BUSINESS DEVELOPMENT & MERCHANDISING

(RMG SECTOR)

Skills for Industry Competitiveness and Innovation Program (SICIP)
Finance Division, Ministry of Finance

COPYRIGHT

The Competency Standards for Business Development and Merchandising serve as a foundational document for the development of curricula, teaching materials, and assessment tools specifically tailored for the RMG sector. This document ensures that training activities align with industry requirements, enabling individuals who successfully meet the established standards through assessment to become qualified professionals in relevant roles within the sector.

Developed under the Skills for Industry Competitiveness and Innovation Program (SICIP), this document addresses the skills requirements critical for Business Development and Merchandising. It is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutes may use the information contained in this competency standard for training activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

INTRODUCTION:

The Skills for Industry Competitiveness and Innovation Program (SICIP) has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

The Competency Standard also suggests integration of YouTube or similar platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standards are developed by a working group comprised of national and international process experts and the participation of experts from the industry to identify the competencies required of an occupation in a particular sector.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Unit of Competency
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity
- Guide the assessor in determining whether the candidate is competent.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution, relevant consultants of SICIP.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:

Generic Competencies (30 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-RMG-BDM-01-G	Apply Occupational Health and Safety (OHS) Practice in the Workplace	1 Identify OHS Policies and Procedures 2 Apply Personal Health and Safety Practices 3 Report Hazards and Risks 4 Respond to Emergencies	10
SICIP-RMG-BDM-02-G	Manage Personal and Professional Development	1 Interpret Personal Development Skills 2 Set and Meet Self-Development Priorities 3 Maintain Professional Growth and Development	10
SICIP-RMG-BDM-03-G	Support Innovation and Manage Change	1 Identify Needs for Innovation in the Workplace 2 Apply Creative Approach and Solution 3 Support Flexible and Innovative Ways of Working 4 Adapt to Emerging Technological Changes and Opportunities	10
Total Hours			30

Sector Specific Competencies (20 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-RMG-BDM-01-S	Apply Quality Procedures	1. Identify Quality Procedures 2. Follow Quality Procedure 3. Maintain Standard Procedure	10
SICIP-RMG-BDM-02-S	Apply Green Practices in RMG Sector	1. Interpret Green Concepts 2. Minimize Resource use in the Workplace 3. Implement Waste Management Practices	10
Total Hours			20

Occupation Specific Competencies (220 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP-RMG-BDM-01-O	Develop Business Opportunities in RMG Sector	1. Analyze global and local market trends for RMG products 2. Identify key customer groups and target markets 3. Evaluate feasibility and profitability 4. Establish linkages with potential buyers 5. Develop business proposals and marketing strategies 6. Present and negotiate business proposals	30
SICIP-RMG-BDM-02-O	Conduct Market Research and Customer Analysis	1. Design and develop market research 2. Analyze product pricing 3. Prepare reports and presentations on research findings 4. Forecast market trends and set business targets	30
SICIP-RMG-BDM-03-O	Apply Knowledge on Apparel Merchandising	1. Describe the principles of apparel merchandising 2. Illustrate operational flow chart of Apparel Merchandising 3. Recognize types and key features of organizations in the RMG industry 4. Explain the roles and functions of Apparel Merchandiser	15
SICIP-RMG-BDM-04-O	Build and Maintain an Effective Business Relationship	1. Establish good relationships with customers 2. Interpret apparel marketing process 3. Perform the order inquiry handling procedure	15

Code	Unit of Competency	Elements of Competency	Duration (hours)
		4. Follow the process of reporting to buyers	
SICIP-RMG-BDM-05-O	Illustrate the Process of Sourcing Material	1. Interpret types of fabric and yarn 2. Select the trims and accessories 3. Perform the procedure of preparing BOM sheet 4. Demonstrate the process of supplier's negotiation and booking	25
SICIP-RMG-BDM-06-O	Carry Out Measurement, Consumption & Cost Calculation	1. Interpret the sketch and measurement chart 2. Identify the points of measuring for apparel 3. Summarize the process of fabric consumption and calculation 4. Follow the process of trims and accessories and calculation 5. Perform cost calculation 6. Prepare costing sheet	60
SICIP-RMG-BDM-07-O	Apply the Methods of Order Follow-Up	1. Interpret the order handling procedure 2. Recognize supplier's evaluation process 3. Prepare TNA plan	25
SICIP-RMG-BDM-08-O	Interpret the Process of Commercial and Banking Activities	1. Interpret the commercial and banking requirements 2. Follow the procedures for letter of credit (L/C) 3. Identify the booking format for shipment 4. Define the payment methods	20
Total Hours			220

COMPETENCY STANDARD: BUSINESS DEVELOPMENT & MERCHANDISING

The Generic Competencies

Unit of Competency: APPLY OCCUPATIONAL HEALTH AND SAFETY (OHS) PRACTICES IN THE WORKPLACE	Nominal Duration: 10 hrs.	Unit Code: SICIP-RMG-BDM-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply occupational health and safety (OHS) practices in the workplace. It specifically includes the tasks of identifying OHS policies and procedures, applying personal health and safety practices, reporting hazards and risks, and responding to emergencies.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify OHS policies and procedures	1.1 <u>OHS policies</u> and safe operating procedures are interpreted. 1.2 Safety signs and symbols are identified and followed. 1.3 Response, evacuation procedures and other contingency measures are interpreted correctly.
2. Apply personal health and safety practices	2.1 OHS policies and procedures are interpreted in the workplace including <u>personal protective equipment (PPE)</u> . 2.2 Common health issues are recognized. 2.3 Common safety issues are identified.
3. Report hazards and risks	3.1 Hazards and risks are identified. 3.2 Hazards and risks assessment and controls are interpreted.
4. Respond to emergencies	4.1 Alarms and warning devices are responded. 4.2 <u>Emergency response plans and procedures</u> are implemented. 4.3 <u>First aid procedures</u> are identified during emergency situations.

Range of variables:

Variables	Range (may include but not limited to)
1. OHS policies	1.1 Organizational OHS policies 1.2 International OHS requirements 1.3 Fire safety rules and regulations
2. Emergency response plans and procedures	1.1 Firefighting procedures 1.2 Earthquake response procedures 1.3 Emergency response plans and procedures 1.4 Medical and first aid
3. First aid procedure	1.1 Washing of open wound

	1.2 Washing chemically infected area 1.3 Applying bandage 1.4 Taking appropriate medicine
4. Personal protective equipment	1.1 Safety glasses 1.2 Ear plugs 1.3 Gloves 1.4 Apron 1.5 Helmet 1.6 Mask 1.7 Safety shoes

Curricular Content Guide

1. Underpinning knowledge	1.1 Workplace OHS policies and procedures 1.2 Work safety procedures 1.3 Emergency response procedures: 1.3.1 Firefighting 1.3.2 Earthquake response 1.3.3 Accident response 1.4 Types of hazards (biological, chemical and physical) and their effects 1.5 OHS awareness 1.6 Personal protective equipment (PPE) 1.7 Malfunctions and resolutions
2. Underpinning skill	2.1 Identifying OHS policies and procedures 2.2 Applying personal health and safety practices 2.3 Reporting hazards and risks 2.4 Responding to emergencies 2.5 Maintaining physical well-being in the workplace 2.6 Using firefighting accessories and fire extinguishers 2.7 Applying basic first aid procedures
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Firefighting equipment 4.4 Emergency response manual 4.5 First aid kits 4.6 Learning manual

