(RMG SECTOR)

Skills for Industry Competitiveness and Innovation Program (SICIP)
Finance Division, Ministry of Finance

COPYRIGHT

The Competency Standards for Apparel Merchandising serve as a foundational document for the development of curricula, teaching materials, and assessment tools specifically tailored for the RMG sector. This document ensures that training activities align with industry requirements, enabling individuals who successfully meet the established standards through assessment to become qualified professionals in relevant roles within the sector.

Developed under the Skills for Industry Competitiveness and Innovation Program (SICIP), this document addresses the skills requirements critical for Apparel Merchandising. It is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutes may use the information contained in this competency standard for training activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

INTRODUCTION:

The Skills for Industry Competitiveness and Innovation Program (SICIP) has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

The Competency Standard also suggests integration of YouTube or similar platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standards are developed by a working group comprised of national and international process experts and the participation of experts from the industry to identify the competencies required of an occupation in a particular sector.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity
- Guide the assessor in determining whether the candidate is competent.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution, relevant consultants of SICIP.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:

Generic Competencies (20 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-RMG-APM-01-G	Apply Occupational Health and Safety (OHS) Practice in the Workplace	1 Identify OHS Policies and Procedures 2 Apply Personal Health and Safety Practices 3 Report Hazards and Risks 4 Respond to Emergencies	10
SICIP-RMG-APM-02-G	Manage Personal and Professional Development	1 Interpret Personal Development Skills 2 Set and Meet Self-Development Priorities 3 Maintain Professional Growth and Development	10
Total Hours			20 Hrs.

Sector Specific Competencies (20 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-RMG-APM-01-S	Apply Quality Procedures	1. Identify Quality Procedures 2. Follow Quality Procedure 3. Maintain Standard Procedure	10
SICIP-RMG-APM-02-S	Apply Green Practices in RMG Sector	1. Interpret Green Concepts 2. Minimize Resource use in the Workplace 3. Implement Waste Management Practices	10
Total Hours			20 Hrs.

Occupation Specific Competencies (200 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP-RMG-APM-01-O	Develop Business Opportunities in RMG Sector	1. Analyze global and local market trends for RMG products 2. Identify key customer groups and target markets 3. Interpret market research 4. Evaluate feasibility and profitability 5. Establish linkages with potential buyers 6. Develop business proposals and marketing strategies 7. Present and negotiate business proposals	28
SICIP-RMG-APM-02-O	Apply Knowledge on Apparel Merchandising	1. Describe the principles of apparel merchandising 2. Illustrate operational flow chart of Apparel Merchandising 3. Recognize key features of RMG industry 4. Explain the functions and responsibilities of a Merchandiser	20
SICIP-RMG-APM-03-O	Maintain an Effective Business Relationship	1. Communicate and maintain relationship with buyers and suppliers 2. Perform the order enquiry management	12
SICIP-RMG-APM-04-O	Illustrate the Process of Sourcing Material	1. Interpret types of fabric and yarn 2. Select the trims and accessories 3. Perform the procedure of preparing BOM sheet 4. Demonstrate the process of supplier's	32

Code	Unit of Competency	Elements of Competency	Duration (hours)
		negotiation and booking	
SICIP-RMG-APM-05-O	Carry Out Measurement, Consumption & Cost Calculation	1. Interpret the sketch and measurement chart 2. Identify the points of measuring for apparel 3. Summarize the process of fabric consumption and calculation 4. Follow the process of trims and accessories and calculation 5. Perform costing calculation 6. Prepare costing sheet	68
SICIP-RMG-APM-06-O	Apply the Methods of Order Follow-Up	1. Interpret the order handling procedure 2. Recognize supplier's evaluation process 3. Prepare TNA plan	20
SICIP-RMG-APM-07-O	Interpret the Process of Commercial and Banking Activities	1. Interpret the commercial and banking requirements 2. Follow the procedures for letter of credit (L/C) 3. Identify the booking format for shipment 4. Define the payment methods	20
Total Hours			200 Hrs.

COMPETENCY STANDARD: APPAREL MERCHANDISING

The Generic Competencies

Unit of Competency: APPLY OCCUPATIONAL HEALTH AND SAFETY (OHS) PRACTICES IN THE WORKPLACE	Nominal Duration: 10 hrs.	Unit Code: SICIP-RMG-APM-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply occupational health and safety (OHS) practices in the workplace. It specifically includes the tasks of identifying OHS policies and procedures, applying personal health and safety practices, reporting hazards and risks, and responding to emergencies.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify OHS policies and procedures	1.1 <u>OHS policies</u> and safe operating procedures are interpreted. 1.2 Safety signs and symbols are identified and followed. 1.3 Response, evacuation procedures and other contingency measures are interpreted correctly.
2. Apply personal health and safety practices	2.1 OHS policies and procedures are interpreted in the workplace including <u>personal protective equipment (PPE)</u> . 2.2 Common health issues are recognized. 2.3 Common safety issues are identified.
3. Report hazards and risks	3.1 Hazards and risks are identified. 3.2 Hazards and risks assessment and controls are interpreted.
4. Respond to emergencies	4.1 Alarms and warning devices are responded. 4.2 <u>Emergency response plans and procedures</u> are implemented. 4.3 <u>First aid procedures</u> are identified during emergency situations.

Range of variables:

Variables	Range (may include but not limited to)
1. OHS policies	1.1 Organizational OHS policies 1.2 International OHS requirements 1.3 Fire safety rules and regulations
2. Emergency response plans and procedures	2.1 Firefighting procedures 2.2 Earthquake response procedures 2.3 Emergency response plans and procedures

	2.4 Medical and first aid
3. First aid procedure	3.1 Washing of open wound 3.2 Washing chemically infected area 3.3 Applying bandage 3.4 Taking appropriate medicine
4. Personal protective equipment	4.1 Safety glasses 4.2 Ear plugs 4.3 Gloves 4.4 Apron 4.5 Helmet 4.6 Mask 4.7 Safety shoes

Curricular Content Guide

1. Underpinning knowledge	1.1 Workplace OHS policies and procedures 1.2 Work safety procedures 1.3 Emergency response procedures: 1.3.1 Firefighting 1.3.2 Earthquake response 1.3.3 Accident response 1.4 Types of hazards (biological, chemical and physical) and their effects 1.5 OHS awareness 1.6 Personal protective equipment (PPE) 1.7 Malfunctions and resolutions
2. Underpinning skill	2.1 Identifying OHS policies and procedures 2.2 Applying personal health and safety practices 2.3 Reporting hazards and risks 2.4 Responding to emergencies 2.5 Maintaining physical well-being in the workplace 2.6 Using firefighting accessories and fire extinguishers 2.7 Applying basic first aid procedures
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Firefighting equipment 4.4 Emergency response manual

