

COMPETENCY STANDARD

FOR

PROFESSIONAL BARISTA & BEVERAGE PREPARATION AND ENTREPRENEURSHIP DEVELOPMENT (TOURISM AND HOSPITALITY SECTOR)

**Skills for Industry Competitiveness and Innovation Program (SICIP)
Finance Division, Ministry of Finance**

COPYRIGHT

The Competency Standards for Installation of **Professional Barista & Beverage Preparation and Entrepreneurship Development** is a document for the development of curricula, teaching and learning materials, and assessment tools. It also serves as the document for providing training consistent with the requirements of the industry for individuals who pass through the set standard via assessment. Subsequently, they would be qualified and settled for a relevant job.

Developed under the Skills for Industry Competitiveness and Innovation Program (SICIP), this document addresses the skills requirements critical Professional Barista & Beverage Preparation and Entrepreneurship Development. It is owned by the Finance Division of the Ministry of Finance of the People's Republic of Bangladesh.

Public and private institutes may use the information contained in this competency standard for training activities benefitting Bangladesh.

Other interested parties must obtain permission from the owner of this document for reproduction of information in any manner in whole or in part of this Skills Standard, in English or other languages.

INTRODUCTION:

The **Skills for Industry Competitiveness and Innovation Program (SICIP)** has the overall objective of developing a skilled workforce adept at handling new technologies, especially for emerging industries in Bangladesh. It will expand skills training and strengthen the development of the training ecosystem to address the skills requirements of the SICIP-selected industry sectors. The program aims to (i) increase the technology-oriented skilled workforce across emerging and priority sectors, (ii) promote inclusive skilling and upskilling opportunities for women and socially disadvantaged groups, (iii) incentivize industry-university partnerships to nurture innovation capacity and improve industry competitiveness, and (iv) foster skills for climate-resilient manufacturing processes and green technologies. The program is expected to benefit about 220,000 new and existing workers over a 6-year implementation period from 2024-2029.

The SICIP Program has, therefore, taken the initiative to enhance the employability and productivity of trainees by implementing market-responsive and job-focused training programs through public and private training providers. This will require the development of competency standards for each of the occupations/trades which will provide a structured framework in the learning process to guide training providers, ensure consistent training quality, and create an alignment between the skills provided by the training institutes and the needs of the industry.

The Competency Standard also suggests integration of YouTube or similar platforms or downloaded clips into classroom practice to ensure simulated creation of the contents so that learners are exposed to visual demonstrations before classroom instruction or practical session, which aligns with modern learning preference and supports flipped classroom models.

This competency standard is therefore developed to improve skills following the job roles and skill sets of the occupation and ensure that the required skills are aligned with industry requirements.

The document details the format, sequencing, wording, and layout of the Competency Standard for an occupation which comprises Units of Competence and its corresponding Elements.

OVERVIEW:

A **Competency Standard** is a written specification of the knowledge, skills, and attitudes required for the performance of a job or occupation or trade corresponding to the standard of performance required in the workplace.

Competency standard:

- provides a consistent and reliable set of components for training, recognizing, and assessing people's skills, and may also have optional support materials.
- enables industry-recognized qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training that suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

Competency Standard has been developed by a working group comprised of occupation-specific experts from the industry/institution and relevant consultants of SICIP.

Competency Standards describe the skills, knowledge, and attitude needed to perform effectively in the workplace. Competency Standards acknowledge that people can achieve vocational and technical competency in many ways by emphasizing what the learner can do, not how or where they learned to do it.

With Competency Standards, assessment and training may be conducted at the workplace, at training organization, during regular work, or through work experience, work placement, work simulation or any combination of these.

A Unit of Competency describes a distinct work activity that would normally be undertaken by one person in accordance with industry standards.

Units of Competency are documented in a standard format that comprises:

- Reference to Industry Sector, Occupational Title and Occupational Description
- Unit code
- Unit title
- Unit descriptor
- Elements and performance criteria
- Variables and range statement
- Evidence guides

Together all the parts of a Unit of Competency:

- Describe a work activity.
- Guide the assessor in determining whether the candidate is competent.

Identification and validation of units of competency and elements for each occupation were made by experts from Construction industry in consultative workshop.

The ensuing sections of this document comprise a description of the respective occupation with all the key components of a Unit of Competence:

- An overview of all Units of Competence for the occupation and their corresponding duration required for completion of training.
- The Competency Standards that include the Unit of Competency, Unit Descriptor, Elements and Performance Criteria, Range of Variables, Curricular Content Guide, and Assessment Evidence Guide.

Units & Elements at a Glance:**Generic Competencies (20 Hrs.)**

SL	Code	Unit of Competency	Elements of Competency	Duration (hours)
1.	SICIP-THS-PBE-01-G	Apply Occupational Health and Safety (OHS) Practices in the Workplace	1. Identify, control and report OHS hazards 2. Conduct work safely 3. Follow emergency response procedures 4. Maintain health and safety in the workplace	10
2.	SICIP-THS-PBE-02-G	Work in a team environment	1. Identify team goals and processes 2. Communicate and cooperate with team members 3. Work as a team member 4. Solve problems as a team member	10
Total hours				20 Hrs.

Sector Specific Competencies (10 Hrs.)

SL	Code	Unit of Competency	Elements of Competency	Duration (hours)
1.	SICIP-THS-PBE-01-S	Follow Quality and Food Safety Programs	1. Observe OHS practices. 2. Practice personal hygiene and good grooming standards. 3. Follow safe food handling and sanitation practices. 4. Monitor quality of work outcome. 5. Identify and act on quality deficits and/or food safety hazards.	10
Total hours				10 Hrs.

Occupation Specific Competencies (170 hrs.)

SL	Code	Unit of competency	Elements of Competency	Duration (hours)
1.	SICIP-THS-PBE-01-O	Apply Basic Barista Skills	1. Identify types of coffee and beverages. 2. Select and prepare coffee beans. 3. Operate espresso machine and grinders. 4. Extract espresso. 5. Carryout steam and texture milk. 6. Clean and maintain barista tools machine.	30
2.	SICIP-THS-PBE-02-O	Maintain Workplace Hygiene and Safety	1. Follow food safety and hygiene standards. 2. Use cleaning materials. 3. Handle hot equipment safely. 4. Prevent cross-contamination. 5. Manage waste properly.	10
3.	SICIP-THS-PBE-03-O	Prepare Espresso-Based Beverages	1. Identify espresso-based drinks. 2. Prepare cappuccino and latte. 3. Prepare flavored latte and café mocha. 4. Present beverages.	50
4.	SICIP-THS-PBE-04-O	Prepare non-Coffee Beverages	1. Identify types of tea, juice, and smoothies. 2. Select ingredients and equipment. 3. Prepare tea, juice, and smoothies. 4. Present tea, juice, and smoothies.	40
5.	SICIP-THS-PBE-05-O	Provide Customer Service in Beverage Operation	1. Greet and communicate with customers. 2. Take and confirm beverage orders. 3. Handle customer complaints. 4. Provide product information and suggestions.	20

SL	Code	Unit of competency	Elements of Competency	Duration (hours)
6.	SICIP-THS-PBE-06-O	Develop Entrepreneurship in Food Industries	1. Prepare for work. 2. Prepare documents. 3. Perform financial management. 4. Setup establishment. 5. Manage product sourcing and sales.	40
Total hours				0 Hrs.
TOTAL =				200 Hrs.