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 interpreted work safety procedures 1.2 identified OHS policies and procedures 1.3 applied personal health and safety practices 1.4 reported hazards and risks 1.5 responded to emergencies 1.6 implemented plans and procedures to respond emergency 1.7 applied basic first aid procedure
2. Methods of assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: MANAGE PERSONAL AND PROFESSIONAL DEVELOPMENT	Nominal Duration: 10 hrs.	Unit Code: SICIP-RMG-BDM-02-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to manage personal and professional development. It specifically includes the tasks of interpreting personal development skills, setting and meeting self-development priorities and maintaining professional growth and development.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret personal development skills	1.1 Objectives of personal development skills are described. 1.2 <u>Personal development skills</u> are identified. 1.3 Intra and Interpersonal relationships are maintained in the course of managing oneself. 1.4 Self-analysis is performed and personal development needs are identified.
2. Set and meet self-development priorities	1.5 Tasks are prioritized to achieve personal, team and organizational goals and objectives. 1.6 <u>Resources</u> are utilized efficiently and effectively to manage work priorities and commitments. 1.7 Economic usage and maintenance of facilities are followed as per established procedures.
3. Maintain professional growth and development	1.8 Pro activeness/zeal is demonstrated in fulfilling personal and professional growth requirements. 1.9 <u>Trainings and career opportunities</u> are identified and accessed based on job requirements. 1.10 <u>Recognitions</u> are sought/ received and demonstrated as proof of career advancement. 1.11 <u>Licenses and/or certifications</u> relevant to the job and career are obtained and renewed

Range of variables:

Variables	Range (may include but not limited to)
1. Personal Development skills	1.1 Problem-solving 1.2 Self-confidence 1.3 Adaptability 1.4 Integrity 1.5 Work ethic 1.6 Pro-activeness
2. Resources	1.7 Human 1.8 Financial 1.9 Technology

3. Trainings and career opportunities	1.10 Participation in training programs 3.1.1 Technical 3.1.2 Supervisory 3.1.3 Managerial 3.1.4 Continuing Education 1.11 Serving as Resource Persons in conferences and workshops
4. Recognitions	1.12 Recommendations 1.13 Citations 1.14 Certificate of Appreciations 1.15 Commendations 1.16 Awards 1.17 Tangible and Intangible Rewards
5. Licenses and/or certifications	1.18 National Certificates 1.19 Certificate of Competency 1.20 Support Level Licenses 1.21 Professional Licenses

Curricular Content Guide

1. Underpinning Knowledge	1.1 Importance of personal development skills 1.2 Organizational policies relevant to training and professional growth 1.3 Procedures on economic usage and maintenance of facilities 1.4 Company operations, procedures and standards 1.5 Resources in work environment
2. Underpinning Skills	1.6 Identifying personal development skills 1.7 Utilizing and improving personal development skills 1.8 Maintaining intra- and inter-personal relationship 1.9 Utilizing communication skills 1.10 Prioritizing tasks in accordance with work commitment 1.11 Utilizing resources efficiently and effectively to manage work priorities and commitments 1.12 Identifying and accessing training and career opportunities based on job requirements 1.13 Obtaining and maintaining licenses and/or certifications according to the requirement of the qualification
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource implications	The following resources must be provided:

	1.1 Workplace (simulated or actual) 1.2 Workplace procedures 1.3 Standard operating procedure 1.4 Workplace documents, signs and symbols 1.5 Codes of conduct 1.6 Projector 1.7 Learning manual
--	---

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 interpreted personal development skills 1.2 maintained intra and interpersonal relationship in the course of managing oneself 1.3 prioritized tasks according to work commitments 1.4 identified training and career opportunities 1.5 completed trainings based on the requirements of the industries 1.6 acquired and maintained licenses and/or certifications according to the requirement of the qualification
2. Methods of assessment	Competency should be assessed by: 1.7 Written test 1.8 Practical demonstration 1.9 Oral questioning 1.10 Portfolio (optional)
3. Context of assessment	1.11 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 1.12 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: SUPPORT INNOVATION AND MANAGE CHANGE	Nominal Duration: 10 hrs.	Unit Code: SICIP-RMG-BDM-03-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to support innovation and manage change. It specifically includes the tasks of identifying needs for innovation in the workplace, applying creative approach and solution, supporting flexible and innovative ways of working and adapting to emerging technological changes and opportunities.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify needs for innovation in the workplace	1.1. The need for <u>innovation</u> in scope of work is recognized. 1.2. The value of <u>innovative practices</u> in the workplace is recognized. 1.3. Existing way of working in the workplace are interpreted. 1.4. Drawbacks of existing way of working are identified. 1.5. Benefits of change are identified to make it consistent with organizational requirements. 1.6. Realistic timelines and targets for implementation of changes are set.
2. Apply creative approach and solution	2.1 Opportunities and creative approaches to implement innovation practices are identified 2.2 Creative approaches of coworkers pertaining to work practices are analyzed and incorporated 2.3 Innovation in accordance with organizational requirements changes are implemented
3. Support flexible and innovative ways of working	3.1 Maximum innovative opportunities are promoted. 3.2 Work assignments to facilitate innovative work skills are organized. 3.3 Team members are provided with guidance and coaching on innovation in the workplace. 3.4 Models of innovative work practice are provided and discussed 3.5 Appropriate environment for learning and innovation is maintained.
4. Adapt to emerging technological changes and opportunities	4.1 Usages of different <u>technologies</u> is determined based on job requirements. 4.2 Appropriate technology is selected as per work specifications. 4.3 Relevant technology is effectively used in carrying out functions.

	4.4 Appropriate implementation tools are used as per task requirement.
--	--

Range of variables:

Variables	Range (may include but not limited to)
1. Innovative practices	1.1. Self-directed support to implement new ideas 1.2. Collaborative arrangement to apply new method of working 1.3. Making scope of work more efficient to use new technology
2. Innovation	1.4. New ideas 1.5. Different ideas 1.6. New methods of doing work 1.7. Use of new Technology
3. Technologies	1.8. Office technology 1.9. Industrial technology 1.10. System technology 1.11. Information technology 1.12. Training technology

Curricular Content Guide

1. Underpinning Knowledge	1.1. Importance of innovation and creativity 1.2. Workplace procedures and current practice in own scope of work 1.3. Support required to generate creative ideas 1.4. Common effects of change and innovation in the workplace 1.5. Industrial and organizational context of change 1.6. Organization's policies, plans, procedures and structure 1.7. Resources required by the organization's operations 1.8. Awareness on technology and its function 1.9. Operating instructions and applicable software 1.10. Company policy in relation to relevant technology 1.11. Technology adaptability
2. Underpinning Skills	1.1. Identifying resources required for creativity and innovation 1.2. Identifying issues and concerns of one's scope of work 1.3. Encouraging co-workers to generate and develop ideas 1.4. Evaluating potential obstacles to and opportunities for creativity and innovation 1.5. Sharing best practices related to innovation and creativity 1.6. Applying relevant technology 1.7. Using updated machine and Software 1.8. Acquiring troubleshooting skills 1.9. Identifying current industry standard diagnostic tools 1.10. Identifying common malfunctions and resolutions

	thereof 1.11. Determining usages of different technologies based on job requirements 1.12. Using appropriate implementation tools as per task requirement
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Eagerness to learn 3.5 Tidiness and timeliness 3.6 Environmental concerns 3.7 Respect for rights of peers and seniors at workplace 3.8 Communication with peers and seniors at workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/ laptop/notebook 4.3 Software 4.4 Digital Tools (PLM systems, automation-cutting/sewing robots) 4.5 Sustainability Tech (Water-saving dyeing machines, waste reduction systems) 4.6 Projector 4.7 Learning manual