	4.5 First aid kits
	4.6 Learning manual

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 interpreted work safety procedures 1.2 identified OHS policies and procedures 1.3 applied personal health and safety practices 1.4 reported hazards and risks 1.5 responded to emergencies 1.6 implemented plans and procedures to respond emergency 1.7 applied basic first aid procedure
2. Methods of assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: MANAGE PERSONAL AND PROFESSIONAL DEVELOPMENT	Nominal Duration: 10 hrs.	Unit Code: SICIP-RMG-APM-02-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to manage personal and professional development. It specifically includes the tasks of interpreting personal development skills, setting and meeting self-development priorities and maintaining professional growth and development.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret personal development skills	1.1 Objectives of personal development skills are described. 1.2 <u>Personal development skills</u> are identified. 1.3 Intra and Interpersonal relationships are maintained in the course of managing oneself. 1.4 Self-analysis is performed and personal development needs are identified.
2. Set and meet self-development priorities	2.1 Tasks are prioritized to achieve personal, team and organizational goals and objectives. 2.2 <u>Resources</u> are utilized efficiently and effectively to manage work priorities and commitments. 2.3 Economic usage and maintenance of facilities are followed as per established procedures.
3. Maintain professional growth and development	3.1 Pro activeness/zeal is demonstrated in fulfilling personal and professional growth requirements. 3.2 <u>Trainings and career opportunities</u> are identified and accessed based on job requirements. 3.3 <u>Recognitions</u> are sought/ received and demonstrated as proof of career advancement. 3.4 <u>Licenses and/or certifications</u> relevant to the job and career are obtained and renewed

Range of variables:

Variables	Range (may include but not limited to)
1. Personal Development skills	1.1 Problem-solving 1.2 Self-confidence 1.3 Adaptability 1.4 Integrity 1.5 Work ethic 1.6 Pro-activeness

2. Resources	2.1 Human 2.2 Financial 2.3 Technology
3. Trainings and career opportunities	3.1 Participation in training programs 3.1.1 Technical 3.1.2 Supervisory 3.1.3 Managerial 3.1.4 Continuing Education 3.2 Serving as Resource Persons in conferences and workshops
4. Recognitions	4.1 Recommendations 4.2 Citations 4.3 Certificate of Appreciations 4.4 Commendations 4.5 Awards 4.6 Tangible and Intangible Rewards
5. Licenses and/or certifications	5.1 National Certificates 5.2 Certificate of Competency 5.3 Support Level Licenses 5.4 Professional Licenses

Curricular Content Guide

1. Underpinning Knowledge	1.1 Importance of personal development skills 1.2 Organizational policies relevant to training and professional growth 1.3 Procedures on economic usage and maintenance of facilities 1.4 Company operations, procedures and standards 1.5 Resources in work environment
2. Underpinning Skills	2.1 Identifying personal development skills 2.2 Utilizing and improving personal development skills 2.3 Maintaining intra- and inter-personal relationship 2.4 Utilizing communication skills 2.5 Prioritizing tasks in accordance with work commitment 2.6 Utilizing resources efficiently and effectively to manage work priorities and commitments 2.7 Identifying and accessing training and career opportunities based on job requirements 2.8 Obtaining and maintaining licenses and/or certifications according to the requirement of the qualification
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness

	3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Workplace procedures 4.3 Standard operating procedure 4.4 Workplace documents, signs and symbols 4.5 Codes of conduct 4.6 Projector 4.7 Learning manual

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 interpreted personal development skills 1.2 maintained intra and interpersonal relationship in the course of managing oneself 1.3 prioritized tasks according to work commitments 1.4 identified training and career opportunities 1.5 completed trainings based on the requirements of the industries 1.6 acquired and maintained licenses and/or certifications according to the requirement of the qualification
2. Methods of assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

The Sector Specific Competencies

Unit of Competency: APPLY QUALITY PROCEDURES	Nominal Duration: 10 hrs.	Unit Code: SICIP-RMG-APM-01-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply quality procedures. It specifically includes the tasks of identifying quality procedure, following quality procedure and maintaining standard procedure.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify quality procedure	1.1. <u>Manuals</u> and guidelines for RMG production processes are collected as per sample specifications. 1.2. The importance of manuals in ensuring quality standards is recognized. 1.3. Instructions and procedures for quality control are identified. 1.4. Required information is collected from manuals. 1.5. Performance measurement systems are identified.
2. Follow quality procedure	2.1 Instructions and procedures are followed strictly and duties are performed in accordance with demand of <u>quality improvement system</u> . 2.2 Concept of supplying product or service to meet the <u>customer quality requirements</u> is understood and accordingly applied. 2.3 Conformance to specifications is ensured. 2.4 Defects are detected and reported to the relevant authority according to standard operating procedures
3. Maintain standard procedure	3.1 Performance is assessed at regular interval. 3.2 Specifications and standard operating procedures are established 3.3 Quality of product is checked and verified. 3.4 Quality control and quality assurance system procedures for each job are followed. 3.5 Conformance to specification is ensured in every case at all situations.

Range of Variables

Variable	Range
	May include but not limited to:
1. Manuals	1.1 Buyers' specification manual 1.2 Compliance manual

	1.3 Maintenance procedure manual 1.4 Periodic maintenance manual 1.5 Quality manual 1.6 Signs and symbols, instruction manuals
2. Quality improvement system.	2.1. Quality inspection 2.2. Testing 2.3. Quality control 2.4. Quality assurance 2.5. Total Quality Management
3. Customer quality requirements	3.1. Performance 3.2. Features 3.3. Reliability 3.4. Conformance 3.5. Aesthetics 3.6. Durability

Curricular Content Guide

1. Underpinning Knowledge	1.1 Importance of maintaining quality 1.2 quality, quality assurance, quality control, quality inspection, quality improvement and total quality control 1.3 Process and procedures for improving and maintaining quality 1.4 Procedures for addressing defects 1.5 Factors, which affect successful implementation of the quality systems and procedures 1.6 Awareness of specifications and standard operating procedures
2. Underpinning Skills	2.1. Improving and maintaining quality 2.2. Collecting manuals and guidelines for RMG production processes as per sample specifications 2.3. Identifying performance measurement systems 2.4. Performing duties in accordance with demand of quality improvement system 2.5. Applying concept of supplying product or service to meet the customer quality requirements 2.6. Keeping records within the quality improvement system in the workplace 2.7. Implementing quality systems and procedures 2.8. Checking and verifying quality of product as per quality control and quality assurance system procedures 2.9. Establishing specifications and standard operating procedures
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns

	3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in workplace 3.8 Communication with peers, sub-ordinates and seniors in workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 ERP/QMS software 4.3 SOPs, quality manuals, structured QC systems 4.4 Inspection equipment/tracking tools 4.5 Projector 4.6 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 identified quality procedures 1.2 interpreted quality, quality assurance, quality control, quality inspection, quality improvement and total quality management 1.3 described specifications and standard operating procedures 1.4 checked and verified quality of product and service as per quality control and quality assurance system procedures
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY GREEN PRACTICES IN RMG SECTOR	Nominal Duration: 10 hrs.	Unit Code: SICIP-RMG-APM-02-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply green practices in RMG sector. It specifically includes the tasks of interpreting green concepts, minimizing resources use in the workplace and implementing waste management practices.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret green concepts	1.1 <u>Principles of green practices in RMG (Ready-Made Garment)</u> manufacturing are explained. 1.2 Key terms and symbols in RMG production processes are identified. 1.3 <u>Sources of environmental impacts</u> during RMG manufacturing activities are identified. 1.4 RMG manufacturing activities use are explained. 1.5 <u>Ways of mitigating environmental impacts</u> in RMG manufacturing are explained.
2. Minimize resources use in the workplace	2.1 Water, energy, and raw material consumption in RMG manufacturing are documented. 2.2 <u>Recyclable and non-recyclable items</u> in RMG production processes are identified. 2.3 Procedures to reduce resource consumption in RMG manufacturing are implemented. 2.4 Sustainable alternatives in RMG manufacturing are explored and applied.
3. Implement waste management practices	3.1 <u>Different types of waste in RMG manufacturing</u> are identified. 3.2 Hazardous waste in RMG production is disposed of according to environmental regulations. 3.3 Green habits to reduce waste in personal and professional life are practiced.

Range of Variables

Variable	Range
	May include but not limited to:
1. Principles of green practices in RMG (Ready-Made Garment)	1.1 Reducing energy consumption in RMG manufacturing processes. 1.2 6R for waste management in RMG production: 1.2.1 Refuse unnecessary materials and processes

	1.2.2 Reduce resource consumption and waste generation 1.2.3 Reuse materials within the production process 1.2.4 Recycle materials for future use in RMG manufacturing 1.2.5 Recover usable resources from waste 1.2.6 Repair damaged products or materials instead of discarding them 1.3 Use of sustainable materials in RMG production with low environmental impact. 1.4 Recycling of materials used in the RMG manufacturing process. 1.5 Sustainable transportation methods for moving goods and materials within the RMG sector.
2. Sources of environmental impacts	2.1 Air Pollution in RMG Manufacturing 2.2 Water Pollution in RMG Manufacturing 2.3 Soil Degradation in RMG Manufacturing 2.4 Noise Pollution in RMG Manufacturing 2.5 Waste Generation in RMG Manufacturing 2.6 Resource Depletion in RMG Manufacturing
3. Ways of mitigating environmental impacts	3.1 Utilizing energy-efficient equipment in RMG production processes. 3.2 Adopting renewable energy sources for RMG manufacturing operations. 3.3 Implementing site protection measures to prevent pollution and reduce environmental. 3.4 Using reusable materials in production processes. 3.5 Choosing sustainable materials with low environmental impact for garment production. 3.6 Using noise-reducing equipment and scheduling production work. 3.7 Optimizing logistics and delivery to reduce transportation emissions and improve overall supply chain efficiency.
4. Recyclable and non-recyclable items	4.1 Recyclable Items in RMG Manufacturing 4.1.1 Metal components. 4.1.2 Wooden materials. 4.1.3 Fabric scraps and textile fibers. 4.1.4 Plastic items, including buttons, tags, and packaging materials. 4.2 Non-Recyclable Items in RMG Manufacturing 4.2.1 Paints, coatings, and dyes. 4.2.2 Contaminated materials. 4.2.3 Treated wood and other materials.

5. Different types of waste in RMG manufacturing	5.1 Fabric waste from cutting and trimming processes. 5.2 Wood waste from packaging or display materials. 5.3 Metal waste from trims, buttons, zippers, and other hardware. 5.4 Textile waste, including scraps from garment production and defective products. 5.5 Plastic waste, such as packaging materials, labels, and plastic buttons. 5.6 Solid waste from chemical treatments or dyeing processes. 5.7 Packaging waste from raw materials and finished products.
--	--

Curricular Content Guide

1. Underpinning Knowledge	1.1 Principles of green practices in RMG (Ready-Made Garment) manufacturing 1.2 Sources of environmental impacts 1.3 Ways of mitigating environmental impacts in RMG manufacturing processes 1.4 Recyclable and non-recyclable items 1.5 Different types of waste in RMG manufacturing 1.6 Hazardous wastes in RMG production 1.7 Green habits to reduce waste
2. Underpinning Skills	2.1 Identifying sources of environmental impacts during RMG manufacturing activities 2.2 Identifying re-cyclable and non-recyclable items in RMG production processes 2.3 Implementing procedures to reduce resource consumption in the workplace 2.4 Exploring and applying sustainable alternatives in RMG manufacturing 2.5 Identifying different types of wastes in RMG manufacturing 2.6 Disposing hazardous wastes in RMG production according to environmental regulations 2.7 Practicing green habits to reduce wastes in personal and professional life
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace

4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 Projector 4.3 Learning manual 4.4 Energy-efficient equipment 4.5 Reusable materials in production processes 4.6 Digital monitoring system
--------------------------	--

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted green concepts and 1.2 explained ways of mitigating environmental impacts in RMG manufacturing processes 1.3 described hazardous wastes in RMG production 1.4 implemented procedures to reduce resource consumption in the workplace 1.5 implemented waste management practices 1.6 practiced green habits to reduce wastes
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

