Skills for Industry Competitiveness and Innovation Program (SICIP)
Finance Division, Ministry of Finance

COPYRIGHT

The Competency Standards for **Merchandising (Jute Sector)** is a document for the development of curricula, teaching and learning materials, and assessment tools. It also serves as the document for providing training consistent with the requirements of the industry for individuals who pass through the set standard via assessment would be qualified and settled for a relevant job.

This document has been developed to use in training under the **Skills for Industry Competitiveness and Innovation Program (SICIP)** to meet the skills requirements of the Jute sector. This document is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

This document is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutions may use the information contained in this standard for activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

This document is available at:

INTRODUCTION:

The Skills for Industry Competitiveness and Innovation Program (SICIP) has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

The Competency Standard also suggests integration of YouTube or similar platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standard has been reviewed and updated by a working group comprised of occupation-specific experts from the industry/institution, relevant consultants of SICIP.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Unit of Competency
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity
- Guide the assessor in determining whether the candidate is competent.

Identification and validation of units of competency and elements for each occupation were made by experts from in consultative workshop.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:

Generic Competencies (20 Hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP- JUTE-MER-01-G	Apply occupational health and safety (OHS) practices at workplace	1. Identify, control and report OHS hazards 2. Conduct work safely 3. Follow emergency response procedures 4. Maintain and improve health and safety in the workplace	10
SICIP- JUTE-MER-02-G	Work In a Team Environment	1. Identify team goals and work processes 2. Communicate and co-operate with team members 3. Work as a team member 4. Solve problems as a team member	10
Total Hour			20

Sector Specific Competencies (20 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP- JUTE-MER-01-S	Apply Quality Procedures in Jute Manufacturing	1. Identify quality procedures 2. Follow quality procedures 3. Maintain standard procedures	10
SICIP- JUTE-MER-02-S	Apply green practices in Jute sector	1. Interpret green concepts 2. Minimize resource use in the workplace 3. Implement waste management practices	10
Total Hour			20

Occupation Specific Competencies (180 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP- JUTE- MER -01-O	Demonstrate Knowledge on Jute Merchandising	1. Describe role and responsibilities of a merchandiser 2. Interpret principles of jute merchandising 3. Illustrate the operational flow chart of jute merchandising	15
SICIP- JUTE-MER -02-O	Identify Business Opportunities in Jute Sector	1. Analyze global and local market trends 2. Identify key customer groups and target markets 3. Establish linkages with potential buyers, both local and international 4. Develop business plans and marketing strategies 5. Present and negotiate business proposals with buyers	30
SICIP- JUTE- MER -03-O	Establish and Maintain Effective Business Relationships	1. List potential buyers and suppliers 2. Communicate and maintain relationships with the buyers and suppliers of jute goods 3. Perform order enquiry management (handling buyer enquiries, samples, and quotations) 4. Interpret international rules and regulations	30
SICIP- JUTE- MER -04-O	Carry Out Material Measurements, Consumption and Cost	1. Interpret the product design, and specifications 2. Identify the measuring points for jute diversified products	45

Code	Unit of Competency	Elements of Competency	Duration (hours)
	Calculation	3. Calculate raw jute, yarn, and fabric consumption 4. Determine the quantity of trims, accessories, and packaging consumption 5. Perform costing calculation for jute products	
SICIP- JUTE-MER -05-O	Apply Methods of Order Follow-Up	1. Interpret the order handling procedure for jute products 2. Recognize the supplier evaluation process 3. Prepare a Time and Action (TNA) plan for order execution 4. Interpret packaging process and finishing activities of jute products.	30
SICIP- JUTE- MER -06-O	Perform the Process of Commercial and Banking Activities	1. Interpret documentations and customs formalities for jute export 2. Interpret commercial and banking requirements for jute export 3. Follow the procedures for Letter of Credit (L/C) 4. Identify the booking format for shipment and shipping terms 5. Carry out product shipment procedures	30
Total Hours			180

COMPETENCY STANDARD: MERCHANDISING

Generic Competencies:

Unit of Competency: APPLY OCCUPATIONAL HEALTH AND SAFETY (OHS) PRACTICES AT WORKPLACE	Nominal Duration: 10 Hrs.	Unit Code: SICIP-JUTE-MER-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply occupational health and safety (OHS) practices at workplace. It specifically includes the tasks of identifying, controlling and reporting OHS hazards, conducting work safely, following emergency response procedures and maintaining and improving health and safety in the workplace.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify, control and report OHS hazards	1.1 Work area is routinely checked for Occupational Health and Safety (OHS) hazards prior to commencing and during work. 1.2 <u>Hazards</u> are identified and corrective action is taken within the level of responsibility. 1.3 OSH hazards and incidents are reported to appropriate personnel according to workplace procedures. 1.4 <u>Safety signs and symbols</u> are identified and followed. 1.5 <u>Preventive Control measures</u> are identified in accordance with OSH work standards.
2. Conduct work safely	2.1 OHS practices are applied in the workplace. 2.2 <u>Personal Protective Equipment (PPE)</u> are used.
3. Follow emergency response procedures	3.1 Emergency situations are identified and reported according to workplace requirements. 3.2 Emergency procedures are followed as appropriate to the nature of the emergency and according to workplace procedures. 3.3 <u>Workplace procedures</u> for dealing with accidents, fires and emergencies are followed whenever necessary within scope of responsibilities.
4. Maintain and improve health and safety in the workplace	4.1 Risks are identified and appropriate control measures are implemented in the workplace. 4.2 Recommendations arising from risk assessments are implemented within level of responsibility. 4.3 Safety records are maintained according to <u>company policies</u> .

