

COMPETENCY STANDARD

FOR

FOOD AND BEVERAGE PRODUCTION (COOKING)

(TOURISM & HOSPITALITY SECTOR)

Skills for Industry Competitiveness and Innovation Program (SICIP)
Finance Division, Ministry of Finance

Copyright

The Competency Standards for **Food and Beverage Production (Cooking)** is a document for the development of curricula, teaching and learning materials, and assessment tools. It also serves as the document for providing training consistent with the requirements of the industry for individuals who pass through the set standard via assessment. Subsequently, they would be qualified and settled for a relevant job.

The document was developed under the **Skills for Employment Investment Program (SEIP)** and subsequently reviewed and updated with the engagement of occupation-specific industry experts to use in training under the **Skills for Industry Competitiveness and Innovation Program (SICIP)**. This document is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutes may use the information contained in this competency standard for training activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

INTRODUCTION:

The Skills for Industry Competitiveness and Innovation Program (SICIP) has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution, relevant consultants of SICIP.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Unit of Competency
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity
- Guide the assessor in determining whether the candidate is competent.

Identification and validation of units of competency and elements for each occupation were made by experts from Shipbuilding industry in consultative workshop.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:

Generic Competencies (45 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-THS-FBP-01-G	Apply Occupational Safety and Health (OSH) Practices at Workplace	1. Identify, control and report OSH hazards 2. Conduct work safely 3. Follow emergency response procedures 4. Maintain and improve health and safety in the workplace	15
SICIP-THS-FBP-02-G	Receive and Respond to Workplace Instructions	1. Interpret and follow verbal Instructions 2. Read and Interpret Workplace Documents 3. Receive and follow written instructions 4. Attend meetings and provide inputs	15
SICIP-THS-FBP-03-G	Work in a team environment	1. Identify team goals and processes 2. Communicate and cooperate with team members 3. Work as a team member 4. Solve problems as a team member	15
Total Hour			45

Sector Specific Competencies (35 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-THS-FBP-01-S	Work in the Tourism and Hospitality Sector	1. Identify job roles and responsibilities in the tourism and hospitality industry 2. Work with others	10
SICIP-THS-FBP-02-S	Follow Workplace Hygiene Procedure	1. Perform personal hygiene and well grooming standards 2. Identify and prevent hygiene risks	15
SICIP-THS-FBP-03-S	Provide Effective Guest Service	1. Greet guests 2. Identify guest's needs 3. Deliver service to guests 4. Handle queries through telephone and internet service 5. Handle complaints, evaluation and recommendation	10
Total Hour			35

Occupation Specific Competencies (280 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP-THS-FBP-01-O	Apply Food Safety Procedure	1. Interpret procedures for food safety 2. Interpret food and beverage storage procedure 3. Maintain a clean environment	20
SICIP-THS-FBP-02-O	Organize and Prepare for Cooking	1. Clean and sanitize tools, equipment & kitchen premises 2. Receive and store goods 3. Prepare tools, equipment, utensils, and ingredients 4. Dispose waste materials and restore tools and equipment	20
SICIP-THS-FBP-03-O	Prepare Stocks, Soups, Sauces and Dressings	1. Prepare tools, utensils equipment and ingredients 2. Cook stocks, soups & sauces and prepare dressing 3. Store stocks, soups and sauces	40
SICIP-THS-FBP-04-O	Prepare vegetables, eggs, salads, sandwiches and farinaceous dishes	1. Prepare tools, utensils equipment and ingredients 2. Prepare and present vegetables dishes 3. Prepare and present egg dishes 4. Prepare and present salads 5. Prepare and present sandwiches 6. Prepare and present farinaceous foods and rice dishes	70
SICIP-THS-FBP-05-O	Prepare Meat and Poultry Dishes	1. Prepare tools, utensils and equipment 2. Prepare and present meat dishes 3. Prepare and present poultry dishes	70
SICIP-THS-FBP-06-O	Prepare fish and seafood dishes	1. Prepare tools, utensils and equipment 2. Prepare ingredients, fish and seafood 3. Cook and present fish and seafood dishes	60
Total Hours			00

COMPETENCY STANDARD: FOOD AND BEVERAGE PRODUCTION (COOKING)

Generic (Basic) Competencies

Unit of Competency: APPLY OCCUPATIONAL SAFETY AND HEALTH (OSH) PRACTICES AT WROKPLACE	Nominal Duration: 15 hrs.	Unit Code: SICIP-THS-FBP-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply occupational safety and health (OSH) practices at workplace. It specifically includes the tasks of identifying, controlling and reporting OSH hazards, conducting work safety, following emergency response procedures and maintaining and improving health and safety in the workplace.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify, control and report OSH hazards	1.1 Work area is routinely checked for Occupational Safety and Health (OSH) hazards prior to commencing and during work. 1.2 <u>Hazards</u> are identified and corrective action is taken within the level of responsibility. 1.3 OSH hazards and incidents are reported to appropriate personnel according to workplace procedures. 1.4 <u>Safety signs and symbols</u> are identified and followed. 1.5 <u>Preventive Control Measures</u> are identified in accordance with OSH work standards.
2. Conduct work safely	2.1 OSH practices are applied in the workplace. 2.2 <u>Personal Protective Equipment (PPE)</u> are used.
3. Follow emergency response procedures	3.1 Emergency situations are identified and reported according to workplace requirements. 3.2 Emergency procedures are followed as appropriate to the nature of the emergency and according to workplace procedures. 3.3 <u>Workplace procedures</u> for dealing with accidents, fires and emergencies are followed whenever

	necessary within scope of responsibilities.
4 Maintain and improve health and safety in the workplace	4.1 Risks are identified and appropriate control measures are implemented in the workplace. 4.2 Recommendations arising from risk assessments are implemented within level of responsibility. 4.3 Safety records are maintained according to <u>company policies</u>.

Range of variables:

Variables	Range (may include but not limited to)
1. Hazards	1.1 OSH incidents include near misses, injuries, illnesses and property damage, noise, handling hazardous substances. 1.2 Biological hazards- bacteria, viruses, plants, parasites, mites, molds, fungi, insects 1.3 Chemical hazards – dusts, fibers, mists, fumes, smoke, gasses, vapors 1.4 Ergonomics Hazards 1.5 Physiological factors – monotony, personal relationship, work out cycle 1.6 Safety hazards (unsafe workplace condition) – confined space, excavations, falling objects, gas leaks, electrical, poor storage of materials and waste, spillage, waste and debris 1.7 Unsafe workers’ act (Smoking in off-limited areas, Substance and alcohol abuse at work) 1.8 Working with and near moving equipment / load shifting equipment. 1.9 Broken or damaged equipment or materials.
2. Safety signs and symbols	2.1 Direction signs (exit, emergency exit, etc.) 2.2 First aid signs 2.3 Danger Tags 2.4 Hazard signs 2.5 Safety tags 2.6 Warning signs
3. Personal Protective Equipment (PPE)	3.1 Apron 3.2 Safety Helmet 3.3 Goggles 3.4 Ear muffs 3.5 Ear plugs

