The Competency Standards for Digital Marketing, Freelancing and Entrepreneurship Development serve as a foundational document for the development of curricula, teaching materials, and assessment tools specifically tailored for the ICT sector. This document ensures that training activities align with industry requirements, enabling individuals who successfully meet the established standards through assessment to become qualified professionals in relevant roles within the sector.

Developed under the Skills for Industry Competitiveness and Innovation Program (SICIP), this document addresses the skills requirements critical for Digital Marketing, Freelancing and Entrepreneurship Development. It is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutes may use the information contained in this competency standard for training activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

INTRODUCTION

The Skills for Industry Competitiveness and Innovation Program (SICIP) has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The Competency Standard also suggests integration of YouTube or similar digital platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution and relevant consultants of SICIP.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Unit of Competency
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity
- Guide the assessor in determining whether the candidate is competent.

Identification and validation of units of competency and elements for each occupation were made by experts from various Light Engineering companies in industry consultative workshops.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:

Generic Competencies (20 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-ICT-DM-01-G	Apply Occupational Health and Safety (OHS) Practices in the Workplace	1. Identify OHS policies and procedures 2. Apply personal health and safety procedures 3. Report hazards and risks 4. Respond to emergencies	10
SICIP-ICT-DM-02-G	Carryout Workplace Interaction in English	1. Interpret workplace communication and etiquette 2. Read and understand workplace documents 3. Participate in workplace meetings and discussions 4. Practice professional ethics at workplace	10
Total Hour			20

Sector Specific Competencies (30 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-ICT-DM-01-S	Operate Office Application Software	1. Operate computer 2. Install application software 3. Use word processor to prepare/create documents 4. Use spreadsheet to create/prepare worksheets 5. Use presentation software to create/prepare presentation 6. Print a document	20
SICIP-ICT-DM-02-S	Comply with Ethical Standards in IT Workplace	1. Uphold the requirements of clients 2. Deliver quality products and services 3. Maintain professionalism at workplace 4. Maintain workplace code of conduct	10
Total Hour			30

Occupation Specific Competencies (220 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP-ICT-DM-01-O	Interpret Concept of Digital Marketing	1. Describe basic concept of marketing 2. Identify career opportunities in digital marketing 3. Interpret ethics and guidelines for digital marketing 4. Explain digital marketing strategies	10
SICIP-ICT-DM-02-O	Develop Content for Digital Marketing	1. Interpret concept of content development 2. Identify content creating tools 3. Create content	20
SICIP-ICT-DM-03-O	Perform Social Media Marketing (SMM)	1. Interpret social media marketing 2. Create profile on social media 3. Perform social media marketing (SMM) 4. Apply video marketing 5. Apply lead generation	30
SICIP-ICT-DM-04-O	Perform Search Engine Optimization (SEO)	1. Interpret basic concepts of SEO 2. Apply on-page SEO techniques 3. Apply off-page SEO techniques 4. Apply technical SEO 5. Apply local SEO techniques 6. Interpret search engine marketing	40
SICIP-ICT-DM-05-O	Apply E-commerce Marketing	1. Set up online store 2. Perform property submission and management 3. Perform e-commerce marketing	20
SICIP-ICT-DM-06-O	Perform Affiliate Marketing	1. Interpret affiliate marketing 2. Choose and select network/ platform for	20

		affiliate marketing 3. Carry out affiliate marketing	
SICIP-ICT-DM-07-O	Apply AI tools and Techniques in Digital Marketing	1. Identify AI tools applicable to Digital Marketing 2. Develop AI-based content strategies for digital campaigns 3. Implement AI tools in SEO, SMM, Email and Ad Campaigns	20
SICIP-ICT-DM-08-O	Demonstrate Freelancing Knowledge	1. Understand freelancing market 2. Develop personal branding as a freelancer 3. Manage client relationships 4. Handle freelance projects	20
SICIP-ICT-DM-09-O	Develop Entrepreneurship in Digital Marketing	1. Define entrepreneurship 2. Identify digital marketing business opportunities 3. Develop a digital marketing business plan 4. Implement digital marketing strategies 5. Manage digital business operations	40
Total Hour			0

COMPETENCY STANDARD: DIGITAL MARKETING, FREELANCING AND ENTREPREURSHIP DEVELOPMENT

The Generic Competencies

Unit of Competency: APPLY OCCUPATIONAL HEALTH AND SAFETY (OHS) PRACTICES IN THE WORKPLACE	Nominal Duration: 10 hrs.	Unit Code: SICIP-ICT-DM-01-G
Unit Descriptor: This unit covers knowledge, skills and attitudes required to apply occupational health and safety (OHS) practices in the workplace. It specifically includes the tasks of identifying OHS policies and procedures, applying personal health and safety procedures, reporting hazards and risks, and responding to emergencies.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify OHS policies and procedures	1.1 <u>OHS policies</u> and safe operating procedures are read and understood. 1.2 Safety signs and symbols are identified and followed. 1.3 Emergency response, evacuation procedures and other contingency measures are determined.
2. Apply personal health and safety procedures	2.1 OHS policies and procedures are practiced and applied. 2.2 <u>Personal Protective Equipment (PPE)</u> is selected and used. 2.3 Personal hygiene is practiced.
3. Report hazards and risks	3.1 <u>Hazards and risks</u> are identified, assessed and controlled. 3.2 Incidents arising from hazards and risks are reported to authority. 3.3 Corrective actions are implemented to correct unsafe conditions in the workplace.
4. Respond to emergencies	4.1 Alarms and warning devices are responded. 4.2 <u>Emergency response plans and procedures</u> are implemented. 4.3 First aid procedure is applied during emergency situations.