Range of Variables

Variable	Range (May include but not limited to):
1. Hazards	1.1. OHS incidents include near misses, injuries, illnesses and property damage, noise, handling hazardous substances. 1.2. Biological hazards- bacteria, viruses, plants, parasites, mites, molds, fungi, insects 1.3. Chemical hazards – dusts, fibers, mists, fumes, smoke, gasses, vapors 1.4. Ergonomics Hazards 1.5. Physiological factors – monotony, personal relationship, work out cycle 1.6. Safety hazards (unsafe workplace condition) – confined space, excavations, falling objects, gas leaks, electrical, poor storage of materials and waste, spillage, waste and debris 1.7. Unsafe workers’ act (Smoking in off-limited areas, Substance and alcohol abuse at work) 1.8. Working with and near moving equipment / load shifting equipment. 1.9. Broken or damaged equipment or materials.
2. Safety signs and symbols	2.1 Direction signs (exit, emergency exit, etc.) 2.2 First aid signs 2.3 Danger Tags 2.4 Hazard signs 2.5 Safety tags 2.6 Warning signs
3. Personal Protective Equipment (PPE)	3.1 Apron 3.2 Safety Helmet 3.3 Goggles 3.4 Ear muffs 3.5 Ear plugs 3.6 Gloves 3.7 Clothing 3.8 Safety Boots 3.9 Face Protection (Musk & Shield) 3.10 Scarf 3.11 Hair Net/cap/bonnet 3.12 Hard hat
	4.1 Eliminate the hazard (i.e., get rid of the dangerous machine 4.2 Isolate the hazard (i.e. keep the machine in a closed

4. Preventive Control Measures	room and operate it remotely; barricade an unsafe area off) 4.3 Substitute the hazard with a safer alternative (i.e., replace the machine with a safer one) 4.4 Use administrative controls to reduce the risk (i.e. give trainings on how to use equipment safely; OHS-related topics, issue warning signage, rotation/shifting work schedule) 4.5 Use engineering controls to reduce the risk (i.e. use safety guards to machine) 4.6 Use personal protective equipment 4.7 Safety, health and work environment evaluation 4.8 Periodic and/or special medical examinations of workers
5. Workplace Procedures	5.1 Fire fighting 5.2 Medical and first aid 5.3 Evacuation 5.4 Material Safety Data Sheets (MSDSs) and manufacturers' advice
6. Company policies	6.1 Job related Standard Operating Procedures (SOPs). 6.2 Occupational Health and Safety (OHS) specific procedures. Examples of OHS procedures include – consultation and participation, emergency response to specific hazards, incident investigation, risk assessment, reporting arrangement and issue resolution procedures.

Curricular Content Guide

1. Underpinning Knowledge	1.1. OHS Workplace Policies and Procedures. 1.2. Work safety procedures. 1.3. Fire and emergency procedures. 1.4. Types of Hazards (Biological, Chemical and Physical) and their effects. 1.5. PPE types and uses. 1.6. Personal hygiene practices. 1.7. OHS awareness. 1.8. Steps of hazard identification. 1.9. Principles of hazards control. 1.10. Employer's role. 1.11. Supervisor's responsibilities.
2. Underpinning Skills	2.1. Identifying OHS policies and procedures. 2.2. Following personal work safety practices. 2.3. Reporting hazards and risks.

	2.4. Responding to emergency procedures. 2.5. Maintaining physical well-being in the workplace. 2.6. Identify tools and equipment related to OHS. 2.7. Improving OHS performance.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Eagerness to learn 3.5. Tidiness and timeliness 3.6. Environmental concerns 3.7. Respect for rights of peers and seniors at workplace 3.8. Communication with peers and seniors at workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Workplace procedures 4.3 Manuals 4.4 Workplace documents, signs and symbols 4.5 Relevant specifications or work instructions. 4.6 Tools, equipment and facilities appropriate to the process or activities. 4.7 Materials are relevant to the proposed activity.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 used Personal Protective Equipment (PPE). 1.2 identified hazards. 1.3 took corrective action of different hazards. 1.4 took corrective action for emergency procedure. 1.5 reported emergency situation to the Supervisor / Manager. 1.6 satisfied requirements mentioned in the performance criteria and range of variables.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: WORK IN A TEAM ENVIRONMENT	Nominal Duration: 10 Hrs.	Unit Code: SICIP-JUTE-MER-02-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to work in a team environment. It specifically includes the tasks of Identifying team goals and processes, communicating and cooperating with team members, working as a team member and solving problems as a team		

member.

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify team goals and work processes.	1.1. Team goals and collaborative decision-making processes are identified. 1.2. Role and common goals of the team are defined from available <u>sources of information.</u> 1.3. Team structure, responsibilities and reporting relations are identified from team discussions and other external sources.
2. Communicate and co-operate with team members.	2.1 Communication and negotiation skills are applied and maintained in all relevant situations. 2.2 Constructive contributions are made to <u>workplace discussions</u> on such issues as production, quality and safety. 2.3 Goals/ objectives and action plans undertaken in the workplace are communicated promptly. 2.4 Information regarding problems and issues are organized coherently to ensure clear and effective communication. 2.5 Dialogue is initiated with appropriate personnel. 2.6 Communication problems and issues are raised 2.7 Barriers to communication are identified and resolved
3. Work as a team member	3.1 Effective forms of communication are used to interact with <u>team members</u> in discussing team activities and objectives. 3.2 Mutual respect, empathy and active collaboration are demonstrated 3.3 Communication channels are followed as per <u>workplace context.</u>
4. Solve problems as a team member	4.1 Current and potential problems faced by team are identified 4.2 Problems are investigated and analyzed 4.3 Potential solutions of problem are identified 4.4 Recommendations about possible solutions are developed, documented, ranked and presented to team members for decision.

