Copyright

The Competency Standards for Digital Business Operations serve as a foundational document for the development of curricula, teaching materials, and assessment tools specifically tailored for the ICT sector. This document ensures that training activities align with industry requirements, enabling individuals who successfully meet the established standards through assessment to become qualified professionals in relevant roles within the sector.

Developed under the Skills for Industry Competitiveness and Innovation Program (SICIP), this document addresses the skills requirements critical for Digital Business Operations. It is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutes may use the information contained in this competency standard for training activities benefitting Bangladesh.

INTRODUCTION

The Skills for Industry Competitiveness and Innovation Program (SICIP) has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The Competency Standard also suggests integration of YouTube or similar digital platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution and relevant consultants of SICIP.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity
- Guide the assessor in determining whether the candidate is competent.

Identification and validation of units of competency and elements for each occupation were made by experts from various companies in industry consultative workshops.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:**Generic Competencies (20 hrs.)**

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-ICT-DBO-01-G	Demonstrate Interpersonal and Communication Skills	1 Apply interpersonal skills at the workplace 2 Understand and communicate information and ideas 3 Prepare and present reports and workplace documents	10
SICIP-ICT-DBO-02-G	Support Innovation and Manage Change	1 Identify needs for innovation in the workplace 2 Apply creative approach and solution 3 Support flexible and innovative ways of working 4 Adapt to emerging technological changes and opportunities	10
Total Hour			20 Hrs.

Sector Specific Competencies (20 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-ICT-DBO-01-S	Comply with Ethical Standards in IT Workplace	1. Uphold the requirements of clients 2. Deliver quality products and services 3. Maintain professionalism at workplace 4. Maintain workplace code of conduct	20
Total Hour			20 Hrs.

Occupation Specific Competencies (180 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP-ICT-DBO-01-O	Apply Digital Business Fundamentals & eBusiness Models	1. Analyze digital business ecosystems and stakeholders 2. Explain digital business processes and operational flows 3. Interpret global and local digital business trends 4. Identify digital value chains and workflows 5. Categorize eBusiness models 6. Apply digital revenue and pricing models	25
SICIP-ICT-DBO-02-O	Operate eCommerce Platforms & Marketplace Operations	1. Configure eCommerce platforms and seller accounts 2. Manage product catalog and content 3. Process customer orders and fulfillment lifecycle 4. Coordinate logistics and delivery tracking systems 5. Handle returns, refunds, and disputes resolution 7. Ensure compliance with platform policies and standards	30
SICIP-ICT-DBO-03-O	Perform Digital Customer Engagement & CRM Operations	1. Maintain and update customer data using CRM systems 2. Manage omnichannel customer communications 3. Resolve customer queries and complaints 4. Operate ticketing systems and service workflows 5. Monitor customer journey and experience metrics 6. Prepare customer service performance reports	30
SICIP-ICT-DBO-04-O	Execute Digital Marketing Operations for Business	1. Plan operational digital marketing activities 2. Manage social media platform and content publishing 3. Support SEO and paid campaign execution	25

	Support	4. Execute email and messaging campaigns 5. Coordinate digital marketing tools and platforms	
SICIP-ICT-DBO-05-O	Manage Digital Payments, Finance & Risk in eBusiness	1. Operate digital payment gateways and wallets 2. Process online transactions and settlements 3. Perform basic transaction reconciliation 4. Identify payment risks and fraud indicators 5. Apply financial compliance and data security practices	20
SICIP-ICT-DBO-06-O	Apply Analytics & Performance Monitoring in Digital Operations	1. Identify operational KPIs and performance metrics 2. Collect data from digital platforms 3. Use analytics and dashboard tools 4. Analyze funnel and performance trends 5. Prepare reports with actionable insights 6. Support data-driven decision-making process	25
SICIP-ICT-DBO-07-O	Implement Automation & Integrated Digital Operations	1. Identify and evaluate business processes suitable for automation 2. Apply workflow automation tools in digital operations 3. Use basic RPA concepts to automate operational tasks 4. Integrate CRM, ERP, and other digital systems for seamless operations 5. Develop and document SOPs for automated and integrated processes 6. Apply AI-assisted tools and execute integrated digital operations	25
Total Hour			0 Hrs.

COMPETENCY STANDARD: DIGITAL BUSINESS OPERATIONS

The Generic Competencies

Unit of Competency: DEMONSTRATE INTERPERSONAL AND COMMUNICATION SKILLS	Nominal Duration: 10 hrs.	Unit Code: SICIP-ICT-DBO-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitude required to demonstrate interpersonal and communication skills. It specifically includes the tasks of applying interpersonal skills at the workplace, understanding and communicating information and ideas, preparing and presenting reports and workplace documents.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Apply interpersonal skills at the workplace	1.1 <u>Workplace interpersonal skills</u> are interpreted. 1.2 The impacts of interpersonal skills are described. 1.3 Interpersonal skills are performed in accordance with workplace procedures. 1.4 <u>Ways of improving interpersonal skills</u> are identified and followed.
2. Understand and communicate information and ideas	2.1 <u>Communication tools and equipment</u> are operated, and faults are identified and reported. 2.2 Consultative processes is used to collect and convey information. 2.3 Information systems is used to store, retrieve and update information. 2.4 Information data and information are analyzed and interpreted. 2.5 Information is communicated with individuals and groups.
3. Prepare and present reports and workplace documents	3.1 <u>Workplace documents</u> are interpreted. 3.2 Appropriate format for document is used to meet workplace requirements. 3.3 Document is drafted in accordance with workplace procedures. 3.4 Document is edited and presented in a final version appropriate to task.