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 identified need for innovation in the workplace 1.2 applied creative approach and solution 1.3 described common effects of change and innovation in the workplace 1.4 interpreted resources required by the organization's operations 1.5 supported flexible and innovative ways of working 1.6 shared best practices related to innovation and creativity 1.7 adapted to emerging technological changes and opportunities 1.8 identified common malfunctions and resolutions thereof 1.9 used appropriate implementation tools as per task requirement
2. Methods of assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated

	work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.
--	---

The Sector Specific Competencies

Unit of Competency: APPLY QUALITY PROCEDURES	Nominal Duration: 10 hrs.	Unit Code: SICIP-RMG-BDM-01-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply quality procedures. It specifically includes the tasks of identifying quality procedure, following quality procedure and maintaining standard procedure.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify quality procedure	1.1. <u>Manuals</u> and guidelines for RMG production processes are collected as per sample specifications. 1.2. The importance of manuals in ensuring quality standards is recognized. 1.3. Instructions and procedures for quality control are identified. 1.4. Required information is collected from manuals. 1.5. Performance measurement systems are identified.
2. Follow quality procedure	2.1 Instructions and procedures are followed strictly and duties are performed in accordance with demand of <u>quality improvement system</u> . 2.2 Concept of supplying product or service to meet the <u>customer quality requirements</u> is understood and accordingly applied. 2.3 Conformance to specifications is ensured. 2.4 Defects are detected and reported to the relevant authority according to standard operating procedures
3. Maintain standard procedure	3.1 Performance is assessed at regular interval. 3.2 Specifications and standard operating procedures are established 3.3 Quality of product is checked and verified. 3.4 Quality control and quality assurance system procedures for each job are followed. 3.5 Conformance to specification is ensured in every case at all situations.

Range of Variables

Variable	Range
	May include but not limited to:
1. Manuals	1.1 Buyers' specification manual 1.2 Compliance manual 1.3 Maintenance procedure manual

	1.4 Periodic maintenance manual 1.5 Quality manual 1.6 Signs and symbols, instruction manuals
2. Quality improvement system.	2.1. Quality inspection 2.2. Testing 2.3. Quality control 2.4. Quality assurance 2.5. Total Quality Management
3. Customer quality requirements	3.1. Performance 3.2. Features 3.3. Reliability 3.4. Conformance 3.5. Aesthetics 3.6. Durability

Curricular Content Guide

1. Underpinning Knowledge	1.1 Importance of maintaining quality 1.2 quality, quality assurance, quality control, quality inspection, quality improvement and total quality control 1.3 Process and procedures for improving and maintaining quality 1.4 Procedures for addressing defects 1.5 Factors, which affect successful implementation of the quality systems and procedures 1.6 Awareness of specifications and standard operating procedures
2. Underpinning Skills	2.1. Improving and maintaining quality 2.2. Collecting manuals and guidelines for RMG production processes as per sample specifications 2.3. Identifying performance measurement systems 2.4. Performing duties in accordance with demand of quality improvement system 2.5. Applying concept of supplying product or service to meet the customer quality requirements 2.6. Keeping records within the quality improvement system in the workplace 2.7. Implementing quality systems and procedures 2.8. Checking and verifying quality of product as per quality control and quality assurance system procedures 2.9. Establishing specifications and standard operating procedures
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness

	3.7 Respect for rights of peers and seniors in workplace 3.8 Communication with peers, sub-ordinates and seniors in workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 ERP/QMS software 4.3 SOPs, quality manuals, structured QC systems 4.4 Inspection equipment/tracking tools 4.5 Projector 4.6 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 identified quality procedures 1.2 interpreted quality, quality assurance, quality control, quality inspection, quality improvement and total quality management 1.3 described specifications and standard operating procedures 1.4 checked and verified quality of product and service as per quality control and quality assurance system procedures
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY GREEN PRACTICES IN RMG SECTOR	Nominal Duration: 10 hrs.	Unit Code: SICIP-RMG-BDM-02-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply green practices in RMG sector. It specifically includes the tasks of interpreting green concepts, minimizing resources use in the workplace and implementing waste management practices.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret green concepts	1.1 <u>Principles of green practices in RMG (Ready-Made Garment)</u> manufacturing are explained. 1.2 Key terms and symbols in RMG production processes are identified. 1.3 <u>Sources of environmental impacts</u> during RMG manufacturing activities are identified. 1.4 RMG manufacturing activities use are explained. 1.5 <u>Ways of mitigating environmental impacts</u> in RMG manufacturing are explained.
2. Minimize resources use in the workplace	2.1 Water, energy, and raw material consumption in RMG manufacturing are documented. 2.2 <u>Recyclable and non-recyclable items</u> in RMG production processes are identified. 2.3 Procedures to reduce resource consumption in RMG manufacturing are implemented. 2.4 Sustainable alternatives in RMG manufacturing are explored and applied.
3. Implement waste management practices	3.1 <u>Different types of waste in RMG manufacturing</u> are identified. 3.2 Hazardous waste in RMG production is disposed of according to environmental regulations. 3.3 Green habits to reduce waste in personal and professional life are practiced.

Range of Variables

Variable	Range
	May include but not limited to:
1. Principles of green practices in RMG (Ready-Made Garment)	1.1 Reducing energy consumption in RMG manufacturing processes. 1.2 6R for waste management in RMG production: 1.2.1 Refuse unnecessary materials and processes 1.2.2 Reduce resource consumption and waste

	generation 1.2.3 Reuse materials within the production process 1.2.4 Recycle materials for future use in RMG manufacturing 1.2.5 Recover usable resources from waste 1.2.6 Repair damaged products or materials instead of discarding them 1.3 Use of sustainable materials in RMG production with low environmental impact. 1.4 Recycling of materials used in the RMG manufacturing process. 1.5 Sustainable transportation methods for moving goods and materials within the RMG sector.
2. Sources of environmental impacts	2.1 Air Pollution in RMG Manufacturing 2.2 Water Pollution in RMG Manufacturing 2.3 Soil Degradation in RMG Manufacturing 2.4 Noise Pollution in RMG Manufacturing 2.5 Waste Generation in RMG Manufacturing 2.6 Resource Depletion in RMG Manufacturing
3. Ways of mitigating environmental impacts	3.1 Utilizing energy-efficient equipment in RMG production processes. 3.2 Adopting renewable energy sources for RMG manufacturing operations. 3.3 Implementing site protection measures to prevent pollution and reduce environmental. 3.4 Using reusable materials in production processes. 3.5 Choosing sustainable materials with low environmental impact for garment production. 3.6 Using noise-reducing equipment and scheduling production work. 3.7 Optimizing logistics and delivery to reduce transportation emissions and improve overall supply chain efficiency.
4. Recyclable and non-recyclable items	4.1 Recyclable Items in RMG Manufacturing 4.1.1 Metal components. 4.1.2 Wooden materials. 4.1.3 Fabric scraps and textile fibers. 4.1.4 Plastic items, including buttons, tags, and packaging materials. 4.2 Non-Recyclable Items in RMG Manufacturing 4.2.1 Paints, coatings, and dyes. 4.2.2 Contaminated materials. 4.2.3 Treated wood and other materials.
5. Different types of waste in RMG manufacturing	5.1 Fabric waste from cutting and trimming processes. 5.2 Wood waste from packaging or display materials. 5.3 Metal waste from trims, buttons, zippers, and other hardware. 5.4 Textile waste, including scraps from garment production