	3.6 Gloves 3.7 Clothing 3.8 Safety Boots 3.9 Face Protection (Musk & Shield) 3.10 Scarf 3.11 Hair Net/cap/bonnet 3.12 Hard hat
4. Preventive Control Measures	4.1 Eliminate the hazard (i.e., get rid of the dangerous machine) 4.2 Isolate the hazard (i.e. keep the machine in a closed room and operate it remotely; barricade an unsafe area off) 4.3 Substitute the hazard with a safer alternative (i.e., replace the machine with a safer one) 4.4 Use administrative controls to reduce the risk (i.e. give trainings on how to use equipment safely; OSH-related topics, issue warning signages, rotation/shifting work schedule) 4.5 Use engineering controls to reduce the risk (i.e. use safety guards to machine) 4.6 Use personal protective equipment 4.7 Safety, Health and Work Environment Evaluation 4.8 Periodic and/or special medical examinations of workers
5. Workplace Procedures	5.1 Fire fighting 5.2 Medical and first aid 5.3 Evacuation 5.4 Material Safety Data Sheets (MSDSs) and manufacturers' advice.
6. Company policies	6.1 Job related Standard Operating Procedures (SOPs). 6.2 Occupational Health and Safety (OSH) specific procedures. 6.3 Examples of OSH procedures include – consultation and participation, emergency response to specific hazards, incident investigation, risk assessment, reporting arrangement and issue resolution procedures.

Curricular Content Guide

1. Underpinning knowledge	1.1 OSH Workplace Policies and Procedures. 1.2 Work safety procedures. 1.3 Fire and emergency procedures. 1.4 Types of Hazards (Biological, Chemical and Physical) and their effects. 1.5 PPE types and uses.
---------------------------	---

	1.6 Personal hygiene practices. 1.7 OSH awareness. 1.8 Steps of hazard identification. 1.9 Principles of hazards control. 1.10 Employer's role. 1.11 Supervisor's responsibilities.
2. Underpinning skill	1.12 Identifying OSH policies and procedures. 1.13 Following personal work safety practices. 1.14 Reporting hazards and risks. 1.15 Responding to emergency procedures. 1.16 Maintaining physical well-being in the workplace. 1.17 Identify tools and equipment related to OSH. 1.18 Improving OSH performance.
3. Underpinning Attitudes	1.19 Commitment to occupational health and safety 1.20 Sincere and honest to duties 1.21 Promptness in carrying out activities 1.22 Eagerness to learn 1.23 Tidiness and timeliness 1.24 Environmental concerns 1.25 Communicate with peers and seniors in workplace
4. Resource implications	The following resources must be provided: 1.26 Workplace (actual or simulated). 1.27 Tools and equipment appropriate to workplace. 1.28 Materials relevant to the proposed activity. 1.29 All tools, equipment, material and documentation required. 1.30 Relevant specifications or work instructions.

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 Used Personal Protective Equipment (PPE). 1.2 Identified hazards. 1.3 Carried out corrective action of different hazards. 1.4 Carried out corrective action for emergency procedure. 1.5 Reported emergency situation to the Supervisor / Manager. 1.6 Satisfied requirements mentioned in the performance criteria and range of variables.
2. Methods of assessment	Methods of assessment may include but not limited to: 2.1 Written test 2.2 Practical Demonstration

	2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: RECEIVE AND RESPOND TO WORKPLACE INSTRUCTIONS	Nominal Duration: 15 hrs.	Unit Code: SICIP-THS-FBP-02-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to receive and respond to workplace communication. It specifically includes interpreting and following verbal instructions, reading and interpreting workplace documents, receiving and following written instructions and attending meetings and providing inputs.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret and follow verbal Instructions	1.1 Verbal Instructions are interpreted. 1.2 Questions are asked to clarify understanding or obtaining more information. 1.3 Instructions are followed as per understanding. 1.4 Information/ instruction is recorded.
2. Read and Interpret Workplace Documents	2.1 <u>Written instructions</u> are read and interpreted in accordance with <u>workplace guidelines</u> . 2.2 Work <u>signage</u> are interpreted.
3. Receive and follow written instructions	3.1 Written instructions are interpreted. 3.2 Routine written instructions are followed in sequence. 3.3 Feedback is given to workplace supervisor based on workplace guidelines.
4. Attend meetings and provide inputs	4.1 Meetings are attended regularly and on time following well-disseminated agenda. 4.2 Proper Communication methods are used to transmit instructions 4.3 Appropriate non-verbal <u>communication</u> is used. 4.4 Inputs are provided consistent with the meeting purpose. 4.5 Opinions are expressed without interruption. 4.6 Meeting outputs are implemented.

Range of variables:

Variables	Range (may include but not limited to)
1. Written instructions	1.1 Supervisor's / Manager's Instructions 1.2 Memoranda

	1.3 Rules and Regulations 1.4 Signage 1.5 Approved Work Plan 1.6 External communications
2. Workplace guidelines	2.1 Labor Policies and Guidelines 2.2 Written Instructions 2.3 Operations Manual 2.4 Organizational Manuals
3. Signage	3.1 On-site direction signs 3.2 Common site warnings 3.3 Location signs 3.4 Traffic signs
4. Communication	4.1 Verbal instructions 4.2 Written instructions 4.3 Online communication

Curricular Content Guide

1. Underpinning knowledge	1.1 Workplace Communication Policies, Standards and Procedures. 1.2 Verbal and Non-verbal communication. 1.3 Modes of Communication.
2. Underpinning skill	1.1 Receiving verbal instructions 1.2 Interpreting verbal and written information/ instruction 1.3 Conveying instructions using verbal and 1.4 Written forms of communication 1.5 Participating in work place meetings and Discussions
3. Underpinning Attitudes	1.6 Commitment to occupational health and safety 1.7 Promptness in carrying out activities 1.8 Sincere and honest to duties 1.9 Environmental concerns 1.10 Eagerness to learn 1.11 Tidiness and timeliness 1.12 Respect to rights of peers and seniors in workplace 1.13 Communicate with peers and seniors in workplace
4. Resource implications	The following resources must be provided: 1.1 Workplace (actual or simulated). 1.2 Telephone. 1.3 Writing materials.

Assessment Evidence Guide

1. Critical aspects of	Assessment required evidence that the candidate:
------------------------	--

competency	1.1 Demonstrated knowledge of workplace procedures in receiving, interpreting read verbal & written instruction and conduct communication. 1.2 Satisfied the requirements mentioned in the performance criteria and range of variables.
2. Methods of assessment	Methods of assessment may include but not limited to: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of assessment	1.3 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 1.4 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: WORK IN A TEAM ENVIRONMENT	Nominal Duration: 15 hrs.	Unit Code: SICIP-THS-FBP-03-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to work in a team environment. It specifically includes the tasks of identifying team goals and processes, communicating and cooperating with team members, participating in team discussions, working as a team member and solving problems as a team member.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined>** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify team goals and processes	1.1 Team goals and collaborative decision-making processes are identified. 1.2 Role and common goals of the team are defined from available sources of information. 1.3 Team structure, responsibilities and reporting relations are identified from team discussions and other external sources.
2. Communicate and cooperate with team members	1.4 Communication and negotiation skills are applied and maintained in all relevant situations. 1.5 Constructive contributions are made to workplace discussions on such issues as production, quality and safety. 1.6 Goals/ objectives and action plans undertaken in the workplace are communicated promptly. 1.7 Information regarding problems and issues are organized coherently to ensure clear and effective communication. 1.8 Dialogue is initiated with appropriate personnel. 1.9 Communication problems and issues are raised 1.10 Barriers to communication are identified and resolved
3. Work as a team member	1.1 Effective forms of communication are used to interact with team members in discussing team activities and objectives. 1.2 Mutual respect, empathy and active collaboration are demonstrated 1.3 Communication channels are followed as per workplace context.