Range of variables:

Variables	Range (may include but not limited to)
1. Interpersonal skills	1.1 Effective communication 1.2 Cooperation

	1.3 Giving and receiving feedback, feed-forward and professional criticism 1.4 Pressure handling 1.5 Time management 1.6 Acceptance of diversity 1.7 Supporting and encouraging others 1.8 Inclusiveness 1.9 Problem solving 1.10 Negotiation 1.11 Conflict management
2. Ways of improving interpersonal skills	2.1 Cultivate a positive outlook 2.2 Ask trusted friends or colleagues for constructive criticism 2.3 Control emotions 2.4 Observe other positive interpersonal interactions 2.5 Practice active listening 2.6 Seek out opportunities to build relationships 2.7 Practice empathy
3. Communication tools and equipment	3.1 Telephone 3.2 Internet 3.3 Mobile Phone 3.4 Fax machines 3.5 Two-way radio
4. Workplace documents	4.1 Business Letters 4.2 Business Reports 4.3 Transactional Documents 4.4 Memos 4.5 Forms 4.5.1 Memorandum 4.5.2 Requisitioning Form 4.5.3 Personnel Form 4.6 Safety Report Form

Curricular Content Guide

1. Underpinning knowledge	1.1 Interpersonal skills 1.2 Impacts of interpersonal skills 1.3 Consultative processes 1.4 Workplace documents
2. Underpinning skill	2.1 Demonstrating interpersonal skills 2.2 Collecting workplace information 2.3 Analyzing information and ideas 2.4 Preparing workplace documents 2.5 Presenting workplace documents
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety practices 3.2 Promptness in carrying out activities 3.3 Tidiness and timeliness 3.4 Respect to peers, sub-ordinates and seniors in workplace

	3.5 Environmental concern 3.6 Sincerity and honesty
4. Resource implications	The following resources must be provided: 4.1 Workplace (actual or simulated). 4.2 Relevant materials and equipment. 4.3 Relevant specifications or work instructions.

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 applied interpersonal skills at the workplace 1.2 communicated information and ideas 1.3 prepared and presented reports and workplace documents
2. Methods of assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: SUPPORT INNOVATION AND MANAGE CHANGE	Nominal Duration: 10 hrs.	Unit Code: SICIP-ICT-DBO-02-G
Unit Descriptor: This unit covers the knowledge, skills, and attitudes required to support innovation and manage change. It specifically includes the tasks of identifying needs for innovation in the workplace, applying creative approaches and solution, supporting flexible and innovative ways of working and adapting to emerging technological changes and opportunities.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify needs for innovation in the workplace	1.1. The need for <u>innovation</u> in scope of work is recognized 1.2. The value of <u>innovative practices</u> in the workplace is recognized 1.3. Existing way of working in the workplace are interpreted. 1.4. Drawbacks of existing way of working are identified. 1.5. Benefits of change are identified to make it consistent with organizational requirements 1.6. Realistic timelines and targets for implementation of changes are set.
2. Apply creative approach and solution	2.1. Opportunities and creative approaches to implement innovation practices are identified 2.2. Creative approaches of coworkers pertaining to work practices are analyzed and incorporated 2.3. Innovation in accordance with organizational requirements changes are implemented
3. Support flexible and innovative ways of working	3.1. Maximum innovative opportunities are promoted. 3.2. Work assignments to facilitate innovative work skills are organized. 3.3. Team members are provided with guidance and coaching on innovation in the workplace. 3.4. Models of innovative work practice are provided and discussed 3.5. Appropriate environment for learning and innovation is maintained.
4. Adapt to emerging technological changes and opportunities	4.1. Usages of different <u>technologies</u> is determined based on job requirements. 4.2. Appropriate technology is selected as per work specifications. 4.3. Relevant technology is effectively used in carrying out functions.

	4.4. Appropriate implementation tools are used as per task requirement.
--	---

Range of variables:

Variables	Range (may include but not limited to)
1. Innovative practices	1.1. Self-directed support to implement new ideas 1.2. Collaborative arrangement to apply new method of working 1.3. Making scope of work more efficient to use new technology
2. Innovation	2.1. New ideas 2.2. Different ideas 2.3. New methods of doing work 2.4. Use of new Technology
3. Technologies	3.1. Office technology 3.2. Industrial technology 3.3. System technology 3.4. Information technology 3.5. Training technology

Curricular Content Guide

1. Underpinning knowledge	1.1. Definition of innovation 1.2. Current practice in own scope of work 1.3. Workplace procedures 1.4. Support required to generate creative ideas 1.5. Difference between innovation and creativity 1.6. Common effects of change and innovation in the workplace 1.7. Industrial and organizational context of change 1.8. Organization's policies, plans, procedures and structure 1.9. Knowledge of resources required by the organization's operations 1.10. Awareness on technology and its function 1.11. Operating instructions 1.12. Applicable software 1.13. Company policy in relation to relevant technology 1.14. Technology adaptability
2. Underpinning skill	2.1. Identifying resources required for creativity and innovation 2.2. Contributing to brainstorming session 2.3. Identifying issues and concerns of one's scope of work

	2.4. Encouraging co-workers to generate and develop ideas 2.5. Evaluating potential obstacles to and opportunities for creativity and innovation 2.6. Sharing of best practices related to innovation and creativity 2.7. Applying relevant technology 2.8. Using update machine and Software 2.9. Acquiring troubleshooting skills Identifying issues 2.10. Identifying current industry standard diagnostic tools 2.11. Describing common malfunctions and resolutions. 2.12. Determining the root cause of a routine malfunction
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Eagerness to learn 3.5. Tidiness and timeliness 3.6. Environmental concerns 3.7. Respect for rights of peers and seniors at workplace 3.8. Communication with peers and seniors at workplace
4. Resource implications	The following resources must be provided: 4.1. Workplace (actual or simulated). 4.2. Relevant materials and equipment. 4.3. Relevant specifications or work instructions.

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 identified need for innovation in the area of work 1.2 applied creative approach and solution 1.3 supported flexible and innovative ways of working 1.4 adapted to emerging technological changes and opportunities
2. Methods of assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

The Sector Specific Competencies

Unit of Competency: COMPLY WITH ETHICAL STANDARDS IN IT WORKPLACE	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-DBO-01-S
Unit Descriptor: This unit covers knowledge, skills and attitudes required to comply with ethical standards in IT workplace. It specifically includes the tasks of upholding the requirements of clients, delivering quality products and services, maintaining professionalism at workplace and maintaining workplace code of conduct.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined>** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Uphold the requirements of clients	1.1 Clients' requirements are identified. 1.2 Confidentiality of information is maintained in accordance with workplace policies/organizational policies/national legislation. 1.3 Potential conflicts of interest are identified and involved parties of potential conflicts are notified. 1.4 Proprietary rights of client/customer are asserted.
2. Deliver quality products and services	2.1. Products and services are provided according to the clients' requirements. 2.2. Work is completed as per standards. 2.3. Quality processes are implemented when developing products and services.
3. Maintain professionalism at workplace	3.1 Work processes are delivered as per standards. 3.2 Skills, knowledge and qualifications are presented in a professional manner. 3.3 Services and products developed by self and others are delivered as per workplace standard. 3.4 Unbiased and objective information are provided to the clients. 3.5 Realistic estimates for time, cost and delivery of outputs are presented during negotiation.
4. Maintain workplace code of conduct	4.1 Workplace code of conduct is interpreted. 4.2 Workplace code of conduct is followed.