The Occupation Specific Competencies

Unit of Competency: DEVELOP BUSINESS OPPORTUNITIES IN RMG SECTOR	Nominal Duration: 28 Hrs.	Unit Code: SICIP-RMG-APM-01-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to develop business opportunities in RMG sector. It specifically includes the tasks of analyzing global and local market trends for RMG products, identifying key customer groups and target markets, interpreting market research, evaluating feasibility and profitability, establishing linkages with potential buyers, developing business proposals and marketing strategies and presenting and negotiating business proposals.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Analyze global and local market trends for RMG products	1.1 <u>Types of markets</u> are identified and described. 1.2 Retailer brands in global and local markets are listed and categorized. 1.3 Market trends for global and local RMG sectors are identified for demand and style preferences. 1.4 <u>Seasonal trends</u> are identified and analyzed. 1.5 Findings are presented to support business and merchandising decisions.
2. Identify key customer groups and target markets	2.1 <u>Key customer groups</u> are identified and categorized. 2.2 Customer needs and preferences are analyzed. 2.3 Market segments are evaluated and prioritized to focus business and marketing efforts. 2.4 Customer profiles and market data are identified and collected.
3. Interpret Market Research	3.1 Market research data is collected from reliable sources. 3.2 Key market insights are identified and interpreted to understand consumer demand and market gaps. 3.3 Competitor products and pricing strategies are identified and understood. 3.4 Trends in fashion, materials, and colors are recognized and interpreted. 3.5 Research findings are identified and interpreted.
4. Evaluate feasibility and profitability	4.1 <u>Feasibility study parameters</u> are identified. 4.2 <u>Relevant financial data</u> are collected and reviewed. 4.3 Market conditions and competitor analysis are

	evaluated. 4.4 <u>Profitability metrics</u> are calculated and interpreted.
5. Establish linkages with potential buyers	5.1 Potential buyers are identified through research and market analysis. 5.2 Trade shows, online platforms and industry events is participated. 5.3 <u>Communication materials</u> are used during networking activities. 5.4 Information and contacts are gathered from trade shows, events, and online platforms.
6. Develop business proposals and marketing strategies	6.1 Business objectives and target markets are identified. 6.2 Market research data is collected to identify opportunities and challenges. 6.3 Business proposals are prepared. 6.4 <u>Marketing strategies</u> are prepared. 6.5 Proposals and strategies are reviewed. 6.6 Business proposals and marketing strategies are documented.
7. Present and negotiate business proposals	7.1 Key proposal features are explained to potential clients. 7.2 Negotiation strategies are applied. 7.3 Presentations of business proposals are conducted. 7.4 Terms and conditions are discussed during negotiations. 7.5 Negotiations are finalized and approved by relevant authorities.

Range of Variables

Variable	Range (Includes but not limited to):
1. Types of markets	1.1 Traditional Markets 1.1.1 USA 1.1.2 EU 1.1.3 Canada 1.1.4 UK 1.2 Non-Traditional Markets 1.2.1 Japan 1.2.2 India 1.2.3 Korea
2. Seasonal trends	2.1 Spring 2.2 Summer 2.3 Autumn 2.4 Winter
3. Key customer groups	3.1 Wholesale 3.2 Retail 3.3 Online 3.4 Franchise

	3.5 Traders
4. Feasibility study parameters	4.1 Market demand 4.2 Resource availability 4.3 Operational capacity
5. Relevant financial data	5.1 Cost estimates 5.2 Revenue projections 5.3 Capital requirements 5.4 Customer financial strength
6. Profitability metrics	6.1 Gross margin 6.2 Net profit 6.3 Return on investment (ROI)
7. Communication materials	7.1 Business cards 7.2 Brochures 7.3 Digital profiles/profiles
8. Marketing strategies	8.1 Target audience 8.2 Positioning 8.3 Pricing 8.4 Promotion 8.5 Distribution plans

Curricular Content Guide

1. Underpinning Knowledge	1.1 Identify and describe types of markets in both global and local contexts. 1.2 List and categorize retailer brands in global and local markets. 1.3 Identify market trends, seasonal trends, and demand in the global and local RMG sectors. 1.4 Understand customer needs, preferences, and analyze key customer groups and market segments. 1.5 Interpret market research data from reliable sources to understand consumer demand and market gaps. 1.6 Identify competitor products, pricing strategies, and trends in fashion, materials, and colors. 1.7 Business proposals, develop marketing strategies, and present findings to support business decisions. 1.8 Negotiation strategies, present proposals, and finalize negotiations with potential clients.
2. Underpinning Skills	2.1 Analyzing market trends for global and local RMG sectors. 2.2 Presenting findings to support business decisions. 2.3 Analyzing customer needs and preferences. 2.4 Evaluating and prioritizing market segments. 2.5 Collecting market research data from reliable sources. 2.6 Evaluating market conditions and competitor analysis. 2.7 Calculating and interpreting profitability metrics. 2.8 Using communication materials during networking

	activities. 2.9 Gathering contacts from trade shows, events, and platforms. 2.10 Collecting market research data to identify opportunities. 2.11 Preparing business proposals and marketing strategies. 2.12 Reviewing proposals and strategies. 2.13 Documenting business proposals and strategies. 2.14 Applying negotiation strategies.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer with internet 4.3 Communication materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 analyzed global and local market trends for RMG products 1.2 identified key customer groups and target markets 1.3 interpreted market research 1.4 evaluated feasibility and profitability 1.5 established linkages with potential buyers 1.6 developed business proposals and marketing strategies 1.7 presented and negotiated business proposals
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY KNOWLEDGE ON APPAREL MERCHANDISING	Nominal Duration: 20 Hrs.	Unit Code: SICIP-RMG-APM-02-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply knowledge on apparel merchandizing. It specifically includes the tasks of describing the principles of apparel merchandising, illustrating operational flow chart of apparel merchandising, recognizing key features of industry, and explaining the functions and responsibilities of a merchandiser.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Describe the principles of apparel merchandising	1.1 <u>Key principles of apparel merchandising</u> are identified and listed. 1.2 Importance of each principle to merchandising activities are explained based on industry standards. 1.3 Different <u>types of merchandising</u> in the apparel industry are identified and listed. 1.4 <u>Product category</u> is explained to ensure effective merchandising and customer engagement.
2. Illustrate operation flow chart of apparel merchandising	2.1 Key processes in apparel merchandising are identified and listed accurately. 2.2 Sequential steps of the merchandising operation are arranged logically and clearly. 2.3 Organizational policies, guidelines and code of conduct interpreted. 2.4 <u>Operation flow chart</u> is interpreted.
3. Recognize key features of RMG industry	3.1 Types of RMG industries are listed and their key differentiators are described. 3.2 <u>Key organizational features</u> of RMG industries are summarized. 3.3 Source companies supplying raw materials and fabrics are listed. 3.4 Buyer organizations including international and domestic buyers are identified and listed.
4. Explain the functions and responsibilities of merchandiser	4.1 <u>Key functions of an apparel merchandiser</u> are identified. 4.2 Functions performed by the merchandiser are described using appropriate terminology. 4.3 Relationship between roles and merchandising activities is explained based on industry practices.

