Finance Division, Ministry of Finance

Copyright

The Competency Standards for Bakery & Pastry Production and Entrepreneurship Development is a document for the development of curricula, teaching and learning materials, and assessment tools. It also serves as the document for providing training consistent with the requirements of the industry for individuals who pass through the set standard via assessment and subsequently, they would be qualified and settled for a relevant job.

The document was developed under the Skills for Employment Investment Program (SEIP) and subsequently reviewed and updated with the engagement of occupation-specific industry experts to use in training under the **Skills for Industry Competitiveness and Innovation Program (SICIP)**. This document is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutes may use the information contained in this competency standard for training activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

INTRODUCTION:

The **Skills for Industry Competitiveness and Innovation Program (SICIP)** has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

The Competency Standard also suggests integration of YouTube or similar platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution and relevant consultants of SICIP.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Unit of Competency
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity.
- Guide the assessor in determining whether the candidate is competent.

Identification and validation of units of competency and elements for each occupation were made by experts from Construction industry in consultative workshop.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:

Generic Competencies (20 hrs.)

SL	Code	Unit of Competency	Elements of Competency	Duration (hours)
1.	SICIP-THS-BPP-01-G	Apply Occupational Health and Safety (OHS) Practices in the Workplace	1. Identify, control and report OHS hazards 2. Conduct work safely 3. Follow emergency response procedures 4. Maintain health and safety in the workplace	10
2.	SICIP-THS-BPP-02-G	Work in a team environment	1. Identify team goals and processes 2. Communicate and cooperate with team members 3. Work as a team member 4. Solve problems as a team member	10
Total hours				20 Hrs.

Sector Specific Competencies (10 hrs.)

SL	Code	Unit of Competency	Elements of Competency	Duration (hours)
1.	SICIP-THS-BPP-01-S	Follow Quality and Food Safety Programs	1. Observe OHS. 2. Practice personal hygiene and good grooming standards. 3. Follow safe food handling and sanitation practices. 4. Monitor quality of work outcome. 5. Identify and act on quality deficits and/or food safety hazards.	10
Total hours				10 Hrs.

Occupation Specific Competencies (270 hrs.)

SL	Code	Unit of Competency	Elements of Competency	Duration (hours)
1.	SICIP-THS-BPP-01-O	Prepare and Produce Bread	1. Follow OSH 2. Prepare and produce bread dough 3. Scale and mould for intermediate proof 4. Conduct final mould and proof 5. Bake bread 6. Decorate, present and store bread products 7. Clean and maintain equipment and production area	60
2.	SICIP-THS-BPP-02-O	Prepare and Produce Pastry Dough	1. Follow OSH 2. Prepare ingredients and produce pastry dough 3. Block and laminate pastry 4. Clean and maintain equipment and production area	30
3.	SICIP-THS-BPP-03-O	Prepare Filling, Forming and Bake Pastry Products	1. Follow OSH 2. Prepare and produce pastry filling 3. Form and filling pastry product 4. Bake pastry products 5. Decorate, present and store pastry products 6. Clean and maintain equipment and production area	50
4.	SICIP-THS-BPP-04-O	Prepare and Produce Cookies	1. Follow OSH 2. Prepare and produce cookies dough 3. Form and shape cookies product 4. Bake cookies 5. Decorate, present and store cookies products 6. Clean and maintain equipment and production area	40
5.	SICIP-THS-BPP-05-O	Prepare and Produce Cake	1. Follow OSH 2. Prepare and produce cake batter 3. Bake cakes	50

SL	Code	Unit of Competency	Elements of Competency	Duration (hours)
			4. Prepare and use cake fillings 5. Decorate, present and store cake products 6. Clean and maintain equipment and production area	
6.	SICIP-THS-BPP-06-O	Develop Entrepreneurship in Food Industries	1. Prepare for work. 2. Prepare documents. 3. Perform financial management. 4. Setup establishment. 5. Manage product sourcing and sales.	40
Total Hours				00 Hrs.

COMPETENCY STANDARD: BAKERY & PASTRY PRODUCTION AND ENTREPRENEURSHIP DEVELOPMENT

GENERIC COMPETENCIES

APPLY OCCUPATIONAL HEALTH AND SAFETY (OHS) PRACTICES IN THE WORKPLACE	Nominal Duration: 10 hrs.	Unit Code: SICIP-THS-BPP-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitude required to apply Occupational Health and Safety (OHS) Practices in the workplace. It specifically includes the task of identifying, controlling and reporting OHS hazards, conducting work safely, following emergency response procedures and maintaining health and safety in the workplace.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify, control and report OHS hazards	1.1 Work area is routinely checked for OHS hazards prior to commencing and during work 1.2 <u>Hazards</u> and unacceptable performance are identified and corrective action is taken within the level of responsibility 1.3 OHS hazards and incidents are reported to appropriate personnel according to workplace procedures 1.4 Safety Signs and Symbols are identified and followed
2. Conduct work safely	2.1 Apply OHS practices in the workplace 2.2 Appropriate <u>Personal Protective Equipment (PPE)</u> is selected and worn
3. Follow emergency response procedures	1.1 Emergency situations are identified and reported according to workplace reporting requirements 1.2 Emergency procedures are followed as appropriate to the nature of the emergency and according to workplace procedures 1.3 <u>Workplace procedures</u> for dealing with accidents, fires and emergencies are followed whenever necessary within scope of responsibilities
4. Maintain health and safety in the workplace	1.1 Risks are identified and appropriate control measures are implemented in the work area. 1.2 Recommendations arising from risk assessments are implemented within level of responsibility. 1.3 Opportunities for improving OHS performance are identified and raised with relevant personnel. 1.4 Safety records according to <u>company policies</u> are maintained.

Range of variables:

Variables	Range (may include but not limited to)
1. Hazards	1.1 OHS incidents include near misses, injuries, illnesses and property damage, noise, handling hazardous substances, other hazards 1.2 Working with and near moving equipment/load shifting equipment 1.3 Broken or damaged equipment or materials
2. Personal Protective equipment (PPE)	2.1 Goggles 2.2 Ear muffs 2.3 Ear plugs 2.4 Gloves 2.5 Clothing 2.6 Apron 2.7 Helmet 2.8 Boots
3. Workplace procedures	3.1 OHS system and related documentation including policies and procedures 3.2 Standard Operating Procedures (SOPs) 3.3 Information on hazards and the work process, hazard alerts, safety signs and symbols 3.4 Labels 3.5 Material Safety Data Sheets (MSDSs) and manufacturers' advice.
4. Company policies	4.1 Job-related Standard Operating Procedures (SOPs) 4.2 OHS-specific procedures 4.3 Consultation and participation 4.4 Emergency response 4.5 Response to specific hazards 4.6 Incident investigation 4.7 Risk assessment 4.8 Reporting arrangements 4.9 Issue resolution procedures

