Skills for Industry Competitiveness and Innovation Program (SICIP)
Finance Division, Ministry of Finance

COPYRIGHT

The Competency Standards for Fashion Garments is a document for the development of curricula, teaching and learning materials, and assessment tools. It also serves as the document for providing training consistent with the requirements of the industry for individuals who pass through the set standard via assessment would be qualified and settled for a relevant job.

The document was developed under the Skills for Employment Investment Program (SEIP) and subsequently reviewed and updated with the engagement of occupation-specific industry experts to use in training under the **Skills for Industry Competitiveness and Innovation Program (SICIP)**. This document is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutions may use the information contained in this standard for activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

INTRODUCTION:

The Skills for Industry Competitiveness and Innovation Program (SICIP) has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

The Competency Standard also suggests integration of YouTube or similar platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution, relevant consultants of SICIP.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Unit of Competency
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity
- Guide the assessor in determining whether the candidate is competent.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution, relevant consultants of SICIP.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:**Generic Competencies (30 Hrs.)**

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-RMG-FG-01-G	Apply Occupational Safety and Health (OSH) Practices at Workplace	1. Identify, control and report OSH hazards 2. Conduct work safely 3. Follow emergency response procedures 4. Maintain and improve health and safety in the workplace	10
SICIP-RMG-FG-02-G	Receive and Respond to Workplace Instructions	1. Interpret and follow verbal Instructions 2. Read and Interpret Workplace Documents 3. Receive and follow written instructions 4. Attend meetings and provide inputs	10
SICIP-RMG-FG-03-G	Work In a Team Environment	1. Identify team goals and processes 2. Communicate and cooperate with team members 3. Work as a team member 4. Solve problems as a team member	10
Total Hour			30 Hrs.

Sector Specific Competencies (30 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (Hours)
SICIP-RMG-FG-01-S	Carry out measurements and calculations	1. Plan and prepare. 2. Obtain measurements. 3. Perform calculations.	10
SICIP-RMG-FG-02-S	Apply knowledge of business planning	1. Identify business plan. 2. Perform business survey. 3. Identify banking requirements.	20
Total Hour			30 Hrs.

Occupation Specific Competencies (300 hrs.)

Code	Unit of Competency	Elements of Competency	Duration (hours)
SICIP-RMG-FG-01-O	Interpret Fundamentals of Fashion and Garments	1. Define garments and types 2. Interpret fashion and design 3. Identify parts, points and measurements of garments 4. Interpret manufacturing process of garments	20
SICIP-RMG-FG-02-O	Develop Design for Garments	1. Use tools and materials for designing 2. Perform initial process of designing 3. Develop final design	40
SICIP-RMG-FG-03-O	Perform Fabric Ornamentation	1. Interpret fashion garments ornamentation 2. Carryout Embroidery 3. Carryout Block printing 4. Carryout Tie-dye Batik printing 5. Carryout screen printing 6. Clean and maintain workplace	80
SICIP-RMG-FG-04-O	Perform Pattern Making and Fabric Cutting	1. Practice OSH 2. Carryout measurement 3. Prepare pattern 4. Perform fabric cutting 5. Clean and maintain workplace	20
SICIP-RMG-FG-05-O	Perform Sewing Machine Operation	1. Practice OSH 2. Operate sewing machines 3. Perform Different stitching 4. Perform maintenance of sewing machine 5. Clean workplace and machine	50
SICIP-RMG-FG-06-O	Perform Sewing and Finishing	1. Practice OSH 2. Sew garments 3. Check quality of garments 4. Carryout finishing and packing 5. Clean workplace and machine	90
Total Hours			0 Hrs.

COMPETENCY STANDARD: FASHION GARMENTS

Generic Competencies

Unit of Competency: APPLY OCCUPATIONAL SAFETY AND HEALTH (OSH) PRACTICES AT WORKPLACE	Nominal Duration: 10 Hrs.	Unit Code: SICIP-RMG-FG-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply occupational safety and health (OSH) practices at workplace. It specifically includes the tasks of identifying, controlling and reporting OSH hazards, conducting work safety, following emergency response procedures and maintaining and improving health and safety in the workplace.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify, control and report OSH hazards	1.1 Work area is routinely checked for Occupational Safety and Health (OSH) hazards prior to commencing and during work. 1.2 <u>Hazards</u> are identified and corrective action is taken within the level of responsibility. 1.3 OSH hazards and incidents are reported to appropriate personnel according to workplace procedures. 1.4 <u>Safety signs and symbols</u> are identified and followed. 1.5 <u>Preventive Control Measures</u> are identified in accordance with OSH work standards.
2. Conduct work safely	1.6 OSH practices are applied in the workplace. 1.7 <u>Personal Protective Equipment (PPE)</u> are used.
3. Follow emergency response procedures	1.8 Emergency situations are identified and reported according to workplace requirements. 1.9 Emergency procedures are followed as appropriate to the nature of the emergency and according to workplace procedures. 1.10 <u>Workplace procedures</u> for dealing with accidents, fires and emergencies are followed whenever necessary within scope of responsibilities.
4. Maintain and improve health and safety in the workplace	1.11 Risks are identified and appropriate control measures are implemented in the workplace. 1.12 Recommendations arising from risk assessments are implemented within level of responsibility.

