FOR

MOTOR DRIVING WITH BASIC MAINTENANCE

(TRANSPORT SECTOR)

Skills for Industry Competitiveness and Innovation Program (SICIP)
Finance Division, Ministry of Finance

COPYRIGHT

The Competency Standards for Motor Driving with Basic Maintenance is a document for the development of curricula, teaching and learning materials, and assessment tools. It also serves as the document for providing training consistent with the requirements of the industry for individuals who pass through the set standard via assessment. Subsequently, they would be qualified and settled for a relevant job.

Developed under the Skills for Industry Competitiveness and Innovation Program (SICIP), this document addresses the skills requirements critical for Motor Driving with Basic Maintenance. It is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutions may use the information contained in this standard for activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

INTRODUCTION:

The Skills for Industry Competitiveness and Innovation Program (SICIP) has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

The Competency Standard also suggests integration of YouTube or similar platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standards are developed by a working group comprised of national and international process experts and the participation of experts from the industry to identify the competencies required of an occupation in a particular sector.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity
- Guide the assessor in determining whether the candidate is competent.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution, relevant consultants of SICIP.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a glance:
Generic Competencies (30 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-TRA-MDM-01-G	Apply Occupational Health and Safety (OHS) Practice in The Workplace	1. Identify OHS policies and procedures. 2. Apply personal health and safety practices. 3. Report hazards and risks. 4. Respond to emergencies.	10
SICIP-TRA-MDM-02-G	Carry Out Workplace Interaction	1. Interpret workplace communication and etiquette. 2. Read and understand workplace documents. 3. Participate in workplace meetings and discussions. 4. Practice professional ethics at work.	10
SICIP-TRA-MDM-03-G	Operate In a Team Environment	1. Identify team goals and work processes. 2. Identify own role and responsibilities within team. 3. Communicate and co-operate with team members. 4. Practice problem solving within the team.	10
Total Hour			30

Sector Specific Competencies (20 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-TRA-MDM-01-S	Use Hand and Power Tools	1. Identify and inspect hand and power tools. 2. Use hand tools properly and safely. 3. Operate power tools properly and safely. 4. Clean and maintain hand and power tools.	20
Total Hour			20

Occupation Specific Competencies (310 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP-TRA-MDM-01-O	Manage Vehicle Safety and Emergency Procedures	1. Recognize and manage vehicle safety hazards. 2. Respond to emergency situations. 3. Conduct regular safety checks. 4. Understand and implement fire safety protocols. 5. Interpret defensive driving techniques. 6. Identify causes of road accidents.	20
SICIP-TRA-MDM-02-O	Use Motor Vehicle Tools and Equipment	1. Identify common tools and equipment. 2. Practice tools and equipment. 3. Store tools and equipment.	10
SICIP-TRA-MDM-03-O	Operate Motor Vehicles	1. Perform vehicle pre-starting and warm-up 2. Guide and control the vehicle 3. Drive a vehicle 4. Park a vehicle 5. Drive a vehicle on different road conditions	160
SICIP-TRA-MDM-04-O	Maintain Basic Vehicle Components	1. Identify types of vehicle and components. 2. Identify type of engines and their functions. 3. Identify different type of vehicle systems. 4. Perform routine maintenance. 5. Replace basic parts. 6. Maintain proper records.	30
SICIP-TRA-MDM-05-O	Understand Vehicle Regulations and Documentation	1. Understand and comply with national vehicle regulations. 2. Maintain records of driving. 3. Apply knowledge of traffic laws and regulations. 4. Maintain and preserve legal document of Drivers and Vehicles.	30

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP-TRA-MDM-06-O	Understand basic Arabic Language in Driving	1. Understand basic Arabic terms and phrases. 2. Communicate vehicle issues and requirements. 3. Assist Arabic-speaking customers with driving. 4. Identify Arabic Warnings & Signs.	20
SICIP-TRA-MDM-07-O	Practice English Language in Driving	1. Understand basic English terminology. 2. Communicate effectively in English. 3. Interpret vehicle manuals and regulatory documents. 4. Respond to customer inquiries in English.	40
Total Hours			310 Hrs.

COMPETENCY STANDARD: MOTOR DRIVING WITH BASIC MAINTENANCE

Generic Competencies

Unit of Competency: APPLY OCCUPATIONAL HEALTH AND SAFETY (OHS) PRACTICE IN THE WORKPLACE	Nominal Duration: 10 Hrs.	Unit Code: SICIP-TRA-MDM-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply occupational health and safety (OHS) practice in the workplace. It specifically includes the tasks of identifying OHS policies and procedures, applying personal health and safety practices, reporting hazards and risks, and responding to emergencies.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify OHS policies and procedures	1.1 <u>OHS policies</u> and safe operating procedures are interpreted. 1.2 Safety signs and symbols are identified and followed. 1.3 Response, evacuation procedures and other contingency measures are interpreted correctly.
2. Apply personal health and safety practices	2.1 OHS policies and procedures are applied in the workplace including <u>personal protective equipment (PPE)</u> . 2.2 Common health issues are recognised. 2.3 Common safety issues are identified.
3. Report hazards and risks	3.1 Hazards and risks are identified. 3.2 Hazards and risks assessment and controls are interpreted.
4. Respond to emergencies	4.1 Respond to alarms and warning devices. 4.2 <u>Emergency response plans and procedures</u> are responded to. 4.3 <u>First aid procedures</u> during emergency situations are identified.

Range of Variables

Variable	Range (Includes but not limited to):
1. OHS policies	1.1 Organisational OHS policies 1.2 International OHS requirements 1.3 Fire safety rules and regulations
2. Emergency response plans and procedures	2.1 Firefighting procedures 2.2 Earthquake response procedures 2.3 Emergency response plans and procedures 2.4 Medical and first aid

3. First aid procedure	3.1 Washing of open wound 3.2 Washing chemically infected area 3.3 Applying bandage 3.4 Taking appropriate medicine
4. Personal protective equipment	4.1 Safety glasses 4.2 Ear plugs 4.3 Gloves 4.4 Apron 4.5 Helmet 4.6 Mask 4.7 Safety shoes

Curricular Content Guide

1. Underpinning Knowledge	1.1. Workplace OHS policies and procedures 1.2. Work safety procedures 1.3. Emergency response procedures: 1.3.1. Firefighting 1.3.2. Earthquake response 1.3.3. Accident response 1.4. Types of hazards (biological, chemical and physical) and their effects 1.5. OHS awareness 1.6. Personal protective equipment (PPE)
2. Underpinning Skills	2.1. Identifying OHS policies and procedures 2.2. Applying personal health and safety practices 2.3. Reporting hazards and risks 2.4. Responding to emergencies
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Firefighting equipment 4.4 Emergency response manual 4.5 First aid kits 4.6 Projector