COMPETENCY STANDARD: PROFESSIONAL BARISTA & BEVERAGE PREPARATION AND ENTREPRENEURSHIP DEVELOPMENT

GENERIC COMPETENCIES

APPLY OCCUPATIONAL HEALTH AND SAFETY (OHS) PRACTICES IN THE WORKPLACE	Nominal Duration: 10 hrs.	Unit Code: SICIP-THS-PBE-01-G
Unit Descriptor: This unit covers the knowledge, skills and attitude required to apply Occupational Health and Safety (OHS) Practices in the workplace. It specifically includes the task of identifying, controlling and reporting OHS hazards, conducting work safely, following emergency response procedures and maintaining health and safety in the workplace.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify, control and report OHS hazards	1.1 Work area is routinely checked for OHS hazards prior to commencing and during work 1.2 <u>Hazards</u> and unacceptable performance are identified and corrective action is taken within the level of responsibility 1.3 OHS hazards and incidents are reported to appropriate personnel according to workplace procedures 1.4 Safety Signs and Symbols are identified and followed
2. Conduct work safely	2.1 Apply OHS practices in the workplace 2.2 Appropriate <u>Personal Protective Equipment (PPE)</u> is selected and worn
3. Follow emergency response procedures	1.1 Emergency situations are identified and reported according to workplace reporting requirements 1.2 Emergency procedures are followed as appropriate to the nature of the emergency and according to workplace procedures 1.3 <u>Workplace procedures</u> for dealing with accidents, fires and emergencies are followed whenever necessary within scope of responsibilities
4. Maintain health and safety in the workplace	1.1 Risks are identified and appropriate control measures are implemented in the work area. 1.2 Recommendations arising from risk assessments are implemented within level of responsibility. 1.3 Opportunities for improving OHS performance are identified and raised with relevant personnel. 1.4 Safety records according to <u>company policies</u> are maintained.

Range of variables:

Variables	Range (may include but not limited to)
1. Hazards	1.1 OHS incidents include near misses, injuries, illnesses and property damage, noise, handling hazardous substances, other hazards 1.2 Working with and near moving equipment/load shifting equipment 1.3 Broken or damaged equipment or materials
2. Personal Protective equipment (PPE)	2.1 Goggles 2.2 Ear muffs 2.3 Ear plugs 2.4 Gloves 2.5 Clothing 2.6 Apron 2.7 Helmet 2.8 Boots
3. Workplace procedures	3.1 OHS system and related documentation including policies and procedures 3.2 Standard Operating Procedures (SOPs) 3.3 Information on hazards and the work process, hazard alerts, safety signs and symbols 3.4 Labels 3.5 Material Safety Data Sheets (MSDSs) and manufacturers' advice.
4. Company policies	4.1 Job-related Standard Operating Procedures (SOPs) 4.2 OHS-specific procedures 4.3 Consultation and participation 4.4 Emergency response 4.5 Response to specific hazards 4.6 Incident investigation 4.7 Risk assessment 4.8 Reporting arrangements 4.9 Issue resolution procedures

Curricular Content Guide

1. Underpinning knowledge	1.1 Personal Protective Equipment (PPE) 1.2 Hazardous events 1.3 Tools, equipment, machinery and relevant accessories 1.4 Job roles, responsibilities and compliance 1.5 Workplace procedures 1.6 Company policies
2. Underpinning skill	1.7 Identifying Personal Protective Equipment (PPE) 1.8 Identifying tools and equipment 1.9 Responding and taking safety precautions for different hazardous situations 1.10 Operating and using tools, equipment, machinery
3. Underpinning	1.11 Commitment to occupational health and safety

Attitudes	1.12 Promptness in carrying out activities 1.13 Sincere and honest to duties 1.14 Environmental concerns 1.15 Eagerness to learn 1.16 Tidiness and timeliness 1.17 Respect for rights of peers and seniors in the workplace 1.18 Communication with peers, subordinates and seniors in the workplace
4. Resource implications	The following resources must be provided: 1.19 Workplace (simulated or actual) 1.20 PPEs 1.21 Firefighting equipment 1.22 Emergency response manual 1.23 First aid kits

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 Identified, controlled and reported OHS hazards 1.2 Followed work safety 1.3 Followed emergency response procedures 1.4 Maintained and improved health and safety in the workplace
2. Methods of assessment	Methods of assessment may include but not limited to: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: WORK IN A TEAM ENVIRONMENT	Nominal Duration: 10 hrs.	Unit Code: SICIP-THS-PBE-02-G
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to work in a team environment. It specifically includes the task of identifying team goals and processes, communicating and cooperate with team members, working as a team member and solving problems as a team member.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify team goals and processes	1.1 Team goals and collaborative decision-making processes are identified. 1.2 Role and common goals of the team are defined from available <u>sources of information</u> . 1.3 Team structure, responsibilities and reporting relations are identified from team discussions and other external sources.
2. Communicate and cooperate with team members	2.1 Communication and negotiation skills are applied and maintained in all relevant situations. 2.2 Constructive contributions are made to <u>workplace discussions</u> on such issues as production, quality and safety. 2.3 Goals/ objectives and action plans undertaken in the workplace are communicated promptly. 2.4 Information regarding problems and issues are organized coherently to ensure clear and effective communication. 2.5 Dialogue is initiated with appropriate personnel. 2.6 Communication problems and issues are raised 2.7 Barriers to communication are identified and resolved
3. Work as a team member	3.1 Effective forms of communication are used to interact with <u>team members</u> in discussing team activities and objectives. 3.2 Mutual respect, empathy and active collaboration are demonstrated 3.3 Communication channels are followed as per <u>workplace context</u> .
4. Solve problems as a team member	4.1 Current and potential problems faced by team are identified. 4.2 Problems are investigated and analyzed. 4.3 Potential solutions of problem are identified. 4.4 Recommendations about possible solutions are

	developed, documented, ranked and presented to team members for decision.
--	---

Range of variables:

Variables	Range (may include but not limited to)
1. Sources of information	1.1 HR manual 1.2 Service rules 1.3 Manuals and guidelines
2. Workplace discussions	2.1 Roster 2.2 Shift details
3. Team members	3.1 Formal process 3.2 Informal process
4. Workplace context	4.1 Formal process 4.2 Informal process 4.3 Sandwich process

Curricular Content Guide

1. Underpinning knowledge	1.1 Identification of sources of information 1.2 Team structure, role, and responsibility. 1.3 Individual member's roles and responsibilities. 1.4 Workplace discussions 1.5 Communication problems and issues 1.6 Barriers in communication 1.7 Team members 1.8 Workplace context
2. Underpinning skill	1.9 Identifying team goals and processes 1.10 Communicating and cooperating with team members 1.11 Working as a team member 1.12 Solving problems as a team member 1.13 Identifying roles and responsibilities of individual members.
3. Underpinning Attitudes	1.14 Commitment to occupational health and safety 1.15 Promptness in carrying out activities 1.16 Sincere and honest to duties 1.17 Environmental concerns 1.18 Eagerness to learn 1.19 Tidiness and timeliness 1.20 Respect for rights of peers and seniors in the workplace 1.21 Communication with peers, subordinates and seniors in the workplace
2. Resource implications	The following resources must be provided: 2.1 Workplace (actual or simulated). 2.2 Relevant materials and equipment. 2.3 Relevant specifications or work instructions.

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1 identified team goals 1.2 worked as a team member 1.3 solved problems as a team member 1.4 identified roles and responsibilities of individual members.
2. Methods of assessment	Methods of assessment may include but not limited to: 1.1 Written test 1.2 Practical Demonstration 1.3 Oral Questioning 1.4 Portfolio (Optional)
2. Context of assessment	2.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 2.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

The Sector Specific Competencies

Unit of Competency: FOLLOW QUALITY AND FOOD SAFETY PROGRAMS	Nominal Duration: 10 hrs.	Unit Code: SICIP-THS-PBE-01-S
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to follow quality and food safety programs. It specifically includes the tasks of observing OHS practices, practicing personal hygiene and good grooming standards, following safe food handling and sanitation practices, monitoring quality of work outcome, and identifying and acting on quality deficits and / or food safety hazards.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Observe OHS practices	1.1 Housekeeping standards are maintained in the workplace following Occupational Safety and Health (OHS) requirements. 1.2 Personal hygiene is maintained and <u>Personal Protective Equipment (PPE)</u> worn as per OHS requirements. 1.3 Equipment is cleaned for production and hygiene requirements.
2. Practice personal hygiene and good grooming standards	2.1 Personal hygiene and good grooming are practiced in line with workplace health and safety requirements. 2.2 Health conditions and illness are reported as required. 2.3 <u>Clothing and footwear</u> are appropriate for the food handling task and meets the requirements of the food safety program. 2.4 Movement around the workplace complies with the food safety program.
3. Follow safe food handling and sanitation practices	3.1 <u>Food handling</u> requirements are identified. 3.2 Safe food handling practices are followed in line with workplace sanitation regulations and the food safety code. 3.3 The workplace is maintained in a clean and tidy order to meet workplace standards.
4. Monitor quality of work outcome	4.1 Quality requirements are identified. 4.2 Inputs are inspected to confirm capability to meet quality requirements. 4.3 Work is conducted and monitored to produce required outcomes.
5. Identify and act on quality deficits and / or	5.1 Work area, materials, equipment and product are routinely checked to ensure compliance with quality and /

food safety hazards	or food safety requirements. 5.2 <u>Processes, practices or conditions</u> that are not consistent with quality standards or food safety program are identified. 5.3 Quality variations and / or <u>food safety</u> hazards are rectified or removed within the level of responsibility and in accordance with workplace procedures. 5.4 Quality variations and / or food safety outside the scope of individual responsibility are reported to appropriate personnel according to workplace reporting requirements.
---------------------	--

Range of variables:

Variables	Range (may include but not limited to)
1. Personal Protective Equipment (PPE)	1.1 Apron 1.2 Protective clothing 1.3 Gloves 1.4 Hair net 1.5 Other PPE as per OHS requirements
2. Clothing and footwear	2.1 Purpose designed overalls or uniforms 2.2 Hair-nets 2.3 Beard snoods 2.4 Gloves 2.5 Overshoes
3. Food handled and stored	3.1 Raw materials 3.2 Consumables 3.3 Part-processed product 3.4 Finished product 3.5 Cleaning materials
4. Processes, practices or conditions	4.1 Methods of receiving and storing food 4.2 Food preparation 4.3 Cooking 4.4 Holding 4.5 Cooling 4.6 Chilling and reheating 4.7 Packaging 4.8 Disposal
5. Food safety	5.1 Failure to check delivery temperatures of potentially hazardous chilled food 5.2 Failure to place temperature-sensitive food in temperature-controlled storage conditions promptly 5.3 Failure to wash hands when required 5.4 Use of cloths for unsuitable purposes

Curricular Content Guide

1. Underpinning knowledge	1.1 Housekeeping standards 1.2 Personal hygiene.
---------------------------	--

	1.3 Health conditions 1.4 Clothing and footwear 1.5 Food handling requirements 1.6 Quality requirements 1.7 Food safety procedures.
2. Underpinning skill	1.8 Observing OHS practices 1.9 Practicing personal hygiene and good grooming standards 1.10 Following safe food handling and sanitation practices 1.11 Monitoring quality of work outcome 1.12 Identifying and act on quality deficits and / or food safety hazards
3. Underpinning Attitudes	1.13 Commitment to occupational health and safety 1.14 Promptness in carrying out activities 1.15 Sincere and honest to duties 1.16 Environmental concerns 1.17 Eagerness to learn 1.18 Tidiness and timeliness 1.19 Respect for rights of peers and seniors in the workplace 1.20 Communication with peers, subordinates and seniors in the workplace
2. Resource implications	The following resources must be provided: 2.1 Work place Procedure 2.2 Materials relevant to the proposed activity 2.3 All tools, equipment, material and documentation required. 2.4 Relevant specifications or work instructions

Assessment Evidence Guide

1. Critical aspects of competency	Assessment required evidence that the candidate: 1.1. Observed OHS practices 1.2. Practiced personal hygiene and good grooming standards 1.3. Followed safe food handling and sanitation practices 1.4. Monitored quality of work outcome 1.5. Identified and act on quality deficits and / or food safety hazards 1.6. Maintained housekeeping standards in workplace following OHS requirements.
2. Methods of assessment	Methods of assessment may include but not limited to: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning

	2.4 Portfolio (Optional)
3. Context of assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

The Occupation Specific Competencies

Unit of Competency: APPLY BASIC BARISTA SKILLS	Nominal Duration: 30 Hrs.	Unit Code SICIP-THS-PBE-01-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to apply basic barista skills. It specifically includes the task of identifying types of coffee and beverages, selecting and preparing coffee beans, operating espresso machine and grinders, extracting espresso, carrying steam and texture milk and cleaning and maintaining barista tools machine.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify types of coffee and beverages.	1.1 <u>Different types of coffee</u> are identified and categorized. 1.2 <u>Different types of beverages</u> are identified and categorized. 1.3 Hot, cold, and specialty beverages are described. 1.4 <u>Ingredients</u> used in various beverages are identified. 1.5 Preparation styles of different coffee types are explained.
2. Select and prepare coffee beans.	2.1 <u>Suitable coffee beans</u> are identified and selected as per beverage type. 2.2 Bean quality, aroma, and roast level are checked before preparation. 2.3 Beans are cleaned and sorted according to standard practice. 2.4 Required quantity of beans is measured and prepared. 2.5 Prepared beans are stored properly to maintain freshness.
3. Operate espresso machine and grinders.	3.1 Espresso machine and grinders are checked for cleanliness and functionality. 3.2 <u>Equipment settings</u> are adjusted according to beverage requirements. 3.3 Machines and grinders are operated following standard procedures. 3.4 Coffee is brewed to achieve the desired taste and consistency. 3.5 Equipment performance is monitored during operation.
4. Extract espresso.	4.1 Espresso extraction requirements and standards are identified. 4.2 Ground coffee is measured and tamped evenly in the portafilter. 4.3 Espresso machine is prepared and settings are

	checked. 4.4 Espresso is extracted within the recommended time and pressure range. 4.5 Crema, aroma, and flavor are observed for quality consistency.
5. Carryout steam and texture milk.	5.1 Fresh milk is selected and poured into a clean steaming jug/pitcher. 5.2 Steam wand and equipment are checked for cleanliness and functionality. 5.3 Milk is steamed to the required temperature and texture. 5.4 <u>Frothing techniques</u> are applied to achieve smooth micro foam. 5.5 Temperature and consistency are monitored during steaming. 5.6 Steamed milk is poured immediately for beverage preparation.
6. Clean and maintain barista tools machine.	6.1 Barista tools and equipment are cleaned according to hygiene and safety standards. 6.2 Coffee machines and grinders are wiped, flushed, and descaled as per manufacturer's instructions. 6.3 Milk steamers, nozzles, and filters are cleaned and sanitized after each use. 6.4 Waste and coffee residues are properly disposed of following workplace procedures. 6.5 Minor maintenance tasks are carried out according to operational guidelines.

Range of Variables

Variable	Range (Includes but not limited to):
1. Different types of coffee	1.1 Espresso 1.2 Americano 1.3 Cappuccino 1.4 Latte 1.5 Mocha 1.6 Macchiato 1.7 Flat White 1.8 Cortado 1.9 Turkish Coffee 1.10 Iced Coffee 1.11 Affogato 1.12 Flavored coffee
2. Different types of beverages	2.1 Tea (Black, Green, Herbal) 2.2 Coffee (Hot, Iced, Espresso-based) 2.3 Juices (Fruit, Vegetable) 2.4 Smoothies 2.5 Milkshakes 2.6 Soft Drinks / Sodas

	2.7 Energy Drinks 2.8 Water (Still, Sparkling) 2.9 Mocktails / Non-alcoholic cocktails 2.10 Hot Chocolate / Cocoa
3. Ingredients	3.1 Coffee beans 3.2 Tea leaves or tea bags 3.3 Milk (dairy or plant-based) 3.4 Water 3.5 Sugar / Sweeteners 3.6 Cocoa or chocolate 3.7 Fruits (fresh or juices) 3.8 Ice 3.9 Syrups and flavorings (vanilla, caramel, etc.) 3.10 Spices (cinnamon, nutmeg, cardamom) 3.11 Carbonated water (for soft drinks) 3.12 Herbs (mint, lemongrass, ginger)
4. Suitable coffee beans	4.1 Arabica 4.2 Robusta 4.3 Liberica 4.4 Excelsa
5. Equipment settings	Espresso Machine: 5.1 Water temperature – typically 90–96 °C 5.2 Boiler pressure – 9–10 bar 5.3 Extraction time – 25–30 seconds per shot 5.4 Shot volume – 25–30 ml (single), 50–60 ml (double) 5.5 Steam pressure – 1–1.5 bar for milk frothing Grinders: 5.6 Grind size – fine for espresso, medium for drip coffee 5.7 Dose – 18–20 g for a double shot 5.8 Grinding time – adjusted for desired dose 5.9 Burr alignment – ensure even grinding 5.10 Cleaning and calibration – regular maintenance for consistency
6. Frothing techniques	6.1 Use cold milk 6.2 Purge steam wand 6.3 Correct steam wand positioning 6.4 Gradual air incorporation 6.5 Submerge wand for heating 6.6 Monitor temperature 6.7 Tap and swirl

Curricular Content Guide

1. Underpinning Knowledge	1.1. Identify different types of coffee and beverages and categorize them by hot, cold, and specialty varieties. 1.2. Understand the ingredients used in various beverages and their impact on flavor. 1.3. Interpret preparation styles of different coffee types.
---------------------------	---

	1.4. Identify suitable coffee beans based on beverage type, quality, aroma, and roast level. 1.5. Understand proper cleaning, sorting, measuring, and storage of coffee beans. 1.6. Operate espresso machines and grinders by adjusting settings. 1.7. Interpret espresso extraction standards. 1.8. Understand milk selection, steaming, frothing techniques. 1.9. Identify proper cleaning and maintenance procedures for barista tools and equipment.
2. Underpinning Skills	2.1. Performing identification and categorization of coffee types and beverages. 2.2. Demonstrating knowledge of hot, cold, and specialty beverages. 2.3. Following procedures to select, clean, and prepare coffee beans. 2.4. Applying measurement and storage standards for coffee beans. 2.5. Operating espresso machines and grinders safely and effectively. 2.6. Extracting espresso with correct pressure, timing, and consistency. 2.7. Steaming and texturing milk to achieve required temperature and microfoam.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment 4.4 Stationary 4.5 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 identified types of coffee and beverages. 1.2 selected and prepared coffee beans. 1.3 operated espresso machine and grinders.
-----------------------------------	---