	1.13 Safety records are maintained according to <u>company policies</u> .
--	--

Range of Variables

Variable	Range (Includes but not limited to):
1. Hazards	1.1. OSH incidents include near misses, injuries, illnesses and property damage, noise, handling hazardous substances. 1.2. Biological hazards- bacteria, viruses, plants, parasites, mites, molds, fungi, insects 1.3. Chemical hazards – dusts, fibers, mists, fumes, smoke, gasses, vapors 1.4. Ergonomics Hazards 1.5. Physiological factors – monotony, personal relationship, work out cycle 1.6. Safety hazards (unsafe workplace condition) – confined space, excavations, falling objects, gas leaks, electrical, poor storage of materials and waste, spillage, waste and debris 1.7. Unsafe workers' act (Smoking in off-limited areas, Substance and alcohol abuse at work) 1.8. Working with and near moving equipment / load shifting equipment. 1.9. Broken or damaged equipment or materials.
2. Safety signs and symbols	2.1 Direction signs (exit, emergency exit, etc.) 2.2 First aid signs 2.3 Danger Tags 2.4 Hazard signs 2.5 Safety tags 2.6 Warning signs
3. Personal Protective Equipment (PPE)	3.1 Apron 3.2 Safety Helmet 3.3 Goggles 3.4 Ear muffs 3.5 Ear plugs 3.6 Gloves 3.7 Clothing 3.8 Safety Boots 3.9 Face Protection (Musk & Shield) 3.10 Scarf 3.11 Hair Net/cap/bonnet 3.12 Hard hat
	4.1 Eliminate the hazard (i.e., get rid of the dangerous

4. Preventive Control Measures	machine 4.2 Isolate the hazard (i.e. keep the machine in a closed room and operate it remotely; barricade an unsafe area off) 4.3 Substitute the hazard with a safer alternative (i.e., replace the machine with a safer one) 4.4 Use administrative controls to reduce the risk (i.e. give trainings on how to use equipment safely; OSH-related topics, issue warning signage, rotation/shifting work schedule) 4.5 Use engineering controls to reduce the risk (i.e. use safety guards to machine) 4.6 Use personal protective equipment 4.7 Safety, Health and Work Environment Evaluation 4.8 Periodic and/or special medical examinations of workers
5. Workplace Procedures	5.1 Fire fighting 5.2 Medical and first aid 5.3 Evacuation 5.4 Material Safety Data Sheets (MSDSs) and manufacturers' advice
6. Company policies	6.1 Job related Standard Operating Procedures (SOPs). 6.2 Occupational Health and Safety (OSH) specific procedures. 6.3 Examples of OSH procedures include – consultation and participation, emergency response to specific hazards, incident investigation, risk assessment, reporting arrangement and issue resolution procedures.

Curricular Content Guide

1. Underpinning Knowledge	1.1 OSH Workplace Policies and Procedures. 1.2 Work safety procedures. 1.3 Fire and emergency procedures. 1.4 Types of Hazards (Biological, Chemical and Physical) and their effects. 1.5 PPE types and uses. 1.6 Personal hygiene practices. 1.7 OSH awareness. 1.8 Steps of hazard identification. 1.9 Principles of hazards control. 1.10 Employer's role. 1.11 Supervisor's responsibilities.
2. Underpinning Skills	1.12 Identifying OSH policies and procedures.

	1.13 Following personal work safety practices. 1.14 Reporting hazards and risks. 1.15 Responding to emergency procedures. 1.16 Maintaining physical well-being in the workplace. 1.17 Identify tools and equipment related to OSH. 1.18 Improving OSH performance.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (actual or simulated). 4.2 Tools and equipment appropriate to workplace. 4.3 Materials relevant to the proposed activity. 4.4 All tools, equipment, material and documentation required. 4.5 Relevant specifications or work instructions.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Identified, controlled and reported OSH hazards 1.2 Conducted work safely 1.3 Followed emergency response procedures 1.4 Maintained and improved health and safety in the workplace
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: RECEIVE AND RESPOND TO WORKPLACE INSTRUCTIONS	Nominal Duration: 10 Hrs.	Unit Code: SICIP-RMG-FG-02-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to receive and respond to workplace communication. It specifically includes the tasks of interpreting and following verbal instructions; reading and interpreting workplace documents; receiving and following written instructions and attending meetings and providing inputs.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret and follow verbal Instructions	1.1 Verbal Instructions are interpreted. 1.2 Questions are asked to clarify understanding or obtaining more information. 1.3 Instructions are followed as per understanding. 1.4 Information/ instruction is recorded.
2. Read and Interpret Workplace Documents	1.5 <u>Written instructions</u> are read and interpreted in accordance with <u>workplace guidelines</u> . 1.6 Work <u>signage</u> are interpreted.
3. Receive and follow written instructions	1.7 Written instructions are interpreted. 1.8 Routine written instructions are followed in sequence. 1.9 Feedback is given to workplace supervisor based on workplace guidelines.
4. Attend meetings and provide inputs	1.10 Meetings are attended regularly and on time following well-disseminated agenda. 1.11 Proper <u>Communication</u> methods are used to transmit instructions 1.12 Appropriate non-verbal communication is used. 1.13 Inputs are provided consistent with the meeting purpose. 1.14 Opinions are expressed without interruption. 1.15 Meeting outputs are implemented.