Range of Variables

Variable	Range (Includes but not limited to):
1. Key principles of apparel merchandising	1.1 Understanding buyer requirements 1.2 Product planning and development 1.3 Cost and price management 1.4 Quality assurance and compliance 1.5 Supply chain coordination 1.6 Inventory and lead time management 1.7 Effective communication with stakeholders 1.8 Market trend analysis 1.9 Sustainable and green practices 1.10 Use of technology and innovation
2. Types of merchandising	2.1 Retail Merchandising 2.2 Visual Merchandising 2.3 Digital Merchandising 2.4 Fashion Merchandising 2.5 Product Merchandising 2.6 In-Store Merchandising 2.7 Promotional Merchandising
3. Product category	3.1 Knit 3.2 Woven 3.3 Denim 3.4 Outerwear 3.5 Lingerie 3.6 Leather products 3.7 Workwear
4. Operation flow chart	4.1 Order Receiving & Review 4.2 Line Planning & Capacity Assessment 4.3 Material Sourcing & Procurement 4.4 Sampling & Approval Process 4.5 Production Planning & Scheduling 4.6 Quality Control & Inspection 4.7 Logistics & Shipment Coordination 4.8 Documentation & Record Keeping 4.9 Communication & Reporting 4.10 Post-Delivery Follow-up
5. Key organizational features	5.1 Labor-Intensive Production 5.2 Large Workforce 5.3 Production-Based Organizational Structure 5.4 Export-Driven 5.5 Buyer-Supplier Relationship 5.6 Regulatory Framework and Compliance 5.7 Technological Advancements 5.8 Investment in Infrastructure 5.9 Sustainability Efforts 5.10 Government Support

6. Key functions of an apparel merchandiser	6.1 Market knowledge 6.2 Product development 6.3 Interface with sales 6.4 Interface with manufacturing 6.5 Order follow up 6.6 Reporting 6.7 Shipment follow up 6.8 Payment and feedback Collection
---	--

Curricular Content Guide

1. Underpinning Knowledge	1.1 Identify key principles of apparel merchandising and explain their importance to merchandising activities. 1.2 Describe different types of merchandising in the apparel industry. 1.3 Explain product categories to ensure effective merchandising and customer engagement. 1.4 Identify key processes in apparel merchandising and arrange sequential steps logically. 1.5 Interpret organizational policies, guidelines, and code of conduct. 1.6 Explain the operation flow chart and identify types of RMG industries with key differentiators. 1.7 Identify source companies supplying raw materials and fabrics and list buyer organizations (both international and domestic). 1.8 Identify key functions of an apparel merchandiser and describe their roles using appropriate terminology. 1.9 Explain the relationship between roles and merchandising activities based on industry practices.
2. Underpinning Skills	2.1 Identifying different types of merchandising in the apparel industry. 2.2 Explaining product categories for effective merchandising. 2.3 Listing key processes in apparel merchandising. 2.4 Arranging sequential steps of the merchandising operation. 2.5 Interpreting the operation flow chart. 2.6 Listing types of RMG industries and describing key differentiators. 2.7 Summarizing key organizational features of RMG industries. 2.8 Listing source companies supplying raw materials and fabrics.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties

	3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer with internet 4.3 Operation flow chart

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 described the principles of apparel merchandising 1.2 illustrated operational flow chart of Apparel Merchandising 1.3 recognized key features of RMG industry 1.4 explained the functions and responsibilities of a Merchandiser
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by nationally certified assessor or occupation-specific industry expert.

Unit of Competency: MAINTAIN AN EFFECTIVE BUSINESS RELATIONSHIP	Nominal Duration: 12 Hrs.	Unit Code: SICIP-RMG-APM-03-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to maintain an effective business relationship. It specifically includes the tasks of communicating and maintaining relationship with buyers and suppliers and performing the order enquiry management.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Communicate and maintain relationship with buyers and suppliers	1.1 Clear and effective communication with buyers and suppliers are maintained. 1.2 <u>Rapport-building techniques</u> are applied and practiced. 1.3 Buyers and suppliers' expectations are managed effectively by providing accurate information. 1.4 Proactive follow-ups are conducted.
2. Perform the order enquiry management	2.1 <u>Order enquiry handling procedure</u> is identified. 2.2 Order enquiries are received and acknowledged. 2.3 Customer requirements are clarified and documented. 2.4 Capability of the requested products is verified and communicated to the customer in a timely manner. 2.5 Pricing and lead times are calculated and communicated. 2.6 Follow-up communication is carried out to address any additional customer. 2.7 Feedback from the customer is collected. 2.8 Final negotiation with buyer's is acknowledged and discussed to address adjustments to the order.

Range of Variables

Variable	Range (Includes but not limited to):
1. Rapport building techniques	1.1 Empathy 1.2 Timely & regular communication 1.3 Commitment to quality 1.4 Adherence to deadlines of executing order 1.5 Transparency in dealings 1.6 Integrity and honesty 1.7 Advance communication on schedule changes if required

2. Order enquiry handling procedure	2.1 Lead time/space availability 2.2 Product capability 2.3 Consumption and Costing 2.4 Pricing and profitability 2.5 Negotiation
-------------------------------------	---

Curricular Content Guide

1. Underpinning Knowledge	1.1 Identify clear and effective communication with buyers and suppliers. 1.2 Rapport-building techniques to strengthen business relationships. 1.3 Buyers' and suppliers' expectations by providing accurate and timely information. 1.4 Identify and follow the order enquiry handling procedure, including receiving and acknowledging enquiries. 1.5 Capability of requested products and communicate product availability and details to the customer. 1.6 Follow up on communication to address any additional customer needs or concerns. 1.7 Acknowledge and discuss final negotiations with buyers to address any adjustments to orders.
2. Underpinning Skills	2.1 Maintaining clear and effective communication with buyers and suppliers. 2.2 Applying and practicing rapport-building techniques. 2.3 Managing buyers and suppliers' expectations by providing accurate information. 2.4 Conducting proactive follow-ups. 2.5 Identifying order enquiry handling procedures. 2.6 Receiving and acknowledging order enquiries. 2.7 Clarifying and documenting customer requirements. 2.8 Verifying the capability of requested products and communicating to the customer. 2.9 Calculating and communicating pricing and lead times. 2.10 Carrying out follow-up communication to address any additional customer needs. 2.11 Collecting feedback from the customer. 2.12 Acknowledging and discussing final negotiation adjustments with buyers.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace

	3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Internet connectivity 4.4 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 communicated and maintained relationship with buyers and suppliers 1.2 performed the order enquiry management
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: ILLUSTRATE THE PROCESS OF SOURCING MATERIAL	Nominal Duration: 32 Hrs.	Unit Code: SICIP-RMG-APM-04-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to illustrate the process of sourcing material. It specifically includes the tasks of interpreting types of fabric and yarn, selecting the trims and accessories, performing the procedure of preparing BOM sheet and demonstrating the process of supplier's negotiation and booking.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret types of fabric and yarn	1.1 Different <u>types of fabrics</u> are categorized and compared 1.2 Fabrics are selected and collected according to work order. 1.3 <u>Types of yarn</u> are identified and classified.
2. Select the trims and accessories	2.1 Classification of different types of trims and accessories is carried out. 2.2 <u>Trims and accessories</u> are collected as per work order specifications.
3. Perform the procedure of preparing BOM sheet	3.1 Purpose of the BOM sheet is recognized. 3.2 Tech-pack and sample are analyzed and used in the production of each style. 3.3 Procedure for preparing the BOM sheet is interpreted. 3.4 BOM (Bill of Material) for each of the styles in the collection is prepared. 3.5 Appropriate supplier details and sourcing information are included. 3.6 BOM sheet is reviewed for accuracy and completeness. 3.7 Finalized BOM sheet is stored and organized for easy access.
4. Demonstrate the process of supplier negotiation and booking	4.1 <u>Negotiation process</u> of booking is demonstrated in line with industry best practices. 4.2 Booking procedures are followed. 4.3 Price and availability of materials is negotiated with suppliers with emphasis on timely delivery. 4.4 Negotiation process for booking is carried out. 4.5 Booking procedures are followed to ensure accuracy and compliance. 4.6 Supplier terms and conditions are reviewed and agreed upon before finalizing the booking.

Range of Variables

Variable	Range (Includes but not limited to):
1. Types of fabrics	Woven 1.1 Twill Fabric 1.2 Canvas fabric 1.3 Plain/Poplin weaved fabric 1.4 Herringbone 1.5 Oxford fabric 1.6 Dobby Fabric 1.7 Denim fabric Knit 1.8 Weft knitted fabrics 1.9 Jacquard 1.10 Warp knitted fabrics
2. Types of yarn	2.1 Cotton and cotton blended 2.2 Acrylic and acrylic blended 2.3 Viscose/rayon/modal and blended 2.4 Nylon 2.5 Spandex or elastane 2.6 Wool (Cashmere/cashmere blended, merino, alpaca)
3. Trims and accessories	Trims 3.1 Sewing Thread 3.2 Label 3.3 Button 3.4 Zipper 3.5 Elastic 3.6 Lace 3.7 Rivet 3.8 Draw cord/String 3.9 Stopper 3.10 Shoulder Pad 3.11 Velcro 3.12 Applique embroidery 3.13 Collar stays Accessories 3.14 Hang Tag 3.15 Radio-Frequency Identification (RFID) 3.16 Collar stand 3.17 Carton 3.18 Carton sticker 3.19 Hanger 3.20 Back board 3.21 Neck board 3.22 Butterfly 3.23 Gum Tape 3.24 Price ticket

	3.25 Poly bag 3.26 Safety Pin 3.27 Plastic clip 3.28 Tissue paper 3.29 Micro pack
4. BOM sheet	4.1 Style number 4.2 Order number 4.3 Product description 4.4 Materials description 4.5 Consumption
5. Negotiation process	5.1 Identifying raw material requirements 5.2 Supplier identification and evaluation 5.3 Initial supplier contact 5.4 Price negotiation 5.5 Quality assurance and sample approvals 5.6 Order confirmation and contract signing 5.7 Delivery and logistics negotiation 5.8 Ongoing relationship and performance review

Curricular Content Guide

1. Underpinning Knowledge	1.1 Categorize and compare different types of fabrics for selection based on work orders. 1.2 Identify types of yarn used in fabric production. 1.3 Trims and accessories, and collect them as per work order specifications. 1.4 Recognize the purpose of the Bill of Materials (BOM) sheet and interpret the procedure for preparing it. 1.5 Analyze tech-packs and samples to aid in the production of each style. 1.6 BOM sheets for accuracy, completeness, and supplier details. 1.7 The negotiation process for booking materials in line with industry best practices. 1.8 Booking procedures and negotiate prices, availability, and timely delivery with suppliers.
2. Underpinning Skills	2.1 Categorizing and comparing different types of fabrics. 2.2 Selecting and collecting fabrics according to the work order. 2.3 Carrying out the classification of different trims and accessories. 2.4 Collecting trims and accessories based on work order specifications. 2.5 Analyzing and using the tech-pack and sample in production. 2.6 Preparing the BOM for each style in the collection. 2.7 Reviewing the BOM sheet for accuracy and completeness.

	2.8 Demonstrating the negotiation process for booking in line with industry best practices. 2.9 Negotiating the price and availability of materials with suppliers, emphasizing timely delivery. 2.10 Carrying out the negotiation process for booking.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Internet connectivity 4.4 Sample fabrics 4.5 Sample yarn 4.6 Trims and accessories 4.7 BOM sheet 4.8 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted types of fabric and yarn 1.2 selected the trims and accessories 1.3 performed the procedure of preparing BOM sheet 1.4 demonstrated the process of supplier's negotiation and booking
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: CARRY OUT MEASUREMENT, CONSUMPTION & COST CALCULATION	Nominal Duration: 68 Hrs.	Unit Code: SICIP-RMG-APM-05-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to carry out measurement, consumption and cost calculation. It specifically includes the tasks of interpreting the sketch and measurement chart, identifying the points of measuring for apparel, summarizing the process of fabric consumption and calculation, following the process of trims and accessories consumption and calculation, performing costing calculation and preparing costing sheet.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret the sketch and measurement chart	1.1 Sketch is interpreted as per <u>Tech. Pack</u> received. 1.2 Approval and updating of all work sheets are done as per company guidelines. 1.3 <u>Measurement charts</u> are recognized and followed.
2. Identify the points of measuring for apparel	2.1 Points of measuring in the <u>Measurement Guide</u> are followed. 2.2 <u>Level of tolerance</u> specified in the measuring guide are identified.
3. Summarize the process of fabric consumption and calculation	3.1 Procedures of <u>fabric consumption</u> are identified and described. 3.2 Fabric <u>consumption formulas</u> are applied based on the specifications of the work order. 3.3 Process of <u>cost calculation</u> is identified and explained with reference to the sample provided. 3.4 Fabric consumption data and cost calculations are reviewed.
4. Follow the process of trims and accessories consumption and calculation	4.1 The process of <u>Trims and Accessories consumption</u> calculation is identified 4.2 Costing of the trims and accessories consumption is calculated. 4.3 Consumption format is prepared as per sample
5. Perform costing calculation	5.1 The process of <u>CM (Cost of Manufacturing)</u> calculation is interpreted and explained. 5.2 CM calculation for casual and formal apparel is prepared following the standard costing procedures. 5.3 CMPT (Cut, Make, Packing, and Trim) cost calculations are carried out and documented. 5.4 The accuracy of the costing calculation is verified