Range of Variables

Variable	Range
	May include but not limited to:
1. OHS policies	1.1 International/ Local OHS requirements 1.2 Bangladesh Standards for OHS Building Code 1.3 Fire Safety Rules and Regulations

2. Personal Protective Equipment (PPE)	2.1 Apron 2.2 Gas Mask 2.3 Gloves 2.4 Safety shoes 2.5 Face mask 2.6 Goggles 2.7 Ear plugs 2.8 Scarf
3. Hazards and risks	3.1 Chemical hazards 3.2 Biological hazards 3.3 Physical Hazards 3.4 Machine hazards 3.5 Materials hazards 3.6 Tools and Equipment hazards
4. Emergency response plans and procedures	4.1 Firefighting procedures 4.2 Earthquake response procedures 4.3 Evacuation procedures 4.4 Medical and first-aid

Curricular Content Guide:

1. Underpinning Knowledge	1.1 OHS workplace policies and procedures 1.2 Work safety procedures 1.3 Emergency procedures – firefighting, earthquake response, explosion response & accident response 1.4 Types of hazards – biological, chemical & physical, and their effects 1.5 PPE types and uses 1.6 Personal hygiene practices 1.7 OHS awareness 1.8 Malfunctions and resolutions
2. Underpinning Skills	2.1 Identifying OHS policies and procedures 2.2 Applying personal work safety practices in the workplace 2.3 Identifying, assessing and controlling hazards and risks 2.4 Reporting incidents arising from hazards and risks 2.5 Responding to emergency procedures 2.6 Maintaining physical well-being in the workplace 2.7 Implementing emergency response plans and procedures 2.8 Applying basic first aid procedures
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace

4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 PPEs 4.3 Firefighting equipment 4.4 Emergency response manual 4.5 First aid kits 4.6 Learning manual
--------------------------	---

Assessment Evidence Guide:

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 applied OHS policies and procedures 1.2 selected and used personal protective equipment (PPE) 1.3 practiced personal health and safety procedures 1.4 identified, assessed and controlled hazards and risks 1.5 reported incidents arising from hazards and risks to the authority 1.6 implemented plans and procedures to respond emergencies 1.7 applied basic first aid procedure
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral question 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: CARRY OUT WORKPLACE INTERACTION IN ENGLISH	Nominal Duration: 10 hrs.	Unit Code: SICIP-ICT-DM-02-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to carry out workplace interaction in English. It specifically includes the tasks of interpreting workplace communication and etiquette, reading and understanding workplace documents, participating in workplace meetings and discussions, and practicing professional ethics at workplace.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret workplace communication and etiquette	1.1 Workplace code of conducts are interpreted as per organizational guidelines. 1.2 Appropriate lines of communication are maintained with supervisors and colleagues. 1.3 Workplace interactions are conducted in a <u>courteous manner</u> to gather and convey information. 1.4 Questions about routine <u>workplace procedures and matters</u> are asked and responded as required.
2. Read and understand workplace documents	1.5 Workplace documents are interpreted as per standard. 1.6 Assistance is taken to aid comprehension when required from peers/supervisors. 1.7 Visual information/symbols/signages are understood and followed. 1.8 Specific and relevant information are accessed from <u>appropriate sources</u> . 1.9 Appropriate medium is used to transfer information and ideas.
3. Participate in workplace meetings and discussions	1.10 Team meetings are attended on time and followed meeting procedures and etiquette. 1.11 Own opinions are expressed and listened to those of others without interruption. 1.12 Inputs are provided consistent with the meeting purpose and interpreted and implemented meeting outcomes.
4. Practice professional ethics at workplace	1.13 Responsibilities as a team member are demonstrated and kept promises and commitments made to others. 1.14 Tasks are performed in accordance with workplace procedures. 1.15 Confidentiality is respected and maintained. 1.16 Situations and actions considered inappropriate or which present a conflict of interest are avoided.

Range of Variables

Variable	Range May Include but not limited to:
1. Courteous manner	1.1 Effective questioning 1.2 Active listening 1.3 Speaking skills
2. Workplace procedures and matters	1.4 Notes 1.5 Agenda 1.6 Simple reports such as progress and incident reports 1.7 Job sheets 1.8 Operational manuals 1.9 Brochures and promotional material 1.10 Visual and graphic materials 1.11 Standards 1.12 OSH information 1.13 Signs
3. Appropriate sources	1.14 HR Department 1.15 Managers 1.16 Supervisors

Curricular Content Guide:

1. Underpinning Knowledge	1.1 Workplace code of conducts 1.2 Workplace documents, signs and symbols 1.3 Meeting procedure and etiquette
2. Underpinning Skills	2.1 Demonstrating performance of workplace communication and etiquette 2.2 Applying workplace information and symbols/signages 2.3 Applying workplace code of conducts as per organizational guidelines 2.4 Providing inputs in the meeting consistent with the meeting purpose 2.5 Interpreting and implementing meeting outcomes 2.6 Practicing professional ethics at workplace 2.7 Avoiding tactfully situations and actions considered inappropriate or which presents a conflict of interest
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Work book 4.3 Learning & operational manuals

	4.4 Workplace tools/equipment 4.5 Relevant tools, equipment, software and facilities needed to perform the activities
--	--

Assessment Evidence Guide:

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted workplace communication and etiquette 1.2 practiced workplace code of conducts as per organizational guidelines 1.3 Interpreted workplace documents, instructions and symbols 1.4 participated in workplace meetings and discussions 1.5 interpreted and implemented meeting outcomes 1.6 practiced professional ethics at workplace
2. Methods of Assessment	Methods of assessment may include but not limited to: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert

The Sector Specific Competencies

Unit of Competency: OPERATE OFFICE APPLICATION SOFTWARE	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-DM-01-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to operate office application software. It specifically includes the tasks of operating computer, installing application software, using word processor to prepare/create documents, using spreadsheet to create/prepare worksheets, using presentation software to create/prepare presentation and printing a document.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Operate computer	1.1 Safe workplace practices are observed according to IT workplace guideline. 1.2 Desktop <u>Peripherals</u> are checked and connected with computer properly. 1.3 Computer is switched on. 1.4 Computer <u>desktop/GUI settings</u> are arranged and customized as per requirement. 1.5 Files and folders are <u>manipulated</u> as per requirement. 1.6 Properties of files and folders are viewed and searched. 1.7 Disks are defragmented, formatted as per requirement.
2. Install application software	2.1 Installation requirements of software are identified and listed. 2.2 Software sources and CD key/ password are assured. 2.3 <u>Appropriate Software</u> are collected and selected as per requirement. 2.4 Software installation is started. 2.5 Customization is done as per requirement. 2.6 Steps of installation are followed as per installation Instructions. 2.7 Installations are completed properly. 2.8 Correctness of Installation is checked.
3. Use word processor to prepare/create documents	3.1 Appropriate <u>word processor</u> is selected and started. 3.2 Documents are created as per requirement in personal use and office environment. 3.3 Contents are entered. 3.4 Documents are formatted. 3.5 Paragraph and page settings are completed. 3.6 Document is saved.
4. Use spreadsheet to	4.1 <u>Spreadsheet applications</u> are selected and started.

create/prepare worksheets	4.2 Worksheets are created as per requirement in personal use and office environment. 4.3 Data are entered. 4.4 Functions are used for calculating and editing logical operation. 4.5 Sheets are formatted as per requirement. 4.6 Charts are created. 4.7 Charts/sheets are saved.
5. Use presentation software to create/prepare presentation	5.1 Appropriate <u>presentation applications</u> are selected and started. 5.2 Presentations are created as per requirement in personal use and office environment 5.3 Image, illustrations, text, table, symbols and media are entered as per requirements. 5.4 Presentations are formatted and animated. 5.5 Presentations are viewed and saved.
6. Print a document	6.1. Printer is connected with computer. 6.2. Power is switched on at both the power outlet and printer. 6.3. Printer is installed and added. 6.4. Paper of proper size is put into printer. 6.5. Correct printer setting is selected 6.6. Document is previewed and printed. 6.7. Print from the printer spool is viewed or cancelled and unsaved data is saved as per requirements. 6.8. Opened software is closed. 6.9. Devices are shut down.

Range of Variables

Variable	Range
	May include but not limited to:
1. Peripherals	1.1 Monitor 1.2 Keyboard 1.3 Mouse 1.4 Modem 1.5 Scanner 1.6 Printer
2. Desktop settings	2.1 Icons 2.2 Taskbar 2.3 View 2.4 Resolutions
3. Manipulate	3.1 Create 3.2 Open 3.3 Copy 3.4 Rename 3.5 Delete

	3.6 Sort
4. Typing tutors	4.1 English typing tutor 4.2 Bangla typing tutor
5. Appropriate software	5.1 MS office or Open office but limited to 5.2 Word processor software. 5.3 Spread sheet software 5.4 Presentation software
6. Word processor	6.1 MS Word processor 6.2 Open office Org 6.3 Google docs 6.4 Word perfect 6.5 LibreOffice
7. Spread sheet applications	7.1 MS Excel 7.2 Google Sheets 7.3 Apple Numbers by Apple
8. Presentation application	8.1 MS PowerPoint 8.2 Google Slides 8.3 Prezi

Curricular Content Guide

1. Underpinning Knowledge	1.1 Desktop items 1.2 Type of Bangla keyboard layout 1.3 Different types of software and application packages 1.4 Use of word processor, spread sheet and presentation software 1.5 Types of printers 1.6 Types of charts, impotence of chart 1.7 Different types of math and logical functions
2. Underpinning Skills	2.1 Starting computer 2.2 Installing operating system 2.3 Managing desktop item 2.4 Manipulating files and folders as per requirement 2.5 Installing application software 2.6 Running application software 2.7 Creating and saving document with word processing application 2.8 Using functions in spread sheet. 2.9 Applying animations into presentation slide 2.10 Printing document
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors

	in the workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Scanner, printer 4.4 Software 4.5 Work books 4.6 Relevant tools, equipment and facilities needed to perform the activities 4.7 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 installed operating system 1.2 manipulated files and folders as per requirement 1.3 Installed appropriate application software 1.4 used word processor to prepare/create documents 1.5 used spreadsheet to create/prepare worksheets 1.6 Used presentation software to create/prepare presentation 1.7 applied animations into presentation slides 1.8 printed document
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: COMPLY WITH ETHICAL STANDARDS IN IT WORKPLACE	Nominal Duration: 10 hrs.	Unit Code: SICIP-ICT-DM-02-S
Unit Descriptor: This unit covers knowledge, skills and attitudes required to comply with ethical standards in IT workplace. It specifically includes the tasks of upholding the requirements of clients, delivering quality products and services, maintaining professionalism at workplace and maintaining workplace code of conduct.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined>** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Uphold the requirements of clients	1.1 Clients' requirements are identified. 1.2 Confidentiality of information is maintained in accordance with workplace policies/organizational policies/national legislation. 1.3 Potential conflicts of interest are identified and involved parties of potential conflicts are notified. 1.4 Proprietary rights of client/customer are asserted.
2. Deliver quality products and services	2.1 Products and services are provided according to the clients' requirements. 2.2 Work is completed as per standards. 2.3 Quality processes are implemented when developing products and services.
3. Maintain professionalism at workplace	3.1 Work processes are delivered as per standards. 3.2 Skills, knowledge and qualifications are presented in a professional manner. 3.3 Services and products developed by self and others are delivered as per workplace standard. 3.4 Unbiased and objective information are provided to the clients. 3.5 Realistic estimates for time, cost and delivery of outputs are presented during negotiation.
4. Maintain workplace code of conduct	4.1 Workplace code of conduct is interpreted. 4.2 Workplace code of conduct is followed.

