectives, conducting AI-assisted audience analysis, analyzing competitors and market trends, selecting platforms and channels and developing data-driven strategy.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Define business goals and objectives	1.1 <u>Business goals</u> are identified in line with organizational needs. 1.2 <u>Marketing objectives</u> are defined based on target outcomes. 1.3 Goals are structured using <u>measurable indicators</u> . 1.4 Alignment between business goals and social media strategy is established. 1.5 Objectives are prioritized according to available resources and timelines.
2. Conduct AI-assisted audience analysis	2.1 <u>Audience data</u> is collected using AI tools and analytics platforms. 2.2 <u>Audience segments</u> are identified. 2.3 AI-generated insights are analyzed to understand audience preferences. 2.4 Patterns and trends in audience behavior are interpreted using AI outputs. 2.5 Findings are documented to support strategy development.
3. Analyze competitors and market trends	3.1 Key competitors are identified within the relevant niche. 3.2 <u>Competitor strategies</u> and content approaches are analyzed. 3.3 <u>Market trends and emerging patterns</u> are identified. 3.4 Strengths and weaknesses of competitors are evaluated. 3.5 Insights are interpreted to inform strategic decision-making.
4. Select platforms and channels	4.1 Platform features and capabilities are evaluated for marketing suitability. 4.2 <u>Appropriate channels</u> are selected in alignment with

	business objectives. 4.3 <u>Content formats</u> and distribution options are matched with selected platforms. 4.4 Platform selection is justified based on data and strategic priorities.
5. Develop data-driven strategy	5.1 Relevant data sources are identified and collected to support strategy development. 5.2 <u>Data insights</u> are analyzed to inform content, targeting, and timing decisions. 5.3 Strategic actions are developed based on evidence and performance indicators. 5.4 <u>Key performance indicators (KPIs)</u> are defined to measure strategy effectiveness. 5.5 Strategy is documented and aligned with business goals and objectives.

Range of Variables

Variable	Range May include but not limited to:
1. Business goals	1.1 Brand awareness and visibility 1.2 Revenue growth and sales targets 1.3 Market expansion or penetration 1.4 Customer acquisition and retention 1.5 Product or service promotion 1.6 Customer satisfaction and loyalty
2. Marketing objectives	2.1 Increasing engagement (likes, shares, comments) 2.2 Generating leads or conversions 2.3 Driving website traffic 2.4 Improving brand positioning 2.5 Enhancing customer interaction
3. Measurable indicators	3.1 Engagement (likes, comments, shares) 3.2 Reach and impressions 3.3 Clicks and traffic 3.4 Conversions (leads, sales) 3.5 Cost metrics (CPC, CPA, ROI) 3.6 Content performance (views, watch time)
4. Audience data	4.1 Demographic data (age, gender, income, education) 4.2 Geographic data (location, region, country) 4.3 Psychographic data (interests, values, lifestyle) 4.4 Behavioral data (online activity, purchase history) 4.5 Device and platform usage data
5. Audience segments	5.1 New vs returning users 5.2 High-value and low-value customers 5.3 Interest-based segments 5.4 Location-based segments

	5.5 Custom and lookalike audiences 5.6 Niche or industry-specific groups
6. Competitor strategies	6.1 Content types and posting frequency 6.2 Engagement tactics and campaigns 6.3 Paid advertising approaches 6.4 Influencer collaborations 6.5 Brand positioning and messaging 6.6 Strengths and weaknesses analysis
7. Market trends and emerging patterns	7.1 Changes in user behavior and preferences 7.2 Adoption of new technologies (e.g., AI tools) 7.3 Popular content formats (e.g., short videos) 7.4 Industry-specific trends 7.5 Seasonal and cultural trends 7.6 Platform feature updates
8. Appropriate channels	8.1 Social media platforms (e.g., Facebook, Instagram, LinkedIn) 8.2 Video platforms (e.g., YouTube, TikTok) 8.3 Messaging platforms (e.g., WhatsApp, Messenger)
9. Content formats	9.1 Text posts 9.2 Images and infographics 9.3 Short-form and long-form videos 9.4 Stories and live streams 9.5 Reels, shorts, and interactive posts 9.6 User-generated content
10. Data insights	10.1 Engagement metrics and trends 10.2 Audience growth and reach analysis 10.3 Conversion and click-through data 10.4 Content performance comparison 10.5 Behavioral patterns and preferences 10.6 Feedback and sentiment analysis
11. Key performance indicators (KPIs)	11.1 Reach and impressions 11.2 Engagement rate 11.3 Click-through rate (CTR) 11.4 Conversion rate 11.5 Cost per click (CPC) and cost per acquisition (CPA) 11.6 Return on investment (ROI)