Curricular Content Guide

1. Underpinning knowledge	1.1 Personal Protective Equipment (PPE) 1.2 Hazardous events 1.3 Tools, equipment, machinery and relevant accessories 1.4 Job roles, responsibilities and compliance 1.5 Workplace procedures 1.6 Company policies
2. Underpinning skill	1.7 Identifying Personal Protective Equipment (PPE) 1.8 Identifying tools and equipment 1.9 Responding and taking safety precautions for different hazardous situations 1.10 Operating and using tools, equipment, machinery
3. Underpinning Attitudes	1.11 Commitment to occupational health and safety

	1.12 Promptness in carrying out activities 1.13 Sincere and honest to duties 1.14 Environmental concerns 1.15 Eagerness to learn 1.16 Tidiness and timeliness 1.17 Respect for rights of peers and seniors in the workplace 1.18 Communication with peers, subordinates and seniors in the workplace
4. Resource implications	The following resources must be provided: 1.19 Workplace (simulated or actual) 1.20 PPEs 1.21 Firefighting equipment 1.22 Emergency response manual 1.23 First aid kits

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 identified, controlled and reported OHS hazards 1.2 followed work safety 1.3 followed emergency response procedures 1.4 maintained and improved health and safety in the workplace
2. Methods of assessment	Methods of assessment may include but not limited to: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: WORK IN A TEAM ENVIRONMENT	Nominal Duration: 10 hrs.	Unit Code: SICIP-THS-BPP-02-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to work in a team environment. It specifically includes the task of identifying team goals and processes, communicating and cooperate with team members, working as a team member and solving problems as a team member.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify team goals and processes	1.1 Team goals and collaborative decision-making processes are identified. 1.2 Role and common goals of the team are defined from available <u>sources of information</u> . 1.3 Team structure, responsibilities and reporting relations are identified from team discussions and other external sources.
2. Communicate and cooperate with team members	2.1 Communication and negotiation skills are applied and maintained in all relevant situations. 2.2 Constructive contributions are made to <u>workplace discussions</u> on such issues as production, quality and safety. 2.3 Goals/ objectives and action plans undertaken in the workplace are communicated promptly. 2.4 Information regarding problems and issues are organized coherently to ensure clear and effective communication. 2.5 Dialogue is initiated with appropriate personnel. 2.6 Communication problems and issues are raised 2.7 Barriers to communication are identified and resolved
3. Work as a team member	3.1 Effective forms of communication are used to interact with <u>team members</u> in discussing team activities and objectives. 3.2 Mutual respect, empathy and active collaboration are demonstrated 3.3 Communication channels are followed as per <u>workplace context</u> .
4. Solve problems as a team member	4.1 Current and potential problems faced by team are identified. 4.2 Problems are investigated and analyzed. 4.3 Potential solutions of problem are identified. 4.4 Recommendations about possible solutions are

	developed, documented, ranked and presented to team members for decision.
--	---

Range of variables:

Variables	Range (may include but not limited to)
1. Sources of information	1.1 HR manual 1.2 Service rules 1.3 Manuals and guidelines
2. Workplace discussions	2.1 Roster 2.2 Shift details
3. Team members	3.1 Formal process 3.2 Informal process
4. Workplace context	4.1 Formal process 4.2 Informal process 4.3 Sandwich process

Curricular Content Guide

1. Underpinning knowledge	1.1 Identification of sources of information 1.2 Team structure, role, and responsibility. 1.3 Individual member's roles and responsibilities. 1.4 Workplace discussions 1.5 Communication problems and issues 1.6 Barriers in communication 1.7 Team members 1.8 Workplace context
2. Underpinning skill	1.9 Identifying team goals and processes 1.10 Communicating and cooperating with team members 1.11 Working as a team member 1.12 Solving problems as a team member 1.13 Identifying roles and responsibilities of individual members.
3. Underpinning Attitudes	1.14 Commitment to occupational health and safety 1.15 Promptness in carrying out activities 1.16 Sincere and honest to duties 1.17 Environmental concerns 1.18 Eagerness to learn 1.19 Tidiness and timeliness 1.20 Respect for rights of peers and seniors in the workplace 1.21 Communication with peers, subordinates and seniors in the workplace
2. Resource implications	The following resources must be provided: 2.1 Workplace (actual or simulated). 2.2 Relevant materials and equipment. 2.3 Relevant specifications or work instructions.

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 identified team goals 1.2 worked as a team member 1.3 solved problems as a team member 1.4 identified roles and responsibilities of individual members.
2. Methods of assessment	Methods of assessment may include but not limited to: 1.1 Written test 1.2 Practical Demonstration 1.3 Oral Questioning 1.4 Portfolio (Optional)
2. Context of assessment	2.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 2.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

The Sector Specific Competencies

Unit of Competency: FOLLOW QUALITY AND FOOD SAFETY PROGRAMS	Nominal Duration: 10 hrs.	Unit Code: SICIP-THS-BPP-01-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to follow quality and food safety programs. It specifically includes the tasks of observing OHS practices, practicing personal hygiene and good grooming standards, following safe food handling and sanitation practices, monitoring quality of work outcome, and identifying and acting on quality deficits and / or food safety hazards.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Observe OHS practices	1.1 Housekeeping standards are maintained in the workplace following Occupational Safety and Health (OHS) requirements. 1.2 Personal hygiene is maintained and <u>Personal Protective Equipment (PPE)</u> worn as per OHS requirements. 1.3 Equipment is cleaned for production and hygiene requirements.
2. Practice personal hygiene and good grooming standards	2.1 Personal hygiene and good grooming are practiced in line with workplace health and safety requirements. 2.2 Health conditions and illness are reported as required. 2.3 <u>Clothing and footwear</u> are appropriate for the food handling task and meets the requirements of the food safety program. 2.4 Movement around the workplace complies with the food safety program.
3. Follow safe food handling and sanitation practices	3.1 <u>Food handling</u> requirements are identified. 3.2 Safe food handling practices are followed in line with workplace sanitation regulations and the food safety code. 3.3 The workplace is maintained in a clean and tidy order to meet workplace standards.
4. Monitor quality of work outcome	4.1 Quality requirements are identified. 4.2 Inputs are inspected to confirm capability to meet quality requirements. 4.3 Work is conducted and monitored to produce required outcomes.
5. Identify and act on quality deficits and / or food safety hazards	5.1 Work area, materials, equipment and product are routinely checked to ensure compliance with quality and / or food safety requirements.