Range of Variables

Variable	Range (Includes but not limited to):
1. Written instructions	1.1 Supervisor's / Manager's Instructions 1.2 Memoranda 1.3 Rules and Regulations

	1.4 Signage 1.5 Approved Work Plan 1.6 External communications
2. Workplace guidelines	1.7 Labor Policies and Guidelines 1.8 Written Instructions 1.9 Operations Manual 1.10 Organizational Manuals 1.11 Quality Assurance Handbook
3. Signage	1.12 On-site direction signs 1.13 Common site warnings 1.14 Location signs 1.15 Traffic signs
4. Communication	1.16 Verbal instructions 1.17 Written instructions 1.18 Online communication

Curricular Content Guide

1. Underpinning Knowledge	1.1. Workplace Communication Policies, Standards and Procedures. 1.2. Verbal and Non-verbal communication. 1.3. Modes of Communication.
2. Underpinning Skills	2.1 Receiving verbal instructions 2.2 Interpreting verbal and written information/ instruction 2.3 Conveying instructions using verbal and 2.4 Written forms of communication 2.5 Participating in work place meetings and Discussions
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Facilities appropriate to the process or activities. 4.3 Materials are relevant to the proposed activity. 4.4 Stationary 4.5 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1. Interpreted and followed verbal Instructions 1.2. Read and Interpreted Workplace Documents 1.3. Received and followed written instructions 1.4. Attended meetings and provided inputs
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: OPERATE IN A TEAM ENVIRONMENT	Nominal Duration: 10 Hrs.	Unit Code: SICIP-RMG-FG-03-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to operate in a team environment. It specifically includes the tasks of identify team goals and work processes, identify own role and responsibilities within team, communicating and co-operate with team members and practicing problem solving within the team.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify team goals and work processes.	1.1 Roles and objectives of the team are identified and interpreted. 1.2 Roles and responsibilities of team members are identified and interpreted.
2. Identify own role and responsibilities within team.	2.1 Personal role and responsibilities are identified within the team environment. 2.2 Reporting relationships are interpreted within team and external to team.
3. Communicate and co-operate with team members.	3.1 Other teammates' tasks are identified and support provided when requested. 3.2 The team is encouraged through <u>sharing information</u> or expertise, working together to solve problems, and putting team success first. 3.3 Views and opinions of other team members are interpreted and respected.
4. Practice problem solving within the team.	4.1 Problems faced at the individual and team level are identified and showed insight into the root-causes of the problems. 4.2 A range of solutions and courses of action are identified together with benefits, costs, and risks associated with each. 4.3 The good ideas of others to help develop solutions are recognised and advice sought from those who have solved similar problems. 4.4 It is looked beyond the obvious and not stopped at the first answers.

Range of Variables

Variable	Range (Includes but not limited to):
1. Sharing information	1.1. Agenda 1.2. Minutes 1.3. Progress and incident reports 1.4. Operational manuals 1.5. Visual and graphic materials 1.6. Emails and SMS 1.7. Phone directory 1.8. Policy, procedure and standards 1.9. OHS information

Curricular Content Guide

1. Underpinning Knowledge	1.1 Team goals and work processes 1.2 Roles and responsibilities 1.3 Finding problems and solving them
2. Underpinning Skills	2.1 Identifying own role and responsibilities within team 2.2 Communicating and co-operating with team members 2.3 Demonstrating problem solving within the team
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Facilities appropriate to the process or activities. 4.3 Materials are relevant to the proposed activity. 4.4 Stationary 4.5 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1. identified own role and responsibilities within team 1.2. communicated and co-operated with team members 1.3. demonstrated problem solving within the team
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test

	2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Sector Specific Competencies (30 hrs.)

Unit of Competency: CARRY OUT MEASUREMENTS AND CALCULATIONS	Nominal Duration: 10 Hrs.	Unit Code: SICIP-RMG-FG-01-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to carry out measurements and calculations. It specifically includes the tasks of planning and prepare, obtaining measurements and performing calculations.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Plan and prepare.	1.1 Work instructions are confirmed and applied to the job in hand. 1.2 Materials to be measured are identified as per job specification. 1.3 Appropriate <u>measuring device</u> is identified and selected based on materials to be measured. 1.4 Specifications are obtained and verified from relevant <u>documents</u> .
2. Obtain measurements.	2.1 Method of obtaining measurement is selected and applied. 2.2 <u>Measurements</u> are obtained using appropriate device in accordance with job requirement. 2.3 Measurements, including area, volume, tolerance and clearance limits, are confirmed and applied.
3. Perform calculations.	3.1 <u>Calculations</u> , using basic operations, for determining material requirement are taken. 3.2 Appropriate <u>formulas</u> for calculating quantities are selected. 3.3 Quantities are estimated from the calculation taken. 3.4 Material quantities are calculated, confirmed and recorded within tolerances.