Curricular Content Guide

1. Underpinning Knowledge	1.1 Principles of defining business goals and measurable marketing objectives. 1.2 Alignment of social media strategies with organizational priorities, resources, and timelines.
---------------------------	--

	1.3 Use of AI tools and analytics platforms for audience data collection and segmentation. 1.4 Techniques for analyzing audience behavior, preferences, and engagement patterns using AI insights. 1.5 Methods for competitor analysis, market trend monitoring, and strategic evaluation. 1.6 Criteria for selecting suitable social media platforms, channels, and content formats. 1.7 Fundamentals of data-driven decision-making in content, targeting, and campaign planning. 1.8 Key performance indicators (KPIs), performance measurement, and strategy documentation practices.
2. Underpinning Skills	2.1 Defining business goals and marketing objectives aligned with organizational needs 2.2 Applying measurable indicators to structure and prioritize marketing objectives 2.3 Aligning social media strategies with business goals, resources, and timelines 2.4 Using AI tools and analytics platforms to collect and analyze audience data 2.5 Analyzing competitor strategies, content approaches, and market trends 2.6 Evaluating competitor strengths and weaknesses to support strategic decisions 2.7 Matching content formats and distribution methods with platform capabilities 2.8 Using data-driven insights to develop content, targeting, and timing strategies
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Multimedia 4.4 Tools (content writing, graphic design, video creation) 4.5 Required learning materials 4.6 Specifications and work instructions

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 defined business goals and objectives 1.2 conducted AI-assisted audience analysis 1.3 analyzed competitors and market trends 1.4 selected platforms and channels 1.5 developed data-driven strategy
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: CREATE AND OPTIMIZE SOCIAL MEDIA PRESENCE	Nominal Duration: 25 hrs.	Unit Code: SICIP-ICT-SMCM-03-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to create and optimize social media presence. It specifically includes the tasks of creating and configuring social media accounts, applying brand identity and guidelines, optimizing profiles using AI tools, integrating tools and platform features, auditing and improving presence.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Create and configure social media accounts	1.1 <u>Social media accounts</u> are created according to platform requirements. 1.2 Account information is completed with accurate business details. 1.3 <u>Profile elements</u> are configured appropriately. 1.4 Privacy, security, and access settings are applied as required. 1.5 Account settings are optimized for business and marketing purposes.
2. Apply brand identity and guidelines	2.1 <u>Brand identity elements</u> are identified in accordance with organizational guidelines. 2.2 <u>Visual components</u> are applied consistently across platforms. 2.3 Brand voice and tone are reflected in profile and content elements. 2.4 <u>Content style</u> is aligned with established brand guidelines. 2.5 Consistency of brand presentation is maintained across all social media channels.
3. Optimize profiles using AI tools	3.1 AI tools are selected for profile optimization tasks. 3.2 <u>Profile content</u> is optimized using AI recommendations. 3.3 Hashtags and keywords are generated and applied based on AI insights. 3.4 Profile performance data is analyzed using AI-driven analytics tools. 3.5 Improvements are implemented based on AI-generated suggestions.
4. Integrate tools and platform features	4.1 Relevant tools and platform features are identified for integration. 4.2 <u>Third-party tools</u> and applications are connected to

	social media accounts. 4.3 <u>Platform features</u> are configured for use. 4.4 Integration settings are tested to ensure proper functionality. 4.5 Integrated tools are utilized to support content management and performance tracking.
5. Audit and improve presence	5.1 Current social media profiles and content are reviewed against defined standards. 5.2 <u>Performance metrics</u> are analyzed. 5.3 Gaps and areas for improvement are identified. 5.4 Corrective actions are implemented to enhance profile effectiveness. 5.5 Continuous improvements are monitored and updated based on performance data.