Range of Variables

Variable	Range May include but not limited to:

Curricular Content Guide:

1. Underpinning Knowledge	1.1 Corporate code of confidentiality of information 1.2 Organizational policies, national legislation and workplace policies in relation to IT sector 1.3 Law and regulations pertaining to proprietary rights 1.4 Quality processes for products and services 1.5 Procedure of provided to client information 1.6 Method of estimating for time, cost and delivery products and services 1.7 Workplace code of conduct in IT sector
2. Underpinning Skills	2.1 Upholding confidentiality of information in accordance with organizational policies, national legislation and workplace policies 2.2 Asserting proprietary rights of clients/customers 2.3 Completing work in accordance with industry and international standards 2.4 Implementing quality processes when developing products and services 2.5 Delivering correctly services and products developed by self and others 2.6 Providing unbiased and objective information to the clients 2.7 Presenting realistic estimates for time, cost and delivery of outputs during negotiation 2.8 Maintaining workplace code of conduct
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 National legislation in relation to IT sector 4.4 Workplace policies, code of conduct & proprietary rights of clients in IT sector 4.5 Relevant tools, equipment and facilities needed to perform the activities 4.6 Required learning materials

Assessment Evidence Guide:

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 upheld the requirements of clients/customers 1.2 asserted proprietary rights of clients/customers 1.3 delivered quality products and services
-----------------------------------	---

	1.4 Implemented quality processes when developing products and services 1.5 maintained professionalism at the workplace 1.6 completed work according to industry and international standards 1.7 maintained workplace code of conduct
2. Methods of Assessment	Methods of assessment should include: 2.5 Written test 2.6 Practical demonstration 2.7 Oral question 2.8 Portfolio (optional)
3. Context of Assessment	3.3 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training 3.4 Assessment should be done by a certified assessor or occupation-specific industry expert.

The Occupation Specific Competencies

Unit of Competency: INTERPRET CONCEPT OF DIGITAL MARKETING	Nominal Duration: 10 hrs.	Unit Code: SICIP-ICT-DM-01-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to interpret concept of digital marketing. It specifically includes the tasks of describing basic concept of marketing, identifying career opportunities in digital marketing, interpreting ethics and guidelines for digital marketing, and explaining digital marketing strategies.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Describe basic concept of marketing	1.1 Marketing and <u>Marketing Mix</u> are interpreted. 1.2 Difference between Marketing and Digital Marketing is comprehended 1.3 <u>Types of Digital Marketing</u> are Identified. 1.4 Scope of Digital Marketing is identified. 1.5 Required <u>Software for Digital Marketing</u> are identified.
2. Identify career opportunities in Digital Marketing	2.1 Digital Marketing roles are identified. 2.2 Freelancing opportunities in digital marketing are explained. 2.3 Career paths in digital marketing agencies are understood. 2.4 Emerging roles in digital marketing are recognized.
3. Interpret ethics and guidelines for Digital Marketing	3.1 Ethical standards in digital marketing are identified. 3.2 Data protection guidelines are understood. 3.3 Advertising guidelines are recognized. 3.4 <u>Intellectual property</u> considerations are understood. 3.5 Ethical use of social media is recognized.
4. Explain digital marketing strategies	4.1 Demands from clients are identified. 4.2 Target audience and customer segmentation are identified. 4.3 Digital Marketing strategies are described.

Range of Variables

Variable	Range
	May include but not limited to:
1. Marketing Mix	1.1 Product (online representation, content) 1.2 Price (digital pricing models) 1.3 Place (website, social media) 1.4 Promotion (SEO, social media ads)

	1.5 People (customer service) 1.6 Process (online sales funnel) 1.7 Physical Evidence (website design, branding)
2. Types of Digital Marketing	2.1 Content marketing 2.2 Social Media Marketing (SMM) 2.3 Search Engine Optimization (SEO) 2.4 Search Engine Marketing (SEM) 2.5 Lead Generation and E-commerce 2.6 Affiliate Marketing 2.7 E-mail Marketing
3. Software for Digital Marketing	3.1 MailChimp 3.2 Marketo 3.3 Google Analytics 3.4 SEMrush 3.5 Ahrefs 3.6 MOZ 3.7 Keyword finder
4. Intellectual property	4.1 Copyright 4.2 Trademark 4.3 Patents 4.4 Trade secret

Curricular Content Guide

1. Underpinning Knowledge	1.1 Basic concept of marketing and marketing mix 1.2 Types and scope of digital marketing 1.3 Freelancing opportunities in digital marketing 1.4 Career paths in digital marketing agencies 1.5 Data protection and advertising guidelines 1.6 Digital Marketing strategies
2. Underpinning Skills	2.1 Identifying required software for digital marketing 2.2 Identifying digital Marketing roles 2.3 Identifying ethical standards in digital marketing 2.4 Identifying target audience and customer segmentation
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop/notebook 4.3 Relevant tools 4.4 Software