Range of Variables

Variable	Range (May include but not limited to):
1. Sources of information	1.1. Organizational structures 1.2. Operations Manuals 1.3. Job description 1.4. Standard operating procedures
2. Workplace discussions	2.1 Coordination meetings 2.2 Toolbox discussion 2.3 Peer-to-peer discussion
3. Team members	3.1 Coach / members 3.2 Supervisor / manager 3.3 Peers / colleagues 3.4 Other members /Employee representative of the organization.
4. Workplace context	4.1 National laws and statutes 4.2 Standard operating procedures 4.3 Workplace rules and regulations

Curricular Content Guide

1. Underpinning Knowledge	1.1. Sources of information define 1.2. Team structure, role, and responsibility. 1.3. Individual member's roles and responsibilities. 1.4. Effective verbal communication methods 1.5. Communication flow and reporting structures. 1.6. Interpersonal communication skills. 1.7. Organization requirements for written and electronic communication methods 1.8. Communication problems and issues 1.9. Barriers in communication 1.10. Team planning. 1.11. Team meeting procedures. 1.12. Workplace etiquette 1.13. Industry maintenance, service and helpdesk practices, processes and procedures 1.14. Industry standard diagnostic tools 1.15. Malfunctions and resolutions
2. Underpinning Skills	2.1 Organizing sources of information 2.2 Identifying the role and responsibility of the team. 2.3 Identifying roles and responsibilities of individual members. 2.4 Identifying effective verbal communication methods 2.5 Identifying communication flow and reporting structure. 2.6 Identifying interpersonal communication skills

	2.7 Complying with organization requirements for the use of written and electronic communication methods 2.8 Negotiation and communication skills 2.9 Participating in team discussion. 2.10 Working as a team member. 2.11 Participating in a variety of workplace discussions 2.12 Effective clarifying and probing skills 2.13 Identifying issues 2.14 Identifying current industry standard diagnostic tools 2.15 Describing common malfunctions and resolutions. 2.16 Determining the root cause of a routine malfunction
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Eagerness to learn 3.5 Tidiness and timeliness 3.6 Environmental concerns 3.7 Respect for rights of peers and seniors at workplace 3.8 Communication with peers and seniors at workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Standard operating procedure 4.3 Relevant specifications or work instructions. 4.4 Tools, equipment and facilities appropriate to the process or activities. 4.5 Materials are relevant to the proposed activity.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 identified team goals and work processes 1.2 identified own role and responsibilities within team 1.1 communicated and cooperated with team members 1.2 practice problem solving within the team
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Sector Specific Competencies (20 Hrs.)

Unit of Competency: APPLY QUALITY PROCEDURES IN JUTE MANUFACTURING	Nominal Duration: 10 Hrs.	Unit Code: SICIP-JUTE-MER-01-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply quality procedures in jute manufacturing. It specifically includes the tasks of identifying quality procedures, following quality procedures and maintaining standard procedures.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify quality procedures	1.1. <u>Manuals</u> and guidelines for jute production processes are collected as per product specifications. 1.2. The importance of manuals in ensuring quality standards is recognized. 1.3. Instructions and procedures for quality control are identified. 1.4. Required information is collected from manuals. 1.5. Performance measurement systems are identified.
2. Follow quality procedures	2.1 Instructions and procedures are followed strictly and duties are performed in accordance with the <u>quality improvement system</u> . 2.2 Concept of supplying jute products to meet <u>customer quality requirements</u> is understood and applied. 2.3 Conformance to specifications is ensured. 2.4 Defects and deviations are detected and reported to the relevant authority according to standard operating procedures.
3. Maintain standard procedures	3.1 Performance is assessed at regular intervals. 3.2 Specifications and standard operating procedures are established. 3.3 Quality of jute product is checked and verified. 3.4 Quality control and quality assurance system procedures for each job are followed. 3.5 Conformance to specification is ensured in all situations.

Range of Variables

Variable	Range (May include but not limited to):
1. Manuals	1.1 Buyers' specification manual 1.2 Compliance manual 1.3 Jute product quality manual 1.4 Maintenance procedure manual 1.5 Signs and symbols, instruction manuals
2. Quality improvement system	2.1 Quality inspection 2.2 Testing 2.3 Quality control 2.4 Quality assurance 2.5 Total Quality Management (TQM)
3. Customer quality requirements	3.1 Performance 3.2 Features 3.3 Reliability 3.4 Conformance 3.5 Aesthetics 3.6 Durability

Curricular Content Guide

1. Underpinning Knowledge	1.1 Themes on various types of RMG manuals 1.2 Schedules, dimensions and specifications contained in sketch 1.3 Units of conversion 1.4 Rules of sketch, drawings and specifications 1.5 Sketch and specifications 1.6 Signs and symbols 1.7 Terms and abbreviations used
2. Underpinning Skills	2.1 Recognising importance of manual 2.2 Selecting appropriate manuals as per sample 2.3 Collecting information from manual as per sample 2.4 Identifying signs and symbols 2.5 Identifying drawings and specifications 2.6 Interpreting schedules, dimensions, drawings and specifications
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in workplace 3.8 Communication with peers, sub-ordinates and seniors in

	workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Manuals 4.3 Workplace documents, signs and symbols 4.4 Sketch and specifications 4.5 Tools, equipment and facilities appropriate to the process or activities. 4.6 Materials are relevant to the proposed activity.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 collected information from manual as per sample 1.2 Identified relevant drawings and specifications 1.3 identified signs and symbols 1.4 identified terms and abbreviations 1.5 identified sketches and specifications as per sample
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY GREEN PRACTICES IN JUTE SECTOR	Nominal Duration: 10 hrs.	Unit Code: SICIP-JUTE-MER-02-S
Unit Descriptor: This unit covers the skills, knowledge and attitudes required for apply green practices in Jute sector. It specifically includes the tasks of interpreting green concepts, minimizing resources use in the workplace and implementing waste management practices.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret green concepts	1.1 <u>Principles of green practices in Jute</u> manufacturing are explained. 1.2 Key terms and symbols in Jute production processes are identified. 1.3 <u>Sources of environmental impacts</u> during Jute manufacturing activities are identified. 1.4 Jute manufacturing activities use are explained. 1.5 <u>Ways of mitigating environmental impacts</u> in Jute manufacturing are explained.
2. Minimize resources use in the workplace	2.1 Water, energy, and raw material consumption in Jute manufacturing are documented. 2.2 <u>Recyclable and non-recyclable items</u> in Jute production processes are identified. 2.3 Procedures to reduce resource consumption in Jute manufacturing are implemented. 2.4 Sustainable alternatives in Jute manufacturing are explored and applied.
3. Implement waste management practices	3.1 <u>Different types of waste in Jute manufacturing</u> are identified. 3.2 Hazardous waste in jute production is disposed of according to environmental regulations. 3.3 Green habits to reduce waste in personal and professional life are practiced.