Range of Variables

Variable	Range May include but not limited to:
1. Social media accounts	1.1 Facebook Page or Profile 1.2 Instagram Business or Creator Account 1.3 YouTube Channel 1.4 LinkedIn Page or Profile 1.5 TikTok Business or Creator Account 1.6 Twitter (X) Account
2. Profile elements	2.1 Username 2.2 Bio / description 2.3 Profile picture 2.4 Cover photo/Banner 2.5 Profile category or business category 2.6 Contact information 2.7 Links and call-to-action
3. Brand identity elements	3.1 Brand name and logo 3.2 Color palette 3.3 Typography (fonts) 3.4 Tagline or slogan 3.5 Tone and voice
4. Visual components	4.1 Images and graphics 4.2 Brand colors and fonts 4.3 Layout and design consistency
5. Content style	5.1 Tone and voice 5.2 Formal or informal approach 5.3 Informative, promotional, or engaging style
6. Profile content	6.1 Posts and captions

	6.2 Stories 6.3 Reels 6.4 Videos 6.5 Highlights and pinned content
7. Third-party tools	7.1 Scheduling tools 7.2 Analytics tools 7.3 Design and content creation tools
8. Platform features	8.1 Posting options (feed, story, live) 8.2 Messaging and comments 8.3 Ads and promotion tools
9. Performance metrics	9.1 Engagement rate 9.2 Reach and impressions 9.3 Clicks and conversions

Curricular Content Guide

1. Underpinning Knowledge	1.1 Procedures and requirements for creating and configuring social media business accounts. 1.2 Principles of profile setup, privacy, security, and access management. 1.3 Brand identity elements including logos, colors, tone, and content style guidelines. 1.4 Techniques for maintaining consistent brand presentation across multiple platforms. 1.5 Use of AI tools for profile optimization, keyword generation, and performance improvement. 1.6 Fundamentals of social media performance analysis and profile auditing. 1.7 Methods for identifying improvement areas and applying continuous optimization strategies.
2. Underpinning Skills	2.1 Creating and configuring social media accounts according to platform requirements 2.2 Applying accurate business information, profile settings, and security configurations 2.3 Applying brand identity, visual elements, and communication tone consistently across platforms 2.4 Analyzing profile performance using AI-driven analytics and implementing improvements 2.5 Integrating third-party tools and platform features for content management and tracking 2.6 Testing integration settings to ensure proper functionality and usability 2.7 Auditing social media profiles and content against defined standards 2.8 Analyzing performance metrics to identify gaps and improvement opportunities
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities

	3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Specifications and work instructions 4.4 Learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 created and configured social media accounts 1.2 applied brand identity and guidelines 1.3 optimized profiles using AI tools 1.4 integrated tools and platform features 1.5 audited and improved presence
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PLAN AND CREATE AI-ENHANCED CONTENT	Nominal Duration: 45 hrs.	Unit Code: SICIP-ICT-SMCM-04-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to plan and create AI-enhanced content. It specifically includes the tasks of generating content ideas using AI, developing content calendar and campaigns, creating text, visual and video content, applying content writing and storytelling techniques and using AI tools for content creation and enhancement.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Generate content ideas using AI	1.1 <u>AI tools</u> are identified for content idea generation. 1.2 Relevant prompts are developed to generate content ideas. 1.3 AI-generated ideas are reviewed for relevance and quality. 1.4 Content ideas are aligned with target audience and objectives. 1.5 Selected ideas are documented for content planning and creation.
2. Develop content calendar and campaigns	2.1 Content schedules are developed based on marketing objectives and audience behavior. 2.2 Campaign themes and timelines are defined in alignment with strategy. 2.3 <u>Content types</u> and formats are planned for each campaign. 2.4 Posting frequency and timing are developed based on data insights. 2.5 <u>Content calendar</u> is documented and aligned with overall marketing plan.
3. Create text, visual, and video content	3.1 Content types are identified based on platform requirements. 3.2 Text content is created following brand voice and messaging guidelines. 3.3 Visual and video content are developed using appropriate tools and techniques. 3.4 Content quality is ensured in terms of clarity, creativity, and relevance. 3.5 Created content is reviewed and refined before publishing.
4. Apply content writing and storytelling techniques	4.1 <u>Content writing techniques</u> are applied to ensure clarity and engagement. 4.2 <u>Storytelling elements</u> are incorporated into content. 4.3 Messages are structured to capture attention and