4. Solve problems as a team member	1.1 Current and potential problems faced by team are identified. 1.2 Problems are investigated and analyzed. 1.3 Potential solutions of problem are identified. 1.4 Recommendations about possible solutions are developed, documented, ranked and presented to team members for decision.
------------------------------------	---

Range of variables:

Variables	Range (may include but not limited to)
1. Sources of information	1.1 Organizational structures 1.2 Operations Manuals 1.3 Job description 1.4 Standard operating procedures
2. Workplace discussions	1.1 Coordination meetings 1.2 Toolbox discussion 1.3 Peer-to-peer discussion
3. Team members	1.1 Coach / members 1.2 Supervisor / manager 1.3 Peers / colleagues 1.4 Other members /Employee representative of the organization.
4. Workplace context	1.1 National Laws and Statutes 1.2 Standard Operating Procedures 1.3 Workplace Rules and Regulations

Curricular Content Guide

1. Underpinning knowledge	1.1 Sources of information define 1.2 Team structure, role, and responsibility. 1.3 Individual member's roles and responsibilities. 1.4 Effective verbal communication methods 1.5 Communication flow and reporting structures. 1.6 Interpersonal communication skills. 1.7 Organization requirements for written and electronic communication methods 1.8 Communication problems and issues 1.9 Barriers in communication 1.10 Team planning. 1.11 Team meeting procedures. 1.12 Workplace etiquette 1.13 Industry maintenance, service and helpdesk practices, processes and procedures
---------------------------	---

	1.14 Industry standard diagnostic tools 1.15 Malfunctions and resolutions
2. Underpinning skill	1.1 Organizing sources of information 1.2 Identifying the role and responsibility of the team. 1.3 Identifying roles and responsibilities of individual members. 1.4 Identifying effective verbal communication methods 1.5 Identifying communication flow and reporting structure. 1.6 Identifying interpersonal communication skills 1.7 Complying with organization requirements for the use of written and electronic communication methods 1.8 Negotiation and communication skills 1.9 Participating in team discussion. 1.10 Working as a team member. 1.11 Participating in a variety of workplace discussions 1.12 Effective clarifying and probing skills 1.13 Identifying issues 1.14 Identifying current industry standard diagnostic tools 1.15 Describing common malfunctions and resolutions. 1.16 Determining the root cause of a routine malfunction
2 Underpinning Attitudes	2.1 Commitment to occupational health and safety practices 2.2 Promptness in carrying out activities 2.3 Tidiness and timeliness 2.4 Respect to peers, sub-ordinates and seniors in workplace 2.5 Environmental concern 2.6 Sincerity and honesty
3. Resource implications	The following resources must be provided: 2.1 Workplace (actual or simulated). 2.2 Relevant materials and equipment. 2.3 Relevant specifications or work instructions.

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 Demonstrated knowledge in working in a team environment. 1.2 Satisfied the requirements mentioned in the performance criteria and range of variables.
-----------------------------------	--

2. Methods of assessment	Methods of assessment may include but not limited to: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

The Sector Specific (Common) Competencies

Unit of Competency: WORK IN THE TOURISM AND HOSPITALITY SECTOR	Nominal Duration: 10 hrs.	Unit Code: SICIP-THS-FBP-01-S
Unit Descriptor: This unit covers the knowledge, skills and attitude required to work in the tourism and hospitality sector. It specifically includes identifying job roles and responsibilities in the tourism and hospitality industry and working with others.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify job roles and responsibilities in the tourism and hospitality industry	1.1 Job roles and responsibilities in the tourism and hospitality sector is identified. 1.2 Relationships within the tourism and hospitality sector 1.3 employees are identified. 1.4 Common goals, objectives and task are identified and clarified with appropriate persons.
2. Work with others	2.1 <u>Effective interpersonal skills</u> are applied to interact with 2.2 others and to contribute to activities and objectives. 2.3 Assigned tasks are performed in accordance with job 2.4 requirements, specifications and workplace environment. 2.5 Work <u>requirements</u> are confirmed with colleagues.

Range of Variables

Variable	Range
	May include but not limited to:
1. Effective interpersonal skills	1.1 Basic listening and speaking skills: 1.2 Use of terminology and jargon, communicating and receiving feedback, interpretation of instructions and basic principles of effective communication.
2. Requirements	2.1 Requirements as directed in verbal modes or

	written in specification or procedures.
--	---

Curricular Content Guide

1. Underpinning Knowledge	1.1 Organizational set-up of the food production, food services and housekeeping department and tourism sector 1.2 Job roles and responsibilities
2. Underpinning Skills	2.1 Working with team 2.2 Performing non-verbal communication
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Environmental concerns 3.3 Eagerness to learn 3.4 Tidiness and timeliness 3.5 Respect for rights of peers and seniors in workplace 3.6 Communication with peers and seniors in workplace
4. Resource Implications	4.1 Telephone 4.2 Scanner 4.3 Internet 4.4 Materials and consumables needed to perform activities

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Identified roles, and responsibilities in the tourism and hospitality industry 1.2 Worked with the tourism and hospitality industry.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency:	Nominal	Unit Code:
----------------------------	----------------	-------------------

FOLLOW THE WORKPLACE HYGIENE PROCEDURES	Duration: 15 hrs.	SICIP-THS-FBP-02-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to follow workplace hygiene procedures. It specially includes performing personal hygiene and well standards and identifying and preventing hygiene risks.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Perform personal hygiene and well standards	1.1 Personal hygiene and well grooming is practiced in line with workplace health and safety requirements. 1.2 Health conditions and/or illness are reported as required by the workplace. 1.3 <u>Personal Protective Equipment (PPE)</u> are used and applied according to the situation. 1.5 Movement around the workplace are conducted in accordance with the procedure.
2. Identify and prevent hygiene risks	2.1 Potential <u>hygiene risks</u> are identified as per workplace hygiene procedures. 2.2 Actions are taken to <u>minimize or remove risks</u> within the scope of individual responsibility as per workplace requirements. 2.3 Hygiene risks are reported to the responsible person, which are beyond the control of individual staff member.