	4.5 Facilities needed to perform the activities
	4.6 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 described basic concept of marketing 1.2 identified career opportunities in digital marketing 1.3 interpreted ethics and guidelines for digital marketing 1.4 explained digital marketing strategies
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: DEVELOP CONTENT FOR DIGITAL MARKETING	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-DM-02-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to develop content for digital marketing. It specifically includes the tasks of interpreting concept of content development, identifying content creating tools and creating content.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret concept of content development	1.1 Content development is defined. 1.2 <u>Types of content</u> are identified. 1.3 Content creation process is understood. 1.4 Role of content in digital marketing is explained. 1.5 Content distribution strategies are recognized. 1.6 Importance of content strategy is explained.
2. Identify content creating tools	2.1 <u>Content writing tools</u> are identified to assist with grammar checking and readability. 2.2 <u>Graphic design tools</u> are recognized for creating visually appealing images and infographics. 2.3 <u>Video creation tools</u> are identified for editing and producing quality videos. 2.4 <u>Content management systems (CMS)</u> are identified to create, manage, and publish content.
3. Create content	3.1 Content ideas are generated based on target audience needs and business goals. 3.2 Content research is conducted to ensure content is relevant, accurate, and aligned. 3.3 Content is written or created, ensuring clarity and alignment with brand voice and tone. 3.4 <u>Multimedia elements</u> are incorporated. 3.5 Content is optimized for SEO, including appropriate keyword use, meta tags, and headers. 3.6 Content formatting is done. 3.7 Call-to-actions (CTAs) are included in content to drive engagement.

Range of Variables

Variable	Range
	May include but not limited to:
1. Types of contents	1.1 Blog posts and articles 1.2 Infographics

	1.3 Image process 1.4 Video editing 1.5 E-books and whitepapers 1.6 E-mail newsletters 1.7 Podcasts/Audio 1.8 E-courses and webinars
2. Content writing tools	2.1 Grammarly 2.2 Hemingway 2.3 Google Docs
3. Graphic design tools	3.1 Adobe Photoshop 3.2 Adobe Illustrator 3.3 Canva
4. Video creation tools	4.1 Adobe Premiere Pro 4.2 Final Cut Pro 4.3 i-Movie
5. Content management systems (CMS)	5.1 WordPress 5.2 Joomla 5.3 Drupal
6. Multimedia elements	6.1 Images 6.2 Videos 6.3 Infographics

Curricular Content Guide

1. Underpinning Knowledge	1.1 Content development including content creation process 1.2 Content creating tools 1.3 Search engine optimization (SEO)
2. Underpinning Skills	2.1 Identifying types of content 2.2 Identifying content creating tools 2.3 Identifying content management systems (CMS) for creating, managing and publishing content 2.4 Writing or creating content ensuring clarity and alignment with brand voice and tone 2.5 Optimizing content for SEO, including appropriate keyword use, meta tags and headers
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual)

	4.2 Computer/laptop/notebook 4.3 Multimedia 4.4 Tools (content writing, graphic design, video creation) 4.5 Required learning materials 4.6 Specifications and work instructions

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 interpreted concept of content development 1.2 identified content creating tools 1.3 created content
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PERFORM SOCIAL MEDIA MARKETING (SMM)	Nominal Duration: 30 hrs.	Unit Code: SICIP-ICT-DM-03-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to perform social media marketing. It specifically includes the tasks of interpreting social media marketing, creating profile on social media, performing social media marketing (SMM), applying video marketing and applying lead generation.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret social media marketing	1.1 Social media marketing is defined. 1.2 <u>Key social media platforms</u> are identified and understood. 1.3 <u>Social media management tools</u> are recognized and their functionalities are described. 1.4 Role of content in social media marketing is explained. 1.5 <u>Metrics and analytics</u> are identified.
2. Create profile on social media	2.1 Appropriate social media platform is selected based on business goals and target audience. 2.2 Profile setup is completed, including <u>adding essential details</u> . 2.3 Profile picture and cover photo are selected or created. 2.4 Privacy settings and permissions are configured, ensuring appropriate access and security settings for the account. 2.5 Call-to-action (CTA) is included in the profile to contact the business.
3. Perform social media marketing (SMM)	3.1 Facebook marketing activities are executed in accordance with audience targeting. 3.2 Twitter/X marketing is carried out, including posting, retweeting, and audience engagement. 3.3 LinkedIn marketing is performed with optimizing page visibility. 3.4 Pinterest marketing is conducted through the creation and management of pins. 3.5 Instagram marketing is performed, including posting visual content, using hashtags, and engaging with followers. 3.6 Advertisements are created, targeted, and managed using relevant ad managers of each platform. 3.7 Analytics and performance reports are reviewed and interpreted to assess the effectiveness of campaigns.

	3.1	
4. Apply video marketing	4.1 Basic video marketing principles are interpreted in relation to platform features and marketing objectives.	4.2
	4.2 User accounts on TikTok and YouTube are created and optimized.	4.3
	4.3 Subscriber growth strategies are explained.	4.4
	4.4 YouTube tools and content features are applied for uploading, scheduling, tagging, and engaging viewers.	4.5
	4.5 Video monetization methods are applied in compliance with platform eligibility.	4.6
	4.6 Advertisements are created using TikTok Ads Manager and YouTube Ads dashboard.	4.7
	4.7 Performance analytics and reports are reviewed to assess viewer engagement.	
5. Apply lead generation	4.1	
	5.1 The concept of lead generation is defined in the context of digital marketing.	
	5.2 Requirements for lead generation are identified based on business objectives and audience profiling.	
	5.3 Lead generation tools are applied appropriately according to the selected platform.	
	5.4 Basic funnel and lead funnel stages are interpreted and implemented to nurture potential leads.	
	5.5 Lead validation processes are carried out to ensure accuracy and relevance of collected leads.	
	5.6 Lead generation activities are executed in line with the defined goals and requirements.	
	5.7 Collected leads are organized and monitored for conversion opportunities and reporting.	