	maintain audience interest. 4.4 Content is adapted to suit platform-specific formats and audiences. 4.5 Effectiveness of storytelling is reviewed and refined based on feedback and performance.
5. Use AI tools for content creation and enhancement	5.1 AI tools are selected based on content requirements and objectives. 5.2 Content is generated using AI tools with appropriate prompts and inputs. 5.3 AI-generated content is reviewed and edited for accuracy and relevance. 5.4 Enhancements are applied using AI features. 5.5 Final content is optimized and prepared for publishing.

Range of Variables

Variable	Range May include but not limited to:
1. AI tools	1.1 Content generation tools 1.2 Image and video creation tools 1.3 Chatbots and automation tools 1.4 Analytics and optimization tools
2. Content types	2.1 Text 2.2 Images 2.3 Infographics 2.4 Short-form videos 2.5 Long-form videos 2.6 Stories 2.7 Live streams 2.8 User-generated content
3. Content calendar	3.1 Posting schedule (daily, weekly, monthly) 3.2 Platform-wise planning 3.3 Campaign timelines
4. Content writing techniques	4.1 Clear and concise writing 4.2 Strong hook 4.3 Use of keywords and hashtags 4.4 Call-to-action (CTA) 4.5 Audience-focused messaging
5. Storytelling elements	5.1 Hook or attention grabber 5.2 Main message or narrative 5.3 Emotional appeal 5.4 Call-to-action (CTA)

Curricular Content Guide

1. Underpinning Knowledge	1.1 Principles of AI-assisted content idea generation and
---------------------------	---

	prompt development. 1.2 Content planning concepts including content calendars, campaigns, and posting schedules. 1.3 Different types of social media content and platform-specific content requirements. 1.4 Fundamentals of content writing, brand messaging, and audience-focused communication. 1.5 Storytelling techniques used to increase engagement and audience interest. 1.6 Use of design and video creation tools for developing visual and multimedia content. 1.7 Methods for reviewing, editing, and refining content for quality, accuracy, and relevance.
2 Underpinning Skills	2.1 Using AI tools to generate relevant and creative content ideas 2.2 Developing effective prompts to produce audience-focused content concepts 2.3 Planning content calendars and campaigns aligned with strategy and audience behavior 2.4 Organizing posting schedules, campaign themes, and content formats effectively 2.5 Creating text, visual, and video content suitable for different social media platforms 2.6 Structuring content to capture audience attention and increase engagement 2.7 Adapting content formats to meet platform-specific requirements and audience needs 2.8 Reviewing and refining AI-generated content to ensure accuracy, clarity, and relevance
3 Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in workplace 3.8 Good relationships with peers, sub-ordinates and seniors in workplace
4 Resource Implications	The Following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Job specifications and work instructions 4.4 Relevant tools, equipment and facilities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 generated content ideas using AI 1.2 developed content calendar and campaigns 1.3 created text, visual, and video content 1.4 applied content writing and storytelling techniques 1.5 used AI tools for content creation and enhancement
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: DESIGN AND MANAGE PAID SOCIAL MEDIA CAMPAIGNS	Nominal Duration: 35 hrs.	Unit Code: SICIP-ICT-SMCM-05-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to design and manage paid social media campaigns. It specifically includes the tasks of defining campaign objectives and KPIs, configuring audience targeting, planning budget and bidding strategy, developing ad creatives and setting up & managing campaigns.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Define campaign objectives and KPIs	1.1 <u>Campaign goals and objectives</u> are identified based on business needs and target audience. 1.2 Marketing funnel stages are defined in line with campaign objectives. 1.3 <u>Key Performance Indicators (KPIs)</u> are interpreted and interpreted for each funnel stage. 1.4 Target audience segments are identified with campaign objectives and funnel stages.
2. Configure audience targeting	2.1 <u>Target audience characteristics</u> are identified based on campaign objectives. 2.2 Audience segments are defined using platform-specific targeting options. 2.3 Custom and lookalike audiences are created where applicable. 2.4 Geographic, language, and device targeting settings are configured appropriately.
3. Plan budget and bidding strategy	3.1 <u>Campaign budget</u> is determined based on objectives and available resources. 3.2 Budget allocation is distributed across campaigns, ad sets, and ad. 3.3 Cost estimates and expected outcomes are analyzed before finalizing the budget. 3.4 Budget limits and bid controls are set within the <u>advertising platform</u> .
4. Develop ad creatives	4.1 Branding guidelines and platform policies are followed in all creatives. 4.2 Ad content is developed in line with campaign objectives and target audience. 4.3 Visual elements are created or selected to drive engagement.