Curricular Content Guide:

1. Underpinning Knowledge	1.1 Corporate code of confidentiality of information 1.2 Organizational policies, national legislation and workplace policies in relation to IT sector 1.3 Law and regulations pertaining to proprietary rights 1.4 Quality processes for products and services
---------------------------	--

	1.5 Procedure of provided to client information 1.6 Method of estimating for time, cost and delivery products and services 1.7 Workplace code of conduct in IT sector
2. Underpinning Skills	2.1 Upholding confidentiality of information in accordance with organizational policies, national legislation and workplace policies 2.2 Asserting proprietary rights of clients/customers 2.3 Completing work in accordance with industry and international standards 2.4 Implementing quality processes when developing products and services 2.5 Delivering correctly services and products developed by self and others 2.6 Providing unbiased and objective information to the clients 2.7 Presenting realistic estimates for time, cost and delivery of outputs during negotiation 2.8 Maintaining workplace code of conduct
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 National legislation in relation to IT sector 4.4 Workplace policies, code of conduct & proprietary rights of clients in IT sector 4.5 Relevant tools, equipment and facilities needed to perform the activities 4.6 Required learning materials

Assessment Evidence Guide:

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 upheld the requirements of clients/customers 1.2 asserted proprietary rights of clients/customers 1.3 delivered quality products and services 1.4 Implemented quality processes when developing products and services 1.5 maintained professionalism at the workplace 1.6 completed work according to industry and international standards
-----------------------------------	---

	1.7 maintained workplace code of conduct
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral question 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

The Occupation Specific Competencies

Unit of Competency: APPLY DIGITAL BUSINESS FUNDAMENTALS & EBUSINESS MODELS	Nominal Duration: 25 hrs.	Unit Code: SICIP-ICT-DBO-01-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply digital business fundamentals & e-business models. It specifically includes the tasks of analyzing digital business ecosystems and stakeholders, explaining digital business processes and operational flows, interpreting global and local digital business trends, identifying digital value chains and workflows, categorizing e-business models and applying digital revenue and pricing models.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Analyze digital business ecosystems and stakeholders	1.1 <u>Digital business ecosystem</u> components are identified in line with industry context. 1.2 Internal and external <u>stakeholders</u> are identified and categorized. 1.3 Stakeholders Roles and relationships are analyzed within the digital business environment. 1.4 Interdependencies among digital platforms, partners and customers are interpreted.
2. Explain digital business processes and operational flows	2.1 <u>Key digital business processes</u> are identified according to operational requirements. 2.2 <u>Process flows</u> are mapped to reflect business operations. 2.3 Inputs, outputs, and process steps are described clearly. 2.4 Interactions between digital systems and workflows are explained.
3. Interpret global and local digital business trends	3.1 <u>Global digital business trends</u> are identified from reliable sources. 3.2 Local digital market trends are analyzed based on industry data. 3.3 Emerging technologies influencing digital business are interpreted. 3.4 Business opportunities and threats are identified based on trend analysis.
4. Identify digital value chains and workflows	4.1 <u>Digital value chain</u> activities are identified according to business operations. 4.2 Digital workflows are mapped across business functions.

	4.3 Value-adding and non-value-adding activities are differentiated. 4.4 Process flow improvements are identified using digital tools.
5. Categorize eBusiness models	5.1 <u>eBusiness models</u> are identified according to business type. 5.2 Characteristics of each eBusiness model are compared. 5.3 An appropriate eBusiness model is selected based on business objectives. 5.4 Limitations and risks of selected eBusiness models are identified.
6. Apply digital revenue and pricing models	6.1 <u>Digital revenue and pricing models</u> are identified according to business context. 6.2 Pricing strategies are applied in digital business scenarios. 6.3 Revenue streams are aligned with customer value propositions. 6.4 Digital pricing impacts on competitiveness are evaluated.

Range of Variables

Variable	Range
	May include but not limited to:
1. Digital business ecosystem	1.1 Digital platforms 1.2 Customers 1.3 Suppliers and partners 1.4 Service providers 1.5 Regulatory bodies
2. Stakeholders	2.1 Internal management 2.2 Employees 2.3 Customers 2.4 Business partners 2.5 Government and regulatory agencies
3. Key digital business processes	3.1 Customer Acquisition 3.2 Customer Experience 3.3 Process Automation (e.g., auto email, chatbot reply, invoice generation) 3.4 Revenue Generation
4. Process flows	4.1 Input 4.2 Process Steps (e.g., order received → verification → processing → delivery) 4.3 Output 4.4 Feedback
5. Global digital business trends	5.1 eCommerce growth trends 5.2 Mobile and social commerce

	5.3 Automation and AI adoption 5.4 Cross-border digital trade
6. Digital value chain	6.1 Content creation 6.2 Marketing and sales 6.3 Order processing 6.4 Delivery and logistics 6.5 Customer support
7. eBusiness models	7.1 Business-to-Business (B2B) 7.2 Business-to-Consumer (B2C) 7.3 Consumer-to-Consumer (C2C) 7.4 Direct-to-Consumer (D2C)
8. Digital revenue and pricing models	8.1 Subscription-based pricing 8.2 Transaction-based pricing 8.3 Freemium model 8.4 Advertising-based revenue