Range of Variables

Variable	Range (Includes but not limited to):
1. Measuring device	1.1. Measuring tape 1.2. Steel rule 1.3. Calculator 1.4. Sets square
2. Documents	2.1 Technical manuals 2.2 Specifications

	2.3 Sketches 2.4 Drawings 2.5 Charts 2.6 Photographs
3. Measurements	3.1 Length 3.2 Width 3.3 Weight 3.4 Tolerance
4. Calculations	4.1 Addition 4.2 Subtraction 4.3 Multiplication 4.4 Division 4.5 Area 4.6 Volume 4.7 Circumference 4.8 CBM (Cubic Meter) 4.9 Volumetric weight
5. Formulas	5.1 Fractions 5.2 Percentages 5.3 Mixed numbers 5.4 Conversions 5.5 Scales

Curricular Content Guide

1. Underpinning Knowledge	1.1 Measuring devices 1.2 Basic mathematical formulas 1.3 Simple calculation techniques 1.4 Garment allowances and tolerances 1.5 Recording data procedures
2. Underpinning Skills	2.1 Identifying appropriate measuring devices 2.2 Carrying out measurements for apparel 2.3 Performing calculations as per job requirement
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Tools, equipment and facilities appropriate to the process

	or activities. 4.3 Materials are relevant to the proposed activity. 4.4 Manuals
--	--

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 identified and selected appropriate measuring devices 1.2 carried out measurements for apparel 1.3 identified and selected correct mathematical formula 1.4 Performed calculations as per job requirement
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: APPLY KNOWLEDGE OF BUSINESS PLANNING	Nominal Duration: 20 Hrs.	Unit Code: SICIP-RMG-FG-03-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply knowledge of business planning. It specifically includes the tasks of identifying business plan, performing business survey and identifying banking requirements.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify business plan.	1.1 Business planning systems are identified. 1.2 Business <u>planning steps</u> are identified as per marketing plan. 1.3 Business plan is developed and prepared as per marketing plan.
2. Perform business survey.	2.1 <u>Market survey techniques</u> are identified. 2.2 Survey is conducted and information is collected. 2.3 Marketing plan is followed when conducting business survey.
3. Identify banking requirements.	3.1 <u>Banking requirements</u> for apparel business are identified and explained. 3.2 Banking requirements and procedures are finalized. 3.3 Bank account opening process is identified and described. 3.4 Financial requirements and loan process are identified.

Range of Variables

Variable	Range (Includes but not limited to):
1. Planning steps	1.1. Research 1.2. Strategize 1.3. Calculate 1.4. Draft 1.5. Revise 1.6. Proof
2. Market survey techniques	2.1 Focus group 2.2 One-on-one 2.3 Telephone 2.4 Mail 2.5 Online
3. Banking requirements	3.1 Trade license

	3.2 Bank account 3.3 TIN (Tax Identification Number) 3.4 VAT (Value Added Tax) 3.5 Factory license
--	---

Curricular Content Guide

1. Underpinning Knowledge	1.1 Business planning systems 1.2 Business planning steps 1.3 Market survey techniques 1.4 Marketing plans 1.5 Banking requirements 1.6 Financial requirements and loan process
2. Underpinning Skills	2.1 Preparing business plan 2.2 Carrying out business survey 2.3 Identifying banking requirements 2.4 Opening bank account
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 Equipment and facilities appropriate to the process or activities. 4.3 Materials are relevant to the proposed activity. 4.4 Manuals

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 identified Business planning steps. 1.2 collected information. 1.3 identified Banking requirements for apparel business.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning

	2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Occupation Specific Competencies

Unit of Competency: INTERPRET FUNDAMENTALS OF FASHION AND GARMENTS	Nominal Duration: 20 Hrs.	Unit Code: SICIP-RMG-FG-01-O
Unit Descriptor: This unit covers the knowledge, skills, and attitude to interpret fundamentals of fashions and garments. It specifically includes the tasks of defining garments and types, interpreting fashion and design, identifying parts, points and measurements of garments and interpreting manufacturing process of garments.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Define garments and types	1.1 Garments are defined based on their structure, function, and industry terminology. 1.2 Role of garments in fashion is interpreted with reference to current trends. 1.3 <u>Types of garments</u> are identified and categorized into knit, woven, and non-woven classifications. 1.4 Garments are grouped as per usage.
1. Interpret fashion and design	2.1 Concept of fashion is interpreted in relation to culture, identity, and consumer behavior. 2.2 Different <u>types of fashion</u> are identified and explained. 2.3 <u>Major fashion categories</u> are interpreted. 2.4 Design is interpreted in the context of fashion aesthetics, function, and market demand. 2.5 Key <u>elements of fashion design</u> are identified and described. 2.6 <u>Types of fashion design</u> are recognized and related to current global and local fashion trends.
2. Identify parts, points and measurements of garments	3.1 Major <u>garment parts</u> are identified and listed according to garment type. 3.2 Critical <u>garment points</u> are determined as per design specifications. 3.3 Standard <u>measuring points</u> are identified and interpreted based on garment style and fit. 3.4 Garment measurement charts are identified with style requirements.
3. Interpret manufacturing	1.1 <u>Manufacturing process of garments</u> are recognized.