	5.2 <u>Processes, practices or conditions</u> that are not consistent with quality standards or food safety program are identified. 5.3 Quality variations and / or <u>food safety</u> hazards are rectified or removed within the level of responsibility and in accordance with workplace procedures. 5.4 Quality variations and / or food safety outside the scope of individual responsibility are reported to appropriate personnel according to workplace reporting requirements.
--	--

Range of variables:

Variables	Range (may include but not limited to)
1. Personal Protective Equipment (PPE)	1.1 Apron 1.2 Protective clothing 1.3 Gloves 1.4 Hair net 1.5 Other PPE as per OHS requirements
2. Clothing and footwear	2.1 Purpose designed overalls or uniforms 2.2 Hair-nets 2.3 Beard snoods 2.4 Gloves 2.5 Overshoes
3. Food handled and stored	3.1 Raw materials 3.2 Consumables 3.3 Part-processed product 3.4 Finished product 3.5 Cleaning materials
4. Processes, practices or conditions	4.1 Methods of receiving and storing food 4.2 Food preparation 4.3 Cooking 4.4 Holding 4.5 Cooling 4.6 Chilling and reheating 4.7 Packaging 4.8 Disposal
5. Food safety	5.1 Failure to check delivery temperatures of potentially hazardous chilled food 5.2 Failure to place temperature-sensitive food in temperature-controlled storage conditions promptly 5.3 Failure to wash hands when required 5.4 Use of cloths for unsuitable purposes

Curricular Content Guide

1. Underpinning knowledge	1.1 Housekeeping standards 1.2 Personal hygiene. 1.3 Health conditions
---------------------------	---

	1.4 Clothing and footwear 1.5 Food handling requirements 1.6 Quality requirements 1.7 Food safety procedures.
2. Underpinning skill	1.8 Observing OHS practices 1.9 Practicing personal hygiene and good grooming standards 1.10 Following safe food handling and sanitation practices 1.11 Monitoring quality of work outcome 1.12 Identifying and act on quality deficits and / or food safety hazards
3. Underpinning Attitudes	1.13 Commitment to occupational health and safety 1.14 Promptness in carrying out activities 1.15 Sincere and honest to duties 1.16 Environmental concerns 1.17 Eagerness to learn 1.18 Tidiness and timeliness 1.19 Respect for rights of peers and seniors in the workplace 1.20 Communication with peers, subordinates and seniors in the workplace
2. Resource implications	The following resources must be provided: 2.1 Work place Procedure 2.2 Materials relevant to the proposed activity 2.3 All tools, equipment, material and documentation required. 2.4 Relevant specifications or work instructions

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1. observed OHS practices 1.2. practiced personal hygiene and good grooming standards 1.3. followed safe food handling and sanitation practices 1.4. monitored quality of work outcome 1.5. identified and act on quality deficits and / or food safety hazards 1.6. maintained housekeeping standards in workplace following OHS requirements.
2. Methods of assessment	Methods of assessment may include but not limited to: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of	3.1 Competency assessment must be done in an

assessment	assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.
------------	---

The Occupation Specific Competencies

Unit of Competency: PREPARE AND PRODUCE BREAD	Nominal Duration: 60 Hrs.	Unit Code: SICIP-THS-BPP-01-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to prepare and produce bread. It specifically includes the tasks of following OSH, preparing and producing bread dough, scaling and molding for intermediate proof, conducting final mold and proof, baking bread, decorating, presenting and storing bread products and cleaning and maintaining equipment and production area.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Follow OSH	1.1 <u>Food production standards</u> are adhered to, following OSH guidelines to maintain a safe and hygienic workplace. 1.2 Personal hygiene is maintained, and appropriate <u>PPE</u> is worn as required by OSH regulations. 1.3 <u>Tools and equipment</u> are inspected, cleaned, and prepared for production. 1.4 Work areas are organized and cleaned in accordance with OSH requirements. 1.5 Safety procedures are followed to prevent accidents or injuries, ensuring compliance.
2. Prepare and produce bread dough	2.1 The <u>ingredients</u> for <u>bread dough</u> are measured and mixed according to recipe specifications. 2.2 The dough is squeezed and rested appropriately, following production guidelines. 2.3 The correct mixing method is applied, ensuring that the dough structure. 2.4 Dough portions are weighed and shaped as per product requirements. 2.5 The dough is tested for quality and consistency throughout the preparation process, ensuring it meets the required standards for baking. 2.6 The unacceptable dough is identified and rectified.
3. Scale and mould for intermediate proof	3.1 The dough is scaled accurately for different <u>types of bread</u> based on recipe specifications. 3.2 The dough is moulded to following the desired bread style and texture requirements. 3.3 Fruits, nuts, and other ingredients are added if required. 3.4 Errors in scaled and moulded dough are identified and rectified, considering variables such as humidity,

	temperature, and ingredient proportions.
4. Conduct final mould and proof	4.1 The dough is shaped manually or mechanically using rounding and moulding equipment. 4.2 The dough is placed on baking trays as required by the bread type and recipe instructions. 4.3 Conducive conditions, including temperature and time, are maintained to ensure proper final proofing. 4.4 The final proofed dough is dried as required by the recipe specifications for texture and appearance. 4.5 Errors in the final proofed dough are identified, removed, or rectified. 4.6 <u>Finishing methods</u> are applied to enhance the bread's appearance and quality before baking.
5. Bake bread	5.1 The oven is preheated according to product specifications. 5.2 The oven is loaded manually and belts according to workplace equipment and production needs. 5.3 Ovens are operated for baking according to product specifications. 5.4 Bread is made according to specific baking <u>techniques and conditions</u> to achieve the desired texture and taste. 5.5 Bread is baked in compliance with food safety and quality requirements. 5.6 The baking process is monitored based on uniformity of shape and size.
6. Decorate, present and store bread products	6.1 <u>Decorations</u> of bread products are made according to standard recipes or customer requests. 6.2 Bread products are presented or displayed using appropriate service equipment. 6.3 Products are stored at the correct temperature and under appropriate storage conditions. 6.4 Maximum eating quality, appearance, and freshness are maintained according to industry standards.
7. Clean and maintain equipment and production area	7.1 Equipment and production area are cleaned to meet production and hygiene requirements. 7.2 Maintenance requirements for equipment and facilities are identified and reported according to workplace procedures. 7.3 Waste is disposed of according to workplace procedures.