Range of Variables

Variable	Range
	May include but not limited to:
1. Personal Protective Equipment (PPE)	1.1 Protective clothing 1.2 Gloves 1.3 Hair net 1.4 Sun cap 1.5 Safety shoes 1.6 Other PPE as per OSH requirements
2. Hygiene risk	2.1 Bacterial and other contamination arising from poor 2.2 handling of food 2.3 Poor personal hygiene practices

	2.4 Poor work practices 2.4.1 Cleaning 2.4.2 Housekeeping 2.4.3 Food handling 2.4.4 Vermin 2.4.5 Airborne dust 2.5 Cross-contamination through inappropriate cleaning practices 2.6 Inappropriate handling of potentially infectious linen 2.7 Contaminated wastes such as blood and body secretions 2.8 Disposal of garbage and contaminated or potentially 2.9 contaminated wastes
3. Minimizing or removing risk	3.1 Washing 3.2 Preparing 3.3 Mixing 3.4 Cooking 3.5 Storing 3.6 Serving 3.7 Reheating

Curricular Content Guide

1. Underpinning Knowledge	1.1 Personal protective equipment 1.2 Personal hygiene practices 1.3 Rules and regulations to produce quality and safety in food 1.4 Control measures for food safety 1.5 Food hazards 1.6 Cleaning, sanitation, waste segregation and disposal 1.7 practices 1.8 Food safety procedures 1.9 Cleanliness and safety of transport
2. Underpinning Skills	2.1 Using PPE. 2.2 Practicing personal hygiene and well grooming in line with 2.3 workplace health and safety requirements. 2.4 Controlling the measures for minimizing food 2.5 contamination 2.6 Collecting wastage, recycling, handling and

	disposal
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Environmental concerns 3.3 Eagerness to learn 3.4 Tidiness and timeliness 3.5 Respect for rights of peers and seniors in workplace 3.6 Communication with peers and seniors in workplace
4. Resource Implications	4.1 Hygiene procedures 4.2 Tool's equipment and facilities appropriate to perform activities 4.3 Materials and consumables needed to perform activities

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Practiced personal hygiene and grooming standard 1.2 Identified and prevented hygiene risks.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: PROVIDE EFFECTIVE GUEST SERVICE	Nominal Duration: 10 hrs.	Unit Code: SICIP-THS-FBP-03-S
Unit Descriptor: This unit covers the knowledge, skills and attitude required to provide effective guest service. It specially includes the tasks of greeting guests, identifying guests' needs, delivering service to guests, handle queries through telephone and internet service and handle complaints, evaluation and recommendation.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Greet guests	1.1 Guests are greeted in line with workplace procedure. 1.2 Verbal and <u>non-verbal communications</u> are applied to the given situation. 1.3 Sensitivity to <u>cultural and social differences</u> is demonstrated.
2. Identify guests' needs	2.1 <u>Interpersonal skills</u> are used to ensure that guest needs are identified. 2.2 <u>Guest with special needs</u> is assessed for urgency so that priority for service delivery is applied. 2.3 Guests are provided with necessary information. 2.4 Personal limitation in addressing guest needs is identified. and where appropriate, assistance is sought from supervisor.
3. Deliver service to guests	3.1 Guest needs are promptly attended to in line with <u>workplace procedure.</u> 3.2 Rapport is maintained with guest according to workplace procedure.
4. Handle queries through telephone and internet service	4.1 Telephone, scanner and internet service are used to determine guest requirements. 4.2 Queries/ information are recorded in line with workplace requirements. 4.3 Queries are acted upon correctly in line with workplace procedure.
5. Handle complaints, evaluation and recommendation	5.1 Guest complaints are received according to workplace procedure. 5.2 Complaints are resolved within limit of responsibility. 5.3 Nature and details of complaints are established. 5.4 Action is taken to resolve the complaints to the guest's satisfaction.

Range of Variables

Variable	Range May include but not limited to:
1. Non-verbal communication	1.1 Body language 1.2 Dress and accessories 1.3 Gestures and mannerisms 1.4 Voice tonality and volume 1.5 Use of space 1.6 Culturally specific communication customs and practices
2. Cultural and social differences	2.1 Modes of greeting, farewelling and conversation 2.2 Body language/ use of body gestures 2.3 Formality of language
3. Interpersonal skills	3.1 Interactive communication 3.2 Public relation 3.3 Friendly working attitude 3.4 Sincerity 3.5 Pleasant disposition 3.6 Effective communication skills
4. Guest with special needs	4.1 Those with disability 4.2 Those with special cultural or language needs 4.3 Unaccompanied children 4.4 Parents with young children 4.5 Pregnant women 4.6 Single women 4.7 Handling unusual guest (e.g., drunk)
5. Workplace procedure	5.1 Modes of greeting and farewelling 5.2 Time-lapse before a response 5.3 Style manual requirements 5.4 Standard letters and pro-forma 5.5 Addressing the guest by name or appropriate title 5.6 (Sir/Madam, etc.)

Curricular Content Guide

1. Underpinning Knowledge	1.1 Communication 1.1.1 Interactive communication with others 1.1.2 Interpersonal skills/ social graces 1.2 Safety Procedures 1.2.1 Safe work procedures 1.2.2 Personal hygiene 1.3 Attitude
---------------------------	--

	1.3.1 Attentive, patient and cordial 1.3.2 Eye-to-eye contact 1.3.3 Maintain teamwork and cooperation 1.4 Theory 1.4.1 Selling/upselling techniques 1.4.2 Interview techniques 1.4.3 Conflict resolution 1.4.4 Communication process 1.4.5 Communication barriers
2. Underpinning Skills	2.1 Communicating effectively 2.2 Performing non-verbal communication 2.3 Maintaining good time management 2.4 Working calmly and effectively 2.5 Handling telephone inquiries and conversations 2.6 Following correct procedure in handling telephone inquiries, use scanner and access internet service 2.7 Handling complaints on proper way
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety practices 3.2 Communication with peers, sub-ordinates and seniors in workplace. 3.3 Promptness in carrying out activities. 3.4 Tidiness and punctual. 3.5 Sincere and honest to duties 3.6 Responsible during emergencies
4. Resource Implications	The following resources must be provided: 4.1 Telephone 4.2 Scanner 4.3 Internet 4.4 Materials and consumables needed to perform activities. 4.5 Workplace or physical facilities required to perform activities

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Promoted public relation among others 1.2 Demonstrated familiarity with company facilities, products and 1.3 services 1.4 Applied workplace procedures and standards 1.5 Applied telephone ethics
-----------------------------------	---

	1.6 Applied correct procedure in using telephone, scanner and 1.7 internet service 1.8 Handled Guests complaints.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

The Occupation Specific Competencies

Unit of Competency: APPLY FOOD SAFETY PROCEDURE	Nominal Duration: 20 Hrs.	Unit Code: SICIP-THS-FBP-1-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply food safety procedure. It specifically includes the tasks of interpreting procedures for food safety, interpreting food and beverage storage procedure and maintaining a clean environment.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret procedures for food safety	1.1 Relevant documents are identified and used accordance with organizational requirements. 1.2 Food safety <u>policies and procedures</u> are followed according to standard operating procedure. 1.3 All <u>food hazards</u> and <u>critical control points</u> are identified and assessed within the production environment. 1.4 <u>The Food safety monitoring process</u> is interpreted based on hazard analysis and critical control guidelines.
2. Interpret food and beverage storage procedure	2.1 Food and beverage storage conditions are selected based on the specific <u>food and beverage type</u> . 2.2 Food and beverage are stored according to the environmental conditions. 2.3 The temperature of stored and frozen food & beverage are controlled within the recommended temperature range.
3. Maintain a clean environment	3.1 Equipment, surface and utensils are cleaned and sanitized in accordance with workplace standard. 3.2 Chemicals and cleaning agents are used and stored following the workplace safety protocols. 3.3 Appropriate containers are selected and used according to workplace procedures. 3.4 <u>Chipped and broken items</u> are disposed of and reported in line with health, safety guidelines and environment, focusing on green practice. 3.5 Food handling areas are maintained by preventing access of animals and pests in accordance with workplace standards.