process of garments	4.1 Process flowchart of garments manufacturing is drawn. 4.2 Overall <u>manufacturing process of garments</u> is recognized and outlined according to industry practices. 4.3 Key stages are identified and described. 4.4 Process flowchart of garment manufacturing is illustrated. 4.5 Sequential operations in the production line are interpreted.
---------------------	--

Range of Variables

Variable	Range (Includes but not limited to):
1. Types of garments	1.1 Based on wearing position: 1.1.1 Tops 1.1.2 Bottoms 1.2 Based on materials: 1.2.1 Woven garments 1.2.2 Knit garments 1.3 Based on gender and age: 1.3.1 Men's/ gents wear 1.3.2 Women's/ ladies wear 1.3.3 Children's wear 1.4 Based on season: 1.4.1 Summer wear 1.4.2 Winter wear 1.5 Based on formality: 1.5.1 Formal wear 1.5.2 Semi- formal wear 1.5.3 Casual wear 1.6 Based on occasion: 1.6.1 Sports wear 1.7 Bridal wear
2. Types of fashion	2.1 Vintage fashion style 2.2 Artsy fashion style 2.3 Casual fashion style 2.4 Chic fashion style 2.5 Bohemian fashion style 2.6 Exotic fashion style
3. Major fashion categories	3.1 Haute Couture 3.2 Ready to Wear 3.3 Mass Market
4. Elements of Fashion Design	4.1 Color 4.2 Fabric Texture

Curricular Content Guide

1. Underpinning Knowledge	1.1 Definition and types of fashion and garments 1.2 Role of fashion garments 1.3 Fashion category and products 1.4 Fashion Design and types 1.5 Garments parts, points and measurements 1.6 Garments manufacturing process flowchart
2. Underpinning Skills	2.1 Defining garments, fashion and design 2.2 Identifying types of fashion and design 2.3 Recognizing fashion products 2.4 Identifying garments parts, points and measurements 2.5 Recognizing garments manufacturing process
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (actual or simulated) 4.2 Projector 4.3 Stationary 4.4 Learning manual 4.5 Accessibility to the workplace

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 defined garments and types 1.2 interpreted fashion and design 1.3 identified parts, points and measurements of garments 1.4 interpreted manufacturing process of garments
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	 3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: DEVELOP DESIGN FOR GARMENTS	Nominal Duration: 40 Hrs.	Unit Code: SICIP-RMG-FG-02-O
Unit Descriptor: This unit covers the knowledge, skills, and attitude required to develop design for garments. It specially includes the tasks of using tools and materials for designing, performing initial process of designing and developing final design.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Use tools and materials for designing	1.1. <u>Personal Protective Equipment (PPE)</u> is collected and properly worn in accordance with safety requirements. 1.2. Occupational Safety and Health (OSH) guidelines are followed. 1.3. <u>Tools and equipment</u> are selected and gathered based on the specific design task. 1.4. <u>Materials</u> are selected and prepared as per job specifications. 1.5. Tools, equipment, and materials are used efficiently to create fashion or technical designs.
2. Perform initial process of designing	2.1. <u>Client profile and interests</u> are interpreted to align the design with customer expectations. 2.2. Current fashion trends are analyzed and considered during the design planning stage. 2.3. Client requirements are reviewed and confirmed before starting the design process. 2.4. <u>Initial process of design</u> is estimated based on materials, labor, and production factors. 2.5. Preliminary design concepts are developed and carried out as per client brief and trend analysis. 2.6. Design Development Sheet (DDS) is prepared.
3. Develop final design	3.1 Final design is selected from Design Development Sheet. 3.2 <u>Trims and accessories</u> planning is performed. 3.3 <u>Motif</u> and <u>embellishment</u> are carried out as per the theme. 3.4 Fashion illustration is carried out as per final Design Development Sheet. 3.5 <u>Technical package</u> is developed 3.6 Portfolio is prepared and presented to the clients. 3.7 Final Costing for design is prepared.

3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace

4. Resource Implications	The following resources must be provided: 4.1 Workplace (actual or simulated) 4.2 Tools and materials for designing 4.3 Materials for fashion illustration 4.4 Different types of fabrics 4.5 Surface ornamentation materials 4.6 Accessibility to the workplace
--------------------------	--

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 used tools and materials for designing 1.2 performed initial process of designing 1.3 developed Final design
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PERFORM FABRIC ORNAMENTATION	Nominal Duration: 80 Hrs.	Unit Code: SICIP-RMG-FG-03-O
Unit Descriptor: This unit covers the knowledge, skills, and attitude required to perform fabric ornamentation. It specially includes the tasks of interpreting fashion fabric ornamentation, carrying out Hand Embroidery, carrying out Block Printing, carrying out Tie-Dye Batik Printing, carrying out Screen Printing and cleaning and maintaining workplace.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Interpret fashion garments ornamentation	1.1 Various fashion embellishments are identified and selected based on design needs. 1.2 Types of <u>fabric ornamentation</u> techniques are identified and categorized. 1.3 Functional and decorative roles of ornamentation are interpreted according to design principles.
2. Carryout Embroidery	2.1 Personal Protective Equipment (PPE) is selected and worn 2.2 Tools, <u>equipment and material for Embroidery</u> are selected and collected 2.3 Embroidery <u>stitches</u> and design is selected as per job requirement 2.4 Fabric is set on the embroidery hoop or frame 2.5 Design is applied to the fabric 2.6 Hand Embroidery is performed 2.7 Machine Embroidery is performed/outsourced, if required. 2.8 Quality of Embroidery is checked
3. Carryout Block printing	3.1 Tools, <u>equipment and materials for block printing</u> are selected and collected 3.2 Table for block printing is set 3.3 Printing paste is prepared for application to block according to specifications 3.4 Blocks (Dices) are selected as per design of printing 3.5 Block printing is performed with prepared printing paste as required 3.6 Printed fabrics is dried and finished as per job requirement 3.7 Quality of printed fabric is checked
4. Carryout Tie-dye Batik printing	4.1 <u>Tools, equipment and materials for Tie-Dye Batik printing</u> are selected and collected