Range of Variables

Variable	Range (May include but not limited to):
1. Principles of green practices in RMG (Ready-Made Garment)	1.1 Reducing energy consumption in Jute manufacturing processes.

	1.2 6R for waste management in Jute production: 1.2.1 Refuse unnecessary materials and processes. 1.2.2 Reduce resource consumption and waste generation. 1.2.3 Reuse materials within the production process. 1.2.4 Recycle materials for future use in Jute manufacturing. 1.2.5 Recover usable resources from waste. 1.2.6 Repair damaged products or materials instead of discarding them. 1.3 Use of sustainable materials in Jute production with low environmental impact. 1.4 Recycling of materials used in the Jute manufacturing process. 1.5 Sustainable transportation methods for moving goods and materials within the Jute sector.
2. Sources of environmental impacts	2.1 Air pollution in Jute manufacturing 2.2 Water pollution in Jute manufacturing 2.3 Soil degradation in Jute manufacturing 2.4 Noise pollution in Jute manufacturing 2.5 Waste generation in Jute manufacturing 2.6 Resource depletion in Jute manufacturing
3. Ways of mitigating environmental impacts	3.1 Utilizing energy-efficient equipment in Jute production processes. 3.2 Adopting renewable energy sources for Jute manufacturing operations. 3.3 Implementing site protection measures to prevent pollution and reduce environmental. 3.4 Using reusable materials in production processes. 3.5 Choosing sustainable materials with low environmental impact for garment production. 3.6 Using noise-reducing equipment and scheduling production work. 3.7 Optimizing logistics and delivery to reduce transportation emissions and improve overall supply chain efficiency.
4. Recyclable and non-recyclable items	4.1 Recyclable Items in RMG Manufacturing 4.1.1 Metal components. 4.1.2 Wooden materials. 4.1.3 Fabric scraps and textile fibers. 4.1.4 Plastic items, including buttons, tags, and packaging materials. 4.2 Non-Recyclable Items in Jute Manufacturing 4.2.1 Paints, coatings, and dyes. 4.2.2 Contaminated materials.

	4.2.3 Treated wood and other materials.
5. Different types of waste in RMG manufacturing	5.1 Fabric waste from cutting and trimming processes. 5.2 Wood waste from packaging or display materials. 5.3 Metal waste from trims, buttons, zippers, and other hardware. 5.4 Textile waste, including scraps from garment production and defective products. 5.5 Plastic waste, such as packaging materials, labels, and plastic buttons. 5.6 Solid waste from chemical treatments or dyeing processes. 5.7 Packaging waste from raw materials and finished products.

Curricular Content Guide

1. Underpinning Knowledge	1.1 Principles of green practices in Jute manufacturing. 1.2 Sources of environmental impacts. 1.3 Ways of mitigating environmental impacts 1.4 Recyclable and non-recyclable items 1.5 Different types of waste in Jute manufacturing 1.6 Hazardous waste in Jute production 1.7 Green habits to reduce waste
2. Underpinning Skills	2.1 Explaining principles of green practices in Jute manufacturing 2.2 Identifying sources of environmental impacts 2.3 Explaining re-cyclable and non-recyclable items 2.4 Minimizing resources use in the workplace 2.5 Identifying different types of waste in Jute manufacturing 2.6 Disposing hazardous waste in Jute production 2.7 Practicing green habits to reduce waste
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Standard operating procedure 4.3 Workplace documents, signs and symbols

	4.4 Codes of conduct 4.5 Tools, equipment and facilities appropriate to the process or activities. 4.6 Materials are relevant to the proposed activity.
--	---

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted green concepts 1.2 minimized resources use in the workplace 1.3 implemented waste management practices
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Occupation Specific Competencies (180 Hrs.)

Unit of Competency: DEMONSTRATE KNOWLEDGE ON JUTE MERCHANDISING	Nominal Duration: 15 Hrs.	Unit Code: SICIP-JUTE-MER-01-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to demonstrate knowledge on jute merchandising. It specifically includes the tasks of describing role and responsibilities of a merchandiser, interpreting principles of jute merchandising and illustrating the operational flow chart of jute merchandising.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Describe role and responsibilities of a merchandiser	1.1 <u>Role and responsibilities of a merchandiser</u> are identified and described. 1.2 Coordination duties between merchandiser and other departments/buyers are explained. 1.3 <u>Accountability areas</u> of a merchandiser are outlined as per organizational requirements.
2. Interpret principles of jute merchandising	2.1. <u>Basic principles</u> of jute merchandising are interpreted. 2.2. Application of merchandising principles to jute business operations is explained. 2.3. Relevance of principles to buyer and market requirements is identified. 2.4. Interpreted principles are recorded as per organizational format.
3. Illustrate the operational flow chart of jute merchandising	3. 1 <u>Stages of the jute merchandising</u> operation are identified. 3. 2 Sequence of merchandising activities is arranged in correct order. 3. 3 Operational flow chart is illustrated to represent the merchandising process. 3. 4 Flow chart is reviewed for accuracy and completeness.

Range of Variables

Variable	Range (May include but not limited to):
1. Role and responsibilities of a merchandiser	1.1 Order follow-up 1.2 Buyer communication 1.3 Sample coordination 1.4 Production coordination 1.5 Delivery monitoring 1.6 Documentation
2. Accountability areas	2.1 Product quality 2.2 Delivery schedule 2.3 Order accuracy 2.4 Documentation compliance 2.5 Customer satisfaction
3. Basic principles	3.1 Product knowledge 3.2 Quality management 3.3 Costing principles 3.4 Order management 3.5 Delivery planning 3.6 Customer satisfaction
4. Stages of the jute merchandising	4.1 Buyer inquiry 4.2 Product development 4.3 Costing and quotation 4.4 Order confirmation 4.5 Sample approval 4.6 Production planning 4.7 Production follow-up 4.8 Quality inspection 4.9 Shipment 4.10 Post-shipment follow-up