Range of Variables

Variable	Range (Includes but not limited to):
----------	--------------------------------------

1. Policies and procedures	1.1 Food receiving, storage, preparation, displays, service and disposal 1.2 Food hazards control for each critical point 1.3 Personal hygiene, suitable dress and personal protective equipment and clothing 1.4 Maintenance record 1.5 Pest control 1.6 Cleaning and sanitation
2. Food hazards	2.1 Chemical, microbiological or physical 2.2 Any food contaminated with chemical or microbiological elements
3. Critical control points	3.1 Receiving 3.2 Storing 3.3 Preparing 3.4 Processing 3.5 Displaying 3.6 Packaging 3.7 Serving 3.8 Transporting 3.9 Disposing
4. Food safety monitoring	4.1 Temperature of cold and hot storage equipment 4.2 Food temperatures using a temperature probe 4.3 Checking appropriate time limits of stored foods 4.4 Visual examination of food for quality review 4.5 Bacterial swabs and counts 4.6 Chemical tests
5. Food and beverage type	5.1 Food 5.1.1 Perishable items 5.1.2 Non-perishable items 5.2 Beverage 5.2.1 Fresh fruit 5.2.2 Canned juice 5.2.3 Soft drink 5.3 Water
6. Chipped and broken items	6.1 Chinaware 6.2 Glass ware 6.3 Earthenware

Curricular Content Guide

1. Underpinning Knowledge	1.1 Food safety policies and procedures 1.2 Critical points and food hazards 1.3 Local food safety regulations and inspection regimes 1.4 Food and beverage type 1.5 Chemicals and cleaning agents 1.6 Chipped and broken items 1.7 Methods of food storage 1.8 Microbiological contamination
---------------------------	--

	1.9 Temperatures controlling procedure 1.10 Methods and principles of safe food handling 1.11 Methods of monitoring process
2. Underpinning Skills	2.1 Identifying and using relevant documents according to organizational requirements. 2.2 Identifying food hazards and critical control points 2.3 Interpreting food safety monitoring process 2.4 Selecting food and beverage storage condition 2.5 Storing food and beverage 2.6 Controlling temperature of stored and frozen food & beverage 2.7 Cleaning and sanitizing equipment, surface and utensils 2.8 Using appropriate containers 2.9 Reporting and disposing chipped and broken items 2.10 Maintaining personal hygiene 2.11 Checking food handling areas
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace/Institute 4.2 Tools and equipment 4.3 Required materials 4.4 Cleaning agent 4.5 Paper 4.6 Pen

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Interpreted procedures for food safety 1.2 Interpreted food and beverage storage procedure 1.3 Maintained a clean environment
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an

	assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.
--	--

Unit of Competency: ORGANIZE AND PREPARE FOR COOKING	Nominal Duration: 20 Hrs.	Unit Code: SICIP-THS-FBP-2-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to organize and prepare for cooking. It specifically includes the tasks of cleaning and sanitizing tools, equipment & kitchen premises, receiving and storing goods, preparing tools, equipment utensils and equipment, and disposing waste materials and restoring tools and equipment.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Clean and sanitize tools, equipment & kitchen premises	1.1 <u>Personal protective equipment (PPE)</u> is worn as per workplace safety requirements. 1.2 Cleaningschedules are followed based on workplace cleaning procedures. 1.3 <u>Chemicals</u> are selected and applied for safe cleaning and sanitizing of kitchen equipment. 1.4 <u>Working surfaces</u> are cleaned and sanitized without causing damage harm to health or property damage. 1.5 <u>Tools, equipment and utensils</u> are identified and recognized for their appropriate use. 1.6 Tools, equipment and utensils are cleaned, sanitized and sterilized following workplace standards. 1.7 Equipment is assembled and disassembled safely according to standard operating procedures.
2. Receive and store goods	2.1 Incoming <u>goods</u> are checked and received according to delivery procedures. 2.2 Items are inspected for quality, quantity, temperature. 2.3 The temperature of perishable goods is recorded according to storage requirements. 2.4 Stock levels are recorded and updated in accordance with inventory management procedures. 2.5 Goods are labelled and stored following food safety standards.
3. Prepare tools, equipment, utensils and ingredients	3.1 Tools, equipment and utensils are selected based on job requirements. 3.2 <u>Ingredients</u> are identified according to job specifications. 3.3 Ingredients are selected and prepared following standard recipes. 3.4 <u>Mise-en place</u> is performed for vegetables, fish, poultry

	and meat as per food preparation standards.
4. Dispose waste materials and restore tools and equipment	4.1 <u>Waste materials</u> are sorted and disposed accordance with sanitary regulations, company practices and standard procedures 4.2 Cleaning chemicals are disposed of safely following standard disposal protocols. 4.3 Chemicals and equipment are stored safely and correctly in designated positions and storage areas.

Range of Variables

Variable	Range (Includes but not limited to):
1. Personal protective equipment (PPE)	1.1 Hand gloves 1.2 Face mask 1.3 Apron 1.4 Hair scarf or cap 1.5 Safety shoes (Rubber shoe) 1.6 Safety glass/ Googles
2. Chemicals	2.1 Food chemicals 2.2 Cleaning chemicals 2.2.1 Dishwashing agent 2.2.2 Deep cleaning agent 2.3 Sanitizing chemicals
3. Working surface	3.1 Walls 3.2 Floors 3.3 Drainage system 3.4 Shelves 3.5 Working tables 3.6 Kitchen hood 3.7 Light and ceilings 3.8 Ovens, stoves, cooking equipment 3.9 Sink and appliances 3.10 Store rooms and cupboards/ cabinet
4. Tools, equipment and utensils	4.1 Tools 4.1.1 Spatula 4.1.2 Wire whisk 4.1.3 Knife sharpeners 4.1.4 Knife sharpening stone 4.1.5 Grater 4.1.6 Skimmer 4.1.7 Strainers 4.1.8 Spoons 4.1.9 Roasting fork 4.1.10 Chef's knives

	4.1.11 Peeler 4.1.12 Scoop 4.1.13 Meat hammer 4.1.14 Can opener 4.1.15 Chopping board 4.1.16 Measuring tools 4.1.17 Weighing scale 4.1.18 Ladle 4.1.19 Measuring cups and spoons 4.2 Equipment 4.2.1 Blender 4.2.2 Grinder 4.2.3 Meat mincer 4.2.4 Meat slicer 4.2.5 Potato peeler 4.2.6 Air fryer 4.2.7 Cooking ranges 4.2.8 Microwave oven 4.2.9 Combi oven 4.2.10 Salamander 4.2.11 Steamer 4.2.12 Ice machine 4.2.13 Ice cream machine 4.2.14 Refrigerator/chiller 4.2.15 Freezer 4.2.16 Food processor 4.2.17 Food Warmer 4.2.18 Deep fryer 4.3 Utensils 4.3.1 Cooking pot 4.3.2 Stock pot 4.3.3 Braising pan 4.3.4 Roasting pan 4.3.5 Sauté pan 4.3.6 Wok 4.3.7 Fry pan 4.3.8 Chaffing dish
5. Goods	5.1 Food 5.2 Beverage 5.3 Equipment 5.4 Packaging materials (Box, Food container, Bags, Disposable cutlery) 5.5 Cleaning agent