Range of Variables

Variable	Range (Includes but not limited to):
1. Food production standards	1.1 Food Safety Act 2013 1.2 Food Safety and Standard Regulations

	1.3 Codex Alimentarius (International Food Standards) 1.4 Bangladesh Standards and Testing Institution (BSTI) 1.5 Hygiene and Sanitation Standards
2. PPE	2.1 Chef coat 2.2 Apron 2.3 Gloves 2.4 Hair Net/Chef Hat 2.5 Beard net 2.6 Safety Shoe 2.7 Neck-Tie 2.8 Cloth Duster 2.9 Mask
3. Tools and Equipment	3.1 Dough Mixers 3.2 Mixing Bowls 3.3 Hook 3.4 Paddle 3.5 Sieves 3.6 Weighing Scale 3.7 measurement tools (spoon, cup, jug) 3.8 Bread knife 3.9 Bread thermometer 3.10 Brush 3.11 Scraper 3.12 Scissors 3.13 Refrigerator 3.14 Freezer 3.15 Gas/Electric Oven 3.16 Cooking range 3.17 Proofing Chamber 3.18 Utensil Rack 3.19 Bread slicer 3.20 Working tables 3.21 Moulding and rounding equipment (Electrical mixer) 3.22 Baking trays, 3.23 Proofing/ fermentation cabinet, 3.24 Cooling rack
4. Ingredients	4.1 Flour (white, brown and whole meal) 4.2 Sugar 4.3 Yeast 4.4 Salt 4.5 Bread improver 4.6 Egg 4.7 Butter 4.8 Cheese 4.9 Milk powder 4.10 Vegetable oil 4.11 Wheat grains

	4.12 Water 4.13 Dry fruits (Raisin, Morobba) 4.14 Nuts (Almond, Cashew nut, Pistachio, Walnut) 4.15 Seeds
5. Bread Dough	5.1 Lean-Yeast Dough (white bread, milk bread and raisin bread, cinnamon honey loaf) 5.2 Rich-Yeast Dough (Brioche bread, Rum baba, Fruits savarin) 5.3 Crisp-crusted bread (French bread, Italian bread and brown bread) 5.4 Soft-crusted bread (Dinner roll, Pizza and Dough nut) 5.5 Rye bread/whole wheat/multi-grain/health bread 5.6 Sourdough 5.7 Quick Bread 5.8 Gluten free bread
6. Types of Bread	6.1 Soft Bread 6.1.1 White bread 6.1.2 Cinnamon bread 6.1.3 Milk bread 6.1.4 Raisin bread 6.1.5 Fruit bread 6.1.6 Brioche bread 6.1.7 Donut 6.1.8 Pizza 6.2 Crusty Bread 6.2.1 Brown bread 6.2.2 Multi-grain bread 6.2.3 Low GI bread 6.2.4 Rye bread 6.2.5 Sourdough bread 6.2.6 French bread 6.2.7 Gluten-free bread
7. Finishing Methods	7.1 Dusting 7.2 Cutting 7.3 Spraying 7.4 Toppings
8. Techniques and conditions	8.1 Scaling 8.2 Mixing 8.3 Fermentation 8.4 Make-up (kneading, folding and rolling) 8.5 Proofing 8.6 Baking (Appropriate oven temperature, Altitude adjustments, Fillings) 8.7 Finishing 8.8 Packaging
9. Decorations	9.1 Jellies and glazes 9.2 Coating

	9.3 Herbs 9.4 Flavoured and coloured sugar 9.5 Fresh and preserved/crystallized fruits 9.6 Seeds and nuts 9.7 Icings, Sprinkled icing sugar or chocolate powder
--	---

Curricular Content Guide

1. Underpinning Knowledge	1.1. Understand mixing, kneading, proofing, and baking processes. 1.2. Knowledge of yeast and non-yeast doughs. 1.3. Importance of flour, water, yeast, salt, and sugar. 1.4. Effect of temperature, humidity, and flour quality. 1.5. Familiarity with mixers, proofers, and ovens. 1.6. Correct temperature and preheating techniques. 1.7. Awareness of hazards and safety measures. 1.8. Proper waste disposal and cleaning procedures.
2. Underpinning Skills	2.1. Ability to measure, mix, and knead ingredients. 2.2. Skills in monitoring dough rise and adjusting conditions. 2.3. Ability to scale and mould dough into desired shapes. 2.4. Skill in setting and operating ovens for proper baking. 2.5. Ability to inspect dough and bread for texture and color. 2.6. Efficient handling and disposal of waste materials. 2.7. Ability to clean and maintain equipment.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 2.3 Tools, equipment and facilities appropriate to the process or activities 2.4 Materials are relevant to the proposed activity.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 followed OSH 1.2 prepared and produced bread dough 1.3 scaled and moulded for intermediate proof 1.4 conducted final moulded and proof
-----------------------------------	---

	1.5 baked bread 1.6 decorated, presented and stored bread products 1.7 cleaned and maintained equipment and production area.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE AND PRODUCE PASTRY DOUGH	Nominal Duration: 30 Hrs.	Unit Code: SICIP-THS-BPP-02-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to prepare and produce pastry dough. It specifically includes the tasks of following OSH, preparing ingredients and producing pastry dough, blocking and laminating pastry and cleaning and maintaining equipment and production area.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Follow OSH	1.1 Food production standards are adhered to, following OSH guidelines to maintain a safe and hygienic workplace. 1.2 Personal hygiene is maintained, and appropriate PPE is worn as required by OSH regulations. 1.3 <u>Tools and equipment</u> are inspected and cleaned for production. 1.4 Work areas are organized and cleaned in accordance with OSH requirements. 1.5 Safety procedures are followed to prevent accidents or injuries, ensuring compliance.
2. Prepare ingredients and produce pastry dough	2.1 <u>Ingredients</u> are confirmed and arranged according to product requirements and recipe specifications. 2.2 Ingredients are measured accurately according to the recipe. 2.3 Tools and equipment are prepared as per job requirements. 2.4 Mixing equipment is set up and operated according to recipe requirements. 2.5 Ingredients are poured into the mixer in the correct order for proper blending. 2.6 The mixing process is operated and monitored to ensure uniformity and texture. 2.7 <u>Pastry</u> dough is monitored for consistency, feel, and texture, with adjustments made based on <u>variables</u> .
3. Block and laminate pastry	3.1 The pastry is blocked to meet recipe requirements. 3.2 The pastry is laminated and folded according to product requirements. 3.3 The pastry is checked to ensure it meets <u>food safety and quality standards</u> . 3.4 Pastry dough is kept in the refrigerator as per recipe specifications.
4. Clean and maintain equipment and	4.1 Equipment and production area are cleaned to meet production and hygiene requirements.

production area	4.2	Maintenance requirements for equipment are identified and reported according to workplace procedures.
	4.3	Waste is disposed of according to workplace procedures.