	and defective products. 5.5 Plastic waste, such as packaging materials, labels, and plastic buttons. 5.6 Solid waste from chemical treatments or dyeing processes. 5.7 Packaging waste from raw materials and finished products.
--	--

Curricular Content Guide

1. Underpinning Knowledge	1.1 Principles of green practices in RMG (Ready-Made Garment) manufacturing 1.2 Sources of environmental impacts 1.3 Ways of mitigating environmental impacts in RMG manufacturing processes 1.4 Recyclable and non-recyclable items 1.5 Different types of waste in RMG manufacturing 1.6 Hazardous wastes in RMG production 1.7 Green habits to reduce waste
2. Underpinning Skills	2.1 Identifying sources of environmental impacts during RMG manufacturing activities 2.2 Identifying re-cyclable and non-recyclable items in RMG production processes 2.3 Implementing procedures to reduce resource consumption in the workplace 2.4 Exploring and applying sustainable alternatives in RMG manufacturing 2.5 Identifying different types of wastes in RMG manufacturing 2.6 Disposing hazardous wastes in RMG production according to environmental regulations 2.7 Practicing green habits to reduce wastes in personal and professional life
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 Projector 4.3 Learning manual 4.4 Energy-efficient equipment 4.5 Reusable materials in production processes

	4.6 Digital monitoring system
--	-------------------------------

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted green concepts and 1.2 explained ways of mitigating environmental impacts in RMG manufacturing processes 1.3 described hazardous wastes in RMG production 1.4 implemented procedures to reduce resource consumption in the workplace 1.5 implemented waste management practices 1.6 practiced green habits to reduce wastes
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

The Occupation Specific Competencies

Unit of Competency: DEVELOP BUSINESS OPPORTUNITIES IN RMG SECTOR	Nominal Duration: 30 Hrs.	Unit Code: SICIP-RMG-BDM-01-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to develop business opportunities in RMG sector. It specifically includes the tasks of analyzing global and local market trends for RMG products, identifying key customer groups and target markets, evaluating feasibility and profitability, establishing linkages with potential buyers, developing business proposals and marketing strategies, and presenting and negotiating business proposals.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Analyze global and local market trends for RMG products	1.1 <u>Types of markets</u> are identified and described. 1.2 Retailer brands in global and local markets are listed and categorized. 1.3 Market trends for global and local RMG sectors are identified for demand and style preferences. 1.4 <u>Seasonal trends</u> are identified and analyzed. 1.5 Findings are presented to support business and merchandising decisions.
2. Identify key customer groups and target markets	2.1 <u>Key customer groups</u> are identified and categorized. 2.2 Customer needs and preferences are analyzed. 2.3 Market segments are evaluated and prioritized to focus business and marketing efforts. 2.4 Customer profiles and market data are identified and collected.
3. Evaluate feasibility and profitability	3.1 <u>Feasibility study parameters</u> are identified. 3.2 <u>Relevant financial data</u> are collected and reviewed. 3.3 Market conditions and competitor analysis are evaluated. 3.4 <u>Profitability metrics</u> are calculated and interpreted.
4. Establish linkages with potential buyers	4.1 Potential buyers are identified through research and market analysis. 4.2 Trade shows, online platforms and industry events is participated. 4.3 <u>Communication materials</u> are used during networking activities. 4.4 Information and contacts are gathered from trade shows, events, and online platforms.
5. Develop business proposals and	5.1 Business objectives and target markets are identified. 5.2 Market research data is collected to identify

marketing strategies	opportunities and challenges. 5.3 Business proposals are prepared. 5.4 Marketing strategies are prepared. 5.5 Proposals and strategies are reviewed. 5.6 Business proposals and marketing strategies are documented.
6. Present and negotiate business proposals	6.1 Key proposal features are explained to potential clients. 6.2 Negotiation strategies are applied. 6.3 Presentations of business proposals are conducted. 6.4 Terms and conditions are discussed during negotiations. 6.5 Negotiations are finalized and approved by relevant authorities.

Range of Variables

Variable	Range (Includes but not limited to):
1. Types of markets	1.1 Traditional Markets 1.1.1 USA 1.1.2 EU 1.1.3 Canada 1.1.4 UK 1.2 Non-Traditional Markets 1.2.1 Japan 1.2.2 India 1.2.3 Korea
2. Seasonal trends	2.1 Spring 2.2 Summer 2.3 Autumn 2.4 Winter
3. Key customer groups	3.1 Wholesale 3.2 Retail 3.3 Online 3.4 Franchise
4. Feasibility study parameters	4.1 Market demand 4.2 Resource availability 4.3 Operational capacity
5. Relevant financial data	5.1 Cost estimates 5.2 Revenue projections 5.3 Capital requirements
6. Profitability metrics	6.1 Gross margin 6.2 Net profit 6.3 Return on investment (ROI)
7. Communication materials	7.1 Business cards 7.2 Brochures 7.3 Digital profiles/profiles

8. Marketing strategies	8.1 Target audience 8.2 Positioning 8.3 Pricing 8.4 Promotion 8.5 Distribution plans
-------------------------	--

Curricular Content Guide

1. Underpinning Knowledge	1.1 Awareness of types of markets and retailer brands in global and local markets 1.2 Familiar with main customer groups and target markets 1.3 Feasibility study parameters and relevant financial data 1.4 Well-informed of marketing and communication strategies 1.5 Awareness of key proposal features
2. Underpinning Skills	2.1 Identifying market trends for global and local RMG sectors for demand and style preferences 2.2 Analyzing seasonal trends of RMG products and supporting business and merchandising decisions 2.3 Identifying and categorizing key customer groups 2.4 Identifying and collecting customer profiles and market data 2.5 Collecting relevant financial data and calculating profitability metrics 2.6 Establishing linkages and maintaining communication networks with potential buyers 2.7 Developing and documenting business proposals and marketing strategies 2.8 Presenting business proposals and finalizing negotiations
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 ERP/CRM/design software 4.3 Computer, internet 4.4 Tools for market analysis, buyer behavior and sales management 4.5 Warehousing, buyer relationship 4.6 Market research, trend analysis, virtual merchandising platform

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 described types of markets and retailer brands in global and local markets 1.2 explained feasibility study parameters and relevant financial data 1.3 identified market trends for global and local RMG sectors for demand and style preferences 1.4 identified and categorized key customer groups and market data 1.5 collected relevant financial data and calculated profitability metric 1.6 established linkages and maintained communication networks with potential buyers 1.7 developed and documented business proposals and marketing strategies
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by nationally certified assessor or occupation-specific industry expert.