Curricular Content Guide

1. Underpinning Knowledge	1.1 Concepts of digital business ecosystems including platforms, partners, and customers. 1.2 Identify internal and external stakeholders and understand their roles and relationships. 1.3 Understand interdependencies among digital platforms, partners, and customers. 1.4 Concepts of digital business processes and identify key operational processes. 1.5 Procedures for mapping process flows and understanding inputs and outputs. 1.6 Explain interactions between digital systems and workflows. 1.7 Identify global and local digital business trends and emerging technologies. 1.8 Identify business opportunities and threats based on trend analysis.
2. Underpinning Skills	2.1 Analyzing digital business ecosystems 2.2 Identifying stakeholders, and interpreting relationships and interdependencies. 2.3 Explaining digital business processes. 2.4 Mapping workflows, and describing system interactions and operational flows. 2.5 Interpreting global and local digital business trends. 2.6 Identifying digital value chains and workflows. 2.7 Categorizing eBusiness models, comparing characteristics, selecting suitable models. 2.8 Applying digital revenue and pricing models. 2.9 Aligning strategies with customer value, and evaluating

	competitiveness impacts.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Relevant tools 4.4 Facilities needed to perform the activities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 analyzed digital business ecosystems and stakeholders 1.2 explained digital business processes and operational flows 1.3 interpreted global and local digital business trends 1.4 identified digital value chains and workflows 1.5 categorized eBusiness models 1.6 applied digital revenue and pricing models
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: OPERATE ECOMMERCE PLATFORMS & MARKETPLACE OPERATIONS	Nominal Duration: 30 hrs.	Unit Code: SICIP-ICT-DBO-02-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to operate e-commerce platforms & marketplace. It specifically includes the tasks of configuring e-commerce platforms and seller accounts, managing product catalog and content, processing customer orders and fulfillment lifecycle, coordinating logistics and delivery tracking systems, handling returns, refunds and disputes resolution and ensuring compliance with platform policies and standards.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Configure eCommerce platforms and seller accounts	1.1 Appropriate <u>eCommerce platforms</u> are identified according to business requirements. 1.2 Seller accounts are created following platform guidelines. 1.3 Business profile, tax, and payment information are configured accurately. 1.4 Platform settings are customized based on operational needs. 1.5 User access roles and permissions are assigned appropriately.
2. Manage product catalog and content	2.1 <u>Product catalog</u> is developed and organized logically. 2.2 Product information including price, description and images is uploaded accurately. 2.3 Content quality and consistency are maintained according to platform standards. 2.4 Inventory status is updated regularly. 2.5 Product listings are reviewed and optimized for visibility and accuracy.
3. Process customer orders and fulfillment lifecycle	3.1 Customer orders are received and verified through the platform system. 3.2 Order details are checked for accuracy and completeness. 3.3 Orders are processed according to defined workflows. 3.4 Fulfillment instructions are communicated to relevant stakeholders. 3.5 Order status is updated throughout the <u>fulfillment lifecycle</u> . 3.6 Exceptions and delays are identified and reported

	appropriately.
4. Coordinate logistics and delivery tracking systems	4.1 Delivery partners and logistics options are selected as per order requirements. 4.2 Shipment details are generated and shared with logistics providers. 4.3 Delivery tracking information is monitored regularly. 4.4 Customers are informed of shipment status and updates. 4.5 Delivery issues are identified and escalated for resolution.
5. Handle returns, refunds, and disputes resolution	5.1 Return and refund requests are received and verified according to platform policies. 5.2 Returned items are tracked and documented properly. 5.3 Refunds are processed following defined procedures. 5.4 Customer disputes are reviewed and addressed professionally. 5.5 Resolution outcomes are recorded and communicated to customers.
6. Ensure compliance with platform policies and standards	6.1 Platform policies and guidelines are reviewed regularly. 6.2 Operational activities are performed in compliance with platform rules. 6.3 Violations and compliance risks are identified and reported. 6.4 Corrective actions are taken to address compliance issues. 6.5 Records and documentation are maintained for audit purposes.

Range of Variables

Variable	Range May include but not limited to:
1. eCommerce platforms	1.1 Shopify 1.2 WooCommerce 1.3 Amazon Marketplace 1.4 Alibaba 1.5 Other approved marketplaces
2. Product catalog	2.1 Product categories 2.2 Pricing information 2.3 Images and descriptions 2.4 Inventory data
3. Fulfillment lifecycle	3.1 Order confirmation 3.2 Picking and packing 3.3 Shipment dispatch 3.4 Delivery confirmation
4. Logistics	4.1 Courier services

	4.2 Third-party logistics (3PL) 4.3 In-house delivery systems
5. Platform policies	5.1 Seller policies 5.2 Return and refund policies 5.3 Dispute resolution rules 5.4 Compliance and quality standards

Curricular Content Guide

1. Underpinning Knowledge	1.1 Concepts of eCommerce platforms and identify suitable platforms based on business requirements. 1.2 Procedures for creating seller accounts following platform guidelines. 1.3 Understand configuration of business profile, tax, and payment information accurately. 1.4 Understand customization of platform settings based on operational needs. 1.5 Identify user roles and assign appropriate access permissions. 1.6 Concepts of product catalog management and organize product listings logically. 1.7 Procedures for uploading product information including price, description, and images accurately. 1.8 Understand order processing workflows and fulfillment lifecycle.
2. Underpinning Skills	2.1 Configuring eCommerce platforms. 2.2 Creating seller accounts, and setting up business, payment, and user access controls. 2.3 Managing product catalogs and content. 2.4 Processing customer orders. 2.5 Coordinating logistics and delivery system. 2.6 Tracking shipments, and managing communication with customers and partners. 2.7 Handling returns, refunds, and disputes. 2.8 Ensuring compliance with platform policies 2.9 Maintaining records for audit and corrective actions.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided:

	4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Multimedia 4.4 Tools (content writing, graphic design, video creation) 4.5 Required learning materials 4.6 Specifications and work instructions
--	---