Range of Variables

Variable	Range (Includes but not limited to):
1. Tools and Equipment	1.1 Mixing Machine 1.2 Dough shitter 1.3 Refrigerator 1.4 Freezer 1.5 Weighing scale 1.6 Measuring tools (spoon, cup, jug) 1.7 Dough cutter 1.8 Cooking range 1.9 Knives 1.10 Sieves 1.11 Working table 1.12 Chopping board 1.13 Trays 1.14 Brush 1.15 Scraper 1.16 Saucepan with handle 1.17 Piping bag 1.18 Scissors
2. Ingredients	2.1 Flour 2.2 Yeast 2.3 Milk powder 2.4 Honey 2.5 Sugar 2.6 Salt 2.7 Water 2.8 Egg 2.9 Shortening 2.10 Butter 2.11 Soybean oil
3. Pastry	3.1 Puff pastry 3.2 Danish pastry 3.3 Short crust pastry 3.4 Choux pastry
4. Variables	4.1 Shortening may be added to the mixer or worked into the batter/dough manually 4.2 Folding of pastry is typically in half or book folds 4.3 Lamination does not apply to short paste and pie bottom paste 4.4 Monitor the appearance and consistency of the mix and ensure that all ingredients including shortening are

	added. 4.5 Roll out pastry dough and add shortening if not already in the mix
5. Food safety and quality standards.	5.1 Company policies and procedures, regulatory and licensing requirements, and industrial awards and agreements. 5.2 Food Standards Code including labelling, weights and measures legislation; and legislation covering food safety, environmental management, occupational health and safety.

Curricular Content Guide

1. Underpinning Knowledge	1.1. Understanding of short crust, puff, choux, and filo doughs. 1.2. Importance of flour, fat, water, and salt in dough consistency. 1.3. Knowledge of mixing, cutting in fat, and resting techniques. 1.4. Impact of cold ingredients and cooling time on dough quality. 1.5. Understanding of lamination and folding methods for puff pastry. 1.6. Oven temperature and time adjustments for various pastries. 1.7. Proper handling and storage of pastry dough.
2. Underpinning Skills	2.1. Ability to combine ingredients to form a consistent dough. 2.2. Skill in cutting in fat evenly for desired texture. 2.3. Ability to roll, fold, and laminate dough for desired results. 2.4. Skill in chilling dough and managing ingredient temperatures. 2.5. Ability to shape and size pastry dough for specific products. 2.6. Ability to adjust oven temperature and baking time for optimal pastry results. 2.7. Ability to check dough for texture, consistency, and readiness.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace

4. Resource Implications	The following resources must be provided: 4.1 Tools, equipment and facilities appropriate to the process or activities 4.2 Materials relevant to the proposed activity
--------------------------	---

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 followed OSH 1.2 prepared ingredients and produce pastry dough 1.3 blocked and laminated pastry 1.4 cleaned and maintained equipment and production area.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE FILLING, FORMING AND BAKE PASTRY PRODUCTS	Nominal Duration: 50 Hrs.	Unit Code: SICIP-THS-BPP-03-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to prepare filling, forming and bake pastry products. It specifically includes the tasks of following OSH, preparing and producing pastry filling, forming and filling pastry products, baking pastry products, decorating, presenting and storing pastry products & cleaning and maintaining equipment and production area.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Follow OSH	1.1 Food production standards are adhered to, following OSH guidelines to maintain a safe and hygienic workplace. 1.2 Personal hygiene is maintained, and appropriate PPE is worn as required by OSH regulations. 1.3 <u>Tools and equipment</u> are inspected, cleaned, and prepared for production. 1.4 Work areas are organized and cleaned in accordance with OSH requirements. 1.5 Safety procedures are followed to prevent accidents or injuries, ensuring compliance.
2. Prepare and produce pastry filling	2.1 <u>Pastry filling ingredients</u> are made available according to product requirements and recipe specifications. 2.2 Ingredients are measured according to recipe requirements. 2.3 Ingredients for use in fillings are prepared. 2.4 Pastry filling is produced following recipe guidelines. 2.5 Raw and cooked fillings are checked before use to ensure quality and safety. 2.6 Unacceptable ingredients or fillings are identified and rectified.
3. Form and filling pastry product	3.1 Pastry dough and fillings are made available according to recipe specifications. 3.2 Forming and filling utensils are made and equipment is checked for proper use and cleanliness. 3.3 The pastry is rolled and shaped to meet product requirements. 3.4 Fillings are prepared and used according to the recipe. 3.5 Pastry tops are decorated, and finishes are applied as required by the. 3.6 Milk and egg washes are applied prior to baking if

	required to ensure proper color and texture. 3.7 Unacceptable products are identified and rectified.
4. Bake pastry products	4.1 The oven is preheated according to product specifications. 4.2 Ovens are operated to meet the required output by adjusting time and temperature as necessary. 4.3 <u>Pastry products</u> are baked according to food safety and quality requirements. 4.4 Glazes and sugar are applied after baking if required, following recipe instructions for finishing. 4.5 Baked products are checked for <u>product characteristics</u>. 4.6 Under-baked or over-baked products are identified and rectified. 4.7 Baked products are removed from the oven and cooled to meet the required temperature.
5. Decorate, present and store pastry products	5.1 Pastry products are <u>decorated and filled</u> according to standard recipes. 5.2 Pastry products are presented or displayed using appropriate equipment. 5.3 Products are stored at the correct temperature and under suitable <u>storage conditions</u>. 5.4 Maximum eating quality, appearance, and freshness are maintained according to industry standards.
6. Clean and maintain equipment and production area	6.1 Equipment and production area are cleaned to meet production and hygiene requirements. 6.2 Maintenance requirements for equipment are identified and reported according to workplace procedures. 6.3 Waste is disposed of according to workplace procedures.

Range of Variables

Variable	Range (Includes but not limited to):
1. Tools and Equipment	1.1 Food processor (Blander, Juicer and Grinder) 1.2 Refrigerator 1.3 Freezer 1.4 Sieves 1.5 Weighing scale and measuring tools 1.6 Cooling rack 1.7 Cooking range 1.8 Saucepan 1.9 Frypan 1.10 Palette knife 1.11 Hand whisk 1.12 Piping bag 1.13 Nozzle 1.14 Fruit knife

	1.15 Working table 1.16 Chopping board 1.17 Pastry brush 1.18 Mould & trays and depositing equipment 1.19 Cooking thermometer 1.20 Roller cutter
2. Pastry filling ingredients	2.1 Sweet fillings ingredients 2.1.1 Egg 2.1.2 Corn flour 2.1.3 Shortening 2.1.4 Milk 2.1.5 Sugar 2.1.6 Butter 2.1.7 Cream 2.1.8 Fresh Cream 2.1.9 Fruits 2.1.10 Nuts 2.1.11 Coconut 2.1.12 Jam 2.1.13 Fruit color 2.1.14 Cinnamon Powder 2.1.15 Syrup 2.1.16 Caramel 2.1.17 Chocolate 2.1.18 Chocolate chips 2.1.19 Custard 2.1.20 Starches 2.2 Savory filling ingredients 2.2.1 Minced or diced raw meat (including chicken) 2.2.2 Vegetables 2.2.3 Aromatic vegetables (onion, garlic, ginger and leak) 2.2.4 Egg 2.2.5 Starch 2.2.6 Herbs 2.2.7 Spices 2.2.8 Cheese 2.2.9 Cooking cream 2.2.10 Sausage
3. Pastry products	3.1 Petit fours and short pastry 3.2 Puff Pastry 3.3 Danish pastry 3.4 Croissant pastry 3.5 Choux Pastry 3.6 Strudel pastry 3.7 Tarts 3.8 Pies
4. Product characteristics	4.1 Color