Unit of Competency: CONDUCT MARKET RESEARCH AND CUSTOMER ANALYSIS	Nominal Duration: 30 Hrs.	Unit Code: SICIP-RMG-BDM-02-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to conduct market research and customer analysis. It specifically includes the tasks of designing and developing market research, analyzing product pricing, preparing reports and presentations on research findings, and forecasting market trends and setting business targets.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Design and develop market research	1.1 Product objectives are identified and defined. 1.2 Seasoning plans are designed to segment the market with buying behavior. 1.3 Product specifications and customer requirements are identified for research focus. 1.4 Current market trends and competitors are interpreted and analyzed. 1.5 Product style preferences are researched and summarized. 1.6 Research methodologies are selected and applied to gather relevant data.
2. Analyze product pricing	2.1 Materials pricing is collected, reviewed, and analyzed based on supplier quotes and market rates. 2.2 <u>Operation costs</u> are calculated and documented. 2.3 <u>Promotional costs</u> are identified and incorporated into the pricing analysis. 2.4 Profit margins are calculated and evaluated.
3. Prepare reports and presentations on research findings	3.1 Research data and findings are collected and verified. 3.2 Appropriate report formats and presentation templates are selected according to organizational standards. 3.3 Reports and presentations are prepared and reviewed. 3.4 Research reports and presentations are delivered.
4. Forecast market trends and set business targets	4.1 Historical data (3-5 years) related to product performance is collected, reviewed, and analyzed. 4.2 Sales history is examined to identify patterns, growth rates, and seasonal fluctuations. 4.3 Global economic situation is monitored and interpreted to assess its impact on market trends. 4.4 Competitor and industry analyses are conducted. 4.5 Market trends are forecasted using collected data. 4.6 Business targets are set based on trend forecasts, sales potential, and strategic objectives.

	4.7 Forecast reports and business targets are documented.
--	---

Range of Variables

Variable	Range (Includes but not limited to):
1. Operation costs	1.1 Labor 1.2 Overhead 1.3 Production expenses 1.4 Utility
2. Promotional costs	2.1 Advertising 2.2 Discounts 2.3 Marketing campaigns

Curricular Content Guide

1. Underpinning Knowledge	1.1 Current market trends and competitors, and product style preferences 1.2 Research methodologies 1.3 Appropriate research report formats and presentation templates 1.4 Operation and promotional costs
2. Underpinning Skills	2.1 Identifying product specifications and customer requirements 2.2 Analyzing product pricing, current market trends and competitors 2.3 Identifying promotional costs and incorporating into the pricing analysis 2.4 Collecting and verifying research data and findings 2.5 Preparing and delivering research reports and presentations 2.6 Collecting and analyzing historical data (3-5 years) related to product performance 2.7 Forecasting market trends using collected data on 2.8 Setting business targets based on trend forecasts, sales potential and strategic objectives
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 Research tools/checklist 4.3 Survey platforms, CRM systems, analytics software 4.4 Data collection, analysis, reporting

	4.5 Internal data access, competitor intelligence, alignment with business goals
--	--

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 explained current market trends and competitors, and product style preferences 1.2 described research methodologies 1.3 identified product specifications and customer requirements 1.4 analyzed product pricing, current market trends and competitors 1.5 forecasted market trends using relevant collected data 1.6 set business targets based on trend forecasts, sales potential and strategic objectives
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY KNOWLEDGE ON APPAREL MERCHANDISING	Nominal Duration: 15 Hrs.	Unit Code: SICIP-RMG-BDM-03-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply knowledge on apparel merchandizing. It specifically includes the tasks of describing the principles of apparel merchandising, illustrating operational flow chart of apparel merchandising, recognizing types and key features of organizations in the RMG industry, and explaining the roles and functions of apparel merchandiser.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Describe the principles of apparel merchandising	1.1 <u>Key principles of apparel merchandising</u> are identified and listed. 1.2 Importance of each principle to merchandising activities are explained based on industry standards. 1.3 Different <u>types of merchandising</u> in the apparel industry are identified and listed.
2. Illustrate operation flow chart of apparel merchandising	2.1 Key processes in apparel merchandising are identified and listed accurately. 2.2 Sequential steps of the merchandising operation are arranged logically and clearly. 2.3 Organizational policies, guidelines and code of conduct interpreted. 2.4 <u>Operation flow chart</u> is interpreted.
3. Recognize types and key features of organizations in the RMG industry	3.1 Types of RMG industries are listed and their key differentiators are described. 3.2 <u>Key organizational features</u> of RMG industries are summarized based. 3.3 Source companies supplying raw materials and fabrics are listed. 3.4 Buyer organizations including international and domestic buyers are identified and listed.
4. Explain the roles and functions of apparel merchandiser	4.1 <u>Key roles of an apparel merchandiser</u> are identified. 4.2 Functions performed by the merchandiser are described using appropriate terminology. 4.3 Relationship between roles and merchandising activities is explained based on industry practices.

Range of Variables

Variable	Range (Includes but not limited to):
1. Key principles of apparel merchandising	1.1 Understanding buyer requirements 1.2 Product planning and development 1.3 Cost and price management

	1.4 Quality assurance and compliance 1.5 Supply chain coordination 1.6 Inventory and lead time management 1.7 Effective communication with stakeholders 1.8 Market trend analysis 1.9 Sustainable and green practices 1.10 Use of technology and innovation
2. Types of merchandising	2.1 Retail Merchandising 2.2 Visual Merchandising 2.3 Digital Merchandising 2.4 Fashion Merchandising 2.5 Product Merchandising 2.6 In-Store Merchandising 2.7 Promotional Merchandising
3. Operation flow chart	3.1 Order Receiving & Review 3.2 Line Planning & Capacity Assessment 3.3 Material Sourcing & Procurement 3.4 Sampling & Approval Process 3.5 Production Planning & Scheduling 3.6 Quality Control & Inspection 3.7 Logistics & Shipment Coordination 3.8 Documentation & Record Keeping 3.9 Communication & Reporting 3.10 Post-Delivery Follow-up
4. Key organizational features	4.1 Corporate culture 4.2 Goals 4.3 Policies
5. Key roles of an apparel merchandiser	5.1 Market knowledge 5.2 Product development 5.3 Interface with sales 5.4 Interface with manufacturing 5.5 Order follow up 5.6 Reporting 5.7 Shipment follow up 5.8 Payment and feedback Collection

Curricular Content Guide

1. Underpinning Knowledge	1.1 Key principles of apparel merchandising 1.2 Importance of each principle to merchandising activities 1.3 Organizational policies, guidelines and code of conduct 1.4 Operation flow chart 1.5 Key organizational features and types of RMG industries 1.6 Functions performed by the merchandiser
2. Underpinning Skills	2.1 Identifying and listing key principles of apparel merchandising 2.2 Identifying and listing different types of merchandising in the apparel industry

	2.3 Identifying and listing sequentially key processes in apparel merchandising 2.4 Identifying and listing buyer organizations including international and domestic buyers 2.5 Identifying key roles of an apparel merchandiser
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 Digital systems 4.3 Sustainable logistics and green practices 4.4 Use of technology and innovation

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted key principles of apparel merchandising 1.2 explained operation flow chart 1.3 explained the roles and functions of apparel merchandiser 1.4 identified different types of merchandising in the apparel industry 1.5 identified and listed sequentially key processes in apparel merchandising 1.6 identified and listed buyer organizations including international and domestic buyers
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by nationally certified assessor or occupation-specific industry expert.