	1.4 extracted espresso. 1.5 carried out steam and texture milk. 1.6 cleaned and maintained barista tools machine.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: MAINTAIN WORKPLACE HYGIENE AND SAFETY	Nominal Duration: 10 Hrs.	Unit Code: SICIP-THS-PBE-02-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to maintain workplace hygiene and safety. It specifically includes the tasks of following food safety and hygiene standards, using cleaning materials, handling hot equipment safely, preventing cross-contamination and managing waste properly.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Follow food safety and hygiene standards.	1.1 <u>Food safety and hygiene requirements</u> are identified and understood. 1.2 <u>Personal hygiene practices</u> are applied consistently by all personnel. 1.3 Work surfaces, equipment, and utensils are cleaned and sanitized regularly. 1.4 Raw materials and ingredients are stored under safe conditions. 1.5 <u>Contamination risks</u> are monitored and controlled during preparation. 1.6 Waste and spoiled materials are disposed of according to safety standards.
2. Use cleaning materials.	2.1 <u>Cleaning materials</u> are identified and selected according to their intended use. 2.2 Safety instructions and usage guidelines for cleaning materials are followed. 2.3 Appropriate quantities of cleaning materials are measured and applied. 2.4 Surfaces, tools, and equipment are cleaned using correct methods. 2.5 Cleaning materials are stored safely after use.
3. Handle hot equipment safely.	3.1 <u>Hot equipment and tools</u> are identified and their hazards recognized. 3.2 Safety instructions for handling hot equipment are followed. 3.3 Protective gear such as gloves or cloths is used as required. 3.4 Equipment is moved or operated carefully to prevent burns or accidents. 3.5 Areas around hot equipment are kept clear to ensure safety. 3.6 Incidents or hazards related to hot equipment are reported immediately.

4. Prevent cross-contamination.	4.1 <u>Food and beverage handling procedures</u> are followed to prevent cross-contamination. 4.2 Raw and cooked ingredients are stored separately according to safety guidelines. 4.3 Utensils, equipment, and surfaces are cleaned and sanitized between uses. 4.4 Personal hygiene practices, including handwashing, are applied consistently. 4.5 Contaminated or spoiled ingredients are identified and removed promptly. 4.6 Cross-contamination risks are monitored and controlled during preparation.
5. Manage waste properly.	5.1 <u>Waste types</u> are identified and segregated according to workplace procedures. 5.2 Waste is collected and disposed of safely and hygienically. 5.3 Recyclable and reusable materials are separated and processed appropriately. 5.4 Contaminated or hazardous waste is handled following safety guidelines. 5.5 Waste disposal areas are maintained clean and organized. 5.6 Records of waste management activities are maintained.

Range of Variables

Variable	Range (Includes but not limited to):
1. Food safety and hygiene requirements	1.1 Wash hands regularly 1.2 Use clean utensils and equipment 1.3 Sanitize work surfaces 1.4 Store ingredients properly 1.5 Keep raw and cooked foods separate 1.6 Wear clean uniforms and hair restraints 1.7 Dispose of waste correctly 1.8 Avoid cross-contamination 1.9 Maintain proper temperature for storage 1.10 Follow personal hygiene practices
2. Personal hygiene practices	2.1 Wash hands frequently 2.2 Keep nails clean and trimmed 2.3 Wear clean clothing/uniform 2.4 Use hair restraints (caps, nets) 2.5 Avoid touching face or hair while working 2.6 Cover cuts or wounds with bandages 2.7 Maintain oral hygiene 2.8 Avoid strong perfumes or fragrances 2.9 Use gloves when required 2.10 Shower regularly

3. Contamination Risks	3.1 Contaminated utensils or equipment 3.2 Poor personal hygiene of staff 3.3 Improper storage temperatures 3.4 Pest infestation 3.5 Dirty work surfaces 3.6 Contaminated water or ingredients 3.7 Airborne particles or dust 3.8 Improper cleaning of machinery 3.9 Handling food while sick
4. Cleaning materials	4.1 Detergents / Soaps 4.2 Disinfectants 4.3 Sanitizers 4.4 Cleaning cloths / Towels 4.5 Brushes / Scrubbers 4.6 Sponges 4.7 Mops 4.8 Buckets 4.9 Spray bottles 4.10 Gloves and protective gear
5. Hot equipment and tools	5.1 Espresso machine group heads and portafilters 5.2 Steam wand and frothing pitcher 5.3 Coffee grinders (exposed burrs) 5.4 Coffee pots / kettles 5.5 Hot water dispensers 5.6 Milk frothing thermometers 5.7 Hot trays or warming plates 5.8 Coffee cups / mugs recently heated 5.9 Heat lamps 5.10 Roasting equipment
6. Food and beverage handling procedures	6.1 Wash hands before handling food or drinks 6.2 Use clean utensils and equipment 6.3 Store ingredients at correct temperatures 6.4 Separate raw and cooked items 6.5 Avoid direct contact with ready-to-eat food 6.6 Follow portion control and serving guidelines 6.7 Keep work surfaces clean and sanitized 6.8 Label and date food and beverage items 6.9 Dispose of spoiled or contaminated items properly 6.10 Follow personal hygiene practices while handling food
7. Waste types	7.1 Coffee grounds 7.2 Used tea leaves / bags 7.3 Milk or dairy waste 7.4 Disposable cups, lids, and straws 7.5 Food scraps or leftovers 7.6 Packaging materials (sachets, wrappers) 7.7 Spilled beverages 7.8 Cleaning materials (used cloths, wipes)

	7.9 Broken equipment or utensils 7.10 General trash and recyclables
--	--

Curricular Content Guide

1. Underpinning Knowledge	1.1. Identify and understand food safety and hygiene requirements in the workplace. 1.2. Apply personal hygiene practices consistently to ensure safe food handling. 1.3. Understand cleaning and sanitizing procedures for work surfaces, equipment, and utensils. 1.4. Interpret contamination risks and implement measures to control them during preparation. 1.5. Identify cleaning materials according to purpose and follow safety instructions. 1.6. Understand safe handling procedures for hot equipment, including use of protective gear. 1.7. Identify cross-contamination risks and implement prevention methods in food and beverage handling. 1.8. Understand proper waste segregation, disposal, and record-keeping according to safety standards.
2. Underpinning Skills	2.1. Following food safety and hygiene standards consistently. 2.2. Applying personal hygiene practices during food and beverage handling. 2.3. Cleaning and sanitizing work surfaces, equipment, and utensils correctly. 2.4. Storing raw materials and ingredients safely to prevent contamination. 2.5. Using cleaning materials according to instructions and intended purpose. 2.6. Handling hot equipment safely using protective gear and proper techniques. 2.7. Preventing cross-contamination by separating raw and cooked ingredients. 2.8. Managing waste safely, including segregation, disposal, and recycling.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	The following resources must be provided:

	4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment 4.4 Stationary 4.5 Learning manual
--	--

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 followed food safety and hygiene standards. 1.2 used cleaning materials. 1.3 handled hot equipment safely. 1.4 prevented cross-contamination. 1.5 managed waste properly.
2. Methods of Assessment	2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE ESPRESSO-BASED BEVERAGES	Nominal Duration: 50 Hrs.	Unit Code: SICIP-THS-PBE-03-O
Unit Descriptor: This unit covers the knowledge, skills and attitude required to prepare espresso-based beverages. It specifically includes the tasks of identifying espresso-based drinks, preparing cappuccino and latte, preparing flavored latte and café mocha and presenting beverages.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify espresso-based drinks.	1.1 <u>Espresso-based drinks</u> are identified and listed. 1.2 Ingredients and composition of each espresso-based drink are described. 1.3 Standard recipes and proportions for drinks are recognized. 1.4 <u>Preparation methods</u> for various espresso beverages are explained. 1.5 Differences between hot and cold espresso drinks are observed. 1.6 Common variations and specialty drinks are documented.
2. Prepare cappuccino and latte.	2.1 <u>Ingredients for cappuccino and latte</u> are identified and measured accurately. 2.2 Espresso shots are prepared following standard procedures. 2.3 Milk is steamed and textured to create microfoam suitable for each drink. 2.4 Steamed milk is combined with espresso to prepare cappuccino and latte. 2.5 Quality of aroma, taste, and texture is checked for each drink.
3. Prepare flavored latte and café mocha.	3.1 <u>Ingredients for flavored latte and café mocha</u> are identified and measured accurately. 3.2 Espresso shots are prepared following standard procedures. 3.3 Flavored syrups or chocolate are added according to recipe requirements. 3.4 Milk is steamed and textured to the correct consistency for each beverage. 3.5 Espresso, milk, and flavorings are combined to prepare flavored latte and café mocha. 3.6 Beverages are checked for taste, aroma, and presentation quality.

4. Present beverages.	4.1 Presentation standards, including garnishing and layering, are applied. 4.2 Beverage temperature and consistency are checked before serving. 4.3 Cups or glasses are cleaned and free of spills or stains. 4.4 Prepared beverages are served in appropriate cups or glasses. 4.5 Drinks are arranged aesthetically for customer service or display. 4.6 Customer or service requirements are considered in presentation.
-----------------------	--

Range of Variables

Variable	Range (Includes but not limited to):
1. Espresso-based drinks	1.1 Espresso 1.2 Cappuccino 1.3 Latte 1.4 Flavored latte 1.5 café mocha 1.6 Ristretto 1.7 Lungo 1.8 Americano 1.9 Macchiato 1.10 Cortado 1.11 Flat White
2. Preparation methods	2.1 Espresso – Extract a single or double shot using finely ground coffee. 2.2 Americano – Add hot water to espresso. 2.3 Cappuccino – Combine espresso with steamed milk and milk foam (1:1:1 ratio). 2.4 Latte – Mix espresso with more steamed milk and a small layer of foam. 2.5 Macchiato – Add a small dollop of milk foam to espresso. 2.6 Mocha – Blend espresso with chocolate syrup and steamed milk. 2.7 Flat White – Pour micro-foamed milk over espresso, creating a smooth texture. 2.8 Cortado – Mix equal parts espresso and steamed milk. 2.9 Ristretto – Brew a shorter, more concentrated espresso shot. 2.10 Lungo – Brew espresso with more water for a longer extraction.
3. Ingredients for cappuccino and latte	Ingredients for Cappuccino: 3.1 Espresso 3.2 Steamed milk 3.3 Milk foam

	Ingredients for Latte: 3.4 Espresso 3.5 Steamed milk 3.6 Light milk foam
4. Ingredients for flavored latte and café mocha	Ingredients for Flavored Latte: 4.1 Espresso 4.2 Steamed milk 4.3 Flavored syrup (vanilla, caramel, hazelnut) 4.4 Light milk foam Ingredients for café Mocha: 4.5 Espresso 4.6 Steamed milk 4.7 Chocolate syrup or cocoa powder

Curricular Content Guide

1. Underpinning Knowledge	1.1. Identify espresso-based drinks and list their types. 1.2. Understand ingredients, composition, and standard recipes for espresso beverages. 1.3. Interpret preparation methods for hot and cold espresso drinks. 1.4. Identify ingredients for cappuccino and latte and measure them accurately. 1.5. Understand espresso extraction and milk steaming techniques for proper texture and microfoam. 1.6. Interpret steps to combine espresso and steamed milk. 1.7. Identify ingredients and procedures for flavored latte and café mocha. 1.8. Understand beverage assembly, combining espresso, milk, and flavorings according. 1.9. Interpret presentation standards.
2. Underpinning Skills	2.1 Observing differences between hot, cold, and specialty espresso drinks. 2.2 Measuring and preparing ingredients accurately for cappuccino, latte, and flavored beverages. 2.3 Steaming and texturing milk to achieve correct microfoam and consistency. 2.4 Combining espresso, milk, and flavorings according to recipes. 2.5 Checking aroma, taste, texture, and presentation quality of beverages. 2.6 Presenting beverages according to service standards and aesthetics. 2.7 Considering customer requirements while serving and displaying drinks.
3. Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties

	3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment 4.4 Stationary 4.5 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 Identified espresso-based drinks. 1.2 prepared cappuccino and latte. 1.3 prepared flavored latte and café mocha. 1.4 presented beverages.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PREPARE NON-COFFEE BEVERAGES	Nominal Duration: 40 Hrs.	Unit Code: SICIP-THS-PBE-04-O
Unit Descriptor: This unit covers the knowledge, skills and attitude required to prepare non-coffee beverages. It specifically includes the tasks of identifying types of tea, juice and smoothies, selecting ingredients and equipment, preparing tea, juice and smoothies and presenting tea, juice and smoothies.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Identify types of tea, juice, and smoothies.	1.1 <u>Different types of tea, juice, and smoothies</u> are identified according to ingredients. 1.2 Characteristics and flavors of each beverage type are described. 1.3 Suitable serving styles and temperatures are recognized.
2. Select ingredients and equipment.	2.1 <u>Ingredients for tea, juice, and smoothies</u> are selected according to recipe requirements. 2.2 Quality and freshness of ingredients are checked before use. 2.3 Appropriate equipment and tools are selected for preparation. 2.4 Measurements and proportions are determined as per standard recipes.
3. Prepare tea, juice, and smoothies.	3.1 Hygiene and safety practices are applied throughout preparation. 3.2 Equipment for beverage preparation is selected and checked for cleanliness. 3.3 Tea is brewed, juice is extracted, and smoothies are blended according to standard procedures. 3.4 Temperature and consistency of hot and cold beverages are monitored. 3.5 Tea, juice, and smoothies are garnished according to service standards.
4. Present tea, juice, and smoothies.	4.1 Prepared tea, juice, and smoothies are served in appropriate cups, glasses, or containers. 4.2 Beverage temperature and consistency are checked before serving. 4.3 Cups, glasses, and serving areas are cleaned and free of spills or stains. 4.4 Customer preferences or service requirements are considered in presentation. 4.5 Beverages are arranged aesthetically for display or

	service.
	4.6 Observations on presentation quality are recorded for improvement.