6. Ingredients	6.1 Meat, poultry, fish, seafood, vegetables, rice, pasta, cereals, noodles, eggs. 6.2 Spices and herbs 6.3 Seasonings (Salt, Pepper) 6.4 Fats and oil 6.5 Dairy products
7. Mise-en place	7.1 Preparing, cleaning, washing and sanitizing of raw materials 7.2 Opening of containers, such as jars, tins, cartons, packages and removal of items ready for use 7.3 Trimming, peeling, juicing, cutting, slicing, filleting, boning, mincing, shredding, chopping, dicing, crushing, water boiling, pre-heating and skinning 7.4 Weighing and portioning of ingredients 7.5 Sifting, combining and mixing 7.6 Preparing and applying crumbs and batters 7.7 Preparing basic items, including croutons, garnishes, compound butters and simple sauces 7.8 De-frosting of frozen product 7.9 Pre-cooking and par-cooking (Partial Cooking) items for later completion 7.10 Storing prepared items ready for use
8. Waste materials	8.1 Biodegradable 8.2 Non- biodegradable 8.3 Recyclable

Curricular Content Guide

1. Underpinning Knowledge	1.1. Workplace safety and hygiene procedures 1.2. Assembling and disassembling procedures 1.3. Cleaning and sanitizing procedures 1.4. Mise-en place 1.5. Dos and Don'ts procedure 1.6. Orders and delivery documents 1.7. Delivered goods 1.8. LIFO and FIFO system 1.9. Quality inspection procedure 1.10. Stock labeling procedure 1.11. Goods storing procedure 1.12. Workplace requirements 1.13. Working surface cleaning procedure 1.14. Disposing procedure 1.15. Tools and equipment storing procedure
2. Underpinning Skills	2.1. Selecting and using chemicals for safe cleaning and sanitizing kitchen equipment 2.2. Cleaning and sanitizing working surface, Tools,

	equipment and utensils 2.3. Assembling and disassembling equipment 2.4. Checking and receiving incoming goods 2.5. Inspecting items quality, quantity, date and temperature 2.6. Recording stock levels 2.7. Labelling and storing goods 2.8. Preparing ingredients 2.9. Performing Mise-en place 2.10. Disposing waste materials 2.11. Storing Chemicals and equipment safely and correctly
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 PPE, Tools and equipment 4.3 Paper 4.4 Pen 4.5 Goods 4.6 Ingredients 4.7 Relevant materials 4.8 Work instruction

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Cleaned and sanitized tools, equipment & kitchen premises 1.2 Assembled and disassembled equipment 1.3 Received and stored goods 1.4 Prepared ingredients 1.5 Performed Mise-en place 1.6 Disposed waste materials and restore tools equipment.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test

	2.2 Practical Demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE STOCKS, SOUPS, SAUCES AND DRESSINGS	Nominal Duration: 40 Hrs.	Unit Code: SICIP-THS-FBP-3-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to prepare stocks, soups, sauce and dressings. It specifically includes the tasks of preparing tools, utensils, equipment and ingredients, cooking stocks, soups & sauces and prepare dressing and storing stocks, soups and sauces.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Prepare tools, utensils, equipment and ingredients	1.1 Tools, utensils and equipment are selected for preparing <u>stocks, soups, sauces and dressings</u> as per recipe requirements. 1.2 Cleanliness and safe assembly of equipment are ensured according to hygiene requirements and safety standards. 1.3 Ingredients are selected based on standard recipe and food preparation procedures. 1.4 Ingredients are weighed and measured according to specified requirements. 1.5 Ingredients are sorted and prepared following proper sequencing as mentioned in recipe instructions.
2. Cook stocks, soups & sauces and prepare dressing	2.1 Stocks and sauces are cooked following food production requirements and recipe specifications. 2.2 Different types of soups are identified and at least three types of soups are prepared maintaining proper sequence. 2.3 Dressings are prepared according to recipe requirements and food safety standards. 2.4 <u>Thickening agents</u> are used as required following standard procedures. 2.5 Different types of <u>derivatives from basic sauces</u> are identified based on sauce classification. 2.6 Three types of derivatives are prepared maintaining proper sequence as followed the recipe instructions.
3. Store stocks, soups and sauces	3.1 Leftovers are stored according to standard operating procedures and food safety guidelines. 3.2 Stocks, soups and sauces are stored maintaining quality standard and temperature requirements. 3.3 Stocks, soups and sauces are reheated or reconstituted following standard procedures and safe food handling.

Range of Variables

Variable	Range (Includes but not limited to):
1. Stocks, soups, sauces and dressings	1.1 Stocks 1.1.1 Beef stock – brown/white 1.1.2 Chicken stock-brown/white 1.1.3 Fish/seafood stock 1.1.4 Vegetable's stock 1.2 Soups 1.2.1 Clear • Consommé • Broths 1.2.2 Thick • Velouté • Cream • Puree • Chowder • Bisque 1.3 Sauces 1.3.1 Bechamel/white 1.3.2 Velouté 1.3.3 Espagnole/brown 1.3.4 Tomato 1.3.5 Hollandaise 1.3.6 Mayonnaise (Cold mother sauce) 1.4 Dressing 1.3.1 Vinaigrette 1.3.2 Honey mustard 1.3.3 French dressing 1.3.4 Italian dressing 1.3.5 Thousand islands
2. Thickening agents	2.1 Roux 2.2 Flour, corn flour, arrowroot 2.3 Potato flour 2.4 Rice flour 2.5 Egg yolk 2.6 Crème
3. Derivatives from basic sauces	3.1 Cocktail sauce 3.2 Tartar sauce 3.3 Supreme sauce 3.4 Provençale 3.5 Demi-glace

	3.6 Alfredo sauce
	3.7 Mushroom sauce
	3.8 Pepper sauce

Curricular Content Guide

1. Underpinning Knowledge	1.1. Occupational Safety and Health (OSH) procedures 1.2. Stocks, soups and sauces ingredients 1.3. Types of soups 1.4. Dressing 1.5. Thickness agents 1.6. Derivatives of basic sauces
2. Underpinning Skills	2.1. Selecting tools, utensils and equipment 2.2. Selecting ingredients 2.3. Cooking stocks, soups and sauces 2.4. Preparing dressing 2.5. Using thickening agents 2.6. Preparing different types of derivatives from sauces 2.7. Storing stocks, soups and sauces
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in workplace
4. Resource Implications	The following resources must be provided: 4.1 Personal Protective Equipment (PPE) 4.2 Ingredients and relevant materials 4.3 Tools, equipment and physical facilities 4.4 Paper 4.5 Pen