	4.7 Stationary
	4.8 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Identified OHS policies and procedures 1.2 Applied personal health and safety practices (including PPE) 1.3 Reported hazards and risks 1.4 Responded to emergencies
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: CARRY OUT WORKPLACE INTERACTION	Nominal Duration: 10 Hrs.	Unit Code: SICIP-TRA-MDM-02-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to carry out workplace interaction. It specifically includes the tasks of interpreting workplace communication and etiquette, reading and understanding workplace documents, participating in workplace meetings and discussions, and practicing professional ethics at work.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret workplace communication and etiquette	1.1 Workplace codes of conduct are interpreted as per organisational guidelines. 1.2 Appropriate lines of communication are maintained with supervisors and colleagues. 1.3 Workplace interactions are conducted in a <u>courteous manner</u> to gather and convey information. 1.4 <u>Workplace procedures and matters</u> are comprehended.
2. Read and understand workplace documents	2.1 Workplace documents are interpreted correctly. 2.2 Visual information/symbols/signage are understood correctly and followed. 2.3 Specific and relevant information are accessed from <u>appropriate sources</u> . 2.4 Appropriate medium is used to transfer information and ideas.
3. Participate in workplace meetings and discussions	3.1 Team meetings are attended on time. 3.2 Meeting procedures and etiquette are followed. 3.3 Active participation is ensured, opinions are expressed and heard. 3.4 Inputs are provided and interpreted in line with the meeting purpose.
4. Practice professional ethics at work	4.1 Responsibilities as a team member are performed. 4.2 Tasks are performed in accordance with workplace procedures. 4.3 Confidentiality is maintained. 4.4 Inappropriate and conflicting situations are avoided.

Range of Variables

Variable	Range (Includes but not limited to):
1. Courteous manner	1.1 Effective questioning 1.2 Active listening 1.3 Speaking skills

	1.4 Writing skill 1.5 Email etiquette
2. Workplace procedures and matters	2.1 Notes 2.2 Arranging a meeting 2.3 Agenda 2.4 Simple reports such as progress and incident reports 2.5 Job sheets 2.6 Operational manuals 2.7 Brochures and promotional material 2.8 Visual and graphic materials 2.9 Standards 2.10 OHS information 2.11 Signs
3. Appropriate sources	3.1 Human Resources (HR) Department 3.2 Managers 3.3 Supervisors 3.4 Management Information System (MIS)

Curricular Content Guide

1. Underpinning Knowledge	1.1. Workplace communication and etiquette 1.2. Workplace documents, signs and symbols 1.3. Meeting procedure and etiquette 1.4. Professional ethics
2. Underpinning Skills	2.1. Demonstrating workplace communication and etiquette 2.2. Interpreting workplace instructions and symbols 2.3. Demonstrating active participation in workplace meeting 2.4. Applying professional ethics at work
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Workplace procedures 4.3 Standard operating procedure 4.4 Workplace documents, signs and symbols 4.5 Codes of conduct 4.6 Projector 4.7 Stationary 4.8 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Interpreted workplace communication and etiquette 1.2 Interpreted workplace instructions and symbols 1.3 Performed active participation in workplace meetings
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: OPERATE IN A TEAM ENVIRONMENT	Nominal Duration: 10 Hrs.	Unit Code: SICIP-TRA-MDM-03-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to operate in a team environment. It specifically includes the tasks of identifying team goals and work processes, identifying own role and responsibilities within team, communicating and co-operating with team members, and practicing problem solving within the team.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify team goals and work processes	1.1 Roles and objectives of the team are identified and interpreted. 1.2 Roles and responsibilities of team members are identified and interpreted.
2. Identify own role and responsibilities within team	2.1 Personal role and responsibilities are identified within the team environment. 2.2 Reporting relationships are interpreted within team and external to team.
3. Communicate and co-operate with team members	3.1 Other teammates' tasks are identified and support provided when requested. 3.2 The team is encouraged through <u>sharing information</u> or expertise, working together to solve problems, and putting team success first. 3.3 Views and opinions of other team members are interpreted and respected.
4. Practice problem solving within the team	4.1 Problems faced at the individual and team level are identified and showed insight into the root-causes of the problems. 4.2 A range of solutions and courses of action are identified together with benefits, costs, and risks associated with each. 4.3 The good ideas of others to help develop solutions are recognised and advice sought from those who have solved similar problems. 4.4 It is looked beyond the obvious and not stopped at the first answers.

Range of Variables

Variable	Range (Includes but not limited to):
1. Sharing information	1.1 Agenda 1.2 Minutes

	1.3 Progress and incident reports 1.4 Operational manuals 1.5 Visual and graphic materials 1.6 Emails and SMS 1.7 Phone directory 1.8 Policy, procedure and standards 1.9 OHS information
--	---

Curricular Content Guide

1. Underpinning Knowledge	1.1. Team goals and work processes 1.2. Roles and responsibilities 1.3. Finding problems and solving them
2. Underpinning Skills	2.1. Identifying own role and responsibilities within team 2.2. Communicating and co-operating with team members 2.3. Demonstrating problem solving within the team
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1. Workplace (simulated or actual) 4.2. Projector 4.3. Stationary 4.4. Learning manual 4.5. Tools, equipment and facilities appropriate to the process or activities.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Interpreted team goals and work processes 1.2 Described roles and responsibilities of team members 1.3 Communicated and co-operated with team members 1.4 Demonstrated problem solving within the team
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration

	2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Sector-specific Competencies

Unit of Competency: USE HAND AND POWER TOOLS	Nominal Duration: 20 Hrs.	Unit Code: SICIP-TRA-MDM-01-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to use hand and power tools in the workplace. It specifically includes the tasks of identifying and inspecting hand and power tools for usability, using and operating tools properly and safely, and cleaning and maintaining hand and power tools after use.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify and inspect hand and power tools	1.1 Appropriate hand and power tools are identified. 1.2 Application of hand and power tools is recognised. 1.3 Usability of hand and power tools is checked and verified.
2. Use hand tools properly and safely	2.1 Appropriate <u>hand tools</u> are selected. 2.2 Safety precautions are ensured before using hand tools. 2.3 Unsafe or faulty hand tools are identified and marked for repair. 2.4 <u>Measuring tools</u> are checked and calibrated before use. 2.5 Use hand and measuring tools properly and safely to perform work activity.
3. Operate power tools properly and safely	3.1 Appropriate <u>power tools</u> are selected. 3.2 Power supply outlet and electrical cord are inspected and confirmed safe for use in accordance with established workplace safety requirements. 3.3 Safety precautions are ensured before using power tools in accordance with manufacturer's operating specification. 3.4 Proper sequence of operation applied for using power tools. 3.5 Unsafe or faulty power tools are identified and marked for repair. 3.6 Operate power tools properly and safely to perform work activity.
4. Clean and maintain hand and power tools	4.1 Appropriate <u>power tools</u> are selected. 4.2 Power supply outlet and electrical cord are inspected and confirmed safe for use in accordance with established workplace safety requirements. 4.3 Safety precautions are ensured before using power tools in accordance with manufacturer's operating

	specification.
	4.4 Proper sequence of operation applied for using power tools.
	4.5 Unsafe or faulty power tools are identified and marked for repair.
	4.6 Operate power tools properly and safely to perform work activity.