	against established benchmarks.
6. Prepare costing sheet	6.1 Costing format is identified. 6.2 All relevant cost elements are included. 6.3 FOB price is prepared in accordance with product specifications. 6.4 The prepared FOB price is reviewed.

Range of Variables

Variable	Range (Includes but not limited to):
1. Tech pack	1.1 Product description 1.2 Flat sketch 1.3 Fabrics 1.4 Trims and accessories details 1.5 Measurement chart
2. Measurement charts	2.1 Point of measure 2.2 Size range 2.3 Tolerance limit
3. Measuring guide	3.1 Vertical measurement 3.2 Horizontal measurements
4. Level of tolerance	4.1 Parts of apparel 4.2 Point to measure 4.3 Unit of tolerance 4.4 Tolerance percentage
5. Fabric consumption	5.1 Types of fabric 5.2 Types of apparel 5.3 Grain line orientation 5.4 Fabric width 5.5 Marker efficiency 5.6 Shrinkage of the fabric 5.7 Size ratio breaks up and quantity
6. Consumption formula	6.1 Length and width of the parts 6.2 Sewing allowances 6.3 Formula for woven 6.4 Formula for knit 6.5 Formula for sweater 6.6 Fabric weight (GSM) 6.7 Fabrics width 6.8 Wastages percentage
7. Cost Calculation	7.1 Fabric consumption 7.2 Trims and accessories consumption 7.3 Unit price 7.4 Cost of manufacturing (CM) 7.5 Embellishment (Print/ Embroidery) charge 7.6 Cost of washing 7.7 Commercial and banking cost 7.8 Testing and inspection charge

8. Trims and Accessories consumption	8.1 Types of trims and accessories 8.2 Units of trims and accessories 8.3 Number of pieces required in the apparel
9. CM (cost of manufacturing) calculation	9.1 Fixed cost of the factory 9.2 Overhead cost 9.3 Per day per machine cost 9.4 Daily production per line 9.5 Number of the workforce per line 9.6 Standard Minute Value (SMV) 9.7 Cost Per Minute (CPM) 9.8 Earning Per Minute (EPM) 9.9 Production efficiency
10. Costing format	10.1 Key components of costing format 10.2 Cost sheet 10.3 Material description 10.3.1 Fabric 10.3.2 Sewing accessories 10.3.3 Finishing accessories 10.4 Consumption 10.5 Unit price
11. FOB price	11.1 Agency/buying commission 11.2 Total cost 11.3 Profit percentage

Curricular Content Guide

1. Underpinning Knowledge	1.1 Interpret sketches according to the tech pack received and update work sheets as per company guidelines. 1.2 Recognize measurement charts, including the points of measurement in the guide. 1.3 Identify and understand the level of tolerance specified in the measuring guide. 1.4 Describe fabric consumption formulas based on work order specifications. 1.5 Identify and explain the process of cost calculation with reference to the provided sample. 1.6 Identify consumption and cost of trims and accessories. 1.7 Interpret and explain the process of Cost of Manufacturing (CM) calculation, applying it to casual and formal apparel. 1.8 Identify cost elements in the costing format. 1.9 FOB price in line with product specifications.
2. Underpinning Skills	2.1 Approving and updating all worksheets according to company guidelines. 2.2 Recognizing and following measurement charts.

	2.3 Following points of measuring in the Measurement Guide. 2.4 Applying fabric consumption formulas based on work order specifications. 2.5 Reviewing fabric consumption data and cost calculations. 2.6 Calculating the costing of trims and accessories consumption. 2.7 Preparing the consumption format as per the sample. 2.8 Preparing CM calculation for casual and formal apparel following standard costing procedures. 2.9 Carrying out and documenting CMPT (Cut, Make, Packing, and Trim) cost calculations. 2.10 Verifying the accuracy of costing calculations against established benchmarks. 2.11 Preparing the FOB price in accordance with product specifications.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Projector 4.4 Tech pack 4.5 Measurement chart 4.6 Measuring guide 4.7 Costing format 4.8 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	1.1 interpreted the sketch and measurement chart 1.2 identified the points of measuring for apparel 1.3 summarized the process of fabric consumption and calculation 1.4 followed the process of trims and accessories and calculation 1.5 performed costing calculation 1.6 prepared costing sheet
-----------------------------------	---

2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY THE METHODS OF ORDER FOLLOW UP	Nominal Duration: 20 Hrs.	Unit Code: SICIP-RMG-APM-06-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply the methods of order follow-up. It specifically includes the tasks of interpreting the order handling procedure, recognizing supplier's evaluation process and preparing TNA plan.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret the order handling procedure	1.1 Order handling procedure is identified and explained. 1.2 Steps involved in the order processing are outlined. 1.3 All information of <u>approved samples</u> is collected, recorded and maintained. 1.4 Order details are reviewed. 1.5 Order flow is tracked and monitored.
2. Perform supplier's evaluation process	2.1 Methods of <u>order follow-up</u> are interpreted and explained. 2.2 Supplier evaluation process is carried out. 2.3 Evaluation results are documented and communicated.
3. Prepare TNA plan	3.1 Time and Action (TNA) plan format is identified. 3.2 Critical path management (CPM) is analyzed as per lead time. 3.3 Key activities and milestones are identified and prioritized in the TNA plan. 3.4 Timeline for each merchandising task is established and documented. 3.5 Resources required for merchandising process are identified. 3.6 Time and Action (TNA) plan is prepared based on order execution time.