	4.2 Consistency and texture 4.3 Moisture content 4.4 Mouthfeel and eating properties 4.5 Appearance
5. Decorated and filled	5.1 Jellies and glazes 5.2 Flowers and leaves 5.3 Herbs 5.4 Flavored and colored sugar 5.5 Fresh and preserved/crystallized fruits 5.6 Seeds and nuts 5.7 Fruit pulp 5.8 Icings, Sprinkled icing sugar or chocolate powder 5.9 Butter creams, Ganache, Fondants
6. Storage conditions	6.1 Consideration of temperature, light and air exposure 6.2 Use of appropriate containers 6.3 Labelling 6.4 Display cabinets including temperature-controlled cabinets to cool or warm

Curricular Content Guide

1. Underpinning Knowledge	1.1. Knowledge of sweet and savory fillings, including custard, fruit, and meat. 1.2. Understanding of cooking or assembling fillings for texture and consistency. 1.3. Knowledge of various shaping methods, such as folding, cutting, and sealing. 1.4. Understanding of oven temperature and baking time for different pastry products. 1.5. Knowledge of short crust and puff pastry and their suitability for different products. 1.6. Proper handling and storage of fillings and pastries.
2. Underpinning Skills	2.1. Ability to prepare and cook fillings to the desired consistency, such as custards, fruit fillings, and savory mixtures. 2.2. Skill in shaping, folding, and sealing pastry products to maintain structure and prevent leakage. 2.3. Ability to roll out and cut pastry dough to appropriate size for different pastry products. 2.4. Ability to adjust oven settings for proper heat distribution and monitor baking time for ideal texture and color. 2.5. Ability to assess pastries for even baking, golden color, and crispy texture. 2.6. Skill in properly storing fillings and pastries at safe temperatures to maintain quality and prevent contamination.

3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in workplace
4. Resource Implications	The following resources must be provided: 4.1 Tools, equipment and facilities appropriate to the process or activities 4.2 Materials relevant to the proposed activity

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 followed OSH 1.2 prepared and produced pastry filling 1.3 formed and filled pastry product 1.4 baked pastry products 1.5 decorated, presented and stored pastry products 1.6 cleaned and maintained equipment and production area.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE AND PRODUCE COOKIES	Nominal Duration: 40 Hrs.	Unit Code: SICIP-THS-BPP-04-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to prepare and produce cookies. It specifically includes the tasks of following OSH, preparing and producing cookies dough, forming and shaping cookies product, baking cookies, decorating, presenting and storing cookies products and cleaning and maintaining equipment and production area.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Follow OSH	1.1 Food production standards are adhered to, following OSH guidelines to maintain a safe and hygienic workplace. 1.2 Personal hygiene is maintained, and appropriate PPE is worn as required by OSH regulations. 1.3 <u>Tools and equipment</u> are inspected, cleaned, and prepared for production. 1.4 Work areas are organized and cleaned in accordance with OSH requirements. 1.5 Safety procedures are followed to prevent accidents or injuries, ensuring compliance.
2. Prepare and produce cookie dough	2.1 <u>Ingredients</u> are made available according to product requirements and recipe specifications. 2.2 Equipment is checked for readiness to ensure proper functionality and cleanliness. 2.3 Ingredients are measured accurately according to recipe requirements. 2.4 Baking trays are prepared according to the <u>type of cookies</u> being produced. 2.5 Mixing equipment is set up and operated according to recipe requirements. 2.6 Ingredients are poured into the mixer in the correct order for uniform mixing. 2.7 The mixing process is operated and monitored to ensure consistency and dough quality. 2.8 Unacceptable dough is rectified as required.
3. Form and shape cookies product	3.1 <u>Cookie paste</u> is collected from the refrigerator for forming and placed on the working table. 3.2 Cookie paste is kept on the working table as per recipe requirements. 3.3 Cookie paste is rolled and shaped according to product requirements. 3.4 Formed cookies are placed on the tray for baking.

4. Bake cookies	4.1 The oven is preheated according to product specifications. 4.2 Trays are placed in the oven according to industry requirements. 4.3 Ovens are operated for baking according to product specifications. 4.4 Cookies are baked according to food safety and quality requirements. 4.5 Under-baked or over-baked products are identified and rectified by adjusting baking time or temperature. 4.6 The baking process is monitored.
5. Decorate, present and store cookies products	5.1 Cookies are decorated using coating, icing, or other finishing methods according to standard recipes. 5.2 Cookies are presented or displayed according to enterprise standards. 5.3 Cookies are stored at the correct temperature and under appropriate storage conditions.
6. Clean and maintain equipment and production area	6.1 Equipment and production area are cleaned to meet production and hygiene requirements. 6.2 Maintenance requirements for equipment are identified and reported according to workplace procedures. 6.3 Waste is disposed of according to workplace procedures.

Range of Variables

Variable	Range (Includes but not limited to):
1. Tools and Equipment	1.1 Equipment and Accessories: 1.1.1 Mixer and attachments 1.1.2 Paddle 1.1.3 Beater attachment 1.1.4 Baking trays 1.1.5 Dry ingredient containers 1.1.6 Flour container 1.1.7 Refrigerated ingredient containers 1.1.8 Mixing bowls 1.1.9 Chocolate melting machine 1.2 Tools and utensils: 1.2.1 Hand whisks 1.2.2 Measuring spoons 1.2.3 Biscuit and pastry cutters 1.2.4 Rolling pins 1.2.5 Flour brushes 1.2.6 Egg wash brushes 1.2.7 Piping bags 1.2.8 Piping nozzles
2. Ingredients	2.1 Basic ingredients: flour, Icing sugar, Brown Sugar, sugar

	and shortening, Eggs 2.2 Leavens: baking powder, baking soda 2.3 Flavoring: spices, extracts (vanilla, lemon, almond, maple, strawberry, chocolate), and milk 2.4 Fillers: chocolate chips, dried fruits (raisins, nuts and dates). 2.5 Toppings. Frosting, glaze, sprinkles, Fondants
3. Types of cookies	3.1 Moulded Cookies 3.2 Salted Cookies 3.3 Jam Cookies 3.4 Nut Cookies 3.5 Rock Cookies 3.6 Chocolate Cookies
4. Cookies paste	4.1 Chocolate paste 4.2 Snicker doodle 4.3 Sugar Cookie 4.4 Oatmeal/Oatmeal Raisin 4.5 Peanut Butter 4.6 Cake Batter 4.7 Brownie Batter 4.8 Milk paste