Range of Variables

Variable	Range (Includes but not limited to):
1. Hand tools	1.1. Hacksaw 1.2. Hammer 1.3. Files 1.4. Pliers 1.5. Punches 1.6. Screwdrivers 1.7. Wrench box 1.8. Hand tap 1.9. Wire cutters 1.10. Hand hacksaw 1.11. Drill 1.12. Grinder 1.13. Dial gauge 1.14. Spanner comb 1.15. Spanner ring 1.16. Socket ratchet set 1.17. Easy opener 1.18. Top roller adjust gauge 1.19. Allen key 1.20. Top roller adjust gauge
2. Power tools	2.1 Portable drilling machine 2.2 Threading machine 2.3 Saws 2.4 Glue gun 2.5 Soldering iron 2.6 Grinders
3. Measuring tools	3.1 Gauges 3.2 Hose level 3.3 Water level 3.4 Micrometre 3.5 Multi-meter 3.6 Tachometer 3.7 Thermometers 3.8 Dial indicators 3.9 Slide callipers 3.10 Tape measure 3.11 Testing lead

Curricular Content Guide

1. Underpinning Knowledge	1.1. Information on types of hand and power tools, their functions and use 1.2. Procedures for safely using hand and power tools
2. Underpinning Skills	2.1. Identifying hand, power and measuring tools 2.2. Following safety precautions when using hand, power and measuring tools 2.3. Using hand and measuring tools correctly and safely in accordance with manufacturer's operating specification 2.4. Operating power tools correctly and safely in accordance with manufacturer's operating specification 2.5. Cleaning and maintaining hand and power tools after use 2.6. Applying appropriate lubricant on hand and power tools after use and prior to storing
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Hand tools 4.3 Power tools 4.4 Measuring tools 4.5 Projector 4.6 Stationary 4.7 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Identified and selected appropriate hand and power tools for work to be performed 1.2 Identified and used measuring and testing tools appropriate to work activity 1.3 Followed safety precautions when using hand and power tools 1.4 Operated power tools safely and pursuant to
-----------------------------------	---

	manufacturer's operating specification 1.5 Performed cleaning and maintenance of hand and power tools after use and prior to storing
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Occupation-specific Competencies

Unit of Competency: MANAGE VEHICLE SAFETY AND EMERGENCY PROCEDURES	Nominal Duration: 20 Hrs.	Unit Code: SICIP-TRA-MDM-01-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to manage vehicle safety and emergency procedures. It specifically includes the tasks of recognizing and managing vehicle safety hazards, responding to emergency situations, conducting regular safety checks, understanding and implementing fire safety protocols, interpreting defensive driving techniques and identifying causes of road accidents.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Recognize and manage vehicle safety hazards.	1.1. <u>Vehicle safety hazards</u> are recognized by identifying risks. 1.2. Preventive measures are interpreted to reduce risks. 1.3. Safety protocols are identified to address hazards. 1.4. Records of safety inspections and hazard management actions are interpreted.
2. Respond to emergency situations.	2.1. <u>Emergency situations</u> are recognized. 2.2. Immediate actions are taken to ensure personal and passenger safety. 2.3. <u>First aid procedures</u> are applied as needed, ensuring injured individuals receive prompt care. 2.4. Vehicle's emergency equipment is used as appropriate to manage the situation. 2.5. Situation is monitored and additional actions are taken to control or resolve the emergency effectively.
3. Conduct regular safety checks.	3.1. <u>Vehicle's key systems</u> are regularly checked to ensure proper functioning. 3.2. Tire pressure and tread depth are checked to confirm they meet safety standards. 3.3. Vehicle's lights are tested to ensure they are working properly for visibility and communication. 3.4. <u>Fluid levels</u> are monitored and topped up as needed to prevent damage or malfunction. 3.5. Vehicle's steering, suspension, and exhaust systems are inspected. 3.6. Safety features are checked to ensure they are functioning correctly and ready for use in an emergency.
4. Understand and implement fire safety protocols.	4.1. Fire safety protocols are understood. 4.2. Fire extinguishers and emergency equipment are checked regularly.

	4.3 Appropriate fire safety measures are followed. 4.4 Vehicle's fuel system and electrical components are inspected regularly.
5. Interpret defensive driving techniques.	5.1 <u>Defensive driving techniques</u> are understood. 5.2 Vehicle's speed is adjusted according to road conditions, traffic, and weather. 5.3 Situational awareness is maintained by constantly scanning the road for potential dangers.
6. Identify causes of road accidents.	6.1 Causes of road accidents are identified. 6.2 User-related factors are recognized. 6.3 Environmental factors are identified. 6.4 Mechanical failures are identified as potential causes. 6.5 Inappropriate road behavior is recognized as a contributing factor to accidents.

Range of Variables

Variable	Range (Includes but not limited to):
1. Vehicle safety hazards	1.1 Mechanical Failures 1.1.1 Brake Failures 1.1.2 Tire Blowouts 1.1.3 Engine Failure 1.2 Environmental Conditions 1.2.1 Slippery Roads 1.2.2 Fog 1.2.3 Extreme Heat 1.3 Human Errors 1.3.1 Distracted Driving 1.3.2 Over confidence 1.3.3 Speeding 1.3.4 Driving Under the Influence 1.4 External Factors 1.4.1 Collisions with Wildlife 1.4.2 Aggressive Drivers 1.4.3 Poor Road Conditions
2. Emergency situations	2.1 Brake Failure 2.2 Tire Blowout 2.3 Engine Overheating 2.4 Accident or Collision 2.5 Vehicle Stalling 2.6 Transmission Failure 2.7 Electrical Malfunctions 2.8 Battery Issues 2.9 Smoke or Fire in the Vehicle
3. First aid procedures	3.1 Wound Care and Bandaging 3.2 Burn Treatment 3.3 Head, Neck, and Spinal Injury Care 3.4 Bleeding Control
4. Vehicle's key systems	4.1 Engine System

	4.2 Transmission System 4.3 Brake System 4.4 Fuel System 4.5 Electrical System 4.6 Cooling System 4.7 Air Conditioning System 4.8 Lighting System 4.9 Tire and Wheel System
5. Fluid levels	5.1 Engine Oil 5.2 Brake Fluid 5.3 Coolant/Antifreeze 5.4 Power Steering Fluid 5.5 Windshield Washer Fluid 5.6 Battery Fluid 5.7 Clutch Fluid
6. Defensive driving techniques	6.1 Maintaining Safe Following Distance 6.2 Adjusting Speed to Road Conditions 6.3 Using Mirrors Frequently 6.4 Avoiding Blind Spots 6.5 Proper Use of Turn Signals 6.6 Keeping Both Hands on the Wheel 6.7 Scanning the Road Ahead 6.8 Avoiding Distractions 6.9 Yielding the Right of Way 6.10 Being Aware of Other Drivers' Behavior 6.11 Avoiding Aggressive Driving 6.12 Staying Calm in Traffic 6.13 Using Proper Parking Techniques

Curricular Content Guide

1. Underpinning Knowledge	1.1. Identify vehicle safety hazards and recognize risks in the operational environment. 1.2. Interpret preventive measures to reduce risks. Identify safety protocols for addressing hazards. 1.3. Interpret records of safety inspections and hazard management actions. 1.4. Recognize emergency situations and take immediate action to ensure safety. 1.5. Understand fire safety protocols and check fire extinguishers regularly. 1.6. Identify defensive driving techniques and adjust speed for conditions. 1.7. Identify common causes of road accidents and take preventive actions. 1.8. Recognize user-related and environmental factors as contributors to accidents. 1.9. Identify mechanical failures and avoid inappropriate road behavior.
2. Underpinning Skills	2.1. Applying safety policies and procedures in the

	workplace. 2.2. Responding to emergencies according to established procedures. 2.3. Monitoring vehicle safety systems and managing risks using protocols. 2.4. Using records to analyze safety inspection outcomes. 2.5. Applying first aid, using emergency equipment, and adapting actions as needed. 2.6. Inspecting steering, suspension, and exhaust systems for performance. 2.7. Testing vehicle lights to ensure safety standards are met. 2.8. Adjusting vehicle speed based on road conditions and weather. 2.9. Applying preventive measures and following regular inspection schedules.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 recognized and managed vehicle safety hazards. 1.2 responded to emergency situations. 1.3 conducted regular safety checks. 1.4 understood and implemented fire safety protocols. 1.5 interpreted defensive driving techniques. 1.6 identified causes of road accidents.
2 Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning

	2.4 Portfolio (Optional)
3 Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: USE MOTOR VEHICLE TOOLS AND EQUIPMENT	Nominal Duration: 10 Hrs.	Unit Code: SICIP-TRA-MDM-02-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to use motor vehicle tools and equipment. It specifically includes the tasks of identifying common tools and equipment, practicing tools and equipment and storing tools and equipment.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify common tools and equipment.	1.1 <u>Common tools and equipment</u> are identified used for basic vehicle maintenance. 1.2 Lifting equipment is identified, ensuring the safe lifting of vehicles for maintenance and repairs. 1.3 <u>Safety equipment</u> is recognized used to protect the technician during maintenance work. 1.4 Cleaning equipment is recognized used for cleaning components during maintenance.
2. Practice tools and equipment	2.1 Tools and equipment are handled correctly according to their intended use and safety guidelines. 2.2 Proper procedures for using each tool and piece of equipment are followed. 2.3 Tools and equipment are inspected before use to confirm they are in good working condition. 2.4 Tools and equipment are used in a controlled environment. 2.5 Any defects or malfunctions in tools and equipment are identified and reported.
3. Store tools and equipment.	3.1 Tools and equipment are cleaned after use. 3.2 The tools and equipment are organized according to their type and function. 3.3 Tools and equipment are stored in designated storage areas.

Range of Variables

Variable	Range (Includes but not limited to):
1. Common tools and equipment	1.1 Hydraulic jack 1.2 Wheel wrench 1.3 Tire lever 1.4 Ball pin hammer 1.5 Screw drivers 1.6 Pliers 1.7 Tyre pressure gauge

	1.8 Grease gun 1.9 Battery tester and charger 1.10 Jumper cable 1.11 Oil filter wrench
2. Safety equipment	2.1 Helmet 2.2 Gloves 2.3 Safety Glasses/Goggles 2.4 Steel-Toe Boots 2.5 Ear Protection 2.6 Reflective Vest 2.7 First Aid Kit 2.8 Work Apron

Curricular Content Guide

1. Underpinning Knowledge	1.1. Identify common tools and equipment used for basic vehicle maintenance. 1.2. Identify lifting equipment to ensure safe lifting of vehicles for maintenance and repairs. 1.3. Recognize safety equipment used to protect the technician during maintenance work. 1.4. Recognize cleaning equipment used for cleaning components during maintenance. 1.5. Interpret procedures for using each tool and piece of equipment.
2. Underpinning Skills	2.1 Recognizing lifting equipment for the safe lifting of vehicles during repairs. 2.2 Handling tools and equipment correctly, following intended use and safety guidelines. 2.3 Following proper procedures for using each tool and piece of equipment. 2.4 Inspecting tools and equipment before use to ensure they are in good working condition. 2.5 Using tools and equipment in a controlled environment. 2.6 Cleaning tools and equipment after use. 2.7 Organizing tools and equipment according to type and function. 2.8 Storing tools and equipment in designated storage areas.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn

	3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 identified common tools and equipment. 1.2 practiced tools and equipment. 1.3 stored tools and equipment.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: OPERATE MOTOR VEHICLES	Nominal Duration: 160 Hrs.	Unit Code: SICIP-TRA-MDM-03-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to operate motor vehicles. It specifically includes the tasks of performing vehicle pre-starting and warm-up, guiding and controlling the vehicle, driving a vehicle, parking a vehicle and driving a vehicle on different road conditions.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Perform vehicle pre-starting and warm-up	1.1 Engine oil, coolant, and fuel levels are checked for safe operation. 1.2 <u>Battery</u> is checked to confirm it has sufficient charge to start the vehicle without issues. 1.3 <u>Vehicle's lights, indicators</u> , and brakes are checked to ensure they are functioning correctly before starting. 1.4 Vehicle is started and allowed to idle for a few minutes for operation. 1.5 Transmission, steering, and suspension are checked for smooth operation during the warm-up process. 1.6 Any unusual sounds or issues during the warm-up are noted and addressed before further driving.
2. Guide and control the vehicle	2.1 Speed is controlled by adjusting the accelerator and brakes. 2.2 Indicators and other lights are used appropriately to signal lane changes or emergency stops. 2.3 <u>AC module</u> is adjusted to maintain a comfortable cabin temperature. 2.4 Windshield wiper is activated as needed to ensure a clear view during adverse weather conditions. 2.5 Steering is operated smoothly to maintain vehicle stability and guide it along the intended path. 2.6 <u>Gear shift</u> is operated correctly to ensure smooth transitions between gears. 2.7 Brakes are applied progressively to stop or slow the vehicle.
3. Drive a vehicle	3.1 Vehicle is driven forward by engaging the appropriate gear and gradually accelerating. 3.2 Vehicle is driven in reverse by checking the surroundings. 3.3 Right and left turns are made by signaling. 3.4 Zigzag lines are performed by carefully steering the

	vehicle in a controlled manner. 3.5 U-turn is executed by checking for clear road space, signaling, and turning the vehicle.
4. Park a vehicle	4.1 Vehicle is checked to ensure it is fully within the parking space and not obstructing other vehicles or walkways. 4.2 Vehicle is shifted into the appropriate gear (Park or Neutral) based on the type of transmission. 4.3 Vehicle's lights and indicators are turned off to conserve battery power and prevent unnecessary distractions. 4.4 Parking brake is applied to secure the vehicle in place and prevent it from rolling. 4.5 Mirrors are adjusted to ensure that the vehicle is parked safely and without risk of damage to nearby vehicles. 4.6 Engine is turned off and the vehicle is checked for any remaining operational issues before exiting.
5. Drive a vehicle on different road conditions	5.1 Vehicle is driven on <u>various road conditions</u> to ensure adaptability to different environments. 5.2 Vehicle's speed is adjusted based on road conditions. 5.3 Braking distance is maintained appropriately depending on road surface conditions. 5.4 Steering and suspension systems are tested under different road conditions. 5.5 Vehicle's traction control and ABS systems are monitored on slippery or wet roads. 5.6 Vehicle's handling and performance are assessed on gravel, dirt roads, or unpaved paths.