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 configured eCommerce platforms and seller accounts 1.2 managed product catalog and content 1.3 processed customer orders and fulfillment lifecycle 1.4 coordinated logistics and delivery tracking systems 1.5 handled returns, refunds, and disputes resolution 1.6 ensured compliance with platform policies and standards
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PERFORM DIGITAL CUSTOMER ENGAGEMENT & CRM OPERATIONS	Nominal Duration: 30 hrs.	Unit Code: SICIP-ICT-DBO-03-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to perform digital customer engagement & CRM operations. It specifically includes the tasks of maintaining and updating customer data using CRM systems, managing omnichannel customer communications, operating ticketing systems and service workflows, monitoring customer journey and experience metrics and preparing customer service performance reports.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Maintain and update customer data using CRM systems	1.1 Customer profiles are created and updated accurately in the <u>CRM system</u> . 1.2 Customer data is validated and verified according to organizational standards. 1.3 Data privacy and confidentiality requirements are followed during data handling. 1.4 Duplicate or inconsistent records are identified and corrected. 1.5 Customer interaction history is recorded systematically.
2. Manage omnichannel customer communications	2.1 Customer communication channels are identified and accessed appropriately. 2.2 Customer inquiries are responded to through <u>omnichannel platforms</u> . 2.3 Communication tone and language are maintained according to service guidelines. 2.4 Interaction timelines and response SLAs are followed. 2.5 Communication records are logged in the CRM system. 2.6 Escalations are handled according to defined procedures.
3. Resolve customer queries and complaints	3.1 <u>Customer queries and complaints</u> are received and acknowledged promptly. 3.2 Issues are analyzed to identify root causes. 3.3 Appropriate solutions are proposed based on service policies. 3.4 Complaints are resolved within defined turnaround time. 3.5 Resolution outcomes are communicated clearly to customers.
4. Operate ticketing systems and service workflows	4.1 Service tickets are created and categorized according to <u>ticketing systems</u> . 4.2 Ticket priority levels are assigned based on issue

	severity. 4.3 Tickets are routed to appropriate teams or individuals. 4.4 Ticket status is monitored throughout the resolution process. 4.5 Service workflows are followed according to standard operating procedures. 4.6 Closed tickets are reviewed for quality assurance.
5. Monitor customer journey and experience metrics	5.1 Customer journey stages are identified and mapped. 5.2 Customer experience metrics are tracked using CRM and analytics tools. 5.3 Trends and patterns in customer behavior are analyzed. 5.4 Service gaps and improvement areas are identified. 5.5 Findings are documented for service enhancement.
6. Prepare customer service performance reports	6.1 Customer service KPIs are identified according to organizational requirements. 6.2 Performance data is collected from CRM and service tools. 6.3 Reports are generated using standard formats. 6.4 Insights and recommendations are included in reports. 6.5 Reports are shared with relevant stakeholders in a timely manner.

Range of Variables

Variable	Range May include but not limited to:
1. CRM system	1.1 Salesforce 1.2 HubSpot 1.3 Zoho CRM 1.4 Freshsales 1.5 GoHighLevel
2. Omnichannel platforms	2.1 Email 2.2 Live chat 2.3 Social media messaging 2.4 Phone/VoIP systems
3. Customer queries and complaints	3.1 Product-related inquiries 3.2 Service issues 3.3 Billing or payment concerns 3.4 Technical support requests
4. Ticketing systems	4.1 Zendesk 4.2 Freshdesk 4.3 ServiceNow
5. Customer experience metrics	5.1 CSAT 5.2 NPS 5.3 First Response Time (FRT)

	5.4 Resolution Time
6. Customer service KPIs	6.1 SLA compliance 6.2 Ticket resolution rate 6.3 Customer satisfaction score 6.4 Escalation rate

Curricular Content Guide

1. Underpinning Knowledge	1.1 Concepts of CRM systems and maintain accurate customer profiles and records. 1.2 Procedures for validating, verifying, and ensuring data privacy and confidentiality. 1.3 Identify and correct duplicate or inconsistent customer data. 1.4 Understand recording of customer interaction history systematically. 1.5 Concepts of omnichannel communication and manage multiple customer communication platforms. 1.6 Procedures for responding to inquiries, maintaining communication standards, and following SLAs. 1.7 Understand customer query and complaint handling, including root cause analysis and resolution. 1.8 Concepts of ticketing systems and service workflows, including ticket creation, prioritization, and tracking.
2. Underpinning Skills	2.1 Maintaining and updating customer data in CRM systems. 2.2 Managing omnichannel customer communications. 2.3 Responding to inquiries, maintaining service standards, and handling escalations. 2.4 Resolving customer queries and complaints by analyzing issues. 2.5 Operating ticketing systems and service workflows. 2.6 Monitoring customer journey and experience metrics. 2.7 Analyzing trends, and identifying service improvement areas. 2.8 Preparing customer service performance reports. 2.9 Analyzing KPIs, and presenting insights to stakeholders.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided:

	4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Specifications and work instructions 4.4 Learning materials
--	--

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 maintained and updated customer data using CRM systems 1.2 managed omnichannel customer communications 1.3 resolved customer queries and complaints 1.4 operated ticketing systems and service workflows 1.5 monitored customer journey and experience metrics 1.6 prepared customer service performance reports
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: EXECUTE DIGITAL MARKETING OPERATIONS FOR BUSINESS SUPPORT	Nominal Duration: 25 hrs.	Unit Code: SICIP-ICT-DBO-04-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to execute digital marketing operations for business support. It specifically includes the tasks of planning operational digital marketing activities, managing social media platform and content publishing, supporting SEO and paid campaign execution, executing email and messaging campaigns and coordinating digital marketing tools and platforms.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Plan operational digital marketing activities	1.1 Digital marketing objectives are identified according to business requirements. 1.2 Target audience segments are identified using available data. 1.3 Appropriate <u>digital marketing channels</u> are selected based on objectives. 1.4 Activity timelines and task responsibilities are defined. 1.5 Operational plans are documented and approved by relevant stakeholders.
2. Manage social media platform and content publishing	2.1 <u>Social media platforms</u> are selected according to marketing goals. 2.2 Content calendars are prepared and maintained. 2.3 Digital content is published according to schedule and platform guidelines. 2.4 Engagement metrics are monitored regularly. 2.5 Content performance issues are identified and reported.
3. Support SEO and paid campaign execution	3.1 SEO tasks are performed according to defined guidelines. 3.2 Keywords and ad assets are implemented as per campaign plans. 3.3 <u>SEO and Paid campaigns</u> are set up or supported on approved platforms. 3.4 Campaign performance data is monitored regularly. 3.5 Issues related to ads delivery or compliance are escalated appropriately.
4. Execute email and messaging campaigns	4.1 Email and messaging campaign objectives are identified. 4.2 <u>Email and messaging tools</u> are identified. 4.3 Contact lists are prepared and segmented according to campaign criteria. 4.4 Campaign messages are created or configured using

	approved templates. 4.5 Campaigns are executed according to schedule. 4.6 Delivery, open, and response metrics are tracked.
5. Coordinate digital marketing tools and platforms	5.1 <u>Marketing tools and platforms</u> are accessed and configured as required. 5.2 Integration between tools is maintained for data consistency. 5.3 User access and permissions are managed appropriately. 5.4 Data generated from tools is reviewed for accuracy. 5.5 Operational issues with tools are identified and reported.