Range of Variables

Variable	Range
	May include but not limited to:
1. Key social media platforms	1.1 Facebook 1.2 Instagram 1.3 LinkedIn 1.4 Tweeter/X 1.5 YouTube 1.6 TikTok 1.7 Pinterest 1.8 Thread
2. Social media management tools	2.1 Buffer 2.2 Hootsuite 2.3 Sprout social 2.4 Sendible
3. Metrics and analytics	3.1 Engagement rates

	3.2 Click-through rates 3.3 Conversions
4. Adding essential details	4.1 Profile picture 4.2 Cover photo 4.3 Company profile
5. YouTube tools	5.1 Canva 5.2 TubeBuddy 5.3 Google Trends 5.4 KeywordTools.io 5.5 VidIQ
6. Lead generation tools	6.1 Skrapp.io 6.2 PRhunters 6.3 SalesQL 6.4 Snovio

Curricular Content Guide

1. Underpinning Knowledge	1.1 Social media marketing 1.2 Social media management tools and their functionalities 1.3 Basic video marketing principles in relation to platform features and marketing objectives 1.4 The concept of lead generation in the context of digital marketing.
2. Underpinning Skills	2.1 Identifying key social media platforms 2.2 Selecting appropriate social media platform based on business goals and target audience 2.3 Completing profile setup including adding essential details 2.4 Selecting and creating profile picture and cover photo 2.5 Carrying out Facebook, Twitter, LinkedIn, Pinterest and Instagram marketing 2.6 Creating, targeting and managing advertisements using relevant Ad Managers of each platform 2.7 Creating and optimizing user accounts on TikTok and YouTube 2.8 Applying YouTube tools and content features for uploading, scheduling, tagging, and engaging viewers 2.9 Applying lead generation tools appropriately according to the selected platform 2.10 Executing lead generation activities in line with the defined goals and requirements
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace

	3.8 Good relationships with peers, sub-ordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Tools (SMM, You tube, Lead generation) 4.4 Specifications and work instructions 4.5 Learning materials 4.6 Relevant equipment, software and facilities needed to perform the activities

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 interpreted social media marketing 1.2 created profile on social media 1.3 performed social media marketing (SMM) 1.4 applied video marketing 1.5 applied lead generation
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PERFORM SEARCH ENGINE OPTIMIZATION (SEO)	Nominal Duration: 40 hrs.	Unit Code: SICIP-ICT-DM-04-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to perform search engine optimization (SEO). It specifically includes the tasks of interpreting basic concepts of SEO, applying on-page SEO techniques, applying off-page SEO techniques, applying technical SEO, applying local SEO techniques and interpreting search engine marketing.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret basic concepts of SEO	1.1 Concept of Search Engine Optimization (SEO) is explained with relevance to online visibility and ranking. 1.2 <u>Major search engines</u> are identified based on global usage and SEO relevance. 1.3 Commonly used browsers and essential add-ons or extensions are recognized for SEO-related tasks. 1.4 Concept of a <u>backlink</u> and its role in search engine ranking is illustrated with examples. 1.5 Domain Authority (DA) and Page Authority (PA) are defined.
2. Apply on-page SEO techniques	2.1 Keyword research and analysis are performed using SEO tools to identify relevant and high-ranking search terms. 2.2 Title tags, URLs, meta descriptions, header tags, and <u>page contents</u> are optimized. 2.3 Anchor text along with internal and external links are demonstrated and applied. 2.4 Concept of pillar content is explained and its role in content hierarchy and authority is clarified. 2.5 An initial site analysis is conducted to identify SEO strengths, weaknesses, and technical issues. 2.6 Page loading speed is optimized using suitable techniques and tools.
3. Apply off-page SEO techniques	3.1 Websites are submitted to major search engines and relevant directories to improve indexing and visibility. 3.2 Social bookmarking activities are performed on recognized platforms to enhance link-building and traffic. 3.3 Forum posting and directory submission are applied with relevant keywords and links. 3.4 Guest posting and creation of authority backlinks are executed.
4. Apply technical SEO	4.1 The concept and importance of Technical SEO are interpreted.

	4.2 Technical On-page optimization in site is applied. 4.3 Structured data and schema markup are set up to enhance improve search visibility. 4.4 The role of search engine algorithms is explained in relation to ranking signals and updates. 4.5 Phrase “Content is king” is explained to highlight the value of high-quality, relevant content in SEO strategy.
5. Apply local SEO techniques	5.1 The concept and importance of local SEO are interpreted in the context of location-based search visibility. 5.2 Local business website optimization techniques are explained. 5.3 A Google My Business (GMB) page is set up and optimized. 5.4 The website structure for local SEO is created.
6. Interpret search engine marketing	6.1 Concept of Search Engine Marketing (SEM) is interpreted in relation to paid and organic strategies. 6.2 Difference between SEO and SEM is explained with focus on cost, targeting, and reach. 6.3 Key SEM platforms are identified and their purposes are outlined. 6.4 Search engine ad types are classified and described. 6.5 Importance of quality score, ad relevance, and call to action is explained.