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Prepared tools, utensils, equipment and ingredients 1.2 Cooked stocks, soups & sauces and prepared dressing 1.3 Stored stocks, soups and sauces.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration

	2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE VEGETABLES, EGGS, SALADS, SANDWICH AND FARINACEOUS DISHES	Nominal Duration: 70 Hrs.	Unit Code: SICIP-THS-FBP-4-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to prepare vegetables, eggs, salads, sandwich and farinaceous dishes. It specifically includes the tasks of preparing tools, utensils equipment and ingredients, preparing and presenting vegetables dishes, preparing and presenting egg dishes, preparing and presenting salads, preparing and presenting sandwiches and preparing and presenting farinaceous foods and rice dishes.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Prepare tools, utensils, equipment and ingredients	1.1 Tools, utensils and equipment are selected based on job requirements and recipe specifications. 1.2 Cleanliness and safe assembly of equipment are ensured according to hygiene requirements and safety standards. 1.3 Ingredients are selected following standard recipe and food preparation procedures. 1.4 Ingredients are weighed and measured according to specified requirements and portion control. 1.5 Ingredients are sorted and prepared following the proper sequencing as followed in the recipe instructions.
2. Prepare and present vegetables dishes	2.1 <u>Vegetables</u> are selected based on recipe requirements and menu specifications. 2.2 <u>Different types of Vegetable dishes</u> are identified and at least three dishes are prepared according to recipe using appropriate <u>cooking methods</u> . 2.3 Vegetable dishes are presented following workplace procedures and presentation standards. 2.4 Vegetables and potato-accompaniments are selected to complement and enhance menu items. 2.5 Sauces and accompaniments are selected as per recipe 2.6 Standard portion sizes for vegetables is maintained to minimize wastage.
3. Prepare and present egg dishes	3.1 <u>Egg dishes</u> are prepared according to recipe using <u>cooking methods</u> . 3.2 Sauces and accompaniments specific to egg preparations are selected and prepared based on recipe specifications. 3.3 Cooked dishes are tested and seasoned in according to the required taste.

	3.4 Egg dishes are presented hygienically and attractively following workplace presentation standards.
4. Prepare and present salads	4.1 Salads are prepared according to recipe requirements using appropriate methods. 4.2 Sauces and accompaniments specific to salad preparations are selected and prepared. 4.3 Prepared salads are tested and seasoned in accordance with the desired taste. 4.4 Salads are presented hygienically and attractively following workplace presentation standards.
5. Prepare and present sandwiches	5.1 Suitable bases are selected from a range of bread types based on sandwich requirements. 5.2 Equipment is selected and used for toasting and heating according to standard procedures. 5.3 Different types of Sandwiches are identified and at least three types are prepared while maintaining proper preparation sequence. 5.4 Prepared sandwiches are presented following industry standards.
6. Prepare and present farinaceous foods and rice dishes	6.1 Farinaceous foods are identified based on recipe requirements. 6.2 Macaroni cheese is prepared and baked following the standard recipe. 6.3 Spaghetti is prepared according to standard recipe. 6.4 Penne is prepared according to standard recipe. 6.5 Noodles are prepared according to standard recipe. 6.6 Savory/Fried rice, pilau rice and biriyani are prepared according to standard recipe. 6.7 Sauces and accompaniments are selected as per recipe. 6.8 Farinaceous and rice dishes are presented following workplace requirements.

Range of Variables

Variable	Range (Includes but not limited to):
1. Vegetables	1.1 Fruit 1.2 Seeds 1.3 Roots 1.4 Tubers 1.5 Bulbs 1.6 Stems 1.7 Leafy 1.8 Flower

	1.9 Fungi
2. Vegetable dishes	2.1 Boiled vegetables 2.2 Steamed vegetables 2.3 Vegetables-au-gratin 2.4 Stir fried vegetables 2.5 Buttered vegetables
3. Cooking methods for vegetables	3.1 Steaming 3.2 Grilling 3.3 Braising 3.4 Stewing 3.5 Boiling 3.6 Sauteing 3.7 Stir frying
4. Egg dishes	4.1 Poached egg 4.2 Omelet (Plain, Spanish, Cheese, Mushroom) 4.3 Fried egg (Sunny side, over-easy, turn-over) 4.4 Scrambled egg
5. Cooking methods for eggs	5.1 Poaching 5.2 Boiling 5.3 Sauteing and frying
6. Salads	6.1 Green salad 6.2 Cashew nut salad 6.3 Caesar salad 6.4 Russian salad 6.5 Coleslaw
7. Different types of Sandwiches	7.1 Vegetable's sandwich 7.2 Chicken sandwich 7.3 Club sandwich 7.4 Sub sandwich 7.5 Beef sandwich 7.6 Sea food sandwich
8. Farinaceous foods	8.1 Pasta 8.1.1 Macaroni (Cheese) 8.1.2 Spaghetti (Bolognaise) 8.1.3 Penne (Arabian) 8.1.4 Noodles (Chowmen)

Curricular Content Guide

1. Underpinning Knowledge	1.1. Workplace safety and hygiene procedures 1.2. Standard recipes and cooking methods 1.3. Different types of vegetable dishes 1.4. Cooking method of vegetable dishes 1.5. Egg dishes and its cooking methods 1.6. Types of Salad
---------------------------	--

	1.7. Different types of Sandwiches 1.8. Farinaceous foods and its cooking recipe 1.9. Cleaning and maintaining facilities, tools and equipment
2. Underpinning Skills	1.1 Preparing and presenting vegetables dishes 1.2 Preparing and presenting egg dishes 1.3 Preparing and presenting salads 1.4 Preparing and presenting sandwiches 1.5 Preparing and presenting farinaceous dishes 1.6 Cleaning and maintaining facilities, tools and equipment
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Personal Protective Equipment (PPE) 4.2 Ingredients and raw materials 4.3 Tools, equipment and physical facilities Tools and equipment appropriate to joint and connection process

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Selected and prepared tools, utensils, equipment and ingredients 1.2 Prepared and presented vegetables dishes 1.3 Prepared and presented egg dishes 1.4 Prepared and presented salads 1.5 Prepared and presented sandwiches 1.6 Prepared and presented farinaceous dishes
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated

	work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE MEAT AND POULTRY DISHES	Nominal Duration: 70 Hrs.	Unit Code: SICIP-THS-FBP-5-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to prepare meat and poultry dishes. It specifically includes the tasks of preparing tools, utensils and equipment, preparing and presenting meat dishes and preparing and presenting poultry dishes.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Prepare tools, utensils and equipment	1.1 <u>Tools, utensils and equipment</u> are selected to prepare meat. 1.2 Cleanliness and safe assembly of equipment are ensured according to hygiene requirements and safety standards.
2. Prepare and present meat dishes	2.1 Ingredients and <u>types of meat</u> are selected according to the standard recipe and food preparation procedures. 2.2 <u>Meat preparation techniques</u> are applied based on the recipe requirements. 2.3 Recipe is selected and <u>cooking methods</u> are applied according to workplace requirements. 2.4 Meat is cooked using selected cooking methods and following proper sequencing. 2.5 Food hygiene is maintained and food quality as per food safety requirement. 2.6 Meat dishes are presented according to presentation requirements.
3. Prepare and present poultry dishes	3.1 Ingredients and <u>types of poultry</u> are selected according to the standard recipe and food preparation procedures 3.2 Poultry preparation techniques are applied according to recipe requirements. 3.3 Recipe is selected and cooking methods are applied according to workplace requirements. 3.4 <u>Chicken dishes</u> are cooked using selected cooking methods and following proper sequencing. 3.5 Food hygiene is maintained and food quality is checked as per food safety standards. 3.6 Chicken dishes are presented according to presentation requirements.