Range of Variables

Variable	Range May include but not limited to:
1. Digital marketing channels	1.1 Social media platforms 1.2 Search engines 1.3 Email marketing 1.4 Messaging applications
2. Social media platforms	2.1 Facebook 2.2 Instagram 2.3 LinkedIn 2.4 X (Twitter) 2.5 YouTube
3. SEO and paid campaigns	3.1 On-page SEO tasks 3.2 Keyword implementation 3.3 Google Ads 3.4 Meta Ads
4. Email and messaging tools	4.1 Mailchimp 4.2 Brevo (Sendinblue) 4.3 HubSpot 4.4 WhatsApp Business
5. Marketing tools and platforms	5.1 Meta Business Manager 5.2 Google Analytics 5.3 Google Search Console 5.4 Content scheduling tools

Curricular Content Guide

1. Underpinning Knowledge	1.1 Concepts of digital marketing objectives and identify target audience segments using data. 1.2 Identify appropriate digital marketing channels based on business goals. 1.3 Procedures for planning marketing activities, timelines, and responsibilities. 1.4 Concepts of social media management and content
---------------------------	--

	calendar preparation. 1.5 Procedures for publishing digital content and monitoring engagement metrics. 1.6 Understand SEO and paid campaign execution including keywords and ad setup. 1.7 Identify campaign performance monitoring and issue escalation processes. 1.8 Concepts of email and messaging campaigns including segmentation and scheduling.
2 Underpinning Skills	2.1 Planning operational digital marketing activities by defining objectives. 2.2 Identifying target audiences, selecting channels, and organizing timelines. 2.3 Managing social media platforms and content publishing. 2.4 Supporting SEO and paid campaign execution by implementing keywords. 2.5 Executing email and messaging campaigns. 2.6 Coordinating digital marketing tools and platforms.
3 Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in workplace 3.8 Good relationships with peers, sub-ordinates and seniors in workplace
4 Resource Implications	The Following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Job specifications and work instructions 4.4 Relevant tools, equipment and facilities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 planned operational digital marketing activities 1.2 managed social media platform and content publishing 1.3 supported SEO and paid campaign execution 1.4 executed email and messaging campaigns 1.5 coordinated digital marketing tools and platforms
-----------------------------------	---

2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: MANAGE DIGITAL PAYMENTS, FINANCE & RISK IN EBUSINESS	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-DBO-05-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to manage digital payments, finance & risk in e-business. It specifically includes the tasks of operating digital payment gateways and wallets, processing online transactions and settlements, performing basic transaction reconciliation, identifying payment risks and fraud indicators and applying financial compliance and data security practices.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Operate digital payment gateways and wallets	1.1 Appropriate <u>digital payment gateways</u> are identified according to business requirements. 1.2 Merchant or business accounts are configured following provider guidelines. 1.3 <u>Digital wallets</u> and payment options are enabled correctly. 1.4 Payment settings are tested to ensure successful transactions. 1.5 Access credentials and permissions are managed securely.
2. Process online transactions and settlements	2.1 <u>Online payment transactions</u> are received and verified through the system. 2.2 Transaction details are reviewed for accuracy and completeness. 2.3 Settlement schedules and cycles are identified according to provider terms. 2.4 Settlement amounts are monitored and recorded correctly. 2.5 Transaction issues are identified and escalated for resolution.
3. Perform basic transaction reconciliation	3.1 Transaction records are extracted from payment systems. 3.2 Payment reports are compared with sales and order records. 3.3 Discrepancies are identified and documented. 3.4 Adjustments are reported to relevant authority for correction. 3.5 Reconciliation summaries are prepared and maintained.
4. Identify payment risks and fraud indicators	4.1 Common <u>payment risks</u> and fraud indicators are

	identified. 4.2 Suspicious transactions are monitored using available tools. 4.3 Fraud alerts and system notifications are reviewed regularly. 4.4 Risk incidents are reported following organizational procedures. 4.5 Preventive measures are applied to reduce future risks.
5. Apply financial compliance and data security practices	5.1 <u>Financial compliance and data security</u> are identified according to policies. 5.2 Customer and transaction data are handled securely. 5.3 Access controls and authentication measures are applied. 5.4 Data privacy and confidentiality rules are followed consistently. 5.5 Records are maintained for audit and compliance purposes.

Range of Variables

Variable	Range May include but not limited to:
1. Digital payment gateways	1.1 PayPal 1.2 Payoneer 1.3 SSLCommerz 1.4 Other approved gateways
2. Digital wallets	2.1 Mobile wallets 2.2 Online wallets 2.3 Bank-linked wallets
3. Online payment transactions	3.1 Card payments 3.2 Mobile financial services 3.3 Bank transfers
4. Payment risks	4.1 Unauthorized transactions 4.2 Chargebacks 4.3 Identity theft 4.4 Payment fraud
5. Financial compliance and data security	5.1 Organizational financial policies 5.2 Data protection and privacy guidelines 5.3 Basic cybersecurity practices 5.4 Audit and reporting requirements

Curricular Content Guide

1. Underpinning Knowledge	1.1 Concepts of digital payment gateways and identify suitable payment options based on business needs. 1.2 Procedures for configuring merchant accounts and enabling digital wallets.
---------------------------	--

	1.3 Understand testing of payment settings to ensure successful transactions. 1.4 Identify secure management of access credentials and permissions. 1.5 Concepts of online transactions and verify transaction details and records. 1.6 Understand settlement processes, schedules, and monitoring of payment amounts. 1.7 Procedures for transaction reconciliation and identifying discrepancies. 1.8 Identify payment risks and fraud indicators and monitor suspicious activities.
2. Underpinning Skills	2.1 Operating digital payment gateways and wallets, configuring accounts. 2.2 Processing online transactions and settlements. 2.3 Verifying transaction details and monitoring settlement cycles. 2.4 Performing transaction reconciliation by comparing records. 2.5 Identifying discrepancies, and maintaining accurate reports. 2.6 Identifying payment risks and fraud indicators. 2.7 Monitoring suspicious activities, and applying preventive measures. 2.8 Applying financial compliance and data security practices.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Learning materials 4.4 Specifications and work instructions 4.5 Relevant tools, equipment and facilities