Curricular Content Guide

1. Underpinning Knowledge	1.1. Understand of different types of cookies such as drop cookies, rolled cookies, and bar cookies. 1.2. Knowledge of how flour, sugar, butter, eggs, and leavening agents contribute to the texture and structure of cookies. 1.3. Knowledge of correct mixing techniques to achieve desired cookie texture (e.g., creaming, folding). 1.4. Understanding of oven temperature and baking time needed for various cookie types. 1.5. Knowledge of how dough consistency (e.g., soft, stiff) impacts the spread and texture during baking. 1.6. Proper handling and storage of cookie dough and baked products to maintain freshness and prevent contamination. 1.7. Knowledge of how to decorate cookies with icing, sprinkles, or chocolate for finishing touches.
2. Underpinning Skills	2.1 Ability to accurately measure, mix, and combine ingredients to form consistent cookie dough. 2.2 Skill in portioning and shaping dough into desired forms, such as balls, discs, or bars, depending on cookie type. 2.3 Ability to adjust oven temperature and baking time to ensure cookies are evenly baked with the desired texture and color. 2.4 Skill in applying icing, sprinkles, or chocolate to enhance

	the appearance of cookies. 2.5 Ability to assess dough consistency and cookie quality to ensure correct texture and flavour. 2.6 Proper handling and storage of both dough and baked cookies to maintain hygiene and freshness.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Tools, equipment and facilities appropriate to the process or activities 4.2 Materials relevant to the proposed activity

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 followed OSH 1.2 prepared and produced cookies dough 1.3 formed and shaped cookies product 1.4 baked cookies 1.5 decorated, presented and stored cookies products 1.6 cleaned and maintained equipment and production area.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE AND PRODUCE CAKE	Nominal Duration: 50 Hrs.	Unit Code: SICIP-THS-BPP-05-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to prepare and produce cake. It specifically includes the tasks of following OSH, preparing and producing cake batter, baking cakes, preparing and using cake fillings, decorating, presenting and storing cake products, cleaning and maintaining equipment and production area.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Follow OSH	1.1 Food production standards are adhered to, following OSH guidelines to maintain a safe and hygienic workplace. 1.2 Personal hygiene is maintained, and appropriate PPE is worn as required by OSH regulations. 1.3 <u>Tools and equipment</u> are inspected, cleaned, and prepared for production. 1.4 Work areas are organized and cleaned in accordance with OSH requirements. 1.5 Safety procedures are followed to prevent accidents or injuries, ensuring compliance.
2. Prepare and produce cake batter	2.1 <u>Ingredients</u> are made available according to product requirements and recipe specifications. 2.2 Equipment is checked to confirm readiness for use. 2.3 Ingredients are measured according to recipe requirements. 2.4 <u>Pre-preparation tasks</u> are organized for use in fillings or additional components. 2.5 Ingredients are poured into the mixer for mixing. 2.6 The mixing process is monitored to ensure the batter achieves the correct texture and consistency. 2.7 Unacceptable batter is identified, separated, and rectified as necessary.
3. Bake cakes	3.1 The oven is preheated according to recipe requirements. 3.2 The oven is operated and selected to create the required <u>oven conditions</u> . 3.3 Washes and/or glazes are applied before baking as required. 3.4 <u>Variety of cakes</u> are baked according to recipe specifications for texture, color, and size. 3.5 Under-baked and over-baked products are identified

	and rectified. 3.6 Baked products are removed from the oven and cooled to meet the required temperature. 3.7 Washes and/or glazes are applied after baking as required.
4. Prepare and use cake fillings	4.1 Fillings are prepared and selected according to recipe requirements. 4.2 Slice or layer sponges and cakes are filled and assembled following the standard. 4.3 Coatings and sidings are selected and used according to standard recipes. 4.4 Unacceptable ingredients or fillings are identified and rectified as needed to meet quality standards.
5. Decorate, present and store cake products	5.1 Suitable icings and decorations are used according to standard recipe. 5.2 Cakes are decorated to suit the product type and occasion. 5.3 Cakes are presented in accordance with customer's expectations. 5.4 Service equipment is selected and used according to service requirements. 5.5 Storage methods are identified, and cake products are stored at appropriate conditions.
6. Clean and maintain equipment and production area	6.1 Equipment and production area are cleaned to meet production and hygiene requirements. 6.2 Maintenance requirements for equipment are identified and reported according to workplace procedures. 6.3 Waste is disposed of according to workplace procedures.

Range of Variables

Variable	Range (Includes but not limited to):
1. Tools and Equipment	1.1 Topping equipment 1.2 Gas oven 1.3 Electric ovens 1.4 Cooling racks 1.5 Mixers 1.6 Sieves 1.7 Weighing equipment 1.8 Working table 1.9 Measuring tools 1.10 Tray 1.11 Cake mould 1.12 Saucepan 1.13 Frypan 1.14 Cake Knives 1.15 Brushes
2. Ingredients	2.1 Cake Flour

	2.2 Cocoa powder 2.3 Baking powder 2.4 Baking soda 2.5 Nuts and fruit 2.6 Sugar 2.7 Eggs 2.8 Shortening 2.9 Flavorings and essences 2.10 Cream 2.11 Gelatin 2.12 Corn flour, Butter 2.13 Milk powder 2.14 Chocolate 2.15 Fruit 2.16 Water
3. Pre-preparation tasks	3.1 Mincing 3.2 Peeling 3.3 Slicing 3.4 Dicing and Cooking 3.5 Conditioning
4. Oven condition	4.1 Colour 4.2 Shape 4.3 Crust structure 4.4 Temperature 4.5 Rack position 4.6 Baking times 4.7 Moisture
5. Variety of Cakes	5.1 Plain cake 5.2 Fruit cake 5.3 Marble cake 5.4 vanilla cake 5.5 Sponge cake 5.6 Swiss roll 5.7 Chocolate cake 5.8 Muffins
6. Fillings	6.1 Fruit, fresh and crystallized 6.2 Fruit purees 6.3 Jams 6.4 Nuts 6.5 Creams 6.6 Mousse 6.7 Custard
7. Decorations	7.1 Glazes and jellies 7.2 Icing 7.3 Chocolates 7.4 Sprinkled icing sugar 7.5 Fresh and preserved/crystallized fruits

	7.6 Fruit purees 7.7 Nuts, whole or crushed 7.8 Colored/flavored sugar 7.9 Marzipan coatings 7.10 Fondants, butter cream, boiled icings
8. Service Equipment	8.1 Ceramics 8.2 Glass 8.3 Crystal 8.4 Mirrors 8.5 Trays 8.6 Croquet stands 8.7 Sugar work stands 8.8 Chocolate stands 8.9 Display cabinets
9. Storage methods	9.1 Use of airtight containers 9.2 Display cabinets including temperature-controlled cabinets 9.3 Refrigeration, chilling and freezing
10. Appropriate conditions	10.1 Away from strong odours 10.2 Appropriate containers 10.3 Labelling cool room temperature 10.4 Cool room placement 10.5 Length of time in freezer storage (Before decoration) 10.6 Length of time in cool storage (After decoration)