Range of Variables

Variable	Range (Includes but not limited to):
1. Battery	1.1 Electrolyte level 1.2 Terminal connection tightness 1.3 Alternator charging status
2. Vehicle's lights, indicators	2.1 Headlights (high/low beam) 2.2 Tail lights 2.3 Brake lights 2.4 Turn indicators 2.5 Dashboard warning lights
3. AC module	3.1 Cooling mode 3.2 Heating mode 3.3 Temperature adjustment 3.4 Airflow direction 3.5 Fan speed control
4. Gear shift	4.1 Manual gearbox (clutch and gear lever use) 4.2 Automatic transmission (PRNDL modes) 4.3 Smooth gear transition 4.4 Gear indicator lights
5. Various road conditions	5.1 City roads 5.2 Highways

	5.3 Rural roads 5.4 Slopes 5.5 Wet surfaces 5.6 Gravel 5.7 Dirt roads 5.8 Unpaved paths
--	--

Curricular Content Guide

1. Underpinning Knowledge	1.1. Identify engine oil, coolant, and fuel levels to ensure safe operation. 1.2. Identify transmission, steering, and suspension for smooth operation during warm-up. 1.3. Recognize speed by adjusting the accelerator and brakes. 1.4. Interpret the steering smoothly to maintain vehicle stability. 1.5. Interpret zigzag lines by carefully steering in a controlled manner. 1.6. Recognize U-turns by checking for clear road space, signaling, and turning. 1.7. Interpret vehicle speed based on road conditions. 1.8. Interpret appropriate braking distance depending on road surface.
2. Underpinning Skills	2.1. Checking engine oil, coolant, and fuel levels for safe operation. 2.2. Checking the battery to ensure it has sufficient charge to start the vehicle. 2.3. Checking vehicle lights, indicators, and brakes for proper function before starting. 2.4. Checking transmission, steering, and suspension for smooth operation during warm-up. 2.5. Controlling speed by adjusting the accelerator and brakes. 2.6. Operating steering smoothly to maintain vehicle stability and guide it along the path. 2.7. Operating the gear shift correctly for smooth transitions between gears. 2.8. Performing zigzag lines with careful and controlled steering. 2.9. Executing a U-turn by checking for clear road space, signaling, and turning. 2.10. Ensuring the vehicle is fully within the parking space and not obstructing other vehicles or walkways. 2.11. Monitoring traction control and ABS systems on slippery or wet roads. 2.12. Assessing the vehicle's handling and performance on gravel, dirt roads, or unpaved paths.

3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 performed vehicle pre-starting and warm-up 1.2 guided and controlled the vehicle 1.3 drove a vehicle 1.4 parked a vehicle 1.5 drove a vehicle on different road conditions
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: MAINTAIN BASIC VEHICLE COMPONENTS	Nominal Duration: 30 Hrs.	Unit Code: SICIP-TRA-MDM-04-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to maintain basic vehicle components. It specifically includes the tasks of Identifying types of vehicle and components, identifying type of engines and their functions, identifying different type of vehicle systems, performing routine maintenance, replacing basic parts and maintaining proper records.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify types of vehicle and components.	1.1 <u>Different types of vehicles</u> are identified based on their design and purpose. 1.2 <u>Key vehicle components</u> are recognized. 1.3 Function of each vehicle component is explained.
2. Identify type of engines and their functions.	2.1 <u>Types of engines</u> are identified and interpreted. 2.2 <u>Engine configuration</u> is recognized. 2.3 Function of each engine type is explained. 2.4 Role of key engine components is interpreted in the overall engine operation.
3. Identify different type of vehicle systems.	3.1 <u>Vehicle systems</u> are identified. 3.2 Function of each vehicle system is explained. 3.3 Interconnection between systems is recognized.
4. Perform routine maintenance.	4.1 <u>Diagnostic tools</u> are used to assess the condition of key vehicle components. 4.2 Engine is inspected and identified for further action. 4.3 <u>Routine maintenance tasks</u> are carried out according to the manufacturer's guidelines.
5. Replace basic parts.	5.1 Vehicle is powered off and made safe before starting the replacement of parts. 5.2 <u>Worn or faulty parts</u> are identified based on inspection and operational performance. 5.3 Defective parts are removed carefully ensuring no damage to surrounding components. 5.4 Replacement parts are selected according to manufacturer specifications. 5.5 New parts are installed correctly, following standard procedures and safety guidelines. 5.6 Replaced parts are tested to ensure the vehicle operates safely and efficiently.
6. Maintain proper records	6.1 Maintenance and service records are maintained. 6.2 Vehicle performance logs are updated regularly to track usage, fuel consumption, and any operational issues.

	6.3 Inventory records of spare parts and tools are maintained.
--	--

Range of Variables

Variable	Range (Includes but not limited to):
1. Different types of vehicles	1.1 Passenger cars (Sedan and SUV) 1.2 Motorcycles 1.3 Buses 1.4 Trucks 1.5 Vans 1.6 Electric vehicles (EVs) 1.7 Hybrid vehicles 1.8 Three-wheelers 1.9 Off-road vehicles
2. Key vehicle components	2.1 Engine 2.2 Transmission 2.3 Brakes 2.4 Suspension 2.5 Wheels 2.6 Steering 2.7 Electrical systems 2.8 Chassis and Body
3. Types of engines	3.1 Gasoline 3.2 Diesel 3.3 Two-stroke 3.4 Four-stroke
4. Engine configuration	4.1 Single-cylinder 4.2 Multi-cylinder 4.3 Inline 4.4 V-type 4.5 Horizontally opposed engines.
5. Vehicle systems	5.1 Engine 5.2 Transmission 5.3 Braking 5.4 Suspension 5.5 Cooling 5.6 Lubrication 5.7 Steering 5.8 Electrical 5.9 Fuel systems
6. Diagnostic tools	6.1 OBD-II scanner 6.2 Multimeter 6.3 Battery tester 6.4 Fuel pressure gauge
7. Routine maintenance tasks	7.1 Oil and filter change 7.2 Tension belt check 7.3 Air filter replacement

	7.4 Coolant top-up 7.5 Break adjustment 7.6 Brake fluid check 7.7 Battery maintenance 7.8 Tire pressure adjustment 7.9 Tire rotation setting 7.10 Lubrication of moving parts 7.11 Checking lights and indicators 7.12 Vehicles cleanliness
8. Worn or faulty parts	8.1 Brake pads/shoes 8.2 Belts and hoses 8.3 Spark plugs 8.4 Air/fuel/oil filters 8.5 Lights/bulbs 8.6 Tires 8.7 Battery 8.8 Fuses

Curricular Content Guide

1. Underpinning Knowledge	1.1 Identify different types of vehicles based on design and purpose. Recognize key vehicle components. 1.2 Explain the function of each vehicle component. Identify types of engines and interpret engine configurations. 1.3 Explain the function of each engine type. 1.4 Interpret the role of key engine components in overall engine operation. 1.5 Identify vehicle systems. Explain the function of each vehicle system. 1.6 Recognize interconnections between systems. Use diagnostic tools to assess key vehicle components. 1.7 Identify worn or faulty parts based on inspection and performance. 1.8 Identify replacement parts according to specifications. 1.9 Interpret new parts following standard procedures and safety guidelines.
2. Underpinning Skills	2.1 Using diagnostic tools to assess key vehicle components. 2.2 Inspecting the engine for further action. 2.3 Carrying out routine maintenance tasks according to the manufacturer's guidelines. 2.4 Powering off the vehicle and ensuring safety before replacing parts. 2.5 Removing defective parts carefully to prevent damage to surrounding components. 2.6 Selecting replacement parts according to manufacturer specifications. 2.7 Installing new parts correctly, following standard

	procedures and safety guidelines. 2.8 Testing replaced parts to ensure safe and efficient vehicle operation. 2.9 Regularly updating vehicle performance logs to track usage, fuel consumption, and operational issues. 2.10 Maintaining inventory records of spare parts and tools.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment 4.4 Facilities appropriate to the process/activities 4.5 Materials relevant to the proposed activity