	4.2 Sticky materials from the fabrics is removed 4.3 Fabrics and yarns are collected as required 4.4 Fabrics are tied according to design 4.5 Required chemicals and colors are selected and mixed with the boiled water 4.6 Tied fabrics are sank into dye solution as per required time 4.7 Tied fabrics are picked up from dye solution and treated with hot and normal water 4.8 Printed fabrics is dried and finished as per job requirement.
5. Carryout screen printing	5.1 <u>Tools, equipment and materials for screen printing</u> are selected and collected 5.2 Table for screen printing is set 5.3 Printing paste is prepared for application to screen according to specifications 5.4 Frame for screen is selected as per design of printing 5.5 Screen printing is performed with prepared printing paste as required 5.6 Printed fabrics is dried and finished as per job requirement 5.7 Quality of printed fabric is checked
6. Clean and maintain workplace	6.1 Waste materials are properly collected and disposed of according to workplace safety procedures. 6.2 Tools and equipment are cleaned, inspected, and restored to their designated places after use. 6.3 Work surfaces and surrounding areas are cleaned as per organizational housekeeping standards. 6.4 Cleaning materials are used safely and stored appropriately after cleaning tasks. 6.5 Workplace cleanliness and order are maintained to support a safe and efficient working environment.

Range of Variables

Variable	Range (Includes but not limited to):
1. Fabric ornamentation	1.1. Block 1.2. Batik 1.3. Screen print 1.4. Tie dye 1.5. Hand paint 1.6. Embroidery
2. Tools, equipment and material for Embroidery	2.1 Fabric 2.2 Needle 2.3 Hoop 2.4 Frame

4 Resource Implications	The following resources must be provided: 4.1 Workplace (actual or simulated) 4.2 Tools and materials for designing 4.3 Materials for fashion illustration 4.4 Different types of fabrics 4.5 Surface ornamentation materials 4.6 Accessibility to the workplace

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 interpreted fashion garments ornamentation 1.2 carried out Embroidery 1.3 carried out Block Printing 1.4 carried out Tie-Dye Batik Printing 1.5 carried out Screen Printing 1.6 cleaned and maintained workplace
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test

	2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PERFORM PATTERN MAKING AND FABRIC CUTTING	Nominal Duration: 20 Hrs.	Unit Code: SICIP-RMG-FG-04-O
Unit Descriptor: This unit covers the knowledge, skills, and attitude to perform pattern making and fabric cutting. It specifically includes the tasks of practicing OSH, carrying out measurement, preparing pattern, performing fabric cutting and cleaning and maintaining workplace.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Practice OSH	1.1 <u>Personal Protective Equipment (PPE)</u> is collected and properly worn before starting any task. 1.2 Occupational Safety and Health (OSH) procedures are followed in accordance with job-specific requirements. 1.3 Emergency procedures are understood. 1.4 OSH guidelines are observed consistently to ensure a safe and healthy working environment.
2. Carryout measurement	2.1 <u>Types of garments</u> are selected for measurement based on design or production requirements. 2.2 Measurements of garment parts are performed accurately using standard tools. 2.3 Measurements are recorded and analyzed in comparison with the approved sample or size chart. 2.4 Any deviations from the sample measurements are identified and noted for correction.
3. Prepare pattern	3.1 <u>Tools and materials for pattern making</u> are selected and collected according to the job requirement. 3.2 <u>Block patterns for tops</u> are drafted as per the provided sample or specification. 3.3 <u>Block patterns for bottoms</u> are created in accordance with sample measurements and style. 3.4 Necessary seam, hem, and ease <u>allowances</u> are added and clearly marked on the patterns. 3.5 Final patterns are checked for accuracy and corrected if deviations are found. 3.6 Master copy of the final approved pattern is preserved securely for future reference or reproduction.
4. Preform fabric cutting	4.1 Fabric is selected and collected in accordance with the

	sample and production specifications. 4.2 Fabric length, width, and quality are checked to ensure suitability for cutting. 4.3 <u>Tools and materials for fabric cutting</u> are selected and prepared. 4.4 Cutting table is cleaned and arranged properly for fabric spreading. 4.5 Fabric is laid smoothly on the cutting table to avoid wrinkles or distortions. 4.6 Patterns are placed and aligned on the fabric, and markings are carried out accurately. 4.7 Fabric is cut precisely following the marked outlines, and the quality of the cut pieces is checked for accuracy.
5 Clean and maintain \workplace	5.1 Waste materials are properly collected and disposed of according to workplace safety procedures. 5.2 Tools and equipment are cleaned, inspected, and restored to their designated places after use. 5.3 Work surfaces and surrounding areas are cleaned as per organizational housekeeping standards. 5.4 Cleaning materials are used safely and stored appropriately after cleaning tasks. 5.5 Workplace cleanliness and order are maintained to support a safe and efficient working environment.