	4.4 Ad copy is written clearly with a strong call-to-action (CTA). 4.5 Multiple creative variations are prepared for testing and optimization. 4.6 Ad creatives are reviewed and finalized before campaign deployment.
5. Set up and manage campaigns	5.1 Campaign structure is configured in the selected platform. 5.2 Targeting, budget, schedule, and placements are set according to the plan. 5.3 Campaigns are launched and monitored regularly for performance. 5.4 Performance data is analyzed and necessary adjustments are made. 5.5 Campaign results are documented and reported for future improvement.

Range of Variables

Variable	Range May include but not limited to:
1. Campaign goals and objectives	1.1 Brand awareness 1.2 Audience reach and growth 1.3 Engagement rate improvement 1.4 Content visibility 1.5 Lead generation 1.6 Website traffic increase 1.7 App promotion 1.8 Sales
2. Key Performance Indicators (KPIs)	2.1 Reach 2.2 Impressions 2.3 Engagement 2.4 Conversion 2.5 Video views
3. Target audience characteristics	3.1 Age group 3.2 Gender 3.3 Location 3.4 Interests 3.5 Platform preference 3.6 Buying behavior 3.7 Values and lifestyle
4. Campaign budget	4.1 Daily 4.2 Lifetime
5. Advertising platform	5.1 Meta Ads manager 5.2 Google ads 5.3 LinkedIn campaign manager 5.4 TikTok ads manager

Curricular Content Guide

1. Underpinning Knowledge	1.1 Principles of campaign planning, business goals, and marketing funnel stages. 1.2 Understanding of Key Performance Indicators (KPIs) and campaign measurement methods. 1.3 Audience targeting concepts including segmentation, custom audiences, and lookalike audiences. 1.4 Platform-based targeting options such as geographic, language, and device targeting. 1.5 Fundamentals of campaign budgeting, bid strategies, and cost estimation. 1.6 Campaign setup, scheduling, placement selection, and performance monitoring processes. 1.7 Methods for analyzing campaign data, optimizing performance, and reporting results.
2. Underpinning Skills	2.1 Defining campaign objectives and KPIs based on business goals and target audience 2.2 Configuring audience targeting using platform-specific options and settings 2.3 Creating custom and lookalike audiences for targeted advertising campaigns 2.4 Applying geographic, language, and device targeting to improve campaign reach 2.5 Analyzing cost estimates and expected outcomes before budget finalization 2.6 Developing ad creatives aligned with branding guidelines and platform policies 2.7 Preparing multiple creative variations for testing and optimization 2.8 Setting up, launching, and monitoring campaigns using selected advertising platforms
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual)

	4.2 Computer/laptop 4.3 Learning materials 4.4 Specifications and work instructions 4.5 Relevant tools, equipment and facilities
--	---