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 identified types of vehicle and components. 1.2 Identified type of engines and their functions. 1.3 identified different type of vehicle systems. 1.4 performed routine maintenance. 1.5 replaced basic parts. 1.6 maintained proper records.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: UNDERSTAND VEHICLE REGULATIONS AND DOCUMENTATION	Nominal Duration: 30 Hrs.	Unit Code: SICIP-TRA-MDM-05-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to understand vehicle regulations and documentation. It specifically includes the tasks of understanding and complying with national vehicle regulations, maintaining records of driving, applying knowledge of traffic laws and regulations, maintaining and preserving legal document of drivers and vehicles.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Understand and comply with national vehicle regulations.	1.1 <u>National vehicle regulations</u> are understood. 1.2 <u>Compliance requirements</u> are recognized. 1.3 Vehicle inspection and emission standards are understood. 1.4 Records of compliance are maintained for verification and auditing purposes.
2. Maintain records of driving.	2.1 Records of <u>fuel consumption, mileage, and trips</u> are documented. 2.2 Incidents, violations, or accidents during driving are recorded. 2.3 Vehicle maintenance and servicing activities are logged. 2.4 <u>Driving records</u> are maintained.
3. Apply knowledge of traffic laws and regulations.	3.1 Traffic laws and regulations are interpreted. 3.2 Vehicle operation is conducted in accordance with road safety regulations. 3.3 <u>Traffic signals, signs and road markings</u> are followed to maintain safe and lawful navigation. 3.4 Procedures for handling traffic incidents, fines, and violations are understood and applied.
4. Maintain and preserve legal document of Drivers and Vehicles.	4.1 Driving licenses are maintained and preserved to ensure validity and compliance with legal requirements. 4.2 Vehicle registration documents are organized and stored to confirm ownership and legal operation. 4.3 Fitness certificates are checked and recorded to ensure that vehicles meet roadworthiness standards. 4.4 Tax tokens are maintained and updated to confirm payment of road taxes as required by law. 4.5 Insurance documents are preserved to ensure coverage is valid and claims can be processed when necessary. 4.6 Route permits, if applicable, are maintained and stored. 4.7 All documents are stored systematically for easy retrieval, verification, and compliance audits.

Range of Variables

Variable	Range (Includes but not limited to):
1. National vehicle regulations	1.1 Bangladesh Road Transport Act 2018 1.2 Motor Vehicle Rules 1.3 Bangladesh Road Transport Authority (BRTA) guidelines 1.4 Road safety regulations 1.5 Traffic laws
2. Compliance requirements	2.1 Vehicle registration certificate (Blue Book) 2.2 Fitness certificate 2.3 Road tax token 2.4 Insurance documents 2.5 Driving license 2.6 Route permit (for commercial vehicles)
3. Fuel consumption, mileage, and trips	3.1 Fuel receipts 3.2 Odometer readings 3.3 Distance logs 3.4 Trip sheets 3.5 GPS-based mileage reports
4. Driving records	4.1 Daily logbook 4.2 Route details 4.3 Driver duty roster 4.4 Shift timings 4.5 Digital fleet management records 4.6 BRTA compliance forms
5. Traffic laws and regulations	5.1 Highway Code 5.2 BRTA directives 5.3 Local municipal traffic rules 5.4 Seatbelt laws
6. Traffic signals, signs and road markings	6.1 Mandatory signs 6.1.1 U-turn signs 6.1.2 No-entry signs 6.1.3 Stop signs 6.1.4 Yield/Give way signs 6.1.5 Traffic lights (red, yellow, green) 6.1.6 Zebra crossings 6.1.7 Speed limit signs 6.2 Warning signs 6.2.1 School zone signs 6.2.2 Railway crossing signs 6.2.3 Pedestrian crossing ahead 6.2.4 Slippery road 6.2.5 Sharp curve 6.2.6 Animal crossing 6.2.7 Roadwork/construction ahead 6.3 Informative/guide signs 6.3.1 Directional arrows

	6.3.2 Distance markers 6.3.3 Highway route signs 6.3.4 Parking signs 6.3.5 Hospital/Police station signs 6.3.6 Service area signs (fuel, food, rest area) 6.3.7 One-way signs
--	--

Curricular Content Guide

1. Underpinning Knowledge	1.1 Understand national vehicle regulations. Recognize compliance requirements. 1.2 Understand vehicle inspection and emission standards. 1.3 Understand records of compliance for verification and auditing. 1.4 Interpret incidents, violations, or accidents during driving. 1.5 Interpret driving records. Interpret traffic laws and regulations. 1.6 Identify vehicle operation in accordance with road safety regulations. 1.7 Identify traffic signals, signs, and road markings for safe navigation. 1.8 Understand procedures for handling traffic incidents, fines, and violations.
2. Underpinning Skills	2.1 Maintaining records of compliance for verification and auditing. 2.2 Documenting fuel consumption, mileage, and trips. 2.3 Recording incidents, violations, or accidents during driving. 2.4 Logging vehicle maintenance and servicing activities. 2.5 Maintaining driving records. 2.6 Operating the vehicle in accordance with road safety regulations. 2.7 Following traffic signals, signs, and road markings for safe navigation. 2.8 Applying procedures for handling traffic incidents, fines, and violations. 2.9 Maintaining and preserving driving licenses to ensure validity and compliance. 2.10 Checking and recording fitness certificates to ensure vehicles meet roadworthiness standards. 2.11 Preserving insurance documents to ensure valid coverage and facilitate claims.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties

	3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment 4.4 Traffic laws and regulations

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 understood and complied with national vehicle regulations. 1.2 maintained records of driving. 1.3 applied knowledge of traffic laws and regulations. 1.4 maintained and preserved legal document of Drivers and Vehicles.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: UNDERSTAND BASIC ARABIC LANGUAGE IN DRIVING	Nominal Duration: 20 Hrs.	Unit Code: SICIP-TRA-MDM-06-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to understand basic Arabic language in driving. It specifically includes the tasks of understanding basic Arabic terms and phrases, communicating vehicle issues and requirements, assisting Arabic-speaking customers with driving and identifying Arabic warnings & signs.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Understand basic Arabic terms and phrases.	1.1 <u>Basic Arabic terms and phrases</u> used in driving are recognized. 1.2 <u>Common greetings</u> , commands, and directional phrases are interpreted. 1.3 Traffic-related terms are understood for safe driving practices. 1.4 Numbers, distances, and <u>time-related phrases</u> are interpreted.
2. Communicate vehicle issues and requirements.	2.1 <u>Vehicle issues</u> are identified and described using basic Arabic terms to ensure clear understanding. 2.2 <u>Maintenance and repair requirements</u> are communicated. 2.3 <u>Requests for tools, parts, or assistance</u> are expressed using appropriate Arabic phrases. 2.4 <u>Feedback and instructions</u> regarding vehicle status are understood. 2.5 <u>Communication</u> is maintained in a polite and professional manner.
3. Assist Arabic-speaking customers with driving.	3.1 <u>Driving instructions</u> are communicated clearly to Arabic-speaking customers. 3.2 <u>Customer queries and concerns</u> about the vehicle or driving process are understood. 3.3 <u>Safety precautions</u> and <u>driving procedures</u> are explained. 3.4 Assistance is provided during driving, ensuring that the customer follows instructions.
4. Identify Arabic Warnings & Signs	4.1 <u>Arabic road signs</u> and warning symbols are recognized to ensure safe navigation on roads. 4.2 Meaning of <u>common traffic signs</u> is interpreted in Arabic. 4.3 <u>Hazard and warning signs</u> are identified to prevent

	accidents.
4.4	<u>Directional and informational signs</u> in Arabic are understood.