Unit of Competency: BUILD AND MAINTAIN AN EFFECTIVE BUSINESS RELATIONSHIP	Nominal Duration: 15 Hrs.	Unit Code: SICIP-RMG-BDM-04-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to build and maintain an effective business relationship. It specifically includes the tasks of establishing good relationships with customers, interpreting apparel marketing process, performing the order inquiry handling procedure and following the process of reporting to buyers.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Establish good relationships with customers	1.1 Clear and effective communication with customers is maintained. 1.2 liaison is maintained and <u>rapport building techniques</u> are applied and practiced. 1.3 Customer expectations are managed effectively by providing accurate information. 1.4 Positive relationships with customers are maintained.
2. Interpret apparel marketing process	2.1 Apparel <u>marketing processes</u> are comprehended and stated. 2.2 Product based marketing process is interpreted. 2.3 Importance of effective business communication with customers is recognized. 2.4 Market segments are identified with key details and data.
3. Perform the order inquiry handling procedure	3.1 <u>Order inquiry handling procedure</u> is listed. 3.2 Information of style, materials from buyer is collected. 3.3 Receiving order confirmation is interpreted. 3.4 Execution process of garments orders is explained.
4. Follow the process of reporting to buyers	4.1 <u>Process of reporting to buyers</u> is followed according to company guidelines and procedures. 4.2 Information and records are reviewed and maintained. 4.3 New order information is documented and integrated with existing records to ensure up-to-date reporting. 4.4 Reports are prepared and communicated to buyers in a timely and professional manner.

Range of Variables

Variable	Range (Includes but not limited to):
1. Rapport building techniques	1.1 Empathy 1.2 Timely & regular communication 1.3 Commitment to quality 1.4 Adherence to deadlines of executing order

	1.5 Transparency in dealings 1.6 Integrity and honesty 1.7 Advance communication on schedule changes if required
2. Marketing process	2.1 7Ps 2.1.1 Product 2.1.2 Price 2.1.3 Place 2.1.4 Promotion 2.1.5 People 2.1.6 Process 2.1.7 Physical Evidence
3. Order inquiry handling procedure	3.1 Lead time/space availability 3.2 Consumption and Costing 3.3 Pricing and profitability 3.4 Negotiation
4. Process of reporting to buyers	4.1 Inquiry acknowledgement 4.2 Order confirmation 4.3 Sampling Status 4.4 Production Report 4.5 Shipment Status

Curricular Content Guide

1. Underpinning Knowledge	1.1 Clear and effective communication and positive relationships with customers 1.2 Apparel marketing processes 1.3 Importance of effective business communication with customers 1.4 Execution process of garments orders 1.5 Process of reporting to buyers according to company guidelines and procedures
2. Underpinning Skills	2.1 Maintaining liaison, and applying and practicing rapport building techniques 2.2 Managing customer expectations effectively by providing accurate information 2.3 Identifying market segments with key details and data 2.4 Carrying out order inquiry handling procedure 2.5 Collecting information of style, materials from buyer 2.6 Documenting and integrating new order information with existing records to ensure up-to-date reporting 2.7 Preparing and communicating reports to buyers in a timely and professional manner
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn

	3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 CRM systems (managing contacts and interactions) 4.4 Internet connectivity (e-mail, video conferencing, chat platforms) 4.5 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 described apparel marketing processes 1.2 interpreted execution process of garments orders 1.3 explained the process of reporting to buyers according to company guidelines and procedures 1.4 maintained liaison, and applied and practiced rapport building techniques 1.5 carried out order inquiry handling procedure 1.6 prepared and communicated reports to buyers in a timely and professional manner
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: ILLUSTRATE THE PROCESS OF SOURCING MATERIAL	Nominal Duration: 25 Hrs.	Unit Code: SICIP-RMG-BDM-05-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to illustrate the process of sourcing material. It specifically includes the tasks of interpreting types of fabric and yarn, selecting the trims and accessories, performing the procedure of preparing BOM sheet and demonstrating the process of supplier's negotiation and booking.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret types of fabric and yarn	1.1 Different <u>types of fabrics</u> are categorized and compared 1.2 Fabrics are selected and collected according to work order. 1.3 <u>Types of yarn</u> are identified and classified.
2. Select the trims and accessories	2.1 Classification of different types of trims and accessories is carried out. 2.2 <u>Trims and accessories</u> are collected as per work order specifications.
3. Perform the procedure of preparing BOM sheet	3.1 Purpose of <u>BOM sheet</u> is recognized. 3.2 Procedure of preparing BOM sheet is interpreted. 3.3 BOM (Bill of Material) for each of the styles in the collection is prepared.
4. Demonstrate the process of supplier negotiation and booking	4.1 <u>Negotiation process</u> of booking is demonstrated in line with industry best practices. 4.2 Booking procedures are followed. 4.3 Price and availability of materials is negotiated with suppliers with emphasis on timely delivery. 4.4 Negotiation process for booking is carried out. 4.5 Booking procedures are followed to ensure accuracy and compliance. 4.6 Supplier terms and conditions are reviewed and agreed upon before finalizing the booking.

Range of Variables

Variable	Range (Includes but not limited to):
1. Types of fabrics	Woven 1.1 Twill Fabric 1.2 Canvas fabric 1.3 Plain/Poplin weaved fabric 1.4 Herringbone 1.5 Oxford fabric 1.6 Dobby Fabric

	1.7 Denim fabric Knit 1.8 Weft knitted fabrics 1.9 Jacquard 1.10 Warp knitted fabrics
2. Types of yarn	2.1 Cotton and cotton blended 2.2 Acrylic and acrylic blended 2.3 Viscose/rayon/modal and blended 2.4 Wool (Cashmere/cashmere blended, merino, alpaca)
3. Trims and accessories	Trims 3.1 Sewing Thread 3.2 Label 3.3 Button 3.4 Zipper 3.5 Elastic 3.6 Lace 3.7 Rivet 3.8 Draw cord/ String 3.9 Stopper 3.10 Shoulder Pad 3.11 Velcro 3.12 Applique embroidery 3.13 Collar stays Accessories 3.14 Hang Tag 3.15 Radio-Frequency Identification (RFID) 3.16 Collar stand 3.17 Carton 3.18 Carton sticker 3.19 Hanger 3.20 Back board 3.21 Neck board 3.22 Butterfly 3.23 Gum Tape 3.24 Price ticket 3.25 Poly bag 3.26 Safety Pin 3.27 Plastic clip 3.28 Tissue paper 3.29 Micro pack
4. BOM sheet	4.1 Style number 4.2 Order number 4.3 Product description 4.4 Materials description 4.5 Consumption
5. Negotiation process	5.1 Identifying raw material requirements 5.2 Supplier identification and evaluation