Range of Variables

Variable	Range
	May include but not limited to:
1. Major search engines	1.1 Google 1.2 Yahoo 1.3 Bing
2. Backlink	2.1 White Hat 2.2 Black Hat 2.3 Authorized Backlink 2.4 Foundation Backlink
3. Page contents	3.1 Text 3.2 Image 3.3 Audio 3.4 Video 3.5 Apps store content
4. Site	4.1 Content Management System (CMS) site 4.2 Custom developed websites
5. Key SEM platforms	5.1 Google Ads 5.2 Bing Ads
6. Call to action	6.1 CTR (Click Through Rate) 6.2 CPM (Cost per mile) 6.3 CPC (Cost per click)

Curricular Content Guide

1. Underpinning Knowledge	1.1 Concept of Search Engine Optimization (SEO) 1.2 Concept of backlink and its role in search engine ranking 1.3 Concept and importance of technical SEO 1.4 Concept and importance of local SEO 1.5 Concept of Search Engine Marketing (SEM) 1.6 Quality score, ad relevance and call to action
2. Underpinning Skills	2.1 Identifying major search engines based on global usage and SEO relevance 2.2 Optimizing title tags, URLs, meta descriptions, header tags and page contents 2.3 Conducting initial site analysis to identify SEO strengths, weaknesses and technical issues 2.4 Submitting websites to major search engines and relevant directories to improve indexing and visibility 2.5 Performing social bookmarking activities on recognized platforms to enhance link-building and traffic 2.6 Applying technical on-page optimization in site 2.7 Setting up and optimizing a Google My Business (GMB) page 2.8 Identifying key SEM platforms and outlining their purposes
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in workplace 3.8 Good relationships with peers, sub-ordinates and seniors in workplace
4. Resource Implications	The Following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Job specifications and work instructions 4.4 Relevant tools, equipment and facilities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 interpreted basic concepts of SEO 1.2 applied on-page SEO techniques
-----------------------------------	---

	1.3 applied off-page SEO techniques 1.4 applied technical SEO 1.5 applied local SEO techniques 1.6 interpreted search engine marketing
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY E-COMMERCE MARKETING	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-DM-05-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to apply e-commerce marketing. It specifically includes the tasks of setting up online store, performing property submission and management, and performing e-commerce marketing.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Set up online store	1.1 Domain and hosting are identified as per business objectives. 1.2 <u>Websites</u> are identified based on the business needs and platform selection for e-commerce functionality. 1.3 Website content is optimized for SEO, user experience, and product visibility. 1.4 Technical SEO is applied to ensure the website is search engine-friendly. 1.5 Payment gateway is implemented to process transactions and provide various payment options. 1.6 Required <u>software</u> are used to enhance store functionality and streamline operations.
2. Perform property submission and management	2.1. Product descriptions are added to the listings with relevant details, features, and specifications. 2.2. Product images are optimized for clarity, resolution, and load speed before being added to the product pages. 2.3. E-commerce management is performed by maintaining inventory and tracking sales.
3. Perform e-commerce marketing	3.1. Marketing strategy is applied based on analysis of the target market, business goals, and product positioning. 3.2. Social media marketing is applied by creating and promoting content and running targeted ads. 3.3. <u>SEO (Search Engine Optimization)</u> is applied to optimize website content and increase organic search traffic. 3.4. <u>SEM (Search Engine Marketing)</u> is applied through paid search campaigns and ad copy optimization.

Range of Variables

Variable	Range
	May include but not limited to:
1. Websites	1.1 Landing pages 1.2 E-commerce site
2. Software	2.1 Shopify

	2.2 Magento 2.3 WooCommerce
3. Search Engine Optimization (SEO)	3.1 Local SEO 3.2 Technical SEO
4. Search Engine Marketing (SEM)	4.1 Pay per Click (PPC) 4.2 Paid Marketing

Curricular Content Guide

1. Underpinning Knowledge	1.1 Product descriptions along with relevant details, features and specifications 1.2 Marketing strategy based on analysis of target market, business goals and product positioning
2. Underpinning Skills	2.1 Identifying websites based on the business needs and selecting platform for e-commerce functionality 2.2 Applying technical SEO to ensure the website is search engine-friendly 2.3 Using required software to enhance store functionality and streamline operations 2.4 Optimizing product images for clarity, resolution and load speed before being added to the product pages 2.5 Performing e-commerce management by maintaining inventory and tracking sales 2.6 Applying social media marketing by creating and promoting content and running targeted ads
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Learning materials 4.4 Software 4.5 Website 4.6 Specifications and work instructions 4.7 Relevant tools, equipment and facilities

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 set up online store 1.2 performed property submission and management
-----------------------------------	---

	1.3 performed e-commerce marketing
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PERFORM AFFILIATE MARKETING	Nominal Duration: 20 hrs.	Unit Code: SICIP-ICT-DM-06-O
Unit Descriptor: This unit of competency covers the knowledge, skills and attitudes required to perform affiliate marketing. It specifically includes the tasks of interpreting affiliate marketing, choosing and selecting network/platform for affiliate marketing, and carrying out affiliate marketing.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret affiliate marketing	1.1 Affiliate marketing is defined as a performance-based marketing model. 1.2 <u>Common terms</u> of affiliate marketing are identified and their meanings are explained. 1.3 Advantages of affiliate marketing are described. 1.4 <u>Requirements for an affiliate</u> are identified. 1.5 Profitable niches for affiliate marketing are identified by analyzing trends and customer demand. 1.6 <u>Factors</u> for successful affiliate marketing and effective promotion are identified. 1.7 <u>Available payment methods</u> for affiliates are identified and explained.
2. Choose and select network/platform for affiliate marketing	2.1 Different types of affiliate networks are interpreted based on their business models and target audiences. 2.2 Physical product affiliate networks are listed with examples of platforms offering physical goods for promotion. 2.3 Affiliate marketing with digital products is defined by the promotion of downloadable or online products. 2.4 Affiliate marketing with print-on-demand services is defined.
3. Carryout affiliate marketing	3.1 <u>Niche for affiliate marketplace</u> is researched by analyzing market trends, competition, and demand for products. 3.2 Product research and topics for affiliate marketing are identified. 3.3 Niche site using Content Management System (CMS)/website is built with a focus on the selected niche and optimized for affiliate marketing. 3.4 Search Engine Optimization (SEO) strategies to promote the website are applied. 3.5 SMM (Social Media Marketing) techniques to promote the website are applied.