Range of Variables

Variable	Range (Includes but not limited to):
1. Understand basic Arabic terms and phrases.	1.1 سلام (Salam – Hello) 1.2 شكراً (Shukran – Thank you) 1.3 من فضلك (Min fadlik – Please) 1.4 نعم (Na'am – Yes) 1.5 لا (La – No)
2. Common greetings	2.1 صباح الخير (Sabah al-khayr – Good morning) 2.2 مساء الخير (Masa' al-khayr – Good evening)
3. Time-related phrases	3.1 صباحاً (Sabahan – In the morning) 3.2 مساءً (Masa'an – In the evening) 3.3 الآن (Al-aan – Now) 3.4 بعد قليل (Ba'd qaleel – Shortly) 3.5 ساعة (Saa'a – Hour)
4. Vehicle issues	4.1 المحرك (Al-muharrrik – Engine) 4.2 الإطارات (Al-itarat – Tires) 4.3 المكابح (Al-makabah – Brakes) 4.4 البطارية (Al-battariya – Battery) 4.5 الزيت (Az-zayt – Oil) 4.6 الضوء (Adh-dhaw')
5. Maintenance and repair requirements	5.1 تغيير الزيت (Taghyeer az-zayt – Oil change) 5.2 إصلاح المكابح (Islah al-makabah – Brake repair) 5.3 فحص المحرك (Fahs al-muharrrik – Engine check) 5.4 شحن البطارية (Shahn al-battariya – Battery recharge)
6. Requests for tools, parts, or assistance	6.1 أعطني المفتاح (A'atini al-miftah – Give me the wrench) 6.2 أحتاج قطعة الغيار (Ahtaj qita'a al-ghiyar – I need a spare part) 6.3 ساعدني من فضلك (Sa'idni min fadlik – Please help me)
7. Feedback and instructions	7.1 تم الإصلاح (Tamma al-islah – Repaired) 7.2 يحتاج إلى التبديل (Yahtaj ila at-tabdeel – Needs replacement) 7.3 افحص مرة أخرى (Ifhas marrah okhra – Check again) 7.4 جاهز (Jahiz – Ready)
8. Communication	8.1 من فضلك (Min fadlik – Please) 8.2 شكراً (Shukran – Thank you) 8.3 عفواً (Afwan – You're welcome) 8.4 لو سمحت (Law samaht – Excuse me) 8.5 تفضل (Tafaddal – Kindly proceed)
9. Driving instructions	9.1 ابدأ القيادة (Ibdā' al-qiyādah – Start driving) 9.2 توقف هنا (Tawaqqaf huna – Stop here) 9.3 انعطف يميناً (In'atif yameenan – Turn right) 9.4 انعطف يساراً (In'atif yasaran – Turn left) 9.5 قُد ببطء (Qud bibut' – Drive slowly)
10. Customer queries and concerns	10.1 السيارة لا تعمل؟ (As-sayyārah lā ta'mal? – The car is not working?)

	10.2 ما هذا الصوت؟ (Ma hādhā as-sawt? – What is this noise?) 10.3 هل هناك وقود كافٍ؟ (Hal hunāk waqood kāfin? – Is there enough fuel?)
11. Safety precautions	11.1 اربط حزام الأمان (Irbṭ ḥizām al-amān – Fasten your seat belt) 11.2 لا تستخدم الهاتف أثناء القيادة (Lā tasta’amil al-hātif athnā’ al-qiyādah – Don’t use the phone while driving) 11.3 التزم بالسرعة المحددة (Ittazim bil-sur’ah al-muhaddadah – Follow the speed limit)
12. Driving procedures	12.1 تشغيل المحرك (Tashgheel al-muharrik – Start the engine) 12.2 استخدام المكابح (Istikhdām al-makābah – Use the brakes) 12.3 تغيير التروس (Taghyeer at-turoos – Change the gears) 12.4 ركن السيارة (Rakn as-sayyārah – Park the car)
13. Arabic road signs	13.1 قف (Qif – Stop), ممنوع الدخول (Mamnū’ al-dukhool – No entry) 13.2 ممنوع الوقوف (Mamnū’ al-wuqoof – No parking) 13.3 سر بسرعة محددة (Sir bisur’ah muhaddadah – Speed limit)
14. Common traffic signs	14.1 إشارة المرور (Ishārat al-murūr – Traffic lights) 14.2 عبور المشاة (Uboor al-mushāh – Pedestrian crossing) 14.3 دوار (Dawwār – Roundabout) 14.4 منحنى خطر (Munaḥnā khaṭir – Dangerous curve)
15. Hazard and warning signs	15.1 مدرسة (Madrassa – School zone) 15.2 تقاطع (Taqātu’ – Intersection) 15.3 طريق زلق (Tarīq zaliq – Slippery Road) 15.4 أعمال على الطريق (A’māl ‘ala at-ṭarīq – Road works)
16. Directional and informational signs	16.1 إلى اليمين (Ilā al-yamīn – To the right) 16.2 إلى اليسار (Ilā al-yasār – To the left) 16.3 إلى الأمام (Ilā al-amām – Straight ahead) 16.4 عودة للخلف (Awda lil-khalf – U-turn) 16.5 محطة وقود (Maḥaṭṭat waqood – Fuel station) 16.6 مستشفى (Mustashfā – Hospital) 16.7 موقف سيارات (Mawqif sayyārāt – Parking area) 16.8 مطار (Maṭār – Airport) 16.9 فندق (Funduq – Hotel)

Curricular Content Guide

1. Underpinning Knowledge	1.1. Recognize basic Arabic terms and phrases used in driving. 1.2. Interpret common greetings, commands, and directional phrases. 1.3. Understand traffic-related terms for safe driving practices. 1.4. Interpret numbers, distances, and time-related phrases. 1.5. Identify and describe vehicle issues using basic Arabic terms for clear understanding. 1.6. Understand feedback and instructions regarding vehicle status. 1.7. Understand customer queries and concerns about the vehicle or driving process.
---------------------------	--

	1.8. Explain safety precautions and driving procedures. 1.9. Recognize Arabic Road signs and warning symbols to ensure safe navigation. 1.10. Interpret the meaning of common traffic signs in Arabic. 1.11. Identify hazard and warning signs to prevent accidents. 1.12. Understand directional and informational signs in Arabic.
2. Underpinning Skills	2.1. Communicating maintenance and repair requirements clearly. 2.2. Expressing requests for tools, parts, or assistance using appropriate Arabic phrases. 2.3. Understanding feedback and instructions regarding vehicle status. 2.4. Maintaining polite and professional communication. 2.5. Communicating driving instructions clearly to Arabic-speaking customers. 2.6. Understanding customer queries and concerns about the vehicle or driving process. 2.7. Explaining safety precautions and driving procedures. 2.8. Assisting customers during driving to ensure they follow instructions. 2.9. Recognizing Arabic Road signs and warning symbols for safe navigation.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment 4.4 Projector 4.5 Stationary 4.6 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 understood basic Arabic terms and phrases. 1.2 communicated vehicle issues and requirements. 1.3 assisted Arabic-speaking customers with driving.
-----------------------------------	---