Curricular Content Guide

1. Underpinning Knowledge	1.1 Concepts of jute merchandising. 1.2 Roles and responsibilities of a jute merchandiser. 1.3 Functions of merchandising in the jute industry. 1.4 Principles of jute merchandising. 1.5 Methods of coordination with buyers and internal departments. 1.6 Stages of the jute merchandising process. 1.7 Procedures for preparing a merchandising operational flow chart. 1.8 Requirements for documenting merchandising information.
2. Underpinning Skills	2.1 Identifying the roles and responsibilities of a jute

	merchandiser. 2.2 Communicating with buyers and internal departments. 2.3 Applying jute merchandising principles to business operations. 2.4 Interpreting buyer and market requirements. 2.5 Recording merchandising information using organizational formats. 2.6 Identifying the stages of the jute merchandising process. 2.7 Arranging merchandising activities in the correct sequence. 2.8 Preparing an operational flow chart for jute merchandising.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Tools, equipment and facilities appropriate to the process or activities.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 described role and responsibilities of a merchandiser 1.2 interpreted principles of jute merchandising 1.3 illustrated the operational flow chart of jute merchandising.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: IDENTIFY BUSINESS OPPORTUNITIES IN JUTE SECTOR	Nominal Duration: 30 Hrs.	Unit Code: SICIP-JUTE-MER-02-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to identify business opportunities in jute sector. It specifically includes the tasks of analyzing global and local market trends, identifying key customer groups and target markets, establishing linkages with potential buyers, both local and international, developing business plans and marketing strategies and presenting and negotiate business proposals with buyers.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in bold and underlined are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Analyze global and local market trends	1.1 Sources of market information on jute products are identified and accessed. 1.2 Global and local demand trends for <u>jute products</u> are collected. 1.3 Market data is analyzed to determine demand patterns and price movements. 1.4 Emerging trends and opportunities in the jute market are recognized. 1.5 Findings of market trends are recorded and reported as per organizational format
2. Identify key customer groups and target markets	2.1 <u>Customer groups</u> for jute products are identified based on product type and end use. 2.2 Local and international target markets for jute products are determined. 2.3 Buyer profiles and requirements are collected and reviewed. 2.4 Target markets are prioritized according to business potential. 2.5 Identified customer groups and target markets are documented as per organizational format.
3. Establish linkages with potential buyers, both local and international	3.1 <u>Potential local and international buyers</u> are identified. 3.2 Contact and communication with potential buyers are initiated. 3.3 <u>Business relationships</u> with potential buyers are established and maintained. 3.4 Buyer information and communication records are documented as per organizational format.

4. Develop business plans and marketing strategies	4. 1 Required information for business proposals is gathered and organized. 4. 2 <u>Business proposals</u> for jute products are prepared as per buyer and market requirements. 4. 3 <u>Marketing strategies</u> are formulated based on market trends and target customers. 4. 4 Proposals and marketing strategies are reviewed for accuracy and completeness. 4. 5 Approved proposals and strategies are documented as per organizational format.
5. Present and negotiate business proposals with buyers	5. 1 Business proposals are presented to buyers in a clear and professional manner. 5. 2 <u>Buyer queries and concerns</u> are addressed during presentation. 5. 3 Negotiation with buyers is conducted to reach mutually acceptable terms. 5. 4 Agreed terms and outcomes are confirmed with buyers. 5. 5 Negotiation results are recorded and reported as per organizational format.

Range of Variables

Variable	Range (May include but not limited to):
1. Jute products	1.1 Raw jute 1.2 Jute yarn 1.3 Hessian 1.4 Sacking 1.5 Diversified jute goods
2. Customer groups	2.1 Trader 2.2 End user 2.3 Supplier
3. Potential local and international buyers	3.1 Local buyers 3.2 International buyers 3.3 Importers 3.4 Wholesalers 3.5 Retailers 3.6 Buying agents
4. Business relationships	4.1 Buyer inquiry handling 4.2 Product presentation 4.3 Negotiation 4.4 Follow-up communication 4.5 Customer relationship management

5. Business proposals	5.1 Product proposal 5.2 Quotation 5.3 Pricing proposal 5.4 Product catalogue 5.5 Sample presentation 5.6 Product delivery lead time
6. Marketing strategies	6.1 Target market selection 6.2 Product positioning 6.3 Pricing strategy 6.4 Promotional strategy 6.5 Distribution strategy
7. Buyer queries and concerns	7.1 Product quality 7.2 Product specifications 7.3 Pricing 7.4 Delivery schedule 7.5 Payment terms 7.6 Packaging requirements

Curricular Content Guide

1. Underpinning Knowledge	1.1 Jute market trends and market analysis. 1.2 Sources of local and international market information. 1.3 Methods of identifying customer groups and target markets. 1.4 Understanding of buyer profiles and buyer requirements. 1.5 Principles of business communication and buyer relationship management. 1.6 Procedures for preparing business proposals. 1.7 Principles of marketing strategies for jute products. 1.8 Methods of presenting and negotiating business proposals.
2. Underpinning Skills	2.1 Collecting and analyzing jute market information. 2.2 Identifying customer groups and target markets. 2.3 Reviewing buyer profiles and market requirements. 2.4 Communicating with local and international buyers. 2.5 Maintaining professional buyer relationships. 2.6 Preparing business proposals for jute products. 2.7 Developing marketing strategies based on market trends. 2.8 Presenting business proposals professionally. 2.9 Negotiating business terms with buyers.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns

	3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Standard operating procedure 4.3 Tools, equipment and facilities appropriate to the process or activities. 4.4 Materials are relevant to the proposed activity.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 analyzed global and local market trends 1.2 identified key customer groups and target markets 1.3 established linkages with potential buyers, both local and international, 1.4 developed business plans and marketing strategies 1.5 presented and negotiated business proposals with buyers.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: ESTABLISH AND MAINTAIN AN EFFECTIVE BUSINESS RELATIONSHIP	Nominal Duration: 30 Hrs.	Unit Code: SICIP-JUTE-MER-03-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to establish and maintain an effective business relationship. It specifically includes the tasks of listing potential buyers and suppliers, communicating and maintain relationships with buyers and suppliers of jute goods, performing order enquiry management and interpreting international rules and regulations.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. List potential buyers and suppliers	1. 1 <u>Relevant sources</u> of buyer and supplier information are identified in accordance with organizational procedures. 1. 2 <u>Potential buyers and suppliers</u> are identified based on <u>product requirements</u> and market needs. 1. 3 Buyer and supplier information is collected from reliable and authorized sources. 1. 4 Buyer and supplier details are verified for accuracy and completeness in accordance with organizational requirements. 1. 5 A list of potential buyers and suppliers is prepared using the prescribed format.
2. Communicate and maintain relationships with buyers and suppliers of jute goods	2. 1 Appropriate <u>communication methods</u> are used to communicate with buyers and suppliers. 2. 2 Product information, prices, quality requirements, and delivery terms are communicated accurately. 2. 3 Buyer and supplier inquiries and feedback are responded to promptly. 2. 4 Business communication and agreements are documented in accordance with organizational procedures. 2. 5 Good relationships with buyers and suppliers are maintained through regular communication and professional conduct.
3. Perform order enquiry management	3. 1 <u>Buyer enquiries</u> are received and reviewed in accordance with organizational procedures. 3. 2 Product information and samples are prepared and provided according to buyer requirements. 3. 3 Quotations are prepared based on product specifications, pricing, and delivery terms. 3. 4 Buyer responses and order updates are communicated promptly. 3. 5 Enquiry, sample, and quotation records are documented and maintained in accordance with organizational procedures.

4. Interpret international rules and regulations	4. 1 Relevant international trade rules and regulations are identified in accordance with business requirements. 4. 2 Applicable trade regulations are verified before export transactions. 4. 3 Business activities are carried out in compliance with applicable international trade regulations. 4. 4 Trade compliance records are maintained in accordance with organizational procedures.

Curricular Content Guide

1. Underpinning Knowledge	1. 1 Sources of buyer and supplier information. 1. 2 Methods of identifying buyers and suppliers. 1. 3 Principles of business communication. 1. 4 Understanding of product specifications and buyer requirements. 1. 5 Procedures for handling buyer enquiries, samples, and quotations. 1. 6 Concepts of pricing and delivery terms. 1. 7 Principles of buyer and supplier relationship management. 1. 8 Understanding of international trade rules and regulations. 1. 9 Requirements for trade compliance and export documentation.
2. Underpinning Skills	2. 1 Identifying potential buyers and suppliers from reliable sources. 2. 2 Verifying buyer and supplier information for accuracy. 2. 3 Communicating effectively with buyers and suppliers. 2. 4 Responding to buyer and supplier enquiries promptly. 2. 5 Preparing product information, samples, and quotations. 2. 6 Maintaining buyer and supplier relationships professionally. 2. 7 Interpreting international trade rules and regulations. 2. 8 Verifying trade compliance before export transactions. 2. 9 Recording buyer, supplier, and enquiry information.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4. 1 Workplace (simulated or actual) 4. 2 Rules and regulations 4. 3 Internet connectivity 4. 4 Tools, equipment and facilities appropriate to the process or activities.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1. 1 listed potential buyers and suppliers 1. 2 communicated and maintain relationships with buyers and suppliers of jute goods 1. 3 performed order enquiry management 1. 4 interpreted international rules and regulations.
2. Methods of Assessment	Competency should be assessed by: 2. 1 Written test 2. 2 Practical demonstration 2. 3 Oral questioning 2. 4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.3 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency:	Nominal	Unit Code:
----------------------------	----------------	-------------------

CARRY OUT MATERIAL MEASUREMENT, CONSUMPTION AND COST CALCULATION	Duration: 45 Hrs.	SICIP-JUTE-MER-04-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required carry out material measurement, consumption and cost calculation. It specifically includes the tasks of interpreting the product sketch, design, and specification/measurement chart for jute products, identifying the measuring points for jute diversified products, calculating raw jute, yarn, and fabric consumption, determining the quantity of trims, accessories, and packaging consumption and performing costing calculation for jute products.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret the product sketch, design, and specification/measurement chart for jute products	1.1 <u>Product details</u> are identified according to product requirements. 1.2 <u>Product specification details</u> are interpreted from the specification/measurement chart. 1.3 Product quality requirements and design features are verified against the specification. 1.4 Product specifications are confirmed before production in accordance with organizational procedures. 1.5 Interpretation results are documented and communicated to relevant personnel in accordance with organizational procedures.
2. Identify the measuring points for jute diversified products	2.1 <u>Measuring points</u> are identified according to the product specification and measurement chart. 2.2 <u>Measuring tools</u> are selected in accordance with product requirements. 2.3 Product dimensions are measured using the identified measuring points. 2.4 Measurement results are verified against the specified tolerances. 2.5 Measurement records are documented in accordance with organizational procedures.
3. Calculate raw jute, yarn, and fabric consumption	3.1 Product specifications and production requirements are reviewed before calculation. 3.2 <u>Materials</u> are calculated according to product specifications. 3.3 Calculations are verified for accuracy in accordance with organizational procedures. 3.4 Material consumption is compared with

	production requirements and allowable wastage. 3.5 <u>Consumption records</u> are documented and maintained in accordance with organizational procedures.
4. Determine the quantity of trims, accessories, and packaging consumption	4.1 Product specifications and packaging requirements are reviewed before calculation. 4.2 Required <u>trims, accessories, and packaging materials</u> are identified according to product specifications. 4.3 Quantities of trims, accessories, and packaging materials are calculated in accordance with production requirements. 4.4 Material quantities are verified for accuracy and allowable wastage. 4.5 Consumption records are documented and maintained in accordance with organizational procedures.
5. Perform costing calculation for jute products	5. 1 <u>Cost components</u> are identified according to product and production requirements. 5. 2 Cost components are calculated in accordance with organizational procedures. 5. 3 Total product cost is determined based on the approved costing method. 5. 4 Cost calculations are verified for accuracy before approval. 5. 5 Costing records are documented and maintained in accordance with organizational procedures.