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 operated digital payment gateways and wallets
-----------------------------------	--

	1.2 processed online transactions and settlements 1.3 performed basic transaction reconciliation 1.4 identified payment risks and fraud indicators 1.5 applied financial compliance and data security practices
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY ANALYTICS & PERFORMANCE MONITORING IN DIGITAL OPERATIONS	Nominal Duration: 25 hrs.	Unit Code: SICIP-ICT-DBO-06-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to apply analytics & performance monitoring in digital operations. It specifically includes the tasks of identifying operational KPIs and performance metrics, collecting data from digital platforms, using analytics and dashboard tools, analyzing funnel and performance trends, preparing reports with actionable insights and supporting data-driven decision-making process.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify operational KPIs and performance metrics	1.1 Operational objectives are reviewed to determine measurement needs. 1.2 Relevant <u>KPIs and metrics</u> are identified according to digital operations. 1.3 Performance indicators are aligned with service level agreements (SLAs). 1.4 Data sources for selected KPIs are identified. 1.5 KPI definitions and calculation methods are documented.
2. Collect data from digital platforms	2.1 Data requirements are identified based on reporting objectives. 2.2 Data is extracted from <u>digital platforms</u> using approved methods. 2.3 Data accuracy and completeness are verified. 2.4 Data collection schedules are followed consistently. 2.5 Collected data is stored securely for analysis.
3. Use analytics and dashboard tools	3.1 Appropriate <u>analytics and dashboard tools</u> are selected according to requirements. 3.2 Data is imported or connected to analytics tools correctly. 3.3 Dashboards are configured to display key metrics. 3.4 Visualizations are created using standard formats. 3.5 Dashboard performance and data refresh are monitored.
4. Analyze funnel and performance trends	4.1 <u>Customer and operational funnels</u> are identified and mapped. 4.2 Performance trends are analyzed using historical data. 4.3 Variations and anomalies are identified and interpreted. 4.4 Root causes of performance gaps are investigated.

	4.5 Analysis findings are documented for reporting.
5. Prepare reports with actionable insights	5.1 Reporting formats and timelines are identified. 5.2 Performance data is summarized into reports. 5.3 Reports and insights and observations are highlighted. 5.4 Reports are validated for accuracy and clarity. 5.5 Reports are shared with relevant stakeholders.
6. Support data-driven decision-making process	6.1 Analytical insights are communicated to support decisions. 6.2 Recommendations are provided based on data analysis. 6.3 Decision outcomes are monitored against KPIs. 6.4 Feedback is collected on decision effectiveness. 6.5 Continuous improvement opportunities are identified.

Range of Variables

Variable	Range
	May include but not limited to:
1. KPIs and metrics	1.1 Conversion Rate (CR) 1.2 Customer Acquisition Cost (CAC) 1.3 Average Handling Time (AHT) 1.4 Service Level Agreement (SLA) compliance 1.5 Revenue Per Transaction (RPT)
2. Digital platforms	2.1 eCommerce platforms 2.2 CRM systems 2.3 Marketing platforms 2.4 Customer support systems
3. Analytics and dashboard tools	3.1 Google Search Console 3.2 Google Analytics 3.3 Tableau 3.4 Power BI 3.5 Looker Studio
4. Customer and operational funnels	4.1 Marketing funnel 4.2 Sales funnel 4.3 Customer support workflow
5. Reports and insights	5.1 Daily operational reports 5.2 Weekly performance reports 5.3 Monthly management dashboards 5.4 Annually management dashboards for Annual Business Planning (ABP)

Curricular Content Guide

1. Underpinning Knowledge	1.1 Concepts of operational KPIs and identify relevant performance metrics based on objectives. 1.2 Understand alignment of KPIs with SLAs and identify
---------------------------	--

	data sources. 1.3 Procedures for collecting data from digital platforms and verifying accuracy. 1.4 Understand secure storage and scheduled data collection practices. 1.5 Concepts of analytics and dashboard tools and configure data visualization. 1.6 Procedures for creating dashboards and monitoring data updates. 1.7 Understand funnel analysis and identify performance trends and anomalies.
2. Underpinning Skills	2.1 Identifying operational KPIs and performance metrics. 2.2 Aligning indicators with objectives, SLAs, and data sources. 2.3 Collecting data from digital platforms, ensuring accuracy, completeness, and secure storage. 2.4 Using analytics and dashboard tools to configure visualizations, monitor metrics, and maintain data updates. 2.5 Analyzing funnel performance and trends, identifying anomalies, and investigating root causes. 2.6 Preparing reports with actionable insights, ensuring accuracy, clarity, and stakeholder relevance. 2.7 Supporting data-driven decision-making by communicating insights. 2.8 Providing recommendations, and monitoring outcomes.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Specifications and work instructions 4.4 Relevant tools, equipment and facilities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 identified operational KPIs and performance metrics 1.2 collected data from digital platforms 1.3 used analytics and dashboard tools 1.4 analyzed funnel and performance trends 1.5 prepared reports with actionable insights 1.6 supported data-driven decision-making process
2. Methods of Assessment	Methods of assessment may include but is not limited to: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: IMPLEMENT AUTOMATION & INTEGRATED DIGITAL OPERATIONS	Nominal Duration: 25 hrs.	Unit Code: SICIP-ICT-DBO-07-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to implement automation & integrated digital operations. It specifically includes the tasks of identifying and evaluating business processes suitable for automation, applying workflow automation tools in digital operations, using basic RPA concepts to automate operational tasks, integrating CRM, ERP and other digital systems for seamless operations, developing and document SOPs for automated and integrated processes and applying AI-assisted tools and executing integrated digital operations.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify and evaluate business processes suitable for automation	1.1 Existing business processes are reviewed and documented. 1.2 Repetitive, rule-based and high-volume tasks are identified. 1.3 Process efficiency, cycle time and error rates are analyzed. 1.4 Operational risks and dependencies are assessed. 1.5 Automation feasibility criteria are applied to selected processes. 1.6 Cost-benefit considerations are evaluated. 1.7 <u>Processes suitable for automation</u> are prioritized and approved.
2. Apply workflow automation tools in digital operations	2.1 Appropriate <u>workflow automation tools</u> are selected based on requirements. 2.2 Automated workflows are designed using standard logic and templates. 2.3 Triggers, rules and conditions are configured accurately. 2.4 Data inputs and outputs are validated within workflows. 2.5 Automated workflows are tested for functional accuracy. 2.6 Errors and exceptions are identified and corrected. 2.7 Workflow performance is monitored and optimized.
3. Use basic RPA concepts to automate operational tasks	3.1 Basic <u>RPA concepts</u> and components are identified. 3.2 Suitable operational tasks are selected for RPA application. 3.3 Simple RPA bots are configured for selected tasks. 3.4 Bot execution logs and outputs are monitored. 3.5 Exceptions and failures are identified and documented.