Range of Variables

Variable	Range (Includes but not limited to):

6. Allowances	6.1 Seam/ sewing allowance 6.2 Shrinkage allowance
7. Tools and materials for fabric cutting	7.1 Straight Knife 7.2 Scissors 7.3 Measuring tape 7.4 Fabric 7.5 Marker paper 7.6 Interlining 7.7 Clamp 7.8 Marking chalk 7.9 Glass marker 7.10 Pen 7.11 Pencil

Curricular Content Guide

1. Underpinning Knowledge	1.1 Body measurements 1.2 Pattern and pattern making procedure 1.3 Block patterns 1.4 Sewing allowance 1.5 Shrinkage allowance 1.6 Fabric category 1.7 Fabric quality
---------------------------	---

	1.8 Cutting table preparation 1.9 Fabric marking and cutting
2. Underpinning Skills	2.1 Following OSH 2.2 Collecting body measurements 2.3 Following client's instruction 2.4 Analyzing measurements with styling 2.5 Preparing block patterns 2.6 Adding allowances with patterns 2.7 Checking final patterns 2.8 Identifying and checking fabrics 2.9 Preparing cutting table 2.10 Marking patterns on fabric 2.11 Cutting fabrics
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 PPE 4.3 Measuring tools 4.4 Tools & materials for pattern making 4.5 Different types of fabrics 4.6 Tools and materials for fabric cutting 4.7 Accessibility to the workplace

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 practiced OSH 1.2 carried out measurement 1.3 prepared pattern 1.4 preformed fabric cutting 1.5 cleaned and maintained workplace
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning

	2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PERFORM SEWING MACHINE OPERATION	Nominal Duration: 50 Hrs.	Unit Code: SICIP-RMG-FG-05-O
Unit Descriptor: This unit covers the knowledge, skills, and attitude required to perform sewing machine operation. It specifically includes the tasks of practicing OSH, operating sewing machine, performing different stitching, performing basic maintenance of sewing machine and cleaning workplace and machine.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Practice OSH	1.1 <u>Personal Protective Equipment (PPE)</u> is collected and properly worn before starting any task. 1.2 Occupational Safety and Health (OSH) procedures are followed in accordance with job-specific requirements. 1.3 Emergency procedures are understood. 1.4 OSH guidelines are observed consistently to ensure a safe and healthy working environment.
2. Operate sewing machines	2.1 Functions of different types of <u>sewing machines</u> are interpreted based on their specific applications. 2.2 <u>Major parts of sewing machines</u> are identified and described according to operational needs. 2.3 Safety precautions and operating guidelines are followed throughout machine operation. 2.4 Threading of sewing machines is practiced correctly following standard procedures. 2.5 Single needle lockstitch machine is operated safely and efficiently for basic stitching tasks. 2.6 Overlock machine is operated to perform edge finishing and seam joining.
3. Perform Different stitching	3.1 Different <u>types of stitching</u> are identified based on garment requirements. 3.2 Stitching is carried out accurately by following standard stitching guidelines and techniques. 3.3 Appropriate machines, threads, and needles are selected and used according to the type of stitch. 3.4 Stitching quality is checked against the sample or quality standards for consistency and neatness. 3.5 Faults in stitching are identified and corrected as per workplace procedures.
4. Perform maintenance	4.1 <u>Types of sewing machine maintenance</u> are

of sewing machine	recognized according to operational requirements. 4.2 Basic <u>maintenance</u> tasks are performed following manufacturer guidelines. 4.3 Sewing machine components are inspected for wear or damage and reported if replacement is needed. 4.4 Maintenance tools and materials are used properly and stored after use. 4.5 Maintenance records are updated and preserved as per workplace procedures.
5. Clean workplace and machine	5.1 Waste materials are properly collected and disposed of according to workplace safety procedures. 5.2 Tools and equipment are cleaned, inspected, and restored to their designated places after use. 5.3 Work surfaces and surrounding areas are cleaned as per organizational housekeeping standards. 5.4 Cleaning materials are used safely and stored appropriately after cleaning tasks. 5.5 Workplace cleanliness and order are maintained to support a safe and efficient working environment.