Range of Variables

Variable	Range (May include but not limited to):
1. Product details	1.1 Product sketches 1.2 Design drawings 1.3 Specification sheets 1.4 Measurement charts 1.5 Technical data sheets
2. Product specification details	2.1 Product dimensions 2.2 Material specifications 2.3 Construction details 2.4 Color requirements 2.5 Finishing requirements 2.6 AZO free
3. Measuring points	3.1 Length points

	3.2 Width points 3.3 Height points 3.4 Seam points 3.5 Handle points
4. Measuring tools	4.1 Measuring tape 4.2 Steel ruler 4.3 Vernier caliper 4.4 Measuring scale 4.5 Set square 4.6 L- square
5. Materials	5.1 Raw jute 5.2 Jute yarn 5.3 Jute fabric 5.4 Sewing thread 5.5 Accessories
6. Consumption records	6.1 Material consumption sheet 6.2 Calculation sheet 6.3 Production records 6.4 Material requirement report 6.5 Wastage and rejection report
7. Trims and accessories	7.1 Sewing thread 7.2 Labels 7.3 Hang tags 7.4 Drawstrings 7.5 Eyelets 7.6 Buckles 7.7 Zippers 7.8 Velcro
8. Packaging materials	8.1 Poly bags 8.2 Cartons 8.3 Packing tape 8.4 Carton labels 8.5 Pallets 8.6 Strapping materials
9. Cost components	9.1 Material cost 9.2 Labor cost 9.3 Overhead cost 9.4 Packaging cost 9.5 Transportation cost 9.6 Costing and Pricing

Curricular Content Guide

1. Underpinning	1.1 Concepts of jute product specifications and

APPLY THE METHODS OF ORDER FOLLOW-UP	Duration: 30 Hrs.	SICIP-JUTE-MER-05-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply the methods of order follow-up. It specifically includes the tasks of interpreting the order handling procedure for jute products, recognizing the supplier evaluation process, preparing a time and action (TNA) plan for order execution and interpreting packaging process and finishing activities of jute products.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret the order handling procedure for jute products	1. 1 <u>Order requirements</u> are identified from buyer documents and organizational procedures. 1. 2 <u>Order handling procedures</u> are interpreted according to organizational requirements. 1. 3 Product specifications, quantity, delivery schedule, and quality requirements are verified. 1. 4 Order-related documents are reviewed for completeness and accuracy. 1. 5 Order handling information is documented and communicated to relevant personnel.
2. Recognize the supplier evaluation process	2. 1 <u>Supplier evaluation criteria</u> are identified in accordance with organizational requirements. 2. 2 Supplier capability, quality, price, and delivery performance are reviewed. 2. 3 <u>Supplier information</u> and supporting documents are verified for accuracy. 2. 4 Supplier performance is assessed against the established evaluation criteria. 2. 5 Supplier evaluation results are documented in accordance with organizational procedures.
3. Prepare a Time and Action (TNA) plan for order execution	3. 1 Order requirements and delivery schedules are reviewed before preparing the TNA plan. 3. 2 Key production and order execution activities are identified and sequenced. 3. 3 <u>Timelines</u> and responsibilities are assigned for each activity in accordance with order requirements. 3. 4 The TNA plan is verified against the buyer's delivery schedule and organizational procedures. 3. 5 The approved TNA plan is documented and

	communicated to relevant personnel.
4. Interpret packaging process and finishing activities of jute products.	4. 1 Packaging and finishing requirements are identified from product specifications and buyer requirements. 4. 2 Packaging materials and labeling requirements are verified in accordance with organizational procedures. 4. 3 Finishing activities are interpreted according to product quality standards. 4. 4 Packaging and finishing processes are verified against buyer and organizational requirements. 4. 5 Packaging and finishing information is documented and communicated to relevant personnel.

Range of Variables

Variable	Range (May include but not limited to):
1. Order requirements	1. 1 Product specifications 1. 2 Order quantity 1. 3 Delivery date 1. 4 Quality requirements 1. 5 Packaging requirements
2. Order handling procedures	2. 1 Order review procedures 2. 2 Order confirmation procedures 2. 3 Documentation procedures 2. 4 Communication procedures
3. Supplier evaluation criteria	3. 1 Product quality 3. 2 Price competitiveness 3. 3 Delivery performance 3. 4 Production capacity 3. 5 Compliance status
4. Supplier information	4. 1 Company profile 4. 2 Product catalogue 4. 3 Business license 4. 4 Certifications 4. 5 Contact details
5. Timelines	5. 1 Activity start date 5. 2 Activity completion date 5. 3 Milestones 5. 4 Delivery deadline
6. Packaging requirements	6. 1 Packaging materials 6. 2 Packing method 6. 3 Carton specifications 6. 4 Packing ratio 6. 5 Shipping marks (20'/40' Feet container)
7. Finishing activities	7. 1 Trimming 7. 2 Thread cleaning

--	---

Curricular Content Guide

1. Underpinning Knowledge	1. 1 Concepts of order handling procedures for jute products. 1. 2 Understanding of buyer order documents and product specifications. 1. 3 Principles of supplier evaluation. 1. 4 Methods of assessing supplier capability and performance. 1. 5 Concepts of Time and Action (TNA) planning. 1. 6 Procedures for preparing and monitoring a TNA plan. 1. 7 Understanding of packaging and finishing requirements for jute products. 1. 8 Types of packaging materials and labeling requirements. 1. 9 Quality requirements for packaging and finishing.
2. Underpinning Skills	2. 1 Reviewing order documents for accuracy and completeness. 2. 2 Evaluating supplier capability and performance. 2. 3 Verifying supplier information and supporting documents. 2. 4 Preparing a Time and Action (TNA) plan. 2. 5 Scheduling order execution activities and timelines. 2. 6 Interpreting packaging and finishing requirements. 2. 7 Verifying packaging and finishing processes against specifications. 2. 8 Communicating order and production information to relevant personnel.
3. Underpinning Attitudes	3. 1 Commitment to occupational health and safety 3. 2 Promptness in carrying out activities 3. 3 Sincere and honest to duties 3. 4 Environmental concerns 3. 5 Eagerness to learn 3. 6 Tidiness and timeliness 3. 7 Respect for rights of peers and seniors in the workplace 3. 8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4. 1 Workplace (simulated or actual) 4. 2 Tools, equipment and facilities appropriate to the process or activities. 4. 3 Materials are relevant to the proposed activity.