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 defined campaign objectives and KPIs 1.2 configured audience targeting 1.3 planned budget and bidding strategy 1.4 developed ad creatives 1.5 set up and managed campaigns
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PUBLISH, OPTIMIZE, AND ANALYZE PERFORMANCE	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-SMCM-06-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to publish, optimize and analyze performance. It specifically includes the scheduling and publishing content, optimizing content and ads using AI insights, applying content and ads using AI insights, applying A/B testing techniques, tracking and analyzing performance metrics and preparing reports and optimizing campaigns.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Schedule and publish content	1.1 Content calendar is prepared based on campaign goals and local audience behavior. 1.2 Appropriate platforms are selected for publishing. 1.3 Posts are scheduled using <u>digital tools</u> at optimal engagement times. 1.4 Content formats are aligned with platform requirements. 1.5 Published content is checked for accuracy, branding, and compliance. 1.6 Real-time posting adjustments are made when required.
2. Optimize content and ads using AI insights	2.1 AI tools are used to analyze audience preferences and trends. 2.2 Content captions, hashtags, and visuals are refined using AI suggestions. 2.3 Low-performing content is identified and improved. 2.4 Engagement strategies are adjusted using predictive recommendations. 2.5 Ad targeting parameters are optimized based on AI-driven insights. 2.6 Budget allocation is refined for better Return on Investment (ROI).
3. Apply A/B testing techniques	3.1 Different versions of content or ads are created for testing. 3.2 Key variables are clearly defined. 3.3 A/B tests are conducted on selected audience segments. 3.4 Performance data is collected and compared accurately. 3.5 Winning variations are identified based on results.

	3.6 Findings are applied to improve future campaigns.
4. Track and analyze performance metrics	4.1 Key metrics are identified. 4.2 <u>Analytics tools</u> are used to monitor campaign performance. 4.3 Data is interpreted to understand audience behavior. 4.4 Trends and patterns are identified from performance data. 4.5 Underperforming areas are highlighted for improvement. 4.6 Insights are documented for decision-making.
5. Prepare reports and optimize campaigns	5.1 Performance reports are prepared using clear formats and visuals. 5.2 Key findings and insights are summarized effectively. 5.3 Recommendations are provided for campaign improvement. 5.4 Reports are shared with relevant stakeholders on time. 5.5 Campaign strategies are adjusted based on report findings. 5.6 Continuous improvement is ensured through iterative optimization.

Range of Variables

Variable	Range May include but not limited to:
1. Digital tools	1.1 Hootsuite 1.2 Buffer 1.3 Meta Business Suite 1.4 Later 1.5 Sprout Social
2. Analytics tools	2.1 Meta business suite insights 2.2 YouTube Analytics 2.3 LinkedIn Analytics 2.4 Google Analytics 2.5 Meta Ads Manager

Curricular Content Guide

1. Underpinning Knowledge	1.1 Understanding audience behavior and optimal engagement timing for social media posts. 1.2 Techniques for refining captions, hashtags, visuals, targeting, and budget allocation using AI insights. 1.3 Fundamentals of A/B testing, variable selection, and performance comparison methods. 1.4 Key social media metrics, analytics tools, and
---------------------------	---

	campaign performance tracking techniques. 1.5 Methods for interpreting performance data, identifying trends, and improving low-performing areas. 1.6 Principles of report preparation, data visualization, campaign evaluation, and continuous optimization.
2. Underpinning Skills	2.1 Scheduling and publishing content based on campaign goals and audience behavior 2.2 Using digital tools to schedule posts at optimal engagement times 2.3 Applying AI insights to optimize captions, hashtags, visuals, and audience targeting 2.4 Improving low-performing content and refining engagement strategies using AI recommendations 2.5 Optimizing ad targeting and budget allocation to improve campaign ROI 2.6 Applying A/B testing techniques to compare content and advertising variations 2.7 Tracking campaign performance using analytics tools and key metrics 2.8 Preparing performance reports with clear summaries, visuals, and recommendations
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Specifications and work instructions 4.4 Relevant tools, equipment and facilities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 scheduled and published content
-----------------------------------	--