Range of Variables

Variable	Range (Includes but not limited to):
1. Personal protective equipment (PPE)	1.1. Mask 1.2. Apron 1.3. Eye guard 1.4. Finger guard
2. Sewing machines	2.1 Single needle machine (Domestic) 2.2 Single needle machine (Industrial) 2.3 Overlock machine
3. Major parts of sewing machine	3.1 Needle 3.2 Bobbin 3.3 Bobbin case 3.4 Tension spring 3.5 Stitch regulator 3.6 Back tack lever 3.7 Balance wheel 3.8 Motor 3.9 Thread stands 3.10 Bobbin winder
4. Types of stitching	4.1 Straight stitch 4.2 Curved stitch 4.3 Corner stitch 4.4 Zig-zag stitch

5. Types of machine maintenance	5.1 Preventive maintenance 5.2 Corrective maintenance
6. Maintenance	6.1 Cleaning 6.2 Oiling 6.3 Tension adjustments 6.4 Needle change

Curricular Content Guide

1. Underpinning Knowledge	1.1 Personal Protective Equipment (PPE) 1.2 Sewing machines 1.3 Functions of sewing machines 1.4 Major parts of sewing machine 1.5 Different types of Stitching 1.6 Stitching quality 1.7 Sewing machine maintenance
2. Underpinning Skills	2.1 Following OSH 2.2 Identifying sewing machines 2.3 Recognizing parts of sewing machine 2.4 Operating different sewing machine 2.5 Identifying different stitch 2.6 Carrying out different stitch 2.7 Recognizing types of sewing machine maintenance 2.8 Performing basic maintenance of sewing machine
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 PPE 4.3 Sewing machines (Domestic and industrial) 4.4 Cut fabrics 4.5 Sewing threads 4.6 Buttons 4.7 Machine oil 4.8 Tools for machine maintenance 4.9 Accessibility to the workplace

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 practiced OSH 1.2 operated sewing machines 1.3 performed Different stitching 1.4 performed maintenance of sewing machine 1.5 cleaned workplace and machine
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PERFORM SEWING AND FINISHING	Nominal Duration: 90 Hrs.	Unit Code: SICIP-RMG-FG-06-O
Unit Descriptor: This unit covers the knowledge, skills, and attitude required to perform sewing and finishing. It specially includes the tasks of practicing OSH, sewing garments, checking quality of garments, carrying out finishing & packing and cleaning workplace and machine.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Practice OSH	1.1 <u>Personal Protective Equipment (PPE)</u> is collected and properly worn before starting any task. 1.2 Occupational Safety and Health (OSH) procedures are followed in accordance with job-specific requirements. 1.3 Emergency procedures are understood. 1.4 OSH guidelines are observed consistently to ensure a safe and healthy working environment.
2. Sew garments	2.1 Cut panels are collected and matched accurately as per the approved sample or design. 2.2 <u>Babywear</u> is sewn following specific construction techniques and sample references. 2.3 <u>Womenswear</u> is assembled and sewn according to style, fit, and sample specifications. 2.4 <u>Menswear</u> is constructed and sewn in compliance with standard patterns and quality requirements. 2.5 Seam alignment and stitching quality are checked and ensured throughout the sewing process.
3. Check quality of garments	3.1 Quality of finished garments is checked against approved samples and quality standards. 3.2 Common <u>faults</u> are identified during inspection. 3.3 Identified faults are marked and recorded following inspection protocols. 3.4 Faults are rectified or sent for correction as per organizational procedures. 3.5 Inspected garments are approved, tagged, or rejected based on quality control results.
4. Carryout finishing and packing	4.1 <u>Finishing activities</u> are performed according to garment type and quality standards. 4.2 Final inspection is conducted to ensure garments are clean, defect-free, and properly finished. 4.3 <u>Packaging</u> materials are selected as per buyer

	specifications and product type. 4.4 Garments are packed in poly bags, cartons, or boxes following standard packing procedures. 4.5 Packed garments are labeled and organized for dispatch or shipment.
5. Curricular Content Guide

1. Underpinning Knowledge	1.1 Personal Protective Equipment (PPE) 1.2 Cut panels of different garments 1.3 Operate sewing machine 1.4 Sewing process of different garments 1.5 Quality 1.6 Garment's faults and remedies 1.7 Garments finishing and packing process
2. Underpinning Skills	2.1 Following OSH 2.2 Matching cut panels 2.3 Sewing garments 2.4 Interpreting and checking quality 2.5 Identifying and rectifying faults 2.6 Executing finishing and packing work
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Workplace (simulated or actual) 4.2 PPE 4.3 Cut panels of garments 4.4 Sewing machinery 4.5 Finishing equipment 4.6 Packing materials 4.7 Accessibility to the workplace

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 practiced OSH 1.2 sewed garments 1.3 checked quality of garments
-----------------------------------	--

	1.4 carried out finishing and packing 1.5 cleaned workplace and machine
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Workshop/Lab Facility Standard

Course Name:	Fashion Garments
Number of Trainees:	25

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom – 350 sft (33 sqm)
 - Workshop/ lab – 800 sft (75 sqm)
- OR
- Classroom cum workshop – 1000 sft (93 sqm)

Major Training Equipment and Training Facilities:

S. N.	Major Equipment and Training facilities	Required facilities
1.	Computers/Laptop	01
2.	Projector & Screen (HD quality, HDMI support, 3000+ lumens)	01
3.	Printer	01
4.	Mannequins/Dress Forms (Female and male standard sizes)	02
5.	Single needle lock stitch machine	15
6.	Overlock machine	02
7.	Cutting table (60"x 50")	02
8.	Electric iron	01
9.	Electric steam iron with iron table	01
10.	Scissors (10"-12")	25
11.	Sewing tool box	25

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency standards (CS) provided by SICIP.

For the operation of training course on Fashion Garments, the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