	5.3 Initial supplier contact 5.4 Price negotiation 5.5 Quality assurance and sample approvals 5.6 Order confirmation and contract signing 5.7 Delivery and logistics negotiation 5.8 Ongoing relationship and performance review
--	---

Curricular Content Guide

1. Underpinning Knowledge	1.1 Types of fabric and yarn 1.2 Purpose and procedure of preparing BOM sheet 1.3 Negotiation process and booking procedure
2. Underpinning Skills	2.1 Selecting and collecting fabrics according to work order 2.2 Identifying and classifying types of fabric and yarn 2.3 Carrying out classification of different types of trims and accessories 2.4 Collecting trims and accessories as per work order specifications 2.5 Preparing BOM (Bill of Material) for each of the styles in the collection 2.6 Demonstrating the process of supplier negotiation and booking in line with industry best practices 2.7 Reviewing and agreeing upon supplier terms and conditions before finalizing the booking
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 CRM systems (managing contacts and interactions) 4.4 Internet connectivity (e-mail, video conferencing, chat platforms) 4.5 Supplier negotiation process and booking procedure in line with industry best practices 4.6 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 described purpose and procedure of preparing BOM sheet 1.2 explained negotiation process and booking procedure 1.3 selected and collected fabrics according to work order
-----------------------------------	---

	1.4 collected trims and accessories as per work order specifications 1.5 demonstrated the process of supplier negotiation and booking in line with industry best practices
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: CARRY OUT MEASUREMENT, CONSUMPTION & COST CALCULATION	Nominal Duration: 60 Hrs.	Unit Code: SICIP-RMG-BDM-06-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to carry out measurement, consumption and cost calculation. It specifically includes the tasks of interpreting the sketch and measurement chart, identifying the points of measuring for apparel, summarizing the process of fabric consumption and calculation, following the process of trims and accessories consumption and calculation, performing cost calculation and preparing costing sheet.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret the sketch and measurement chart	1.1 <u>Sketch</u> is interpreted as per <u>Tech. Pack</u> received. 1.2 Approval and updating of all work sheets are done as per company guidelines. 1.3 <u>Measurement charts</u> are recognized and followed.
2. Identify the points of measuring for apparel	2.1 Points of measuring in the <u>Measurement Guide</u> are followed. 2.2 <u>Level of tolerance</u> specified in the measuring guide are identified.
3. Summarize the process of fabric consumption and calculation	3.1 Procedures of <u>fabric consumption</u> are identified and described. 3.2 Fabric <u>consumption formulas</u> are applied based on the specifications of the work order. 3.3 Process of <u>cost calculation</u> is identified and explained with reference to the sample provided. 3.4 Fabric consumption data and cost calculations are reviewed.
4. Follow the process of trims and accessories consumption and calculation	4.1 The process of <u>Trims and Accessories consumption calculation</u> is identified 4.2 Costing of the trims and accessories consumption is calculated. 4.3 Consumption format is prepared as per sample
5. Perform cost calculation	5.1 The process of <u>CM (Cost of Manufacturing)</u> calculation is interpreted and explained. 5.2 CM calculation for casual and formal apparel is prepared following the standard costing procedures. 5.3 CMPT (Cut, Make, Packing, and Trim) cost calculations are carried out and documented. 5.4 The accuracy of the costing calculation is verified against established benchmarks.
6. Prepare costing sheet	6.1 <u>Costing format</u> is identified. 6.2 All relevant cost elements are included.

	6.3 FOB price is prepared in accordance with product specifications.
	6.4 The prepared FOB price is reviewed.

Range of Variables

Variable	Range (Includes but not limited to):
1. Sketch	1.1 Styling of the products 1.2 Materials description
2. Tech pack	2.1 Flat sketch 2.2 Fabrics 2.3 Trims and accessories details 2.4 Measurement chart
3. Measurement charts	3.1 Point of measure 3.2 Size range 3.3 Tolerance limit
4. Measuring guide	4.1 Vertical measurement 4.2 Horizontal measurements
5. Level of tolerance	5.1 Parts of apparel 5.2 Point to measure 5.3 Unit of tolerance 5.4 Tolerance percentage
6. Fabric consumption	6.1 Types of fabric 6.2 Types of apparel 6.3 Grain line orientation 6.4 Fabric width 6.5 Marker efficiency 6.6 Shrinkage of the fabric 6.7 Size ratio breaks up
7. Consumption formula	7.1 Length and width of the parts 7.2 Sewing allowances 7.3 Formula for woven 7.4 Formula for knit 7.5 Formula for sweater 7.6 Fabric weight (GSM) 7.7 Fabrics width 7.8 Wastages percentage
8. Trims and Accessories consumption	8.1 Types of accessories 8.2 Units of accessories 8.3 Number of pieces in the apparel
9. Cost Calculation	9.1 Fabric consumption 9.2 Trims and accessories consumption 9.3 Unit price 9.4 Cost of manufacturing (CM) 9.5 Embellishment (Print/ Embroidery) charge 9.6 Cost of washing 9.7 Commercial and banking cost 9.8 Testing and inspection charge

10. CM calculation	10.1 Fixed cost of the factory 10.2 Overhead cost 10.3 Per day per machine cost 10.4 Daily production per line 10.5 Working hour 10.6 SMV 10.7 Production efficiency
11. Costing format	11.1 Key components of costing format 11.2 Cost sheet 11.3 Material description 11.4 Consumption 11.5 Unit price
12. FOB price	12.1 Agency/buying commission 12.2 Total cost 12.3 Profit percentage

Curricular Content Guide

1. Underpinning Knowledge	1.1 Sketch (as per Tech. Pack) and measurement chart 1.2 Points of measuring in the Measurement Guide 1.3 Procedures of fabric consumption and fabric consumption formulas 1.4 Process of CM (Cost of Manufacturing) calculation
2. Underpinning Skills	2.1 Identifying level of tolerance specified in the measurement guide 2.2 Applying fabric consumption formulas based on the specifications of the work order 2.3 Identifying process of cost calculation with reference to the sample provided 2.4 Identifying the process of trims and accessories consumption calculation 2.5 Calculating costing of the trims and accessories consumption 2.6 Preparing CM calculation for casual and formal apparel following the standard costing procedures 2.7 Carrying out CMPT (Cut, Make, Packing and Trim) cost calculations 2.8 Verifying accuracy of the costing calculation against established benchmarks 2.9 Preparing FOB price in accordance with product specifications
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the

	workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Tech pack, measuring tools 4.4 ERP, Excel 4.5 CAD/marker planning software 4.6 Projector 4.7 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted sketch (as per Tech. Pack) and measurement chart 1.2 described procedures of fabric consumption and fabric consumption formulas 1.3 applied fabric consumption formulas based on the specifications of the work order 1.4 identified process of cost calculation with reference to the sample provided 1.5 calculated costing of the trims and accessories consumption 1.6 prepared CM calculation for casual and formal apparel following the standard costing procedures 1.7 prepared FOB price in accordance with product specifications
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY THE METHODS OF ORDER FOLLOW UP	Nominal Duration: 25 Hrs.	Unit Code: SICIP-RMG-BDM-07-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply the methods of order follow-up. It specifically includes the tasks of interpreting the order handling procedure, recognizing supplier's evaluation process and preparing TNA plan.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret the order handling procedure	1.1 Order handling procedure is identified and explained. 1.2 Steps involved in the order processing are outlined. 1.3 All information of <u>approved samples</u> is collected, recorded and maintained. 1.4 Order details are reviewed. 1.5 Order flow is tracked and monitored.
2. Perform supplier's evaluation process	2.1 Methods of <u>order follow-up</u> are interpreted and explained. 2.2 Supplier evaluation process is carried out. 2.3 Evaluation results are documented and communicated.
3. Prepare TNA plan	3.1 Time and Action (TNA) plan format is identified. 3.2 Key activities and milestones are identified and prioritized in the TNA plan. 3.3 Timeline for each merchandising task is established and documented. 3.4 Resources required for merchandising process are identified. 3.5 Time and Action (TNA) plan is prepared based on order execution time.