	1.2 optimized content and ads using AI insights 1.3 applied A/B testing techniques 1.4 tracked and analyzed performance metrics 1.5 prepared reports and optimized campaigns
2. Methods of Assessment	Methods of assessment may include but is not limited to: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: MANAGE COMMUNITY AND CONTENT MODERATION	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-SMCM-07-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to manage community and content moderation. It specifically includes the tasks of monitoring community interactions, managing harmful and inappropriate content, applying moderation guidelines, engaging with audience professionally and handling complaints and crisis situations.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Monitor community interactions	1.1 User comments, messages, and posts are reviewed in a timely manner. 1.2 Trends, patterns, and emerging issues are identified. 1.3 Engagement metrics are tracked and recorded. 1.4 Potential risks or conflicts are flagged for action. 1.5 Community platforms are regularly monitored for user activity and engagement.
2. Manage harmful and inappropriate content	2.1 <u>Harmful, abusive, or inappropriate content</u> is identified. 2.2 Users posting harmful content are managed appropriately. 2.3 Escalation procedures are followed for avoiding violations. 2.4 Records of incidents and actions taken are maintained.
3. Apply moderation guidelines	3.1 Relevant organizational moderation policies and procedures are identified and understood. 3.2 Platform-specific policies and community guidelines are reviewed and followed. 3.3 Applicable ICT laws and regulations related to content moderation are recognized. 3.4 Moderation decisions are made in compliance with legal and organizational requirements. 3.5 Actions are applied consistently, ensuring fairness and transparency. 3.6 Updates or changes in policies and regulations are monitored and incorporated into practice.
4. Engage with audience professionally	4.1 Responses to users are clear, respectful, and timely. 4.2 Appropriate tone and language are used in all communications.

	4.3 User queries and feedback are addressed effectively. 4.4 Positive engagement and community participation are encouraged. 4.5 Difficult interactions are handled calmly and professionally.
5. Handle complaints and crisis situations	5.1 Complaints are acknowledged and responded to promptly. 5.2 Issues are investigated and resolved following procedures. 5.3 Critical situations are escalated to relevant authorities. 5.4 Clear and accurate information is communicated during crises. 5.5 Actions taken are documented and reviewed for improvement.

Range of Variables

Variable	Range
	May include but not limited to:
1. Harmful, Abusive and Inappropriate content	1.1 Hate, Discrimination, and Offensive Content 1.2 Harassment, Bullying, and Trolling 1.3 Violence, Threats, and Dangerous Content 1.4 Self-harm or Suicide-related Content 1.5 Misinformation, Fake News, and Clickbait 1.6 Fraud, Scams, and Impersonation 1.7 Privacy Violations and Exploitation

Curricular Content Guide

1. Underpinning Knowledge	1.1 Methods for monitoring user interactions, engagement metrics, and emerging issues. 1.2 Identification and handling of harmful, abusive, or inappropriate online content. 1.3 Organizational moderation policies, platform guidelines, and relevant ICT laws. 1.4 Principles of fair, transparent, and consistent moderation practices. 1.5 Professional communication techniques for responding. 1.6 Complaint handling, conflict resolution, and crisis communication procedures. 1.7 Importance of documentation, incident reporting, and continuous review.
2. Underpinning Skills	2.1 Monitoring community interactions, user activities, and engagement trends regularly 2.2 Tracking and recording engagement metrics for

	performance monitoring 2.3 Following escalation procedures and maintaining records of moderation actions 2.4 Applying organizational moderation policies, platform guidelines, and ICT regulations 2.5 Responding to users professionally with clear, respectful, and timely communication 2.6 Encouraging positive engagement and effective community participation 2.7 Managing complaints and crisis situations according to organizational procedures
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Specifications and work instructions 4.4 Relevant tools, equipment and facilities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 monitored community interactions 1.2 managed harmful and inappropriate content 1.3 applied moderation guidelines 1.4 engaged with audience professionally 1.5 handled complaints and crisis situations
2. Methods of Assessment	Methods of assessment may include but is not limited to: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified

	assessor or occupation-specific industry expert.

13.	Computer Chairs	25
14.	Trainer Table and Chair	02

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency

standards (CS) provided by SICIP.

For the operation of training course on Social Media Marketing and Content Moderation, the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