Range of Variables

Variable	Range (Includes but not limited to):
1. Approved Samples	1.1 3D sampling 1.2 Fit 1.3 Size set 1.4 Pre-production (PP) 1.5 Shipment samples 1.6 Photo samples 1.7 Test samples 1.8 Sales Marketing Samples (SMS)

2. Order follow up	2.1 TNA plan 2.2 Color and quality approval 2.3 Garments and fabrics test 2.4 Sample approval 2.5 Trim card 2.6 Production size set 2.7 Pre- production meeting 2.8 Daily production monitor 2.9 Final inspection 2.10 Shipment
--------------------	--

Curricular Content Guide

1. Underpinning Knowledge	1.1 Identify and explain the order handling procedure and steps involved in order processing. 1.2 Maintain information on approved samples. 1.3 Review order details and track order flow throughout the process. 1.4 Interpret and explain methods for order follow-up. 1.5 Identify the Time and Action (TNA) plan format, focusing on Critical Path Management (CPM) and lead time. 1.6 Prioritize key activities and milestones in the TNA plan and establish timelines for each task. 1.7 Identify resources required for the merchandising process and prepare the TNA plan based on order execution time.
2. Underpinning Skills	2.1 Outlining the steps involved in order processing. 2.2 Collecting, recording, and maintaining all information of approved samples. 2.3 Reviewing order details. 2.4 Tracking and monitoring order flow. 2.5 Carrying out the supplier evaluation process. 2.6 Documenting and communicating evaluation results. 2.7 Analyzing Critical Path Management (CPM) as per lead time. 2.8 Establishing and documenting timelines for each merchandising task. 2.9 Preparing the Time and Action (TNA) plan based on order execution time.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace

4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer with internet 4.3 Approved sample 4.4 TNA plan
-------------------------	--

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted the order handling procedure 1.2 recognized supplier's evaluation process 1.3 prepared TNA plan
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: INTERPRET THE PROCESS OF COMMERCIAL AND BANKING ACTIVITIES	Nominal Duration: 20 Hrs.	Unit Code: SICIP-RMG-APM-07-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to interpret the process of commercial and banking activities. It specifically includes the tasks of interpreting the commercial and banking requirements, following the procedures for letter of credit (L/C), identifying the booking format for shipment and defining the payment methods.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret the commercial and banking requirements	1.1 <u>Legal and regulatory requirements</u> are identified. 1.2 Commercial and banking requirements are identified and understood. 1.3 Banking procedures are explained and applied.
2. Follow the procedures for letter of credit (L/C)	2.1 Purpose of letter of credit (L/C) is recognized. 2.2 Different <u>types of letters of credits</u> are interpreted. 2.3 L/C procedures are followed to create an L/C.
3. Identify the booking format for shipment	3.1 Purpose of the booking format for shipment is recognized and explained. 3.2 <u>Shipment booking formats</u> are identified and described.
4. Define the payment methods	4.1 The purpose of payment documentation is defined and explained. 4.2 Types of <u>payment methods</u> are identified and described. 4.3 Required <u>payment documentation</u> are interpreted. 4.4 Payment processing guidelines are followed.

Range of Variables

Variable	Range (Includes but not limited to):
1. Legal and regulatory requirements	1.1 Trade License 1.2 Bank account 1.3 Export Registration Certificate (ERC) 1.4 Import Registration Certificate (IRC) 1.5 BGMEA/BKMEA membership certificate 1.6 TIN certificate 1.7 BIN certificate 1.8 Fire license 1.9 Factory license 1.10 Social and environmental certificate

	1.11 Factory layout approval 1.12 Structural approval
2. Types of letters of credit (L/C)	2.1 Master L/C 2.2 Back-to-back L/C 2.3 Sight L/C 2.4 Deferred L/C
3. Shipment booking formats	3.1 Buyer 3.2 Style no 3.3 PO Number 3.4 Invoice no 3.5 Quantity to be shipped 3.6 Total CBM 3.7 Gross weight 3.8 Net weight 3.9 Container type 3.10 Goods handover date
4. Payment methods	4.1 Letter of credit (L/C) 4.2 Open account (OA) 4.3 Telegraphic transfer (TT) 4.4 Real Time Gross Settlement (RTGS) 4.5 Sales contract
5. Payment's documentation	5.1 Commercial invoice 5.2 Packing list 5.3 Bill of Lading (B/L) or Air Way Bill (AWB) 5.4 Inspection certificate 5.5 GSP (If applicable)

Curricular Content Guide

1. Underpinning Knowledge	1.1 Identify legal and regulatory requirements in business transactions. 1.2 Describe commercial and banking requirements and understand their importance. 1.3 Explain banking procedures and apply them in practice. 1.4 Recognize the purpose of letters of credit (L/C) and interpret different types of L/Cs. 1.5 Follow L/C procedures to create a letter of credit. 1.6 Understand the purpose of shipment booking formats and explain their role in the process. 1.7 Identify and describe various shipment booking formats. 1.8 Define the purpose of payment documentation and explain its significance in transactions. 1.9 Understand different types of payment methods and interpret the required payment documentation.
2. Underpinning Skills	2.1 Applying banking procedures. 2.2 Recognizing the purpose of a letter of credit (L/C).

	2.3 Following L/C procedures to create a letter of credit. 2.4 Recognizing and explaining the purpose of the booking format for shipment. 2.5 Identifying and describing shipment booking formats. 2.6 Defining the purpose of payment documentation. 2.7 Interpreting required payment documentation. 2.8 Following payment processing guidelines.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Sample letter of credits (L/C) 4.4 Shipment booking formats

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted the commercial and banking requirements 1.2 followed the procedures for letter of credit (L/C) 1.3 identified the booking format for shipment 1.4 defined the payment methods
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

End of the Competency Standard

Workshop/Lab Facility Standard

Course Name:	Apparel Merchandising
Number of Trainees:	25

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom – 350 sft (33 sqm)
 - Workshop/ lab – 800 sft (75 sqm)
- OR
- Classroom cum workshop – 1000 sft (93 sqm)

Major Training Equipment and Training Facilities:

S.N.	Major Equipment and Training facilities	Required facilities
1.	Computer	05
2.	Internet connectivity	01
3.	Multimedia projector & screen	01
4.	Fabric Swatches and Trims	25
5.	Measurement tape	25
6.	Garments sample (Knit, Woven and Sweater)	30
7.	Mannequin doll (Child, male and female)	05
8.	Working Table (Minimum 6 feet)	05
9.	Counting glass/Pick glass	10
10.	Weighing machine	02
11.	GSM cutter and scale	02
12.	Sample BOM sheet (Tech-pack)	10
13.	Single needle lock stitch machine	01
14.	Single needle chain stitch machine	01
15.	Over lock machine	01
16.	Flat lock machine	01

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency standards (CS) provided by SICIP.

For the operation of training course on Apparel Merchandising the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