Range of Variables

Variable	Range (Includes but not limited to):
1. Approved Samples	1.1 Fit 1.2 Size set 1.3 Pre-production (PP)
2. Order follow up	2.1 TNA plan 2.2 Color and quality approval 2.3 Garments and fabrics test 2.4 Sample approval 2.5 Trim card 2.6 Production size set 2.7 Pre- production meeting

	2.8 Daily production monitor 2.9 Final inspection 2.10 Shipment
--	---

Curricular Content Guide

1. Underpinning Knowledge	1.1 Order handling procedure together with steps involved in order processing 1.2 Methods of order follow-up 1.3 Time and Action (TNA) plan format
2. Underpinning Skills	2.1 Collecting, recording and maintaining all information of approved samples 2.2 Tracking and monitoring order flow 2.3 Carrying out supplier evaluation process 2.4 Documenting and communicating evaluation results 2.5 Identifying and prioritizing key activities and milestones in the TNA plan 2.6 Establishing and documenting timeline for each merchandising task 2.7 Identifying resources required for merchandising process 2.8 Preparing Time and Action (TNA) plan based on order execution time
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Excel/work sheets 4.3 ERP/PLM systems 4.4 Communication tools (e-mail, WhatsApp, etc.) 4.5 Production Tracking Software (PTS)

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 described order handling procedure together with steps involved in order processing 1.2 explained Time and Action (TNA) plan format 1.3 tracked and monitored order flow 1.4 carried out supplier evaluation process and documented evaluation results 1.5 identified and prioritized key activities and milestones in the TNA plan 1.6 prepared Time and Action (TNA) plan based on order execution time
-----------------------------------	--

2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: INTERPRET THE PROCESS OF COMMERCIAL AND BANKING ACTIVITIES	Nominal Duration: 20 Hrs.	Unit Code: SICIP-RMG-BDM-08-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to interpret the process of commercial and banking activities. It specifically includes the tasks of interpreting the commercial and banking requirements, following the procedures for letter of credit (L/C), identifying the booking format for shipment and defining the payment methods.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret the commercial and banking requirements	1.1 <u>Legal and regulatory requirements</u> are identified. 1.2 Commercial and banking requirements are identified and understood. 1.3 Banking procedures are explained and applied.
2. Follow the procedures for letter of credit (L/C)	2.1 Purpose of letter of credit (L/C) is recognized. 2.2 Different <u>types of letters of credits</u> are interpreted. 2.3 L/C procedures are followed to create an L/C.
3. Identify the booking format for shipment	3.1 Purpose of the booking format for shipment is recognized and explained. 3.2 <u>Shipment booking formats</u> are identified and described.
4. Define the payment methods	4.1 The purpose of payment documentation is defined and explained. 4.2 Types of <u>payment methods</u> are identified and described. 4.3 Types of <u>payment documentation</u> are interpreted. 4.4 Payment processing guidelines are followed.

Range of Variables

Variable	Range (Includes but not limited to):
1. Legal and regulatory requirements	1.1 Trade License 1.2 Bank account 1.3 Export Registration Certificate (ERC) 1.4 Import Registration Certificate (IRC) 1.5 BGMEA membership certificate 1.6 TIN certificate 1.7 BIN certificate 1.8 Fire license 1.9 Factory license 1.10 Social and environmental certificate 1.11 Factory layout approval 1.12 Structural approval

2. Types of letters of credit (L/C)	2.1 Master L/C 2.2 Back-to-back L/C 2.3 Sight L/C 2.4 Deferred L/C
3. Shipment booking format	3.1 Buyer 3.2 Style no 3.3 PO Number 3.4 Invoice no 3.5 Quantity to be shipped 3.6 Total CBM 3.7 Gross weight 3.8 Net weight 3.9 Container type 3.10 Goods handover date
4. Payment methods	4.1 Letter of credit (L/C) 4.2 Open account (OA) 4.3 Telegraphic transfer (TT)
5. Payments documents	5.1 Commercial invoice 5.2 Packing list 5.3 B/L or AWB 5.4 Inspection certificate 5.5 GSP (If applicable)

Curricular Content Guide

1. Underpinning Knowledge	1.1 Commercial and banking requirements 1.2 Banking procedures 1.3 Purpose and types of letter of credit (L/C) 1.4 Purpose of the booking format for shipment 1.5 Shipment booking formats 1.6 Purpose and types of payment documentation and payment methods 1.7 Payment processing guidelines
2. Underpinning Skills	2.1 Identifying legal and regulatory requirements 2.2 Identifying commercial and banking requirements 2.3 Applying banking procedures 2.4 Creating an L/C following the L/C procedures 2.5 Identifying shipment booking formats 2.6 Identifying types of payment methods 2.7 Making payment following payment processing guidelines
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace

	3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Digital tools (for processing, communication & reporting) 4.4 Calculator 4.5 TNA Plan (samples) 4.6 Work sheet

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 described banking procedures 1.2 explained purpose and types of payment documentation and payment methods 1.3 identified legal & regulatory, and commercial & banking requirements 1.4 created an L/C following the L/C procedures 1.5 identified booking formats for shipment 1.6 made payment following payment processing guidelines
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

End of the Competency Standard

Workshop/Lab Facility Standard

Course Name:	Business Development and Merchandising
Number of Trainees:	25

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom – 350 sft (33 sqm)
 - Workshop/ lab – 800 sft (75 sqm)
- OR
- Classroom cum workshop – 1000 sft (93 sqm)

Major Training Equipment and Training Facilities:

S.N.	Major Equipment and Training facilities	Required facilities
1.	Computer	05
2.	Internet connectivity	01
3.	Multimedia projector & screen	01
4.	Fabric Swatches and Trims	25
5.	Garments sample (Knit, Woven and Sweater)	30
6.	Mannequin doll (Child, male and female)	05
7.	Working Table (Minimum 6 feet)	05
8.	Counting glass/Pick glass	10
9.	Weighing machine	02
10.	GSM cutter and scale	02
11.	Sample BOM sheet (Tech-pack)	10
12.	Single needle lock stitch machine	01
13.	Single needle chain stitch machine	01
14.	Over lock machine	01
15.	Flat lock machine	01

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency standards (CS) provided by SICIP.

For the operation of training course on Business Development and Merchandising the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