Range of Variables

Variable	Range (Includes but not limited to):
1. Different types of tea, juice, and smoothies	Types of Tea: 1.1 Black tea 1.2 Green tea 1.3 Herbal tea 1.4 Oolong tea 1.5 White tea 1.6 Iced tea 1.7 Milk tea Types of Juice: 1.8 Orange juice 1.9 Apple juice 1.10 Mango juice 1.11 Pineapple juice 1.12 Watermelon juice Types of Smoothies: 1.13 Banana smoothie 1.14 Strawberry smoothie 1.15 Mango smoothie 1.16 Chocolate smoothie
2. Ingredients for tea, juice, and smoothies	Ingredients for Tea: 2.1 Tea leaves or tea bags 2.2 Water 2.3 Milk (optional) 2.4 Sugar or honey 2.5 Lemon or ginger (optional) Ingredients for Juice: 2.6 Fresh fruits or vegetables 2.7 Water 2.8 Sugar or honey (optional) 2.9 Ice cubes (optional) Ingredients for Smoothies: 2.10 Fresh or frozen fruits 2.11 Milk, yogurt, or fruit juice 2.12 Ice cubes 2.13 Honey or sweetener (optional) 2.14 Nuts or seeds (optional)
3. Recipes and standard preparation methods	3.1 Boiling / Steeping 3.2 Brewing 3.3 Iced Pouring / Chilling 3.4 Blending 3.5 Shaking

	3.6 Frothing / Steaming
	3.7 Mixing / Stirring

Curricular Content Guide

1. Underpinning Knowledge	1.1 Identify types of tea, juice, and smoothies. 1.2 Understand characteristics, serving styles, and suitable temperatures for each beverage type. 1.3 Select ingredients based on recipe requirements and check for quality and freshness. 1.4 Identify and select appropriate equipment and tools for beverage preparation. 1.5 Apply hygiene and safety practices consistently during preparation. 1.6 Prepare tea, juice, and smoothies following standard brewing, extracting, and blending procedures. 1.7 Monitor temperature, consistency, and texture of hot and cold beverages. 1.8 Understand presentation standards.
2 Underpinning Skills	2.1 Selecting ingredients and equipment according to recipe requirements. 2.2 Checking quality and freshness of ingredients before use. 2.3 Measuring and preparing ingredients following standard recipes. 2.4 Applying hygiene and safety practices during beverage preparation. 2.5 Brewing, extracting, and blending beverages to correct temperature and consistency. 2.6 Garnishing and presenting beverages according to service standards. 2.7 Considering customer preferences while serving and displaying drinks.
3 Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Personal protective equipment (PPE) 4.3 Tools and equipment 4.4 Materials 4.5 Stationary 4.6 Learning manual

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 identified types of tea, juice, and smoothies. 1.2 selected ingredients and equipment. 1.3 prepared tea, juice, and smoothies. 1.4 presented tea, juice, and smoothies.
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3. Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

Unit of Competency: PROVIDE CUSTOMER SERVICE IN BEVERAGE OPERATION	Nominal Duration: 20 Hrs.	Unit Code: SICIP-THS-PBE-05-O
Unit Descriptor: This unit covers the knowledge, skills and attitude required to provide customer service in beverage operation. It specifically includes the tasks of greeting and communicating with customers, taking and confirming beverages orders, handling customer complaints, and providing product information and suggestions.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Greet and communicate with customers.	1.1 Customers are greeted politely upon arrival. 1.2 <u>Customer needs and preferences</u> are identified through effective communication. 1.3 Information about beverages and services is provided clearly and accurately. 1.4 Questions and requests from customers are listened to and addressed appropriately. 1.5 <u>Professional and courteous language</u> and tone are maintained throughout interaction. 1.6 Customer feedback and concerns are recorded and communicated to relevant personnel.
2. Take and confirm beverage orders.	2.1 Beverage orders are received accurately from customers. 2.2 Orders are confirmed to ensure correctness and clarity. 2.3 Special requests or modifications are recorded and verified. 2.4 Order details are communicated to the preparation team promptly. 2.5 Customer preferences and allergies are noted and considered. 2.6 Records of orders are maintained for reference and service tracking. 2.7 Any discrepancies in orders are identified and resolved before preparation.
3. Handle customer complaints.	3.1 <u>Customer complaints</u> are received and acknowledged promptly. 3.2 Issues are listened to carefully and recorded accurately. 3.3 Causes of complaints are identified and analyzed. 3.4 Appropriate solutions or corrective actions are applied to resolve issues. 3.5 Feedback and resolutions are communicated to customers politely and clearly. 3.6 Complaints and actions taken are documented for future

	reference.
4. Provide product information and suggestions.	4.1 Product details are identified and explained. 4.2 Customers are provided with clear and accurate information about available beverages. 4.3 Recommendations and suggestions are given based on customer preferences. 4.4 Specialty or promotional beverages are highlighted to customers. 4.5 Customer questions regarding products are answered politely and accurately. 4.6 Product information and suggestions are recorded when required for reference.

Range of Variables	
Variables	Range (may include but not limited to):
1 Customer needs and preferences	1.1 Beverage type preference (coffee, tea, juice, smoothie) 1.2 Flavor or ingredient choices (milk type, sugar, syrup, fruit) 1.3 Temperature preference (hot or cold) 1.4 Portion or size preference 1.5 Dietary requirements (vegan, lactose-free, sugar-free) 1.6 Special instructions or customizations 1.7 Service style preference (dine-in, takeaway, delivery)
2 Professional and courteous language	1.5 Use polite greetings and farewells 1.6 Speak clearly and confidently 1.7 Maintain a friendly tone 1.8 Avoid slang or informal language 1.9 Listen actively without interrupting 1.10 Show empathy and understanding 1.11 Respond respectfully to complaints or requests
3 Customer complaints	3.1 Incorrect beverage or order 3.2 Poor taste or quality of drink 3.3 Delayed service 3.4 Unclean or untidy service area 3.5 Rude or unprofessional staff behavior 3.6 Wrong billing or overcharging 3.7 Equipment or service malfunction 3.8 Allergens or dietary concerns not addressed 3.9 Packaging or takeaway issues 3.10 Lack of product availability
4 Product details	2.3 Ingredients 2.4 Flavors 2.5 Preparation methods

Curricular Content Guide

1. Underpinning	1.1 Identify effective ways to greet customers politely and

Unit of Competency: DEVELOP ENTREPRENEURSHIP IN FOOD INDUSTRIES	Nominal Duration: 40 Hrs.	Unit Code: SICIP-THS-PBE-06-O
Unit Descriptor: This unit covers the knowledge, skills and attitudes required to develop entrepreneurship in food industries. It specifically includes the tasks of preparing for work, preparing documents, performing financial management, setting up establishment and managing product sourcing and sales.		