Range of Variables

Variable	Range (Includes but not limited to):
1. Tools, utensils and equipment	1.1 Various kitchen knives 1.2 Meat mallet 1.3 Meat hooks 1.4 Larding needles 1.5 Knife sharpening and honing equipment 1.6 Food slicers and processors 1.7 Meat thermometer 1.8 Weighing scales 1.9 Kitchen twines 1.10 Color-coded Cutting boards
2. Types of meat	2.1 Beef 2.2 Mutton
3. Meat preparation techniques	3.1 Boning and trimming 3.2 Portioning 3.3 Marinating 3.4 Mincing 3.5 Tenderizing
4. Cooking methods	4.1 Roasting 4.2 Grilling 4.3 Frying 4.4 Stewing 4.5 Braising 4.6 Boiling
5. Types of poultry	5.1 White flesh poultry 5.1.1 Chicken 5.1.2 Turkey 5.2 Dark flesh poultry 5.2.1 Duck 5.2.2 Goose 5.3 Pigeon 5.4 Queal
6. Chicken dishes	6.1 Tikka masala 6.2 Grill chicken 6.3 Roast Chicken

Curricular Content Guide

1. Underpinning Knowledge	1.1. Safety and hygiene procedures 1.2. Culinary terms used in the workplace 1.3. Use of correct utensils and equipment 1.4. Uses and characteristics of various knives and equipment 1.5. Use of Ingredients
---------------------------	---

	1.6. Classification of meats/basic culinary terms for cooking 1.7. Basic food nutrition's value 1.8. Meat preparation techniques 1.9. Types of poultry 1.10. Chicken dishes and cooking process 1.11. Cooking methods of meat 1.12. Safe and sequential procedures 1.13. Cleaning procedures
2. Underpinning Skills	2.1. Cleaning and sanitizing tools, utensils and equipment 2.2. Preparing ingredients 2.3. Cooking and presenting meat dishes 2.4. Cooking and presenting chicken dishes 2.5. Maintain food hygiene 2.6. Checking food quality 2.7. Storing tools and equipment
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Personal Protective Equipment (PPE) 4.2 Ingredients and meats 4.3 Tools, equipment and physical facilities.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Prepared tools, equipment and utensils 1.2 Prepared ingredients, meats and poultry for cooking 1.3 Cooked and presented meat dishes 1.4 Cooked and presented chicken dishes.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training.

	3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE FISH AND SEAFOOD DISHES	Nominal Duration: 60 Hrs.	Unit Code: SICIP-THS-FBP-6-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to prepare fish and seafood dishes. It specifically includes the tasks of preparing tools, utensils and equipment, preparing ingredients, fish and seafood and cooking and present fish and seafood dishes.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Prepare tools, utensils and equipment	1.1 Tools, utensils and equipment are selected based on requirements for preparing meat. 1.2 Cleanliness and safe assembly of equipment are ensured following hygiene requirements.
2. Prepare ingredients, fish and seafood	2.1 Ingredients and <u>types of fish and seafood</u> are identified and selected according to the standard recipe. 2.2 Ingredients are weighed and measured based on recipe requirements. 2.3 Ingredients are sorted and prepared following proper sequencing as mentioned in recipe. 2.4 <u>Fish and seafood preparation techniques</u> are applied according to recipe requirements.
3. Cook and present fish and seafood dishes	3.1 Recipe is selected and <u>cooking methods</u> are applied according to requirements. 3.2 Freshwater fish is cooked using selected cooking methods and following proper sequencing. 3.3 Sea fish is cooked using selected cooking methods and following proper cooking sequencing 3.4 Food hygiene is maintained and food quality is checked according to food safety standards. 3.5 Fish and seafood dishes are presented according to presentation requirements.

Range of Variables

Variable	Range (Includes but not limited to):
1. Types of fish and seafood	1.1 Freshwater fish 1.2 Sea fish 1.3 Prawn and Crab 1.4 Squid
2. Fish and seafood	2.1 Cleaning 2.2 Shelling

preparation techniques	2.3 De-scaling 2.4 Filleting 2.5 Portioning 2.6 Skinning
3. Cooking methods	3.1 Poaching 3.2 Grilling 3.3 Steaming 3.4 Frying 3.5 Stewing 3.6 Boiling 3.7 Baking

Curricular Content Guide

1. Underpinning Knowledge	1.1. Safety and hygiene procedures 1.2. Types of fish and seafood 1.3. Use of Ingredients 1.4. Preparation techniques of Fish and seafood 1.5. Cooking methods of Fish and seafood dishes 1.6. Culinary terms used in the workplace 1.7. Basic food nutrition's value 1.8. Safe and sequential procedures 1.9. Cleaning procedures
2. Underpinning Skills	2.1. Cleaning and sanitizing tools, utensils and equipment 2.2. Preparing ingredients 2.3. Cooking and presenting Fish and seafood dishes 2.4. Maintaining food hygiene 2.5. Checking food quality 2.6. Storing tools and equipment
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Personal Protective Equipment (PPE) 4.2 Ingredients, fish and seafood 4.3 Tools, equipment and physical facilities.

Assessment Evidence Guide

1. Critical Aspects of	Assessment required evidence that the candidate:
------------------------	--

Competency	1.1 Prepared tools, equipment and utensils 1.2 Prepared ingredients, fish and seafood 1.3 Cooked and presented fish and seafood dishes.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical demonstration 2.3 Oral questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a certified assessor or occupation-specific industry expert.

End of the Competency Standard

Workshop/Lab Facility Standard

Course Name:	Food And Beverage Production (Cooking)
Number of Trainees:	25

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom – minimum 350 sft (33 sqm)
- Workshop/ lab – 800 sft (75 sqm)

Major Training Equipment and Training Facilities:

Sl. No.	Major Equipment and Training facilities	Required facilities
1.	Computers/ Laptop	1
2.	Multimedia Projector	1
3.	Cooking station (02 burner each station)	6
4.	Electric and induction stoves	5
5.	Food processors	2
6.	Blender Machine	3
7.	Refrigerator (200-300 L)	2
8.	Freezers (200-300 L)	1
9.	Microwave oven	2
10.	Griller	1
11.	Meat mincer	1
12.	Convection Oven/Deck oven	1
13.	Working table (preferred size – 6ft x 3ft)	5
14.	Table with Sink	2
15.	Hand wash Sink	1
16.	Frying pan (24cm)	12
17.	Cooking pan (medium size)	12
18.	Weighing Scale (Preferred capacity 10 kg)	1
19.	Weighing Scale (Preferred capacity 1 kg)	5

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency standards (CS) provided by SICIP.

For the operation of training course on Food and Beverage Production (Cooking), the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