Range of Variables

Variable	Range May include but not limited to:
1. Common terms	1.1 Affiliate 1.2 Associate 1.3 Merchant 1.4 Power Affiliate 1.5 Testimonial 1.6 Traffic
2. Requirements for an affiliate	2.1 Quality content 2.2 Promotion 2.3 Audience engagement
3. Factors	3.1 Selecting merchants 3.2 Avoid over crowding 3.3 Product and content relevance 3.4 Focus on revenue generation
4. Available payment methods	4.1 Payoneer 4.2 Xoom 4.3 Transferwise 4.4 Wiretransfer
5. Niche for affiliate marketplace	5.1 Home appliance 5.2 Sports and outdoor 5.3 Automotive

Curricular Content Guide

1. Underpinning Knowledge	1.1 Common terms of affiliate marketing and their meanings 1.2 Different types of affiliate networks based on their business models and target audiences 1.3 Profitable niche for affiliate marketplace

Underpinning Skills	2.1 Identifying factors for successful affiliate marketing and effective promotion 2.2 Choosing and selecting network/platform for affiliate marketing 2.3 Listing physical product affiliate networks with examples of platforms offering physical goods for promotion 2.4 Building niche site using content management system (CMS)/website 2.5 Applying search engine optimization (SEO) strategies to promote the website 2.6 Applying social media marketing (SMM) techniques to promote the website
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincerity and honesty to duties 3.4 Environmental concerns

	3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Good relationships with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Computer/laptop 4.3 Specifications and work instructions 4.4 Relevant tools, equipment and facilities 4.5 Required learning materials

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 interpreted affiliate marketing 1.2 chose and selected network/platform for affiliate marketing 1.3 carried out affiliate marketing
2. Methods of Assessment	Methods of assessment may include but is not limited to: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY AI TOOLS AND TECHNIQUES IN DIGITAL MARKETING	Nominal Duration: 20 Hrs.	Unit Code: SICIP-ICT-DM-07-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply AI tools and techniques in Digital Marketing. It specifically includes the tasks of identifying AI tools applicable to digital marketing, using AI tools to create and enhance visual content, performing automation, workflows with AI and applying ethical principles when using AI.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify AI tools applicable to Digital Marketing	1.1 <u>AI tools relevant to digital marketing</u> are identified and understood based on campaign objectives. 1.2 <u>Functions of AI tools</u> are identified and categorized. 1.3 Features of commonly used AI platforms are compared. 1.4 Tool selection is aligned with goals and budget constraints. 1.5 Existing marketing platforms are identified and understood.
2. Develop AI-based content strategies for digital campaigns	2.1 Campaign goals and target audience insights are identified using <u>AI analytics tools</u> . 2.2 Content topics and formats are generated through AI-driven research and trend analysis. 2.3 Content calendars are planned and structured using AI scheduling and optimization tools. 2.4 AI tools are used to personalize content based on audience behavior and engagement data. 2.5 Content variations are tested and refined using A/B testing supported by AI platforms.
3. Implement AI tools in SEO, SMM, email, and ad campaigns	3.1 <u>AI-powered SEO tools</u> are applied to optimize keywords, content, and page performance. 3.2 <u>AI-powered SMM tools</u> are used to schedule, manage, and personalize content. 3.3 <u>AI-powered Email marketing tools</u> are applied. 3.4 <u>AI tools for ad campaigns</u> are utilized to design, target. 3.5 AI-generated insights are implemented to adjust strategies in real-time for better engagement and return on investment (ROI).
4. Apply ethical principles when using AI	4.1 AI tools are used in compliance with data privacy and protection <u>regulations</u> . 4.2 Content generated by AI is reviewed to avoid

	misinformation, bias, or harmful stereotypes. 4.3 Consent is obtained before using personal data in AI-driven processes. 4.4 Transparency in AI usage is maintained by disclosing automated decisions where necessary. 4.5 <u>Ethical concerns</u> and potential misuse of AI are identified and reported.

1. Critical Aspects of Competency	Assessment must evidence that the candidate: 1.1 defined digital entrepreneurship 1.2 identified digital marketing business opportunities 1.3 developed a digital marketing business plan 1.4 managed digital business operations
2. Methods of Assessment	Methods of assessment should include: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

END OF COMPETENCY STANDARD

Workshop/Lab Facility Standard

Course Name:	Digital Marketing, Freelancing and Entrepreneurship Development
Number of Trainees:	25

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom – 350 sft (33 sqm)
- Workshop/ lab – 800 sft (75 sqm)
- OR
- Classroom cum workshop – 1000 sft (93 sqm)

Major Training Equipment and Training Facilities:

Sl. No.	Major Equipment and Training facilities	Required facilities
1.	Computer/Laptop	01
2.	Printer	01
3.	Scanner	01
4.	Computers/Laptop: (Minimum Intel Core i5 processor (8 th Gen), 8GB RAM (16GB preferred), 500GB SSD storage (1TB preferred), High-resolution monitors (19/20-inch minimum, with color accuracy).	25
5.	Projector: High-resolution projector (HD or 4K) for instructor presentations, large screen for the room to ensure visibility for all trainees.	01
6.	Tools: Office application, photo editing software and video editing software	06
7.	Ergonomic chairs and desks	25
8.	Internet connectivity with power back-up	01

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency standards (CS) provided by SICIP.

For the operation of training course on Digital Marketing, Freelancing and Entrepreneurship Development, the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