Elements and Performance Criteria:

(Terms in the performance criteria that are written in **bold and underlined** are elaborated in the range of variables).

Elements of Competency	Performance Criteria
1. Prepare for work	1.1 <u>Basic knowledge on entrepreneurship</u> is described. 1.2 <u>Steps of feasibility study</u> are described and carried out. 1.3 Detailed Business plan is prepared.
2. Prepare documents	2.1 <u>Business registration documents</u> are identified. 2.2 List of tools, equipment and supplies are prepared. 2.3 <u>Marketing plan</u> is developed and described.
3. Perform financial management	3.1 Sources of fund is identified. 3.2 Credit facilities including bank loans is identified. 3.3 Re-financing scheme is described.
4. Setup establishment	4.1 Infrastructure is developed or rented/ leased. 4.2 Furniture, tools and equipment are procured and set up. 4.3 Staff recruitment is carried out.
5. Manage product sourcing and sales	5.1 <u>Types of sourcing</u> are identified and described. 5.2 Types of suppliers are identified and described. 5.3 Business management system is implemented. 5.4 Cost management and <u>sales management system</u> are identified and implemented.

Range of Variables

Variable	Range (Includes but not limited to):
1. Basic knowledge of Entrepreneurship	1.1 Definition of entrepreneurship 1.2 Characteristics of entrepreneur 1.3 Types of business
2. Steps of feasibility study	2.1 Preliminary analysis (strength and weaknesses) 2.2 Market survey 2.3 Defining organizational structure 2.4 Financial assessment 2.5 Identifying opportunities and threats 2.6 Go or no-go decision
3. Business registration documents	3.1 Trade license 3.2 VAT 3.3 Tax

	3.4 License requirement as per business nature.
4. Marketing plan	4.1 Shop decoration 4.2 Advertising 4.3 Branding
5. Types of sourcing	5.1 Low-cost sourcing 5.2 Local sourcing 5.3 Global sourcing 5.4 In country sourcing
6. Sales management system	6.1 E-commerce 6.2 F-commerce 6.3 Direct sales

Curricular Content Guide

1 Underpinning Knowledge	1.1 Basic knowledge of entrepreneurship 1.2 Steps of feasibility study 1.3 Business plan 1.4 Business registration documents 1.5 Marketing plan 1.6 Sources of fund 1.7 Re-financing scheme 1.8 Types of sourcing 1.9 Staff recruitment 1.10 Sales management system
2 Underpinning Skills	2.1 Describing basic knowledge of entrepreneurship. 2.2 Preparing detailed business plan. 2.3 Identifying business registration documents 2.4 Developing marketing plan. 2.5 Performing staff recruitment 2.6 Identifying and implementing cost management and sales management system
3 Underpinning Attitudes	3.1 Commitment to occupational health and safety 3.2 Promptness in carrying out activities 3.3 Sincere and honest to duties 3.4 Environmental concerns 3.5 Eagerness to learn 3.6 Tidiness and timeliness 3.7 Respect for rights of peers and seniors in the workplace 3.8 Communication with peers, subordinates and seniors in the workplace
4 Resource Implications	4.1 Workplace (simulated or actual) 4.2 Learning manual 4.3 Tools, equipment and facilities appropriate to the process or activities. 4.4 Materials are relevant to the proposed activity.

Assessment Evidence Guide

1. Critical Aspects of Competency	Assessment required evidence that the candidate: 1.1 prepared for work 1.2 prepared documents 1.3 performed financial management 1.4 setup establishment 1.5 managed product sourcing and sales
2. Methods of Assessment	Competency should be assessed by: 2.1 Written test 2.2 Practical Demonstration 2.3 Oral Questioning 2.4 Portfolio (Optional)
3 Context of Assessment	3.1 Competency assessment must be done in an assessment/training center or in an actual or simulated work place after completion of the training. 3.2 Assessment should be done by a nationally certified assessor or occupation-specific industry expert.

End of the Competency Standard

Workshop/Lab Facility Standard

Course Name:	Professional Barista & Beverage Preparation and Entrepreneurship Development
Number of Trainees:	25

Course-wise Training Space (Theoretical Classroom, Workshop/ Lab/ Classroom cum Workshop):

- Classroom – minimum 350 sft (33 sqm)
- Workshop/ lab – 800 sft (75 sqm)

Major Training Equipment and Training Facilities:

Sl. No.	Major Equipment and Training facilities	Required facilities
1.	Computers/Laptop	01
2.	Multimedia Projector	01
3.	Espresso machine	02
4.	Coffee grinder	02
5.	Portafilter	04
6.	Tamper	02
7.	Knock box	02
8.	Milk frothing pitcher	10
9.	Milk jar	02
10.	Steam wand thermometer	02
11.	Measuring scale	02
12.	Measuring spoons	02
13.	Blender	01
14.	Juicer	01
15.	Stainers	02
16.	Shaker	02
17.	Cups and glasses	40
18.	Saucers and spoons	40
19.	Tray	05

The following conditions must be fulfilled –

- The institute shall not use the same facilities for any other projects/organizations offering a similar course.
- The institute must provide sufficient evidence to prove ownership of the proposed training equipment.

The list denotes the minimum training equipment and facility required to effectively conduct training for a specific course. Additionally, the institute must ensure that all other necessary training tools, equipment, and furniture are available to meet the requirement of competency standards (CS) provided by SICIP.

For the operation of training course on Professional Barista & Beverage Preparation and Entrepreneurship Development the institute must ensure the availability of at least 80% of the major training equipment and training facilities (according to the CS) to be eligible for SICIP training delivery. If the score is below 80%, the remaining equipment and facilities need to be installed before the commencement of the training.

The institute will also provide all other hand tools and power tools as per CS for 25 trainees. Also, they will arrange adequate seating arrangement and classroom setup for the 25 trainees.