	1.4 identified Arabic Warnings & Signs.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PRACTICE ENGLISH LANGUAGE IN DRIVING	Nominal Duration: 40 Hrs.	Unit Code: SICIP-TRA-MDM-07-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to practice English language in driving. It specifically includes the tasks of understanding basic English terminology, communicating effectively in English, interpreting vehicle manuals and regulatory documents and responding to customer enquiries in English.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Understand basic English terminology.	1.1. <u>Common English driving terms</u> are recognized. 1.2. <u>Vehicle parts and components</u> are identified using basic English terminology. 1.3. <u>Basic driving commands and instructions</u> are interpreted to follow traffic rules and ensure safe driving. 1.4. Numbers, distances, and speed-related terms are understood.
2. Communicate effectively in English.	2.1 <u>Driving instructions and vehicle information</u> are communicated clearly in English. 2.2 Queries and concerns are received and interpreted in English. 2.3 Requests for assistance, tools, or support are expressed in English. 2.4 Feedback and guidance regarding driving or vehicle operation are conveyed in English. 2.5 Communication is maintained <u>professionally and politely</u> .
3. Interpret vehicle manuals and regulatory documents.	3.1 <u>Vehicle manuals</u> are interpreted to understand specifications. 3.2 <u>Regulatory documents</u> are reviewed and understood. 3.3 Instructions and procedures in manuals and documents are followed. 3.4 Relevant information is extracted from manuals and documents. 3.5 <u>Documentation</u> is referenced and maintained for future use, verification, and adherence.
4. Respond to customer inquiries in English.	4.1 <u>Customer inquiries</u> are received and understood in English. 4.2 Responses are provided clearly and politely in English. 4.3 Information regarding vehicle operation, services, or procedures is communicated in English.

	4.4 <u>Customer concerns or complaints</u> are documented and addressed in English.
	4.5 Professional and courteous language is maintained throughout all customer interactions.

Range of Variables

Variable	Range (Includes but not limited to):
1. Common English driving terms	1.1 Start 1.2 Stop 1.3 Left 1.4 Right 1.5 Straight 1.6 Slow down 1.7 Speed up 1.8 Reverse 1.9 Park 1.10 Lane 1.11 Signal 1.12 Horn 1.13 Brake 1.14 Clutch 1.15 Gear 1.16 Accelerator 1.17 Traffic light 1.18 Zebra crossing
2. Vehicle parts and components	2.1 Engine 2.2 Wheel 2.3 Tire 2.4 Brakes 2.5 Clutch 2.6 Gear 2.7 Steering 2.8 Lights 2.9 Mirror 2.10 Wiper 2.11 Horn 2.12 Battery 2.13 Fuel tank 2.14 Seat belt 2.15 Indicator
3. Basic driving commands and instructions	3.1 "Start the engine," 3.2 "Turn left/right," 3.3 "Go straight," 3.4 "Stop here," 3.5 "Slow down," 3.6 "Increase speed," 3.7 "Follow the lane," 3.8 "Keep distance,"

	3.9 "Overtake carefully."
4. Driving instructions and vehicle information	4.1 Starting/stopping engine 4.2 Turning directions (left/right/straight) 4.3 Lane change 4.4 Parking 4.5 Speed control 4.6 Fuel level 4.7 Tire pressure 4.8 Oil level 4.9 Dashboard warning lights
5. Professionally and politely	5.1 Good morning/Thank you/Please 5.2 Respectful tone 5.3 Avoiding offensive language 5.4 Confirming understanding 5.5 Expressing appreciation
6. Vehicle manuals	6.1 Owner's manual 6.2 Service/maintenance manual 6.3 Electrical wiring diagrams 6.4 Troubleshooting guides 6.5 Parts catalogues 6.6 Warranty booklets
7. Regulatory documents	7.1 Driving license 7.2 Registration certificate (RC) 7.3 Tax token 7.4 Fitness certificate 7.5 Insurance papers 7.6 Route permit 7.7 Pollution/emission certificate
8. Documentation	8.1 Service logs 8.2 Inspection records 8.3 Mileage and fuel logs 8.4 Accident/incident reports 8.5 Compliance checklists 8.6 Warranty claims
9. Customer inquiries	9.1 Questions about vehicle operation (starting, parking, fuel type) 9.2 Service schedules 9.3 Road directions 9.4 Regulatory requirements 9.5 Costs or fees 9.6 Safety features
10. Customer concerns or complaints	10.1 Vehicle breakdown 10.2 Delay in service 10.3 Unexpected costs 10.4 Safety doubts

Curricular Content Guide

1. Underpinning Knowledge	1.1. Recognize common English driving terms. 1.2. Identify vehicle parts and components using basic English terminology. 1.3. Interpret basic driving commands and instructions to follow traffic rules and ensure safe driving. 1.4. Understand numbers, distances, and speed-related terms. 1.5. Interpret queries and concerns in English. 1.6. Interpret vehicle manuals to understand specifications. 1.7. Understand regulatory documents. 1.8. Identify instructions and procedures in manuals and documents. 1.9. Understand customer inquiries in English.
2. Underpinning Skills	2.1. Communicating driving instructions and vehicle information clearly in English. 2.2. Receiving and interpreting queries and concerns in English. 2.3. Expressing requests for assistance, tools, or support in English. 2.4. Conveying feedback and guidance regarding driving or vehicle operation in English. 2.5. Maintaining professional and polite communication. 2.6. Reviewing and understanding regulatory documents. 2.7. Following instructions and procedures in manuals and documents. 2.8. Extracting relevant information from manuals and documents. 2.9. Referencing and maintaining documentation for future use, verification, and adherence. 2.10. Receiving and understanding customer inquiries in English.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1. Workplace (simulated or actual) 4.2. Personal protective equipment (PPE) 4.3. Tools and equipment

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 understood basic English terminology. 1.2 communicated effectively in English. 1.3 interpreted vehicle manuals and regulatory documents. 1.4 responded to customer inquiries in English.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Workshop/Lab Facility Standard

Course Name:	Motor Driving with Basic Maintenance
Number of Trainees:	25

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom – 350 sft (33 sqm)
- Workshop/ lab – 800 sft (75 sq) OR
- Classroom cum workshop – 1000 sft (93 sqm)

Major Training Equipment and Training Facilities:

Sl. No.	Major Equipment and Training facilities	Required facilities
1.	Computer	01
2.	Laptop	01
3.	Multimedia Projector	01
4.	Internet connectivity	01
5.	Training Vehicles	01
6.	Driving Simulator	01
7.	Engine Models (Cut section models)	01
8.	GPS tracking device	01
9.	Battery testing unit	01
10.	Battery charging machine	01
11.	Compressor with tire pressure gauge	01
12.	Fuel System Model	01
13.	Gear box and Brake system model	01
14.	Steering model	01
15.	Electrical System Boards	01
16.	Tool box	25
17.	Hydraulic jacks	01
18.	Road Safety and Traffic Aids	25
19.	First Aid & Safety Equipment	02
20.	Fire extinguisher	01

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency standards (CS) provided by SICIP.

For the operation of training course on Motor Driving with Basic Maintenance, the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