Curricular Content Guide

1. Underpinning Knowledge	1.1. Understanding of different cake styles such as sponges, butter cakes, and foam cakes. 1.2. Knowledge of how flour, sugar, fat, eggs, and leavening agents affect texture and rise. 1.3. Understanding of correct mixing and creaming methods for desired texture. 1.4. Knowledge of oven temperature, baking time, and humidity for even baking. 1.5. Understanding of basic icing, fondant, and piping techniques for finishing. 1.6. Correct handling and storage of cake batter and finished cakes to maintain freshness and hygiene.
2. Underpinning Skills	2.1. Ability to measure, mix, and combine ingredients to achieve a smooth, well-incorporated batter. 2.2. Skill in creaming, folding, and beating to create the desired texture and consistency. 2.3. Ability to monitor and adjust oven temperature and baking time for optimal rise and texture. 2.4. Skill in applying icing, piping, and fondant for finishing cakes. 2.5. Ability to assess batter consistency, cake texture, and

	doneness during baking. 2.6. Proper handling, storage, and presentation of cake to ensure freshness and hygiene.
3. Underpinning Attitudes	3.1. Commitment to occupational health and safety 3.2. Promptness in carrying out activities 3.3. Sincere and honest to duties 3.4. Environmental concerns 3.5. Eagerness to learn 3.6. Tidiness and timeliness 3.7. Respect for rights of peers and seniors in the workplace 3.8. Communication with peers, subordinates and seniors in the workplace
4. Resource Implications	The following resources must be provided: 4.1 Tools, equipment and facilities appropriate to the process or activities. 4.2 Materials are relevant to the proposed activity.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 followed OSH 1.2 prepared and produced cake batter 1.3 baked cakes 1.4 prepared and used cake fillings 1.5 decorated, presented and stored cake products 1.6 cleaned and maintained equipment and production area.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: DEVELOP ENTREPRENEURSHIP IN FOOD INDUSTRIES	Nominal Duration: 40 Hrs.	Unit Code: SICIP-THS-BPP-06-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to develop entrepreneurship in food industries. It specifically includes the tasks of preparing for work, preparing documents, performing financial management, setting up establishment and managing product sourcing and sales.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Prepare for work	1.1 <u>Basic knowledge on entrepreneurship</u> is described. 1.2 <u>Steps of feasibility study</u> are described and carried out. 1.3 Detailed Business plan is prepared.
2. Prepare documents	1.5 <u>Business registration documents</u> are identified. 1.6 List of tools, equipment and supplies are prepared. 1.7 <u>Marketing plan</u> is developed and described.
3. Perform financial management	3.1 Sources of fund is identified. 3.2 Credit facilities including bank loans is identified. 3.3 Re-financing scheme is described.
4. Setup establishment	4.1 Infrastructure is developed or rented/ leased. 4.2 Furniture, tools and equipment are procured and set up. 4.3 Staff recruitment is carried out.
5. Manage product sourcing and sales	5.1 <u>Types of sourcing</u> are identified and described. 5.2 Types of suppliers are identified and described. 5.3 Business management system is implemented. 5.4 Cost management and <u>sales management system</u> are identified and implemented.

Range of Variables

Variable	Range (Includes but not limited to):
1. Basic knowledge of Entrepreneurship	1.1 Definition of entrepreneurship 1.2 Characteristics of entrepreneur 1.3 Types of business
2. Steps of feasibility study	2.1 Preliminary analysis (strength and weaknesses) 2.2 Market survey 2.3 Defining organizational structure 2.4 Financial assessment 2.5 Identifying opportunities and threats 2.6 Go or no-go decision
3. Business registration documents	1.1 Trade license 1.2 VAT

	1.3 Tax 1.4 License requirement as per business nature.
4. Marketing plan	4.3 Shop decoration 4.4 Advertising 4.5 Branding
5. Types of sourcing	5.1 Low-cost sourcing 5.2 Local sourcing 5.3 Global sourcing 5.4 In country sourcing
6. Sales management system	6.1 E-commerce 6.2 F-commerce 6.3 Direct sales

Curricular Content Guide

1 Underpinning Knowledge	1.1 Basic knowledge of entrepreneurship 1.2 Steps of feasibility study 1.3 Business plan 1.4 Business registration documents 1.5 Marketing plan 1.6 Sources of fund 1.7 Re-financing scheme 1.8 Types of sourcing 1.9 Staff recruitment 1.10 Sales management system
2 Underpinning Skills	2.1 Describing basic knowledge of entrepreneurship. 2.2 Preparing detailed business plan. 2.3 Identified business registration documents 2.4 Developing marketing plan. 2.5 Performing staff recruitment 2.6 Identifying and implementing cost management and sales management system
3 Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Learning manual 4.3 Tools, equipment and facilities appropriate to the process or activities. 4.4 Materials are relevant to the proposed activity.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 prepared for work 1.2 prepared documents 1.3 performed financial management 1.4 setup establishment 1.5 managed product sourcing and sales
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3 Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

End of the Competency Standard

Workshop/Lab Facility Standard

Course Name:	Bakery & Pastry Production and Entrepreneurship Development
Number of Trainees:	25

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom – minimum 350 sft (33 sqm)
- Workshop/ lab – 800 sft (75 sqm)

Major Training Equipment and Training Facilities:

Sl. No.	Major Equipment and Training facilities	Required facilities
1.	Computers/ Laptop	01
2.	Multimedia Projector	01
3.	Cooking station (02 burner)	01
4.	Electric oven (3 deck)	01
5.	Gas oven (3 deck)	01
6.	Cooling rack	01
7.	Utensil rack	01
8.	Food processors	01
9.	Blender Machine	02
10.	Electric egg beater	06
11.	Rolling pin	06
12.	Dough mixing machine	01
13.	Chocolate melting machine	01
14.	Refrigerator (200-300 L)	01
15.	Freezers (200-300 L)	01
16.	Microwave oven	01
17.	Working table-SS made (preferred size – 6ft x 3ft)	05
18.	Table with sink	02
19.	Hand wash sink	01
20.	Frying pan (18 cm)	06
21.	Sauce pan (Heavy duty and medium size)	06
22.	Weighing Scale (Preferred capacity 5 kg)	02
23.	Waste bin	04

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary

training tools, equipment, and furniture are available to meet the requirement of competency standards (CS) provided by SICIP.

For the operation of training course on Bakery & Pastry Production and Entrepreneurship Development, the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