	3.6 Corrective actions are taken for both errors. 3.7 RPA performance improvement opportunities are identified.
4. Integrate CRM, ERP, and other digital systems for seamless operations	4.1 Integration objectives and requirements are identified. 4.2 Data fields and process dependencies across systems are mapped. 4.3 Integration tools or connectors are selected appropriately. 4.4 Data synchronization rules are configured correctly. 4.5 Data accuracy and consistency across systems are verified. 4.6 Integration errors are identified and escalated. 4.7 Integration documentation is maintained.
5. Develop and document SOPs for automated and integrated processes	5.1 Automated workflows and process steps are documented clearly. 5.2 SOPs are prepared following organizational standards. 5.3 Roles, responsibilities and control points are defined. 5.4 Exception handling procedures are documented. 5.5 Version control and approval procedures are followed.
6. Apply AI-assisted tools and execute integrated digital operations	6.1 Operational use cases for <u>AI-generated content</u> are identified. 6.2 AI tools are selected according to content requirements. 6.3 Prompts are designed to generate operational content. 6.4 AI-generated content is reviewed for accuracy and relevance. 6.5 Ethical, legal and data privacy considerations are applied. 6.6 Approved content is integrated into workflows. 6.7 AI output performance is monitored and refined.

Range of Variables

Variable	Range
	May include but not limited to:
1. Processes suitable for automation	1.1 Order processing 1.2 Customer support workflows 1.3 Data entry and validation 1.4 Reporting and notifications 1.5 Content publishing processes
2. Workflow automation tools	2.1 Zapier 2.2 Microsoft Power Automate 2.3 Make (Integromat) 2.4 Native automation features of CRM/ERP
3. RPA concepts and tools	3.1 Attended automation

	3.2 Unattended automation 3.3 UiPath 3.4 Automation Anywhere 3.5 Blue Prism
4. Digital systems	4.1 CRM systems 4.2 ERP systems 4.3 eCommerce platforms 4.4 Payment and analytics systems
5. SOP documentation	5.1 Process flow diagrams 5.2 Step-by-step SOP manuals 5.3 Exception handling guidelines 5.4 Version control records
6. AI-generated content	6.1 AI-generated text content 6.2 AI-assisted email responses 6.3 AI-generated reports and summaries 6.4 AI-powered knowledge base content
7. Emerging technologies	7.1 Artificial Intelligence (AI) 7.2 Machine Learning (ML) 7.3 Intelligent automation 7.4 Cloud-based integration tools
8. Capstone simulation	8.1 Integrated digital workflow scenarios 8.2 Automation-enabled operations 8.3 AI-assisted operational tasks

Curricular Content Guide

1. Underpinning Knowledge	1.1 Concepts of business process analysis and identify tasks suitable for automation. 1.2 Identify repetitive, rule-based, and high-volume processes for automation. 1.3 Understand evaluation of process efficiency, risks, and cost–benefit analysis. 1.4 Procedures for selecting and applying workflow automation tools. 1.5 Understand design and configuration of automated workflows, triggers, and rules. 1.6 Concepts of RPA and identify tasks for bot-based automation. 1.7 Procedures for configuring, monitoring, and improving RPA performance. 1.8 Understand system integration concepts between CRM, ERP, and digital platforms.
2. Underpinning Skills	2.1 Identifying and evaluating business processes for automation by analyzing tasks.

	2.2 Applying workflow automation tools by designing. 2.3 Configuring, testing, and optimizing automated processes. 2.4 Using basic RPA concepts to automate tasks, monitor bot performance, and manage exceptions. 2.5 Integrating CRM, ERP, and digital systems by mapping data, configuring synchronization, and ensuring consistency. 2.6 Developing and documenting SOPs for automated processes. 2.7 Applying AI-assisted tools in operations. 2.8 Designing prompts, validating outputs, and ensuring ethical and compliant use.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Specifications and work instructions 4.4 Relevant tools, equipment and facilities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 identified and evaluated business processes suitable for automation 1.2 applied workflow automation tools in digital operations 1.3 used basic RPA concepts to automate operational tasks 1.4 integrated CRM, ERP, and other digital systems for seamless operations 1.5 developed and documented SOPs for automated and integrated processes 1.6 applied AI-assisted tools and execute integrated
-----------------------------------	--

	digital operations
2. Methods of Assessment	Methods of assessment may include but is not limited to: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

END OF COMPETENCY STANDARD

Workshop/Lab Facility Standard

Course Name:	Digital Business Operations
Number of Trainees:	25

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom cum workshop – 500 sft

Major Training Equipment and Training Facilities:

Sl. No.	Major Equipment and Training facilities	Required facilities
1.	Computer/Laptop	01
2.	Printer	01
3.	Scanner	01
4.	Computers/Laptop: (Minimum Intel Core i5 processor (8 th Gen), 8GB RAM (16GB preferred), 256GB SSD/HDD storage, High-resolution monitors (19/20-inch minimum, with color accuracy).	25
5.	Projector: High-resolution projector (HD or 4K) for instructor presentations, large screen for the room to ensure visibility for all trainees.	01
6.	High-Speed Internet Router	01
7.	LAN Networking System (Cables and Ports)	01
8.	UPS (Uninterruptible Power Supply)	25
9.	External Hard Drive / Backup Storage	02
10.	Projection Screen	01
11.	Whiteboard / Smart Board	01
12.	Computer Tables	25
13.	Computer Chairs	25
14.	Trainer Table and Chair	02

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency

standards (CS) provided by SICIP.

For the operation of training course on Digital Business Operations, the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