Assessment Evidence Guide

1. Critical Aspects of	Assessment required evidence that the candidate:
------------------------	--

Competency	1. 1 interpreted the order handling procedure for jute products 1. 2 recognized the supplier evaluation process 1. 3 prepared a Time and Action (TNA) plan for order execution 1. 4 interpreted packaging process and finishing activities of jute products.
2. Methods of Assessment	Competency should be assessed by: 2. 1 Written test 2. 2 Practical demonstration 2. 3 Oral questioning 2. 4 Portfolio (Optional)
3. Context of Assessment	3. 1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3. 2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PERFORM THE PROCESS OF COMMERCIAL AND BANKING ACTIVITIES	Nominal Duration: 30 Hrs.	Unit Code: SICIP-JUTE-MER-06-0
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to perform the process of commercial and banking activities. It specifically includes the tasks of interpreting documentations and customs formalities for jute export, interpreting commercial and banking requirements for jute export, following the procedures for Letter of Credit (L/C), identifying the booking format for shipment and shipping terms and defining the payment methods used in jute trade.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret documentations and customs formalities for jute export	1.1 <u>Export documents</u> are identified in accordance with buyer and regulatory requirements. 1.2 <u>Customs formalities</u> are interpreted according to applicable export regulations. 1.3 Export documentation requirements are confirmed before customs clearance. 1.4 <u>Document requirements</u> are verified for completeness and accuracy. 1.5 Export documentation and customs records are maintained in accordance with organizational procedures.
2. Interpret commercial and banking requirements for jute export	2.1 Commercial and banking requirements for jute export are identified in accordance with export procedures. 2.2 <u>Payment terms</u> and <u>banking documents</u> are interpreted according to buyer and banking requirements. 2.3 <u>Commercial documents</u> are verified for completeness and accuracy. 2.4 Banking requirements are confirmed before export transactions. 2.5 Commercial and banking records are documented and maintained.
3. Follow the procedures for Letter of Credit (L/C)	3.1 Letter of Credit (L/C) terms and conditions are reviewed in accordance with export requirements. 3.2 <u>L/C requirements</u> are verified against the sales contract and export documents. 3.3 Required documents are prepared and submitted in

	accordance with L/C terms. 3.4 <u>L/C discrepancies</u> are identified and reported in accordance with organizational procedures. 3.5 L/C records are documented and maintained.
4. Identify the booking format for shipment and shipping terms	4.1 <u>Shipment booking requirements</u> are identified according to export procedures. 4.2 <u>Shipment booking formats</u> are identified in accordance with carrier and organizational requirements. 4.3 Applicable Incoterms are identified according to the sales contract. 4.4 <u>Shipping terms</u> are verified before shipment booking. 4.5 Shipment booking and shipping records are documented.
5. Define the payment methods used in jute trade	5.1 Common <u>payment methods</u> used in jute trade are identified in accordance with trade requirements. 5.2 Features and conditions of each payment method are interpreted according to trade practices. 5.3 Appropriate payment methods are selected based on buyer and seller requirements. 5.4 <u>Payment terms</u> are verified against the sales contract. 5.5 Payment-related records are documented and maintained.

Range of Variables

Variable	Range (May include but not limited to):

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1. 1 interpreted documentations and customs formalities for jute export 1. 2 interpreted commercial and banking requirements for jute export 1. 3 followed the procedures for Letter of Credit (L/C) 1. 4 identified the booking format for shipment and shipping terms 1. 5 defined the payment methods used in jute trade.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

End of the Competency Standard

Workshop/Lab Facility Standard

Course Name:	Merchandising
Number of Trainees:	30

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom – 350 sft (33 sqm)
- Workshop/ lab – 800 sft (75 sqm)
- OR
- Classroom cum workshop – 1000 sft (93 sqm)

Major Training Equipment and Training Facilities:

S.N.	Major Training Equipment and Tools	Required Facilities
1	Desktop Computers	15 Nos.
2	Instructor Computer	1 Nos
3	Multimedia Projector	1 Nos
4	Whiteboard and markers	01 Nos
5	Flip chart stand with paper	2 Nos
6	Printer	1 Nos
7	Flatbed Scanner	1 Nos
8	Merchandising/ERP Software	05 Nos
9	Jute Fiber Sample Collection	1 Complete Set
10	Jute Yarn Sample Collection	1 Complete Set
11	Jute Fabric Sample Collection	1 Complete Set
12	Diversified Jute Product Sample Set	1 Complete Set
13	Fabric and Yarn Testing Kit	5 Sets
14	GSM Cutter and GSM Balance	2 Sets
15	Digital Weighing Scale	2 Nos.
16	Quality Inspection Tools	5 Sets
17	Measuring Tapes	25 Nos.
18	Set squares (Large)	30 Nos.
19	L-square	30 Nos.
20	Scale (12', 18', 24', 40')	25 Nos.

21	Cutter Board (Large size)	2 Nos.
22	Pattern Board	12 Pics
23	Scissor	5 Nos.
24	Design instruments Box (set of 20)	1 Nos.
25	Anty cutter	7 Nos.
26	Cutting Table with 6 drawers (3' Hight) (4'x8')	1 Nos.
27	Tool	6 Nos.
28	Led pencil	7 Nos.
29	Single needle chain stich Sewing Machine	1 Nos
30	Packaging Material Sample Set	1 Complete Set
31	Export Documentation Sample Set	1 Complete Set
32	Digital scale	1 Nos
33	First aid kit	1 Nos
34	Fire extinguisher (for safety demonstration)	1 Nos

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency standards (CS) provided by SICIP.

For the operation of training course on **Merchandising (Jute sector)** the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 30 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 30 trainees.
